Many Christians are in a state of spiritual slumber. We must wake up or end up in hell. When there is revival, people show concern for where they will spend eternity; they begin to hunger and thirst after God in earnest. To make heaven, Christians must make every necessary sacrifice to get revived. This book is a wake-up call for those who are in spiritual slumber. It is a pointer to the part we must take and the pitfalls we must avoid if we must be revived. One thing is sure, if you digest the contents of this book and say the prayers with your whole heart, you will know, and neighbours will testify that something new has happened in your life.

**The Mystery of Divine Intervention** Apostle Joshua Selman 2021-11-03  
Introduction There are five things that will always happen for as long as we live serving the purposes of God in and through this platform. Every time we gather, there must be encounters. An encounter is an experience that makes God and His principles real in your life. There must be transformation- the name given to the process that makes you become like Christ in experience. We must give the Holy Spirit an opportunity to review the love and the power of Jesus through signs, wonders and miracles. There must be impartations of all sorts. An impartation is a transference of spiritual possibilities. Men can carry graces. Our possibilities in this kingdom are defined by the kinds and the levels of graces that we carry. "Thou anointed my head with oil" and I see the proof on my head by looking at my cup; it doesn't anoint my cup. If something is wrong with my cup, the problem is not my cup; the problem is what is on my head. We must always provide an opportunity for fellowship. How good and how pleasant it is when brethren dwell together in unity. It's like the oil that

comes upon the head of Aaron down to his beard and his garment. It says, "There, the Lord has commanded the blessing." What you're about to read will change your life in the name of Jesus Christ. The Lord put a very powerful teaching in my heart and I'm sent to the body of Christ primarily. It's regardless denomination, the doctrinal differences that seem to divide us (it's part of the reasons why He brought us to this city and has projected us to the nations as instruments of unity, balance, dexterity and groove). We are lifted and strengthened in this kingdom not based on our longevity in the faith. Time does not change anything. Time only reveals. A 10-year-old error can still destroy like a 1-year-old error provided it is error. It takes understanding. It says, "for the people that sat in darkness have seen a great light". If you're distracted when the word of God is coming, be sure that it is an attack because it takes focus and concentration to receive. There is an intellectual dimension to the reception of the word. It's not just a spiritual affair alone; your mind has to be active and fruitful. So, even if your spirit is alive and your mind is distracted... That's why sometimes before the message comes, God quickly settles issues like these because some of those issues are the things that distract people from listening. While the word of God is coming, someone is thinking, "How do I battle this issue, how do I battle that issue?"

LTE also represents the first generation of cellular networks to be based on a flat IP architecture and is designed to seamlessly support a variety of different services, such as broadband data, voice, and multicast video. Its design incorporates many of the key innovations of digital communication, such as MIMO (multiple input multiple output) and OFDMA (orthogonal frequency division multiple access), that mandate new skills to plan, build, and deploy an LTE network. In Fundamentals of LTE , four leading experts from academia and industry explain the technical foundations of LTE in a tutorial style—providing a comprehensive overview of the standards. Following the same approach that made their recent Fundamentals of WiMAX successful, the authors offer a complete framework for understanding and evaluating LTE. **The Art of Manipulating Fabric** Colette Wolff 1996-10-01 The possibilities for three-dimensional manipulation of fabric - gathering, pleating, tucking, shirring, and quilting woven materials - are seemingly endless. To describe them all would be to describe the entire history of sewing. In The Art of manipulating Fabric, Colette Wolff has set herself just this task, and she

succeeds brilliantly. Working from the simplest possible form - a flat piece of cloth and a threaded needle - she categorizes all major dimensional techniques, show how they are related, and give examples of variations both traditional and modern. The result is an encyclopedia of techniques that resurface, reshape, restructure and reconstruct fabric. • More than 350 diagrams support the extensive how-tos, organized into broad general categories, then specific sub-techniques • Handsome photos galleries showcase the breathtaking possibilities in each technique and aid visual understanding by emphasizing the sculptured fabric surface with light and shadow • Textile artists and quilters, as well as garment and home decor sewers, will expand their design horizons with the almost limitless effects that can be achieved.
