*Why Language?* Jacques Moeschler 2021-08-23 There is, at present, no book introducing the general issue of why language is specific to human beings, how it works, why language is not communication and communication is not language, why languages vary and how they evolved. Based on the most recent works in linguistics and pragmatics, *Why Language?* addresses many questions that everyone has about language. Starting from false claims about language and languages, showing that language is not communication and communication is not language, the first part (Language and Communication) ends by proposing a difference between linguistic rules and communicative principles. The second part (Language, Society, Discourse) includes domains of language and language uses which are generally taken as extrinsic to language, such as language variety, discourse and non-ordinary (literary) usages. Special attention is given to figures of discourse (metaphor, metonymy, irony) and literary usages such as narration and free indirect style. The reader, either specialist or amateur in language science, will find a first and unique synthesis about what we know today about language and what we have yet to learn, sketching what could be the future of linguistics in the next decades.

**Common European Framework of Reference for Languages: Learning, Teaching, assessment** Council of Europe 2020-05-05 The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ► an explanation of the key aspects of the CEFR for teaching and learning; ► a complete set of updated CEFR descriptors that replaces the

2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ► a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ► promote and support the learning and teaching of modern languages; ► enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ► protect linguistic and cultural diversity in Europe; and ► promote the right to quality education for all.

*Coup double « polar », Vol. 1* Jean-Baptiste Ferrero 2014-02-23 Dans ce premier volume de « Coup double » spécial « polar et roman noir », nous vous offrons 2 titres dans un seul ebook. Dans Mourir en août de Jean-Baptiste Ferrera, Thomas Fiera, ancien universitaire en rupture de ban qui suite à un drame personnel est devenu enquêteur privé, promène son spleen et son humour caustique dans le monde des entreprises sur lequel il jette un regard sceptique et blasé. Recruté par le PDG de la société MC4 pour traquer un corbeau, un sale petit délateur sournois qui le met en cause auprès des médias, Fiera, flanqué d'une équipe d'aventuriers aussi improbables que dangereux, se retrouve embarqué dans un merdier infernal où il doit se farcir de faux druides, de vrais fachos et d'authentiques tarés en tous genres. Lui et ses quatre amis provoquent une forte augmentation de l'activité des pompes funèbres qui ne doit pas grand-chose à la canicule. Y'a pas à dire : Paris au mois d'août, c'est mortel ! Dans Les Écorchés de Anaïs Ortega-Bartet, les premières pages s'ouvrent sur un drame de la vie quotidienne, du moins en apparence : dans sa cuisine, avec un couteau à saigner, une femme poignarde son mari, et tient dans sa main un morceau de chair flasque : le sexe de l'époux déchu. Comment une femme dévouée (trop ?) à son mari militaire, en est-elle arrivée à cet extrême ? Elle nous dit tout... elle et toutes celles qui ont vécu l'horreur, la torture, l'humiliation pendant la terrible répression de la junte militaire en Argentine.

**Teaching Translation from Spanish to English** Allison Beeby Lonsdale 1996 While many professional translators believe the ability to translate is a gift that one either has or does not have, Allison Beeby Lonsdale questions this view. In her innovative book, she demonstrates how teachers can guide their students by showing them how insights from communication theory, discourse analysis, pragmatics, and semiotics illuminate the translation process. Challenging long-held assumptions, she establishes a fascinating framework on which to base the structure of a professional prose-translation class. Her original contributions to the question of directionality and to the specific strategies of translating are applicable to not only the teaching of translation from Spanish to English, but to other teaching situations and to other pairs of languages as well. She also reviews the latest attempts in translation theory to define and contextualize ideal translator competence,

student translator competence, and general translation strategies. Beeby Lonsdale completes her book by applying her conclusions to selecting and organizing the content of teaching translation from Spanish to English. She illustrates one or more of the basic translation principles through 29 teaching units, which are prefaced by objectives, tasks, and commentaries for the teacher, and through 48 task sheets, which show how to present the material to students.

