German Ecocriticism in the Anthropocene Caroline Schaumann 2017-04-18 This book offers essays on both canonical and non-canonical German-language texts and films, advancing ecocritical models for German Studies, and introducing environmental issues in German literature and film to a broader audience. This volume contextualizes the broad-ranging topics and authors in terms of the Anthropocene, beginning with Goethe and the Romantics and extending into twenty-first-century literature and film. Addressing the growing need for environmental awareness in an international humanities curriculum, this book complements ecocritical analyses emerging from North American and British studies with a specifically German Studies perspective, opening the door to a transnational understanding of how the environment plays an integral role in cultural, political, and economic issues.

The Matrix of Visual Culture Patricia Pisters 2003 This book explores Gilles Deleuze's contribution to film theory. According to Deleuze, we have come to live in a universe that could be described as metacinematic. His conception of images implies a new kind of camera consciousness, one that determines our perceptions and sense of selves: aspects of our subjectivities are formed in, for instance, action-images, affection-images and time-images. We live in a matrix of visual culture that is always moving and changing. Each image is always connected to an assemblage of affects and forces. This book presents a model, as well as many concrete examples, of how to work with Deleuze in film theory. It asks questions about the universe as metacinema, subjectivity, violence, feminism, monstrosity, and music. Among the contemporary films it discusses within a Deleuzian framework are *Strange Days*, *Fight Club*, and *Dancer in the Dark*.

A SECULAR AGE Charles TAYLOR 2009-06-30 The place of religion in society has changed profoundly in the last few centuries, particularly in the West. In what will be a defining book for our time, Taylor takes up the question of what these changes mean, and what, precisely, happens when a society becomes one in which faith is only one human possibility among others.

Humanity Divided Manuel Duarte de Oliveira 2021-09-20 With exacting scholarship and fecund analysis, Manuel Oliveira probes through the lens of Martin Buber (1878-1965) the theological and political ambiguities of Israel's divine election. These ambiguities became especially pronounced with the emergence of Zionism. Wary, indeed, alarmed by the tendency of some of his fellow Zionists to conflate divine chosenness with nationalism, Buber sought to secure the theological significance of election by both steering Zionism from hypertrophic nationalism and by a sustained program to revalorize what he called alternately "Hebrew Humanism." As Oliveira demonstrates, Buber viewed the idea of election teleologically, espousing a universal mission of Israel, which effectively calls upon Zionism to align its political and cultural project to universal objectives. Thus, in addressing a Zionist congress, he rhetorically asked, "What then is this spirit of Israel of which you are speaking? It is the spirit of fulfillment. Fulfillment of what? Fulfillment of the simple truth that man has been created for a purpose (...) Our purpose is the upbuilding of peace (...) And that is its spirit, the spirit of Israel (...) the people of Israel was charged to lead the way to righteousness and justice."

Hitler Redux Mikael Nilsson 2020-09-16 After Hitler's death, several posthumous books were published which purported to be the verbatim words of the Nazi leader - two of the most important of these documents were Hitler's Table Talk and The Testament of Adolf Hitler. This ground-breaking book provides the first in-depth analysis and critical study of Hitler's so-called table talks and their history, provenance, translation, reception, and usage. Based on research in public and private archives in four countries, the book shows when, why, where, how, by and for whom the table talks were written, how reliable the texts are, and how historians should approach and use them. It reveals the crucial role of the mysterious Swiss Nazi Francois Genoud, as well as some very poor judgement from several famous historians in giving these dubious sources more credibility than they deserved. The book sets the record straight regarding the nature of these volumes as historical sources - proving inter alia The Testament to be a clever forgery - and aims to establish a new consensus on their meaning and impact on historical research into Hitler and the Third Reich. This path-breaking historical investigation will be of considerable interest to all researchers and historians of the Nazi era.

Culture and Society in Medieval Galicia 2015-07-28 In Culture and Society in Medieval Galicia, twenty-three international authors examine art, religion, literature, and politics to chart Galicia's changing place in Iberia, Europe, and the Mediterranean and Atlantic worlds from late antiquity through the thirteenth century.

