Permission to Speak Freely Matt Kincaid 2017-03-20 Lead So Your People Speak Freely Candid communication enhances innovation, ownership, engagement, and performance. The benefits of hearing questions and uncertainties, good and bad ideas, and honest feedback are game-changing. Yet research shows that most of the time, people never share their true thoughts with each other—and especially not with their leaders. But what if they did? What if everyone could confidently communicate without fearing a negative response? In *Permission to Speak Freely*, highly acclaimed leader developers Doug Crandall and Matt Kincaid illustrate the benefits of candor, explain the inhibitors that cause it to feel unsafe, and provide tools for leaders to encourage their people and embed trust and openness into the foundation of their organizational culture.

The Laughter of the Thracian Woman Hans Blumenberg 2015-04-23 An important work by 20-century philosopher Hans Blumenberg, here translated into English for the first time, *The Laughter of the Thracian Woman* describes the reception history of an anecdote best known from Plato's *Theaetetus* dialogue: while focused on observing the stars, the early astronomer and proto-philosopher Thales of Miletus fails to see a well directly in his path and tumbles down. A Thracian servant girl laughs, amused that he sought to understand what was above him when he was not mindful of what was right in front of him. Blumenberg sees the

story as a highly sought substitute for our missing knowledge of the earliest historical events that would fit the label "theory." By retelling the anecdote, philosophers reveal their distinctive values regarding absorption in curiosity, philosophy's past, and the demand that theorists abide by sanctioned methods and procedures. In this work and others, Blumenberg demonstrates that philosophers' most beloved images and anecdotes have become indispensable to philosophy as metaphors; that is, as representations whose meanings remain indefinite and invite frequent reinterpretation.

Open Space Technology Harrison Owen 2009-03 This book, like all books, comes to an end, but that is by no means the end of the story of Open Space. In fact it is safe to say that we have barely begun. The total simplicity of Open Space (sit in a circle, create a bulletin board, open a marketplace, and go to work) contrasts radically with the quality of results and speed of achievement. Th...

Using Boundary Objects to Enable Cross-Border Collaboration in Software

Development Maike Winkler 2016-07-28 To date, the way in which software is developed has undergone considerable changes. It is well known that successful software development projects require diverse team members with specialized knowledge pools to leverage each other's knowledge, solve problems and produce ideas collaboratively to accomplish software development tasks. While these specialized pools of knowledge are essential for software development, they create knowledge boundaries which impede cross-border communication and collaboration. Addressing such knowledge boundaries is particularly difficult when clients outsource software development projects to external vendors in offshore regions. The knowledge asymmetries between client and vendor employees are often extreme and they are geographically distributed. The three research papers included in this book provide a better understanding of how and why knowledge boundaries can be bridged and how co-created ideas can be generated over time. The implications for successful software development projects in offshore settings are highly relevant for theory and practice.

Centres and Peripheries in the Early Second Temple Period

Christoph Levin 2016-10-01 "Centre and periphery" frameworks have been particularly helpful for research on systems whose dynamics are strongly influenced by a substantially unequal distribution of qualities. But what can these frameworks, in all their present diversity and in their various "re-conceptualizations," contribute to the study of the early Second Temple period? The essays in this volume address this question through the prism of, for instance, the location of Jerusalem, diasporic communities, Torah, roles of temples and royal courts, Jerusalem/Gerizim, the Zion tradition, the universal kingdom of YHWH, the literary history of some texts, socio-linguistic choices, and gender. Contributors: Erik Aurelius, Bob Becking, Ehud Ben Zvi, Kare Berge, Diana Edelman, Beate Ego, Ann-Cathrin Fiss, Friedhelm Hartenstein, Sylvie Honigman,

Knowledge Management in Libraries and Organizations Leda Bultrini 2015-12-18 The management of knowledge created in an organization not only enables reuse of knowledge, but also adds value to the organization itself. Preventing duplication of intellectual effort, it saves economic and human resources, leading to the creation of new information. This book gathers the wisdom of knowledge managers and researchers in the context of the library and will be a valuable reference source for all libraries.

Regulating Entrepreneurial Behaviour in European Health Care Systems Richard B. Saltman 2002-01-01 A wide range of entrepreneurial initiatives have been introduced within European health care systems during the last decade. While these initiatives promised more efficient management, they also triggered concerns about reduced equity and quality in service provision. This book explores emerging regulatory strategies that seek to capture the benefits of entrepreneurial innovation without sacrificing the core policy objectives of a socially responsible health care system. It opens with an extended essay on current trends and evidence across health care subsectors and across countries, presenting a wide range of alternatives for policy makers, and assessing their relative advantages and disadvantages. It then reviews entrepreneurialism and regulation in specific contexts (such as hospitals, primary health care, social services) and considers related issues including the impact of corruption and

the potential lessons from deregulation of public utilities.

Epistemic Reasons, Norms and Goals Martin Grajner 2016-10-24 In recent years, questions about epistemic reasons, norms and goals have seen an upsurge of interest. The present volume brings together eighteen essays by established and upcoming philosophers in the field. The contributions are arranged into four sections: (1) epistemic reasons, (2) epistemic norms, (3) epistemic consequentialism and (4) epistemic goals and values. The volume is key reading for researchers interested in epistemic normativity.

