Transforming Early Head Start Home Visiting Bridget A. Walsh 2019-10-29 Research on home visiting shows that Early Head Start (EHS) home-based programs benefit from additional training and resources that streamline philosophy and content. In this essential guide, Walsh and Mortensen propose that alignment with Family Life Education's (FLE) strengths-based methodology results in greater consistency through a model of prevention, education, and collaboration with families. This text is the first to outline linkages between FLE and EHS home visiting. It explores a qualitative study of FLE integrated in a current EHS home-based program and application of FLE methodology to home visiting topics. This approach will influence professional practice and provide a foundation for developing evidence-based home visiting practices. Online content accompanies the text, with videos demonstrating the FLE approach in action and discussion questions to encourage engagement with and understanding of the core material. *Transforming Early Head Start Home Visiting: A Family Life Education Approach* is essential reading for upper-level undergraduate and masters students in family studies and early childhood education, as well as practitioners working with children and families.

Parent-child Relations Jerry J. Bigner 2013-02-01 Now in the Ninth Edition, Jerry Bigner's "Parent-Child Relations," the classic resource for child development professionals and parents themselves, has undergone a thorough revision anchored by the vision of the late Dr. Bigner and executed by new co-author, Clara Gerhardt. Maintaining its fundamental structure and unique approach, the text uses family systems and systemic family development theory as a framework to explore how parent-child relations change in tandem with developmental changes occurring with children, adults, and the wider family system. Thoughtful updates and revisions were done to increase the effectiveness and currency of the text. The text continues to provide strong emphasis on various theoretical and practical models pertaining to parenting. For decades now, this classic text has prepared countless teachers and practitioners by its proven and practical approach, utilizing family systems and systemic family development theory to explore how parent-child relations change in tandem with developmental changes occurring with children, adults, and the wider family system. The most comprehensive and current resource available to students as they prepare for working with parents and families, and for their roles as parents themselves, this best-selling resource carries on the essential message of its originator, Dr. Jerry Bigner, and will continue to nurture future family scholars and practitioners for years to come.

Theory and Practice of Counseling and Psychotherapy Gerald Corey 2016-01-01 Incorporating the thinking, feeling, and behaving dimensions of human experience, the tenth edition of Corey's best-selling book helps students compare and contrast the therapeutic models expressed in counseling theories. Corey introduces students to the major theories (psychoanalytic, Adlerian, existential, person-centered, Gestalt, reality, behavior, cognitive-behavior, family systems, feminist, postmodern, and integrative approaches) and demonstrates how each theory can be applied to two cases (Stan and Gwen). With his trademark style, he shows students how to apply those theories in practice, and helps them learn to integrate the theories into an individualized counseling style. The Process of Parenting Jane B. Brooks 2004 Using a process approach, this in-depth introduction to parenting children from birth through adolescence includes the theories and practical strategies for how parents and caregivers can establish secure and close emotional relationships with their children. The book focuses on two basic tasks of parenting: creating close emotional relationships with children and establishing effective limits for children. It shows how parents carry out these tasks with children of different ages and with changing life circumstances (i.e. working parents, divorce). Each chapter includes a section on the joys of parenting, reinforcing the positive aspects of being a parent.

Family Resource Management Tami James Moore 2017-10-04 Conversational in style and rich in application and discussion, Family Resource Management shows students how to apply knowledge and theory to the study of how families manage their resources for both survival and fulfillment. Multiple perspectives are used to broaden the base of understanding in a contemporary environment. The book unlocks the complexity of family decision making, enabling students to grasp both the concepts and the underlying explanations of family behavior. A strong theory base and the organization of material within the decision-making process framework facilitate understanding and retention. The Third Edition has been enhanced through surveys of educational professionals and extensive research of contemporary challenges emerging post 2008 recession and the 2016 election.