Roy & Al Ralf König 2006-09-01 Roy & Al is the first English-language book by Europe's most popular gay cartoonist, Germany's Ralf König, whose collections have sold over 250,000 copies and have been translated into five languages. Roy & Al is a hilarious, erotically charged series of gay comics starring two dogs whose owners are dating. Al, a purebred, is rather fey, and treats the unsophisticated with disdain, while Roy, a mongrel, is coarser and more down-to-earth (and a tad overweight). Any similarities between masters and dogs are strictly intentional. Roy & Al is an uproarious vision of contemporary gay life through the eyes of man's best friend.

Memory, Metaphor, and Aby Warburg's Atlas of Images Christopher D. Johnson 2012-09-15 The work of German cultural theorist and art historian Aby Warburg (1866–1929) has had a lasting effect on how we think about images. This book is the first in English to focus on his last project, the encyclopedic Atlas of Images: Mnemosyne. Begun in earnest in 1927, and left unfinished at the time of Warburg's death in 1929, the Atlas consisted of sixty-three large wooden panels covered with black cloth. On these panels Warburg carefully, intuitively arranged some thousand black-and-white photographs of classical and Renaissance art objects, as well as of astrological and astronomical images ranging from ancient Babylon to Weimar Germany. Here and there, he also included maps, manuscript pages, and contemporary images taken from newspapers. Trying through these constellations of images to make visible the many polarities that fueled antiquity's afterlife, Warburg envisioned the Atlas as a vital form of metaphoric thought. While the nondiscursive, frequently digressive character of the Atlas complicates any linear narrative of its themes and contents, Christopher D. Johnson traces several thematic sequences in the panels. By drawing on Warburg's published and unpublished writings and by attending to Warburg's cardinal idea that "pathos formulas" structure the West's cultural memory, Johnson maps numerous tensions between word and image in the Atlas. In addition to examining the work itself, he considers the literary, philosophical, and intellectual-historical implications of the Atlas. As Johnson demonstrates, the Atlas is not simply the culmination of Warburg's lifelong study of Renaissance culture but the ultimate expression of his now literal, now metaphoric search for syncretic solutions to the urgent problems posed by the history of art and culture.

Global Perspectives on Catholic Religious Education in Schools Michael T. Buchanan 2015-10-05 This book covers theoretical aspects of Catholic Religious Education in schools and examines them from multiple theoretical and contextual perspectives. It captures the contemporary academic and educational developments in the field of Religious Education while discussing in detail the challenges

that Religious Educators face in different European, Asian, African, Australian, American and Latin American countries. The edited collection investigates how to pass on a Catholic heritage as a "living tradition" in diversely populated schools and communities. In this way it explores and asserts the proper identity of Catholic Religious Education in dialogue with Catechetics and with the wider discipline of Religious Education. As the different articles of this publication demonstrate - through a series of interesting and critical points of view - Catholic Religious Education is confronted with many challenges from the risk of marginalization to the confusion produced by a religious indifferentism leading to a strictly comparative or neutral method in the study of religions. It is essential to take into account in our research perspectives that Catholic Religious Education is not only a subject but also a mission in the light of the diakonia of truth in the midst of humanity H.E. Cardinal Zenon Grocholewski, Prefect, Congregation for Catholic Education, Holy See, Vatican City Religious education teachers cannot by themselves overcome the ills of society, but religious education...can help to create better citizens of the world as some authors argue throughout this collection. could not ask more from such timely and provocative collection. It is a gift to the profession and to Catholic Religious Education. Prof. Gloria Durka, Fordham University, New York, NY, USA

The Sacred & the Digital F.G. (Frank) Bosman 2019-04-18 Video game studies are a relative young but flourishing academic discipline. But within game studies, however, the perspective of religion and spirituality is rather neglected, both by game scholars and religion scholars. While religion can take different shapes in digital games, ranging from material and referential to reflexive and ritual, it is not necessarily true that game developers depict their in-game religions in a positive, confirming way, but ever so often games approach the topic critically and disavowingly. The religion criticisms found in video games can be categorized as follows: religion as (1) fraud, aimed to manipulate the uneducated, as (2) blind obedience towards an invisible but ultimately non-existing deity/ies, as (3) violence against those who do not share the same set of religious rules, as (4) madness, a deranged alternative for logical reasoning, and as (5) suppression in the hands of the powerful elite to dominate and subdue the masses into submission and obedience. The critical depictions of religion in video games by their developers is the focus of this special issue.