*Pragmatic Competence* Naoko Taguchi 2009-09-04 In the disciplines of applied linguistics and second language acquisition (SLA), the study of pragmatic competence has been driven by several fundamental questions: What does it mean to become pragmatically competent in a second language (L2)? How can we examine pragmatic competence to make inference of its development among L2 learners? In what ways do research findings inform teaching and assessment of pragmatic competence? This book explores these key issues in Japanese as a second/foreign language. The book has three sections. The first section offers a general overview and historical sketch of the study of Japanese pragmatics and its influence on Japanese pedagogy and curriculum. The overview chapter is followed by eight empirical findings, each dealing with phenomena that are significant in Japanese pragmatics. They target selected features of Japanese pragmatics and investigate the learners' use of them as an indicator of their pragmatic competence. The target pragmatic features are wide-ranging, among them honorifics, speech style, sentence final particles, speech acts of various types, and indirect expressions. Each study explicitly prompts the connection between pragmalinguistics (linguistic forms available to perform language functions) and sociopragmatics (norms that determine appropriate use of the forms) in Japanese. By documenting the understanding and use of them among learners of Japanese spanning multiple levels and time durations, this book offers insight about the nature and development of pragmatic competence, as well as implications for the learning and teaching of Japanese pragmatics. The last section presents a critical reflection on the eight empirical papers and prompts a discussion of the practice of Japanese pragmatics research.

Lavoisier—the Crucial Year Henry Guerlac 2019-04-15 The author explores the origins of the eighteenth-century chemical revolution as it centers on Antoine-Laurent Lavoisier's earliest work on combustion. He shows that the main lines of Lavoisier's theory—including his theory of a heat-fluid, caloric—were elaborated well before his discovery of the role played by oxygen. Contrary to the opinion prevailing at that time, Lavoisier suspected, and demonstrated by experiment, that common air, or some portion of it, combines with substances when they are burned. Professor Guerlac examines critically the theories of other historians of science concerning these first experiments, and tries to unravel the influences which French, German, and British chemists may have had on Lavoisier. He has made use of newly discovered material on this phase of Lavoisier's career, and includes an appendix in which the essential documents are printed together for the first time.

**La vie à tout prix** Linda Sorge Ceppitelli 2016-04-29 L'existence d'un être est parsemée d'épreuves, Linda nous livre celles qu'elle traversées Une jolie pousse blonde, qui pour se construire, oscille entre la maladie, le handicap, un père lointain et un grand-père fermé... Voici le récit d'une bataille, celle de Linda, pour avancer, se forger des repères et créer à son tour une famille. La vie à tout prix... ou comment rendre un dernier hommage à sa mère, crier les injustices, l'incompréhension, la colère et les frustrations. Linda nous dépose ses émotions, brutes et sans maquillage, elle se livre à cet exercice de partage pour enfin parvenir à redresser les épaules, à poser les pieds au sol et sourire. Un hommage familial poignant, qui met en avant, avec délicatesse, l'importance de continuer à vivre pleinement malgré toutes les difficultés rencontrées EXTRAIT Avant qu'ils ne prennent cette route qui allait bousiller leur vie, papa et maman étaient heureux. Ils allaient danser toutes les semaines, il jouait de la guitare et elle de l'accordéon, elle était très douée. Ils se baladaient, mangeaient au resto et partaient en vacances dès qu'ils le pouvaient. Ils s'aimaient. Et puis... Maman est admise à l'hôpital. Il faut l'opérer au plus vite et enlever cette saleté de tumeur. Impuissant face à cette situation, mon père supplie le chirurgien de la sauver, elle a deux jeunes enfants qui ont besoin d'elle. C'est vrai, on a besoin de notre mère, mais on est loin d'imaginer que dans peu de temps, maman va changer pour toujours. A PROPOS DE L'AUTEUR Linda Sorge Ceppitelli est une jeune femme qui a grandi près de Lyon. D'abord Nounou, puis Auxiliaire de vie, son enfance particulière l'a poussée à s'occuper des autres... Aujourd'hui maman d'un petit garçon, c'est pour lui et pour tous ceux qu'elle aime qu'elle a décidé de raconter son histoire et de laisser une trace...