Listen to Succeed Leslie Shore 2017-12-31 Listen to Succeed: How to Identify and Overcome Barriers to Effective Listening helps readers gain a better understanding of how listening effectively is the key to increased knowledge, business success, and productive relationships. The text is divided into five chapters. Chapter One defines listening, extols its importance, draws connection between listening and self-esteem, and provides readers with the tools needed to begin to listen with intent. Chapter Two is devoted to external listening barriers. Readers learn about hearing and visual barriers and are provided with tools to better understand and break down these barriers. Chapter Three teaches readers about internal listening barriers, including power and control, performance anxiety, lack of focus, emotional triggers, and more. Chapter Four addresses technology-driven listening barriers, specifically exploring devices and social media. The final chapter helps readers apply what they've learned and offers strategies for enhanced listening. Designed to help readers enhance their listening skills, Listen to Succeed is ideal for courses across the curriculum, including communication, management, leadership, psychology, education, human resources, anthropology, journalism, sociology, political science, and human development. Leslie Shore earned her M.A. in human development and communication from St. Mary's College and her B.A. in anthropology and art

history from Simmons College. She is an associate professor of communication at St. Mary's College, a faculty member at Metropolitan State University, an adjunct instructor in communication at Rasmussen College Online, and the owner of Listen to Succeed, a company dedicated to helping build client relationships through listening and communication skills.

A Comprehensive Guide to Child Psychotherapy and Counseling Christiane Brems 2018-08-08 Christiane Brems, in collaboration with new coauthor Christina Rasmussen, introduces prospective and practicing clinicians to theories and principles of applied clinical work with children ages three to twelve years. The authors take an integrated approach to understanding children and their families, using a biopsychosociocultural model for conceptualization and treatment planning. Their methods are practical and compassionate, as well as contextually grounded and individually tailored. Chapters follow the logical development of clinicians, mirroring the natural flow of work with children. Coverage ranges from the importance of a beginning practitioner's introspection and of ethical and legal issues to a variety of intervention techniques and strategies and, finally, termination. Case studies showcase individualized and mindful treatment for each child with whom a clinician works. Outstanding Features of the Fourth Edition . . . · Essential attention to how clinicians' self-awareness can lead to positive therapeutic relationships with children and their families. · Thorough discussions of the biopsychosociocultural model for conceptualization and treatment planning. · Emphasis on intensive assessment prior to treatment planning to address the needs of each child and family. · A compelling, practical exploration of mindfulness intervention with children. The authors' methodology addresses the profound effects of the larger environment and culture on children. By adopting the authors' integrated approach, clinicians are better able to understand important and complicated aspects of a child's and family's life. From there, compassionate, thoughtful, and relevant intervention ensues.

Race and Ethnicity in America John Iceland 2017-02-14 "This book examines patterns and trends in racial inequality over the past several decades. Iceland finds that color lines have softened over time, as there has been some narrowing of differences across many indicators for most groups over the past sixty years. Asian Americans in particular have reached socioeconomic parity with white Americans. Nevertheless, deep-seated inequalities in income, poverty, unemployment, and health remain, especially among blacks, and, to a lesser extent, Hispanics. The causes for disadvantage for the groups vary, ranging from a legacy of racism,

current discrimination, human capital deficits, the unfolding process of immigrant incorporation, and cultural responses to disadvantage."--Provided by publisher.

Handbook on Family and Community Engagement Sam Redding 2011-12-01 Thirty-six of the best thinkers on family and community engagement were assembled to produce this Handbook, and they come to the task with varied backgrounds and lines of endeavor. Each could write volumes on the topics they address in the Handbook, and quite a few have. The authors tell us what they know in plain language, succinctly presented in short chapters with practical suggestions for states, districts, and schools. The vignettes in the Handbook give us vivid pictures of the real life of parents, teachers, and kids. In all, their portrayal is one of optimism and celebration of the goodness that encompasses the diversity of families, schools, and communities across our nation.

Family Communication Kathleen M. Galvin 2018-08-06 Family Communication: Cohesion and Change encourages students to think critically about family interaction patterns and to analyze them using a variety of communication theories. Using a framework of family functions, current research, and first-person narratives, this text emphasizes the diversity of today's families in structure, ethnic patterns, gender socialization, and developmental experiences. New for the tenth edition are expanded pedagogical features to improve learning and retention, as well as updates on current theory and research integrated throughout the chapters for timely analysis and discussion. Cases and research featured in each chapter provide examples of concepts and themes, and a companion website offers expanded resources for instructors and students. On the book's companion website, www.routledge.com/cw/galvin, instructors will find a full suite of online resources to help build their courses and engage their students, as well as an author video introducing the new edition: Course Materials Syllabi & Suggested Calendars Course Projects & Paper Examples Essay Assignments Test/Quiz Questions and Answer Keys Case Studies in Family Communication Family Communication Film and Television Examples Family Communication in Literature Examples Chapter Outlines Detailed Outlines Discussion Questions Case Study Questions Sample Chapter Activities Chapter PowerPoint Slides

