The Ranks of the Black Order Enki Bilal 1989 Not unlike contemporary political situations in which terrorism leads to counter-terrorism in a vicious cycle, The Ranks of the Black Order illuminates the tragedy and monstrosity of violent vengeance on a human scale. The novel takes as its starting point the ultimately pointless struggles of left- and right-wing militants in Spain in 1938. Never having forgotten their defeat, a terrorist faction returns to the vilalge of Nieves and massacres its inhabitants as the story opens forty years later. Enraged by the minor coverage given the slaughter, the journalist Jefferson Pritchard regroups his brigade and resolves to wipe out their old foes from the Black Order. As one crusty old group pursues the other across Europe, the distinctions between principles, between left and right, all but vanish into a senseless haze, without victors or vanquished, leaving only victims.

**Gay Berlin** Robert Beachy 2015-10 An unprecedented examination of the ways in which the uninhibited urban sexuality, sexual experimentation, and medical advances of pre-Weimar Berlin created and molded our modern understanding of sexual orientation and gay identity. Known already in the 1850s for the friendly company of its "warm brothers" (German slang for men who love other men), Berlin, before the turn of the twentieth century, became a place where scholars, activists, and medical professionals could explore and begin to educate both themselves and Europe about new and emerging sexual identities. From Karl Heinrich Ulrichs, a German activist described by some as the first openly gay man, to the world of Berlin's vast homosexual subcultures, to a major sex scandal that enraptured the daily newspapers and shook the court of Emperor William II—and on through some of the very first sex reassignment surgeries—Robert Beachy uncovers the long-forgotten events and characters that continue to shape and influence the way we think of sexuality today. Chapter by chapter Beachy's scholarship illuminates forgotten firsts, including the life and work of Dr. Magnus Hirschfeld, first to claim (in 1896) that same-sex desire is an immutable, biologically determined characteristic, and founder of the Institute for Sexual Science. Though raided and closed down by the Nazis in 1933, the institute served as, among other things, "a veritable incubator for the science of tran-sexuality," scene of one of the world's first sex reassignment surgeries. Fascinating, surprising, and informative—Gay Berlin is certain to be counted as a foundational cultural examination of human sexuality. From the Hardcover edition.

Growing (Up) at 37 Jerry Rubin 2014-03-03 Jerry Rubin, co-founder of the Yippie movement and a member of the Chicago Seven, traces his personal odyssey from radical activist of the 60's to a practitioner in the growth potential movements of the 70's-'Working to change in me the things I opposed externally in the streets.' Finding himself categorized by the press as 'erstwhile' and 'aging' at thirty-four and oppressed by his own lack of inner peace, Jerry Rubin turned his energy inward, seeking a self redefinition through various forms of New Consciousness. *Growing (Up) at Thirty-Seven* is a very personal and candid account of his experiences with est, rolfing, acupuncture and other forms of therapy—a unique journey to self awareness in which he tells of the person he was and the person he has become; how the originator of the slogan 'Kill Your Parents!' finally learned to love his own parents; and how his new personal philosophy relates to his political views. This is a sensitive psychological self-evaluation—a male confessional that lays bare Jerry Rubin's struggle to find himself as a man in the aftermath of the aborted Youth Revolution.

**EcoComix** Sidney I. Dobrin 2020-09-17 Exploring image and imagination in conjunction with natural environments, the animal, and the human, this collection of essays turns the ecocritical and ecompositional gaze upon comic studies. The comic form has a long tradition of representing environmental rhetoric. Through discussions of comics including *A.D.: New Orleans After the Deluge*, *We3*, *Concrete*, and *Black Orchid*, these essays bring the rich work of ecological criticism into dialogue with the multi-faceted landscape of comics, graphic novels, web-comics, cartoons, and animation. The contributors ask not only how nature and environment are portrayed in these texts but also how these textual forms inform how we come to know nature and environment—or what we understand those terms to represent. Interdisciplinary in approach, this collection welcomes diverse approaches that integrate not only ecocriticism and comics studies, but animal studies, posthumanism, ecofeminism, queer ecology, semiotics, visual rhetoric and communication, ecoseeing, image-text studies, space and spatial theories, writing studies, media ecology, ecomedia, and other methodological approaches.