**Impact Evaluation in Practice, Second Edition** Paul J. Gertler 2016-09-12 The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

**We Have Never Been Modern** Bruno Latour 2012-11-01 With the rise of science, we moderns believe, the world changed irrevocably, separating us forever from our primitive, premodern ancestors. But if we were to let go of this fond conviction, Bruno Latour asks, what would the world look like? His book, an anthropology of science, shows us how much of modernity is actually a matter of faith. What does it mean to be modern? What difference does the scientific method make? The difference, Latour explains, is in our careful distinctions between nature and society, between human and thing, distinctions that our benighted ancestors, in their world of alchemy, astrology, and phrenology, never made. But alongside this purifying practice that defines modernity, there exists another seemingly contrary one: the construction of systems that mix politics, science, technology, and nature. The ozone debate is such a hybrid, in Latour's analysis, as are global warming, deforestation, even the idea of black holes. As these hybrids proliferate, the prospect of keeping nature and culture in their separate mental chambers becomes overwhelming—and rather than try, Latour suggests, we should rethink our distinctions, rethink the definition and constitution of modernity itself. His book offers a new explanation of science that finally recognizes the connections between nature and culture—and so, between our culture and others, past and present. Nothing short of a reworking of our mental landscape. We Have Never Been Modern blurs the boundaries among science, the humanities, and the social sciences to enhance understanding on all sides. A summation of the work of one of the most influential and provocative interpreters of science, it aims at saving what is good and valuable in modernity and replacing the rest with a broader, fairer, and finer sense of possibility.

Handbook on the Crime Prevention Guidelines Margaret Shaw 2010 All countries strive to ensure safety and security for their citizens and to increase the quality of their lives. The Handbook offers a concise overview of the main considerations to be taken into account in planning and implementing crime prevention strategies and interventions. It also recognises that there are some major differences between regions and countries in terms of the challenges posed by crime and victimization and the importance of adapting programmes to local contexts. The main emphasis is on how crime prevention strategies based on the guidelines developed by the United Nations can be entrenched and sustained over time. It includes information on the kinds of methods and tools that can be utilised and are becoming increasingly available.

*Tanegashima - The Arrival of Europe in Japan* Olof G. Lidin 2003-12-16 The year 1543 marked the beginning of a new global consciousness in Japan with the arrival of shipwrecked Portuguese merchants on Tanegashima

Island in southern Japan. Other Portuguese soon followed and Japan became aware of a world beyond India. After the merchants came the first missionary Francis Xavier in 1549, beginning the Christian century in Japan. This is not a new story, but it is the first time that Japanese, Portuguese and other European accounts have been brought together and presented in English. Their arrival was recorded by the Japanese in Tanegashima kafu, the Teppoki and the Kunitomo teppoki, here translated and presented together with European reports. Includes maps, and Portuguese and Japanese illustrations.

*Keep It Moving?* Rachel Rivenc 2018-03-13 Kinetic art not only includes movement but often depends on it to produce an intended effect and therefore fully realize its nature as art. It can take a multiplicity of forms and include a wide range of motion, from motorized and electrically driven movement to motion as the result of wind, light, or other sources of energy. Kinetic art emerged throughout the twentieth century and had its major developments in the 1950s and 1960s. Professionals responsible for conserving contemporary art are in the midst of rethinking the concept of authenticity and solving the dichotomy often felt between original materials and functionality of the work of art. The contrast is especially acute with kinetic art when a compromise between the two often seems impossible. Also to be considered are issues of technological obsolescence and the fact that an artist's chosen technology often carries with it strong sociological and historical information and meanings. Historical Painting Techniques, Materials, and Studio Practice Arie Wallert 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs

illustrate works from the Middle Ages to the 20th century.