The Process of Parenting Jane B. Brooks 2012-09-28 The Process of Parenting describes the many ways parents and caregivers can translate their love for children into effective parenting behavior. The book has strong emphasis on the development process in terms of children's and parents' growth as complex individuals, and in the changing nature of their relationships over time. Because parents and children are distinct individuals, the book includes a problem-solving approach that can help parents arrive at solutions that fit them, their children, and their life circumstances. The ninth edition includes new first person narrative boxes and more emphasis on social context, new evidence-based parenting programs, and international parenting.

Parental Monitoring of Adolescents Vincent Guilamo-Ramos 2010 "The goals of this book are to deepen understanding of the concept and measurement of parental monitoring and to compile, review, and extend what is known about the topic. It is particularly effective in identifying weaknesses in current conceptualizations and methods used to study parental monitoring."---Todd Herrenkohl, University of Washington School of Social Work The close supervision of adolescents dramatically reduces the incidence of risky sexual behavior, drug and alcohol use, and other activities that could negatively affect one's health and well-being. Because of the strong correlation between parental monitoring and a child's welfare, social workers, psychologists, child development specialists, and other professionals who work with children now incorporate monitoring into their programs and practice. A definitive resource providing the best research and techniques for productive supervision within the home, this volume defines and develops the conceptual, methodological, and practical areas of parental monitoring and monitoring research, locating the right balance of closeness and supervision while also remaining sensitive to ethnic and socioeconomic backgrounds. Assembled by leading experts on childrearing and healthy parent-child communication, Parental Monitoring of Adolescents identifies the conditions that best facilitate parental knowledge, ideal interventions for high-risk youth, and the factors that either help or hinder the monitoring of an adolescent's world. The volume also sets a course for future research, establishing a new framework that evaluates the nature and approach of monitoring within the parent-adolescent relationship and the particular social realities of everyday life.

Promoting Social and Emotional Learning Maurice J. Elias 1997 A guide to establishing high-quality social and emotional education programs describes approaches to social and emotional learning for all levels and includes thirty-nine guidelines and field-inspired examples for classrooms, schools, and districts.

Family Policy Matters Karen Bogenschneider 2003-01-30 Drawing on hundreds of studies in the last 20 years, the new edition of Family Policy Matters brings a fresh perspective to family policy, underscoring why it is needed, and outlining how policymaking should be approached. Author Karen Bogenschneider proposes a theoretical framework for conceptualizing policy issues in a way that holds the potential for overcoming controversy and identifying common ground. This new edition includes updates on the most current research, including: *new issues that have changed the political landscape for families (e.g. strengthening marriage initiative, same-sex marriage); *an updated section on state statutes or Governor's orders that require family impact analysis; *a new chapter on the history of family policy in this century; *a new appendix on how to conduct a family impact analysis; and *two new case studies on writing family policy newsletters for state policymakers and teaching family impact analysis to the general public. *Instructor's Manual with sample syllabi for both undergraduate and graduate courses, suggested readings, assignments, and class activities, discussion questions, daily lesson plans, instructor insights, special presentations to enrich one's class, and PowerPoint slides. The targeted audience includes researchers interested in seeing their research and ideas acted upon in the policy world; family professionals who work to connect research and policymaking; and instructors interested in making family policy come alive for undergraduate and graduate students. This book is an ideal textbook for family policy courses.