Robinson Crusoe tries again Werner Ustorf 2010-09-15 The Christian experience in modern Europe is fragmented. It shows great diversity in various geographical contexts and, historically, a considerable alternation of extremes, high or low tides of engagement. One aspect of the Christianity in Europe's past is its mission history. The spread of Christianity from the West - as one of its most important results - into the continents of the Global South has been deeply ambivalent in character. On the one hand, the mission from the West helped to build the historical foundations for Christian education, "adolescence" and maturation to responsible "adulthood" in a global, diverse, segregated and pluralistic world. As a mature global player, Christianity was in a prime position to contribute to peaceful conflict resolution, in the religious, social and political fields. On the other hand, the darkness and utter insufficiency of the encounter between the European, Christian "self" and the many "others" worldwide

brought along problematic projections of different beliefs attacked in a hostile way as "alien" and, inevitably, as "conquered". The consequences, particularly for the "primal other" - the indigenous people - were often disastrous. Werner Ustorf has been a leading missiologist worldwide for thirty years. This book not only analyses the interaction between mission and individual, the construction of the "self" and the "other" in a mission context, but also proves the analytical strength of theology in conceptualizing future Christian experiences in Europe. Ustorf illustrates that apart from traditional dimension of faith, a non-religious interpretation and critical trust in transcendence, is crucial for the formation of the new interculturalization of Christianity in Europe. Thus, this book demonstrates how mission history can be transformed to a research concept for a global and pluralistic Christianity.

Taking Sides Elke Bippus 2021-10-31 Is there an option to oppose without automatically participating in the opposed? This volume explores different perspectives on dissent, understanding practices, cultures, and theories of resistance, dispute, and opposition as inherently participative. It discusses aspects of the body as a political instance, the identity and subjectivity building of individuals and groups, (micro-)practices of dissent, and theories of critique from different disciplinary perspectives. This collection thus touches upon contemporary issues, recent protests and movements, artistic subversion and dissent, online activism as well as historic developments and elemental theories of dissent.

The Psychosocial Implications of Disney Movies Lauren Dundes 2019-07-11 In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Fool on the Hill Matt Ruff 2012-07-17 Myth and reality collide on an Ithaca campus "in a comic fantasy of wonderful energy, invention, and generosity of spirit" (Alison Lurie). Stephen Titus George is a young writer-in-residence at Cornell University in upstate New York. An imaginative bestselling author in search of a new story, he's seeing his life as a modern-day fairy tale, and himself as a would-be knight looking to woo a lovely maiden—or two: the bewitching Calliope and his guiding light, Aurora Borealis Smith. However, his happy ending might not be up to him. There's another writer who has a greater influence on campus. Unseen, yet twice as formidable, Mr. Sunshine is an eternal semi-retired deity who's been fashioning his own narrative for centuries. The Sword of Judith Kevin R. Brine 2010 The Book of Judith tells the story of a fictitious Jewish woman beheading the general of the most powerful imaginable army to free her people. The parabolic

story was set as an example of how God will help the righteous. Judith's heroic action not only became a validating charter myth of Judaism itself but has also been appropriated by many Christian and secular groupings, and has been an inspiration for numerous literary texts and works of art. It continues to exercise its power over artists, authors and academics and is becoming a major field of research in its own right. The *Sword of Judith* is the first multidisciplinary collection of essays to discuss representations of Judith throughout the centuries. It transforms our understanding across a wide range of disciplines. The collection includes new archival source studies, the translation of unpublished manuscripts, the translation of texts unavailable in English, and Judith images and music.

The Big Bang Theory and Philosophy Dean A. Kowalski 2012-05-08 A lighthearted meditation on the philosophical quandaries of the hit television show *The Big Bang Theory*. Who Immanuel Kant would treat with "haughty derision" for weaving "un-unravelable webs?" And—most importantly—whether Wil Wheaton is truly evil? Of course you have. Bazinga! This book mines the deep thinking of some of history's most potent philosophical minds to explore your most pressing questions about *The Big Bang Theory* and its nerdy genius characters. You might find other philosophy books on science and cosmology, but only this one refers to Darth Vader Force-chokes, cloning Leonard Nimoy, and oompa-loompa-like engineers. Fo-shizzle. Gives you irresistibly geek-worthy insights on your favorite *Big Bang Theory* characters, story lines, and ideas. Examines important themes involving ethics and virtue, science, semiotics, religion, and the human condition. Brings the thinking of some of the world's greatest philosophers to bear on *The Big Bang Theory*, from Aristotle and Plato to Nietzsche, Wittgenstein, Simone de Beauvoir, and more. Essential reading for every *Big Bang Theory* fan, this book explores whether comic-book-wielding geeks can lead the good life, and whether they can know enough science to "tear the mask off nature and stare at the face of God."