**A Frequency Dictionary of Portuguese** Mark Davies 2007-11-29 An invaluable tool for learners of Portuguese, this Frequency Dictionary provides a list of the 5000 most commonly used words in the language. Based on a twenty-million-word collection of Portuguese (taken from both Portuguese and Brazilian sources), which includes both written and spoken material, this dictionary provides detailed information for each of the 5000 entries, including the English equivalent, a sample sentence, and an indication of register and dialect variation. Users can access the top 5000 words either through the main frequency listing or through an alphabetical index. Throughout the frequency listing there are also thirty thematically-organized 'boxed' lists of the top words from a variety of key topics such as sports, weather, clothing and relations. An engaging and highly useful resource, A Frequency Dictionary of Portuguese will enable students of all levels to get the most out of their study of Portuguese vocabulary.

*The Popes, the Catholic Church and the Transatlantic Enslavement of Black Africans 1418-1839* Pius Onyemechi Adiele 2017-09-01 Mehr als 400 Jahre lang erlitten schwarzafrikanische Männer, Frauen und Kinder während des transatlantischen Sklavenhandels schlimmste Formen der Versklavung und Erniedrigung durch Katholiken und das westliche Christentum. Damals wie heute glaubte niemand an die tiefe Verwicklung der Kirche und des Papsttums in den schwarzafrikanischen Holocaust. Trotz jüngster Behauptungen des päpstlichen Officiums in Rom, wonach die Päpste jegliche Form von Sklaverei verurteilten, so auch im Falle der Versklavung von Schwarzafrikanern, verweisen neuere Studien innerhalb dieses Forschungsfeldes auf das Gegenteil. Die Kirche und die Päpste nahmen vielmehr zentrale Rollen in diesem schlimmsten Verbrechen gegen die Schwarzafrikaner seit Beginn der schriftlichen Dokumentation ein. Mithilfe zahlreicher päpstlicher Bullen aus den Geheimarchiven des Vatikans und einer Vielzahl an königlichen Dokumenten aus dem portugiesischen Nationalarchiv in Lissabon, strebt der vorliegende Band eine kritische und analytische Untersuchung dieses Aspekts des transatlantischen Sklavenhandels an, der über so viele Jahre von den westlichen Historikern und Gelehrten verschleiert wurde. For over 400 years, Black African men, women and children suffered the worst type of enslavement and humiliation from the hands of Catholics and other Western Christians during the transatlantic slave trade. Before now, no one could ever believe that the Popes of the Church were deeply involved in this Holocaust against Black African people. Despite the claims made by the hallowed papal office in Rome in recent years that the Popes condemned the enslavement of peoples wherever it existed including that of Black Africans, recent researches in these fields of study have proved the contrary to be true. The Church and her Popes were rather among the major "role players" in this worst crime against Black Africans in recorded history. With the help of a considerable number of papal Bulls from the Vatican Secret Archives and a great amount of Royal documents from the Portuguese National Archives in Lisbon, the present book is aiming to undertake a critical and analytical inquiry of this aspect of the transatlantic slavery that has been kept in the dark for so many years by the Western historians and scholars. The results of this studious but fruitful academic inquiry are laid bare in this notable work of the 21st century. Pius Onyemechi Adiele is a Catholic priest of Ahiara Diocese Mbaise and an alumnus of Seat of Wisdom Seminary Owerri and Bigard Memorial Seminary Enugu in Nigeria. He obtained his licentiate in Theology from the famous University of Münster and his doctoral degree in Church History

from the renowned University of Tübingen in Germany. At present, he is a research fellow in the areas of African Church History and Enslavement of peoples as well as the pastor in charge of the merged parishes of Lauchheim, Westhausen, Lippach, Röttingen and Hülen in Germany.