Handbook of Parenting Marc H. Bornstein 2005-02-16 Despite the fact that most people become parents and everyone who has ever lived has had parents, parenting remains a mystifying subject about which almost everyone has opinions, but about which few people agree. Striking permutations on the theme of parenting are emerging--single parenthood, blended families, lesbian and gay parents, and teen versus fifties first-time moms and dads. Divided into four volumes, the Handbook of Parenting is concerned with different types of parents, basic characteristics of parenting, forces that shape parenting, problems faced by parents, and the practical sides of parenting. Contributors have worked in different ways toward understanding all of these diverse aspects of parenting and look to the most recent research and thinking in the field to shed light on many topics every parent has wondered about. Because development is too subtle, dynamic, and intricate to admit that parental caregiving alone determines the course and outcome of ontogeny, volume 1 concerns how children influence parenting. Volume 2 relates parenting to its biological roots and sets parenting in its ecological framework. Volume 3 distinguishes among the cast of characters responsible for parenting and is revealing of the psychological make-ups and social interests of those individuals. Volume 4 describes problems of parenting as well as the promotion of positive parenting practices. Written to be read and absorbed in a single sitting, each chapter addresses a different but central topic in parenting, and is rooted in current thinking and theory as well as classic and modern research on that topic. All chapters follow a standard organization including an introduction to the chapter as a whole followed by historical considerations of the topic, a discussion of central issues and theory, a review of classic and modern research, forecasts of future directions for theory and research, and a conclusion. In addition to considering their own convictions and research, the chapter contributors present and broadly interpret all major points of view and central lines of inquiry.

The Cult of Smart Fredrik deBoer 2020-08-04 Named one of Vulture's Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the Cult of Smart is destroyed.

Flourishing Corey L. M. Keyes 2003 Psychology has made great strides in understanding mental illness, but how much has it learned about mental health? When people want to reflect upon the good life and how to live it, they turn to philosophers and novelists, not psychologists. The emerging field of positive psychology aims to redress this imbalance. In *Flourishing*, distinguished scholars apply scientific analyses to study the good life, expanding the scope of social and psychological research to include happiness, well-being, courage, citizenship, play, and the satisfactions of healthy work and healthy relationships. Their findings reveal that a sense of meaning and a feeling of richness emerge in life as people immerse themselves in activities, relationships, and the pursuit of intrinsically satisfying goals like overcoming adversity or serving one's community through volunteering. This provocative book will further define this evolving field.

Brief Group Treatment Jerrold Lee Shapiro 1997 This one-of-a-kind road map for students and new group leaders combines a unique developmental model of brief group process--based on the generic chronological processes of a group--with modifications for specific clinical populations. The chronological-process model was developed and researched in the authors' own laboratories, empirically tested for more than a decade, and employed successfully for years. This clearly identifiable process underlies all small groups, making it appropriate in all settings, serving all populations.

The Economics of an Aging Society Robert Louis Clark 2004-02-13 Written by leading thinkers in the field, this text provides an in-depth analysis of the economic and policy issues associated with individual and population aging. The text has a strong policy focus based on demographic and economic analysis, making this book both accessible and challenging to readers with limited mathematical background. Written by leading thinkers in the field of the economics of aging. Employs a strong policy focus based on demographic and economic analysis. Provides a comprehensive international picture of the consequences of aging. Engages the reader through side boxes, relevant website addresses, and practice questions.

Transforming the Workforce for Children Birth Through Age 8 National Research Council 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Bereavement Institute of Medicine 1984-02-01 "The book is well organized, well detailed, and well referenced; it is an invaluable sourcebook for researchers and clinicians working in the area of bereavement. For those with limited knowledge about bereavement, this volume provides an excellent introduction to the field and should be of use to students as well as to professionals," states *Contemporary Psychology*. The *Lancet* comments that this book "makes good and compelling reading....It was mandated to address three questions: what is known about the health consequences of bereavement; what further research would be important and promising; and whether there are preventive interventions that should either be widely adopted or further tested to evaluate their efficacy. The writers have fulfilled this mandate well."

Raising Kids Who Care Susy Lee 2021-05-20 How do we encourage kids to talk with us about even the trickiest issues? Talking about the stuff that matters with your kids is not easy, but communication is the best tool we have for life and love. This book will guide you through 40 practical conversations using the structure of a family trip. It'll be meaningful fun. When you start having the conversations in this book, your kids will start changing their world! Inside, you'll discover: ?Stories, tips and research to inform the conversations?Relationship skills to build (like listening and conflict resolution)?How to combat the influences of our culture (like consumerism and tech devices)?How to build resilience, values, character and purpose?How our kids can play a part in solving problems, rather than being brought down by them?Advice from caring young adults about what worked for them!As parents, we want our kids to have happy, loving lives. As a society, we need kids who are capable of thinking and acting beyond themselves to help others have happy, loving lives too."There is a huge secret to life which most families - and most parenting books - completely miss. That we humans are happiest when we are living for each other, and discovering the fun that brings. In a society that is all about 'me' we have never been more stressed or miserable. Caring is a word that holds the key to life going well, and is the real heart of being human. This book shows you how to foster it. "Susy Lee's book is one of those rare ones you want to have at hand long term, as even dipping in seems to spark you with ideas and clues for really engaging with your children. What to ask, what to challenge them with, what to provoke them with. "Brightly and clearly written, with real personality, this book turns on its head our focus on making kids happy, and instead shows how to make them generators of happiness." - Steve Biddulph AM

