The Legacy of Islamic Antisemitism Andrew G. Bostom

Muslims and Citizens Ian Coller 2020-03-20 A groundbreaking study of the role of Muslims in eighteenth-century France “This elegant, braided history of Muslims and French citizenship is urgently needed. It will be a ‘must read’ for students of the French Revolution and anyone interested in modern France.”—Carla Hesse, University of California, Berkeley From the beginning, French revolutionaries imagined their transformation as a universal one that must include Muslims, Europe’s most immediate neighbors. They believed in a world in which Muslims could and would be French citizens, but they disagreed violently about how to implement their visions of universalism and accommodate religious and social difference. Muslims, too, saw an opportunity, particularly as European powers turned against the new French Republic, leaving the Muslim polities of the Middle East and North Africa as France’s only friends in the region. In *Muslims and Citizens*, Coller examines how Muslims came to participate in the political struggles of the revolution and how revolutionaries used Muslims in France and beyond as a test case for their ideals. In his final chapter, Coller reveals how the French Revolution’s fascination with the Muslim world paved the way to Napoleon’s disastrous invasion of Egypt in 1798.

Islam in Central Asia and the Caucasus Since the Fall of the Soviet Union Bayram Balci 2018-11-15 With the end of the Soviet Union in 1991, a major turning point in all former Soviet republics, Central Asian and Caucasian countries began to reflect on their history and identities. As a consequence of their opening up to the global exchange of ideas, various strains of Islam and trends in Islamic thought have nourished the Islamic revival that had already started in the context of glasnost and perestroika--from Turkey, Iran, the Arabian Peninsula, and from the Indian subcontinent; the four regions with strong ties to Central Asian and Caucasian Islam in the years before Soviet occupation. Bayram Balci seeks to analyse how these new Islamic influences have reached local societies and how they have interacted with pre-existing religious belief and practice. Combining exceptional erudition with rare first-hand research, Balci's book provides a sophisticated account of both the internal dynamics and external influences in the evolution of Islam in the region.

Combatants of Muslim Origin in European Armies in the Twentieth Century Xavier Bougarel 2017-03-09 During the two World Wars that marked the 20th century, hundreds of thousands of non-European combatants fought in the ranks of various European armies. The majority of these soldiers were Muslims from North Africa, Sub-Saharan Africa, Central Asia, or the Indian Subcontinent. How are these combatants considered in existing historiography? Over the past few decades, research on war has experienced a wide-reaching renewal, with increased emphasis on the social and cultural dimensions of war, and a desire to reconstruct the experience and viewpoint of the combatants themselves. This volume reintroduces the question of religious belonging and practice into the study of Muslim combatants in European armies in the 20th century, focusing on the combatants' viewpoint alongside that of the administrations and military hierarchy.

Religion, Nation and Democracy in the South Caucasus Alexander Agadjanian 2014-10-10 This book explores developments in the three major societies of the South Caucasus – Armenia, Azerbaijan and Georgia – focusing especially on religion, historical traditions, national consciousness, and political culture, and on how these factors interact. It outlines how, despite close geographical interlacement, common historical memories and inherited structures, the three countries have deep differences; and it discusses how development in all three nations has differed significantly from the countries' declared commitments to democratic orientation and European norms and values. The book also considers how external factors and international relations continue to impact on the three countries.

The Legacy of Jihad Andrew G. Bostom, M.D. 2010-12-29 This book reveals how, for well over a millennium and across three continents - Asia, Africa, and Europe - non-Muslims who were vanquished by jihad wars became forced tributaries (called dhimmi in Arabic) in lieu of being slain. Under the dhimmi religious caste system, non-Muslims were subjected to legal and financial oppression, as well as social isolation. Extensive primary and secondary source materials, many translated here for the first time into English, are presented, making clear that jihad conquests were brutal, imperialist advances, which spurred waves of Muslims to expropriate a vast expanse of lands and subdue millions of indigenous peoples. Finally, the book examines how jihad war, as a permanent and uniquely Islamic institution, ultimately regulates the relations of Muslims with non-Muslims to this day. Scholars, educators, and interested lay readers will find this collection an invaluable resource.

Orthodoxie et politique en Géorgie postsoviétique Silvia Serrano 2018-10-22 Comment expliquer la place centrale du religieux dans des sociétés sécularisées ? Cet ouvrage aborde cette question à partir d'une sociologie politique du religieux en prenant pour objet le regain de l'orthodoxie en Géorgie postsoviétique. Silvia Serrano montre que la pertinence sociale de l'orthodoxie tient non pas à ses énoncés religieux propres et à une religiosité accrue, mais à ce qu'elle rend possible dans le champ politique. Elle est constitutive de deux types de dynamiques politiques : d'une part, elle est au cœur de la reformulation de l'identité nationale à l'oeuvre depuis l'indépendance de la Géorgie en 1991 et, d'autre part, en raison des investissements dont elle fait

l'objet, elle produit des clivages éminemment politiques. Cet ouvrage dégage les logiques populistes par lesquelles le religieux réintroduit une dimension conflictuelle du politique. En s'inscrivant dans des débats sur les dynamiques de sécularisation/ dé-sécularisation, sur la persistance du fait religieux et son rapport à la modernité, sur la politisation du religieux dans un contexte de libéralisation des systèmes politiques, ce livre fournit un cadre d'analyse novateur pour l'étude des relations entre religieux et politique dans le monde contemporain.

The Ethics of Terrorism Thomas Albert Gilly 2009 The goal of this book is to provide a unique and comprehensive examination of the ethics of terrorism's origins, history, meaning and its numerous avenues of expression. There are 18 lectures that address the ethics of terrorism in both traditional and nontraditional explanations, including the psychological aspects of abandonment, weakness and degradation. Inasmuch as ethics and morals are often confused, the challenge lies in common misunderstanding and engaging in the discourse of the lectures on the ethics of terrorism. These lectures on the ethics of terrorism are meant to decode the comp.

divine and human law, little attention has been devoted to questions of international law. Esther D. Reed offers a systematic engagement with contemporary issues of international law and its relevance for modern theology. Reed discusses numerous issue driven topics, including: challenges to classic just-war thinking from so-called fourth generation warfare, peoples and nationhood within divine providence, the ethics of territorial borders and the militarization of human intervention. By discussing selected biblical texts Reed helps to move the issues of international law higher up the agenda of Christian theology, ethics and moral reasoning.

Human Rights in Islamic North Africa E. Ike Udogu 2020-01-21 It is one thing to craft superb human rights tenets in a constitution and another to enforce such policies in practice. This book explores the contradictions between interpretations of constitutional tenets and the dogmas contained in the penal code of Islamic North Africa--particularly in regard to Algeria, Egypt, Libya, Morocco, and Tunisia. Provided are brief histories of each country that connect the colonial past to present-day human rights records. Les Grandes Questions De La Philosophie pénale Stamatios Tzitzis La philosophie pénale donne d'abord à penser à une philosophie se rapportant au droit. Toutefois, elle est loin de se réduire à une réflexion philosophique sur le droit pénal ou sur la conception de la peine. Elle n'est donc pas une simple considération philosophique de la théorie ou de la science du droit pénal. Il s'agit plutôt d'une discipline qui s'ouvre sur le chemin philosophique de l'être pénal pour étudier ses modes d'être phénoménologiques, objet de la science juridique. Mais, en les analysant, elle les dépasse, afin de présenter la totalité de ce qui compose l'univers pénal, dans son apparence et dans sa profondeur. De cette manière, la philosophie pénale vise à dévoiler, à travers le caractère normatif du droit pénal, ce qui fonde le pénal et renvoie à sa finalité.