Human Extinction and the Pandemic Imaginary Christos Lynteris 2019-09-19 This book develops an examination and critique of human extinction as a result of the 'next pandemic' and turns attention towards the role of pandemic catastrophe in the renegotiation of what it means to be human. Nested in debates in anthropology, philosophy, social theory and global health, the book argues that fear of and fascination with the 'next pandemic' stem not so much from an anticipation of a biological extinction of the human species, as from an expectation of the loss of mastery over human/non-human relations. Christos Lynteris employs the notion of the 'pandemic imaginary' in order to understand the way in which pandemic-borne human extinction refashions our understanding of humanity and its place in the world. The book challenges us to think how cosmological, aesthetic, ontological and political aspects of pandemic catastrophe are intertwined. The chapters examine the vital entanglement of epidemiological studies, popular culture, modes of scientific visualisation, and pandemic preparedness campaigns. This volume will be relevant for scholars and advanced students of anthropology as well as global health, and for many others interested in catastrophe, the 'end of the world' and the (post)apocalyptic.

Cosmopolitanisms and the Jews Cathy Gelbin 2019-01-25 *Cosmopolitanisms and the Jews* adds significantly to contemporary scholarship on cosmopolitanism by making the experience of Jews central to the discussion, as it traces the evolution of Jewish cosmopolitanism over the last two centuries. The book sets out from an exploration of the nature and cultural-political implications of the shifting perceptions of Jewish mobility and fluidity around 1800, when modern cosmopolitanist discourse arose. Through a series of case studies, the authors analyze the historical and discursive junctures that mark the central paradigm shifts in the Jewish self-image, from the Wandering Jew to the rootless parasite, the cosmopolitan, and the socialist internationalist. Chapters analyze the tensions and dualisms in the constructed relationship between cosmopolitanism and the Jews at particular historical junctures

between 1800 and the present, and probe into the relationship between earlier anti-Semitic discourses on Jewish cosmopolitanism and Stalinist rhetoric.

Studies in German Literature of the Nineteenth and Twentieth Centuries Frederic Edward Coenen 1972 Twenty-one distinguished American Germanists pay tribute to F. E. Coenen, previous longtime editor (1952-1968) of UNC Press' Studies in Germanic Languages and Literatures series. Their essays--reflecting a variety of approaches--deal with many major (Goethe, Kleist, Droste-Hulshoff, Keller, Nietzsche, Rilke, Kafka, Hesse, Brecht, Thomas Mann, Musil) and some minor figures who have influenced the literary scene after 1800 and add significantly to both scholarship in and interpretation of modern German literature.

The Greek Epic Cycle and its Ancient Reception Marco Fantuzzi 2015-08-06 The poems of the Epic Cycle are assumed to be the reworking of myths and narratives which had their roots in an oral tradition predating that of many of the myths and narratives which took their present form in the Iliad and the Odyssey. The remains of these texts allow us to investigate diachronic aspects of epic diction as well as the extent of variation within it on the part of individual authors - two of the most important questions in modern research on archaic epic. They also help to illuminate the early history of Greek mythology. Access to the poems, however, has been thwarted by their current fragmentary state. This volume provides the scholarly community and graduate students with a thorough critical foundation for reading and interpreting them.

prostitute in Latin American literature, Claire Thora Solomon's book *The Naturalist Prostitute and Her Avatars in Latin American Literature, 1880–2010* shows the gender, ethnic, and racial identities that emerge in the literary figure of the prostitute during the consolidation of modern Latin American states in the late nineteenth century in the literary genre of Naturalism. Solomon first examines how legal, medical, and philosophical thought converged in Naturalist literature of prostitution. She then traces the persistence of these styles, themes, and stereotypes about women, sex, ethnicity, and race in the twentieth and twenty-first century literature with a particular emphasis on the historical fiction of prostitution and its selective reconstruction of the past. *Fictions of the Bad Life* illustrates how at very different moments—the turn of the twentieth century, the 1920s–30s, and finally the turn of the twenty-first century—the past is rewritten to accommodate contemporary desires for historical belonging and national identity, even as these efforts inevitably re-inscribe the repressed colonial history they wish to change.