The Adult Learner Malcolm S. Knowles 2020-12-21 How do you tailor education to the learning needs of adults? Do they learn differently from children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles' pioneering theory of andragogy which transformed education theory in the 1970s. The resulting principles of a self-directed, experiential, problem-centred approach to learning have been hugely influential and are still the basis of the learning practices we use today. Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. The 9th edition of *The Adult Learner* has been revised to include: Updates to the book to reflect the very latest advancements in the field. The addition of two new chapters on diversity and inclusion in adult learning, and andragogy and the online adult learner. An updated supporting website. This website for the 9th edition of *The Adult Learner* will provide basic instructor aids. For each chapter, there will be a PowerPoint presentation, learning exercises, and added study questions. Revisions throughout to make it more readable and relevant to your practices. If you are a researcher, practitioner, or student in education, an adult learning practitioner, training manager, or involved in human resource development, this is the definitive book in adult learning you should not be without.

Home, School, and Community Relations Carol Gestwicki 2015-01-01 This practical, comprehensive text is an indispensable guide for home-school-community collaborations. *HOME, SCHOOL, & COMMUNITY RELATIONS*, 9th Edition, meets the needs of teachers and administrators who desire to create effective, culturally-competent partnerships with diverse families, and helps to prepare future teachers for their careers. It provides an overview of modern families and their complex roles and beliefs to sensitize teachers to the diversity and needs of families they will encounter, including multilingual, multiethnic, multigenerational, and gender-diverse families from different socioeconomic backgrounds. The text fully discusses both the benefits of creating productive partnerships and the barriers that teachers must overcome. Abundant examples clarify the book's practical and effective communication strategies. Current developments in the field of early childhood education are emphasized, including brain research and development, legislative mandates in education, professional standards of the field, and strategies for working with families of students with diverse learning needs. culture and parenting values and challenges. It identifies parenting practices within various countries' unique historical, political, and cultural backgrounds, reframing parenting as a cultural process whose goals are to encourage culturally-specific child behaviors and outcomes. Chapters focus on parenting research in a range of countries, such as Australia, Bolivia, China, Egypt, Guatemala, India, Rwanda, Namibia, Saudi Arabia, and the United States. Chapters also discuss social, emotional, and physical developmental topics throughout the lifespan, including infancy, early childhood, adolescence, emerging adulthood, and adulthood. Topics featured in this book include: The link between cultural differences in academic success to parents' academic socialization practices. The impact of culturally-specific parental engagement in positive developmental outcomes in children. Transgender children and their parents. The relationship between religious and secular values and their influence on creating polygamous teenagers. How to implement a micro-cultural lens to studying parent-child relationships during emerging adulthood. Differences and similarities in grandparenting among different cultures. Parents and Caregivers Across Cultures is a must-have resource for researchers, professors, graduate students as well as clinicians, professionals, and policymakers in the fields of developmental and cross-cultural psychology, parenting and family studies, social work, and related disciplines.

The Skilled Helper: A Problem-Management and Opportunity-Development

Approach to Helping Gerard Egan 2013-01-01 Over the past 30 years, Egan's THE SKILLED HELPER has taught thousands of students like you a proven, step-by-step counseling process that leads to increased confidence and competence. Internationally recognized for its successful problem-management and opportunity development approach to effective helping, the text emphasizes the collaborative nature of the therapist-client relationship and uses a practical, three-stage model that drives client problem-managing and opportunity-developing action. As you read, you'll also gain a feeling for the complexity inherent in any helping relationship. In this tenth edition, Egan now makes use of his version of the "common factors" approach, which gives new meaning and vitality to the book's themes, as well as to the use of the problem-management model to organize and give coherence to those themes.