**Animal Comics** 2017-12-14 Animal characters abound in graphic narratives ranging from Krazy Kat and Maus to WE3 and Terra Formars. Exploring these and other multispecies storyworlds presented in words and images, Animal Comics draws together work in comics studies, narrative theory, and cross-disciplinary research on animal environments and human-animal relationships to shed new light on comics and graphic novels in which animal agents play a significant role. At the same time, the volume's international team of contributors show how the distinctive structures and affordances of graphic narratives foreground key questions about trans-species entanglements in a more-than-human world. The writers/artists covered in the book include: Nick Abadzis, Adolpho Avril, Jeffrey Brown, Sue Coe, Matt Dembicki, Olivier Deprez, J. J. Grandville, George Herriman, Adam Hines, William Hogarth, Grant Morrison, Osamu Tezuka, Frank Quitely, Yu Sasuga, Charles M. Schultz, Art Spiegelman, Fiona Staples, Ken'ichi Tachibana, Brian K. Vaughan, and others.

Cassandra Darke Posy Simmonds 2018-11-01 \*\*\*WINNER OF THE COMEDY WOMEN IN PRINT PRIZE 2020\*\*\* 'Simmonds is a copper-bottomed genius... she is as brilliant a writer as Britain has' Jenny Colgan, Mail Online Cassandra Darke is an art dealer, mean, selfish, solitary by nature, living in Chelsea in a house worth £7 million. She has become a social pariah, but doesn't much care. Between one Christmas and the next, she has sullied the reputation of a West End gallery and has acquired a conviction for fraud, a suspended sentence and a bank balance drained by lawsuits. On the scale of villainy, fraud seems to Cassandra a rather paltry offence - her own crime involving 'no violence, no weapon, no dead body'. But in Cassandra's basement, her young ex-lodger, Nicki, has left a surprise, something which implies at least violence and probably a body . . . Something which forces Cassandra out of her rich enclave and onto the streets. Not those local streets paved with gold and lit with festive glitter, but grimmer, darker places, where she must make the choice between self-sacrifice and running for her life.

*In the Pines* Erik Kriek 2017-06-21 The murder ballad holds a rock-solid position in US roots music and the Great American Songbook for decades. Telling the stories of sometimes true and often not-so-true-crimes and other horrific events, they are raw stories full of unrequited love, betrayal, life, and death. The song form stems from the Anglo-Saxon ballad tradition, where stories

were orally passed on to a mostly illiterate population. Dutch cartoonist Erik Kriek was inspired by five old and new murder ballads – including songs by modern masters such as Nick Cave, Steve Earle, and Gillian Welch – and used them as a launching point for five special and ruthless graphic narratives that dig deep into the darkness of Americana, in which guns and religion maintain an uneasy balance.

**Sexual Culture in Germany in the 1970s** Janin Afken 2019-12-11 This book is the first attempt to present a comprehensive picture of LGBT culture in the two German states in the 1970s. Starting from the common view of the decade between the moderation of the German anti-sodomy law in 1968 (East) and 1969 (West) and

the first documented case of AIDS (1982) as a 'golden age' for queer politics and culture, this edited collection traces the way this impression has been shaped by cultural production. The chapters ask: What exactly made the 1970s a 'legendary decade'? What was its revolutionary potential and what were its path-breaking political and aesthetic strategies? Which elements, movements and memories had to be marginalized in order to facilitate the historical construction of the 'legendary decade'? Exploring the complex picture of gay, lesbian and - to a lesser extent - trans cultures from this time, the volume provides fascinating insights into both canonized and marginalized texts and films from and about the decade.

*The Nimble Reader* Roderick McGillis 1996 Practical criticism of three "classic" or soon-to-be-classic children's books - Maurice Sendak's *Where the Wild Things Are*, E. B. White's *Charlotte's Web*, and Chris Van Allsburg's *The Mysteries of Harris Burdick* - provides the substance of the *Nimble Reader*. McGillis employs these texts as well as others to explain the basic tenets and processes of criticism and to discuss criticism's usefulness in enhancing our understanding of children's literature. He skillfully balances theoretical discussions of various types of criticism - archetypal, psycho-analytical, political, structuralist, poststructuralist, reader response, and the New Criticism - with practical analysis of his primary texts and other works. With his engaging choice of texts, emphasis on practical criticism, and inclusion of bibliographies of both children's literature and works on literary theory and criticism, McGillis has succeeded in producing a dual-purpose volume: *The Nimble Reader* not only demonstrates a new approach to children's literature as a serious object of study but also represents one of the clearest presentations of literary theory published to date.
