Assume the Worst Carl Hiaasen 2018-04-10 This is Oh, the Places You'll Never Go--the ultimate hilarious, cynical, but absolutely realistic view of a college graduate's future. And what he or she can or can't do about it. "This commencement address will never be given, because graduation speakers are supposed to

offer encouragement and inspiration. That's not what you need. You need a warning." So begins Carl Hiaasen's attempt to prepare young men and women for their future. And who better to warn them about their precarious paths forward than Carl Hiaasen? The answer, after reading *Assume the Worst*, is: Nobody. And who better to illustrate--and with those illustrations, expand upon and cement Hiaasen's cynical point of view--than Roz Chast, best-selling author/illustrator and National Book Award winner? The answer again is easy: Nobody. Following the format of Anna Quindlen's commencement address (*Being Perfect*) and George Saunders's commencement address (*Congratulations, by the way*), the collaboration of Hiaasen and Chast might look typical from the outside, but inside it is anything but. This book is bound to be a classic, sold year after year come graduation time. Although it's also a good gift for anyone starting a job, getting married, or recently released from prison. Because it is not just funny. It is, in its own Hiaasen way, extremely wise and even hopeful. Well, it might not be full of hope, but there are certainly enough slivers of the stuff in there to more than keep us all going.

In Service to American Pharmacy Gregory J. Higby 2015-11-15 The position of the pharmacist in the structure of health care in the United States evolved during the middle half of the 19th century, roughly from the founding of the Philadelphia College of Pharmacy in 1821 to the passage of meaningful pharmaceutical legislation in the 1870s. Higby examines the professional life of William Procter, Jr., generally regarded as the "Father of American Pharmacy," and follows the development of American pharmacy through four decades of Procter's professional commitment to the field.

Foreign Agent Sidney Gelb 2005-06-17 This is a humorous entertaining adventure story. You are there in the center of a government investigation of a terrorist group operating in London, England. Bill Bund, Foreign Service Agent, as the head of a Rapid Response Team, has to stop the sinister Adolpho Barco reign of terror on an embassy building somewhere in the world. Time is running short. Watch Bund's team move into action. A romantic interlude with a pretty woman adds spice to this thriller. Will the citizens of London fall prey to an evil crooked man? Can good detective work prevent an attack? Brace yourself for an inside view of a fight between good and evil.

Make Your Bed Admiral William H. McRaven 2017-04-04 Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." --Washington Post "Superb, smart, and succinct." --Forbes

The Last Lecture Randy Pausch 2008-04-08 "We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the

humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Applicative Morphology Sara Pacchiarotti 2022-10-03 This book is about recurrent functions of applicative morphology not included in typologically-oriented definitions. Based on substantial cross-linguistic evidence, it challenges received wisdom on applicatives in several ways. First, in many of the surveyed languages, applicatives are the sole means to introduce a non-Actor semantic role into a clause. When there is an alternative way of expression, the applicative counterpart often has no valence-increasing effect on the targeted root. Second, applicative morphology can introduce constituents which are not syntactic objects and/or co-occur with obliques. Third, functions such as conveying aspectual nuances to the predicate (intensity, repetition, habituality) or its arguments (partitive P, highly individuated P), narrow-focusing constituents, and functioning as category-changing devices are attested in geographically distant and genetically unrelated languages. Further, this volume reveals that spatial-related morphology is prone to developing applicative functions in disparate languages and phyla. Finally, several contributions discuss the diachrony of applicative constructions and their (non-syntactic) attested functions, including a case of applicatives-in-the-making.