Unformed Landscape Peter Stamm 2010-02-23 *Unformed Landscape* begins in a small village on a fjord in the Finnmark, on the northeastern coast of Norway, where the borders between Norway, Sweden, Finland, and Russia lie covered in snow and darkness, where the real borders are between day and night, summer and winter, and between people. Here, a sensitive young woman like Kathrine finds few outlets for her desires. Half Norwegian, half Sami (an indigenous people), Kathrine works for the customs office inspecting the fishing boats arriving regularly in the harbor. She is in her late 20s, has a son from an early marriage, and has drifted into a second loveless marriage to a man whose cold and dominating conventionality forms a bold stroke through the unformed landscape of her life. After she makes a discovery about her husband that deeply wounds her, Kathrine cuts loose from her moorings and her confusion and sets off in search of herself. Her journey begins aboard a ship headed south, taking her below the Arctic Circle for the first time in her life. Kathrine makes her way to France and has the bittersweet experience of a love affair that flares and dies quickly, her starved senses rewarded by the shimmering beauty of Paris. Through a series of poignant encounters, Kathrine is led to the richer life she was meant to have and is brave enough to claim. Using simple words strung together in a melodic alphabet, Peter Stamm introduces us, through a series of intimate sketches, to the heart of an unforgettable woman. Her story speaks eloquently about solitude, the fragility of love, lost illusions, and self-discovery. From the Trade Paperback edition.

SPQR III: The Sacrilege John Maddox Roberts 2007-04-01 When a sacred woman's rite in the ancient city of Rome is infiltrated by a corrupt patrician dressed in female garb, it falls to Senator Decius Caecilius Metellus the Younger, whose investigative skills have proven indispensable in the past, to unmask the perpetrators. When four brutal slayings follow, Decius enlists the help a notorious and dangerous criminal. Together, they establish a connection between the sacrilege and the murders, and track the offenders from the lowest dregs of society to the prominent elite of the upper class, finding corruption and violence where Decius least expects it.

Effective Health Care Management Colin Palfrey 2004-09-24 Effective Health Care Management presents the principles and criteria necessary to evaluate and enhance the quality of health care services in the NHS today. It provides an overview of health care management and health care policy, explores evidence based practice, and examines the ongoing need for management evaluation. The authors discuss the role of outcome measures, performance indicators, benchmarking, and individual performance review. They also address clinical

governance, accountability and professional autonomy, and the problems underlying 'seamless service provision'.

Country Without Parents Andrea Diefenbach 2013 Andrea Diefenbach describes in her series Land Ohne Eltern (Country Without Parents) the life choices faced by migrant workers from the republic of Moldova, one of the poorest countries in Europe. In her photographs, the distance between the two utterly different worlds of the children left at home and the parents working in far-off lands become almost painfully tangible.

Quality of Life & Health: Concepts I. Guggenmoos Holzmann 1996-02-12 Drawn from an international symposium on quality of life and health held in Berlin in May 1994, the 15 contributions to this volume provide an overview of the critical issues in health-related quality of life research in North America and in Europe. Topics addressed include defining and measuring quality of life, applying quality of life measures to various disease groups including the

successes, challenges, and problems encountered, and the uses of quality of life measures on the general population level. Lacks an index. Annotation copyrighted by Book News, Inc., Portland, OR

The Fall of Jerusalem and the Rise of the Torah Peter Dubovský 2016-10-01 The destruction of Jerusalem by the Babylonians in 587 BCE is arguably the most tremendous disaster in the Hebrew Bible. How this decisive date relates to the development of the Pentateuch, however, is highly controversial. Is the trauma of Jerusalem reflected in the five books of Moses? This question is addressed from multiple perspectives in this volume. Israel Finkelstein and Lester L. Grabbe discuss the archaeological and historical data. Experts in Pentateuchal criticism from diverse international backgrounds present a rich panorama of relevant themes, including biblical historiography, contacts with Mesopotamian culture before and during the Babylonian exile, and the issue of cultic discontinuity caused by the destruction and restoration of Jerusalem's temple. Contributors: Angelika Berlejung, Peter Dubovsky, Israel Finkelstein, Georg Fischer, Lester L. Grabbe, Ronald Hendel, Bernard M. The Mercy Seat Martyn Waites 2013-12-23 Once a renowned investigative journalist, since the unsolved disappearance of his six-year-old son, Joe Donovan has lived a broken, reclusive life. He's abruptly thrust back into the real world when a teenage boy makes contact, in desperate need of his help. Jamal has in his possession something that holds a key to Donovan's past, a past that can only be unlocked by forcing him to make a terrifying journey into the present. As long buried secrets begin to emerge and bodies pile up, Donovan finds himself caught up in a harrowing web of fear. In order to survive and uncover the disturbing truth at the heart of the dangerous world he's found himself in, he puts together a team to help him, a team of outsiders that doesn't care which side of the law it operates on. And Donovan will need their help. He and Jamal are being hunted by a serial killer. A killer with a 100% success rate. A killer who doesn't know the meaning of the word mercy...

Publishing and Consuming Linked Data L. Rietveld 2016-03-22 This dissertation addresses several problems in the context of publishing and consuming Linked Data. It describes these problems from the perspectives of three stakeholders: the Linked Data provider, developer and scientist. The Linked Data provider is faced with impractical data re-use and costly Linked Data hosting solutions. Developers face difficulties in finding, navigating and using Linked Datasets. Scientists lack the resources and methods to evaluate their work on Linked Data at large. This dissertation presents a number of novel approaches that address these issues, such as: - The LOD Laundromat: a centralized service that re-publishes cleaned, queryable and structurally annotated Linked Datasets. In 2015 the Laundromat was awarded first prize in the Dutch national Linked Open Data competition, and third prize in the European equivalent; - SampLD: A relevance-based sampling algorithm that enables publishers to decrease Linked Data hosting costs; - YASGUI: A feature-rich query editor for accessing SPARQL endpoints; - LOD Lab: An evaluation paradigm that enables scientists to increase the breadth and scale of their Linked Data evaluations. This work provides a unique overview of problems related to publishing and consuming Linked Data. The novel approaches presented here improve the state-of-the-art for Linked Data publishers, developers and scientists, and are a step towards a web of Linked Data that is more accessible and technically scalable.
