The Making of a Salafi Muslim Woman Anabel Inge 2017 The spread of Salafism-- often referred to as "Wahhabism"--in the West has intrigued and alarmed observers since the attacks of 9/11. Many see it as a fundamentalist interpretation of Islam that condones the subjugation of women and fuels Jihadist extremism. This view depicts Salafi women as the hapless victims of a fanatical version of Islam. Yet in Britain, growing numbers of educated women-- often converts or from less conservative Muslim backgrounds--are actively choosing to embrace Salafism's literalist beliefs and strict regulations, including heavy veiling, wifely obedience, and seclusion from non-related men. How do these young women reconcile such difficult demands with their desire for university education, fulfilling careers, and suitable husbands? How do their

beliefs affect their love lives and other relationships? And why do they become Salafi in the first place? Anabel Inge has gained unprecedented access to Salafi women's groups in the United Kingdom to provide the first in-depth account of their lives. Drawing on more than two years of ethnographic fieldwork in London, she examines why Salafism is attracting so many young Somalis, Afro-Caribbean converts, and others. But she also reveals the personal dilemmas they confront. This ground-breaking, lucid, and richly detailed book will be of vital interest to scholars, policy-makers, journalists, and general readers.

Religious Ideology and the Roots of the Global Jihad J. Turner 2014-08-26 The events of 9/11 prompted questions as to the origins, nature and purpose of international jihadist organisations. In particular, why had they chosen to target the US and the West in general? Turner's book provides a unique, holistic insight into these debates, taking into account historical perceptions and ideology as key factors.

Salafism in Nigeria Alexander Thurston 2016-09-22 The spectre of Boko Haram and its activities in Nigeria dominates both media and academic analysis of Islam in the region. But, as Alexander Thurston argues here, beyond the sensational headlines this group generates, the dynamics of Muslim life in northern Nigeria remain poorly understood. Drawing on interviews with leading Salafis in Nigeria as well as on a rereading of the history of the global Salafi movement, this volume explores how a canon of classical and contemporary texts defines Salafism. Examining how these texts are interpreted and - crucially - who it is that has the authority to do so, Thurston offers a systematic analysis of curricula taught in Saudi Arabia and how they shape religious scholars' approach to religion and education once they return to Africa. Essential for scholars of religion and politics, this unique text explores how the canon of Salafism has been used and refined, from Nigeria's return to democracy to the jihadist movement Boko Haram.

Women Embracing Islam Karin van Nieuwkerk 2006-08-01 Many Westerners view Islam as a religion that restricts and subordinates women in both private and public life. Yet a surprising number of women in Western Europe and America are converting to Islam. What attracts these women to a belief system that is markedly different from both Western Christianity and Western secularism? What benefits do they gain by converting, and what are the costs? How do Western women converts live their new Islamic faith, and how does their conversion affect their families and communities? How do women converts transmit Islamic values to their children? These are some of the questions that *Women Embracing Islam* seeks to answer. In this vanguard study of gender and conversion to Islam, leading historians, sociologists, anthropologists, and theologians investigate why non-Muslim women in the United States, several European countries, and South Africa are converting to Islam. Drawing on extensive interviews with female converts, the authors explore the life experiences that lead Western women to adopt Islam, as well as the appeal that various forms of Islam, as well as the Nation of Islam, have for women. The authors find that while no single set of factors can explain why Western women are embracing Islamic faith traditions, some common motivations emerge. These include an attraction to Islam's high regard for family and community, its strict moral and ethical standards, and the rationality and spirituality of its theology, as well as a disillusionment with Christianity and with the unrestrained sexuality of so much of Western culture.

Islamising Indonesia Yon Machmudi 2008-11-01 The Prosperous Justice Party (PKS) is the most interesting phenomenon in contemporary Indonesian politics. Not only is it growing rapidly in membership and electoral support, it is also bringing a new and markedly different approach to Islamic politics, one which has no precedent in Indonesian history. Understanding PKS and analysing its political behaviour presents challenges to scholars and observers. This is partly due to the fact that the party represents a new trend within Indonesian Islam which has few parallels with preceding movements. Yon Machmudi has rendered us a valuable service. In this book, he provides a thoughtful and authoritative context for viewing PKS. He critiques the existing categorisations for Indonesian Islam and points to their inadequacy when describing the PKS and the campus-based Tarbiyah movement from which it sprang. He reworks the santri typology, dividing it into convergent, radical and global substreams. This offers new possibilities for explaining the PKS phenomenon and assists in differentiating between various types of Islamic revivalism in contemporary Indonesia. It also allows a more understanding of the accommodatory stance which PKS has towards the state and other political forces. Yon's text provides a good overview of the development of PKS from its Tarbiyah movement origins to its impressive success at the 2004 general elections. It considers the party's attitude towards the issues of sharia implementation and community welfare and closes by examining the future challenges facing PKS. It is a well written and authoritative account from a scholar who has done wideranging research on the party.

Between the God of the Prophets and the God of the Philosophers Hatem Al-Haj 2020-03-09 The apophatic god of negative theology is the areligious philosophers' preferred god; a god which is remote, detached, and can hardly be

an object of adoration or worship, even though it may be an object of wonderment. This is not God according to the Prophets. However, the depiction of God in the theistic traditions has been always charged with anthropomorphism. In this book, I attempt to respond to this charge and explain what Athari (scripturalist) Muslim theologians believe about the Divine attributes and why. Where Do We Get Our Belief From? Our Epistemological Position. The Role of Truthful Reports. The Role of Reason. The Place of Kalâm: Reason as a Tool of Understanding and Armor for Defense. A Typology of Islamic Positions on the Attributes of God. What Do We Believe In? Why Do We Believe in Amodal Affirmation and Why? Do We Believe It Is Important? What Are the Counter Arguments? Reports from the Salaf; Conflict with Reason; The Perfect Does Not Change; The Composite god and Divisibility; Anthropomorphism and Assimilation. Conclusion: Ontologically, no extant being lacks quiddity and attributes. Noumenally, the apophatic god is nonexistent, and phenomenally, it cannot be felt or related to, let alone loved and worshiped. In conclusion of this work, here are my recommendations: -To be deserving of Divine guidance, we need to purify our intentions by true devotion to Allah. We also need to constantly rehabilitate our fiṭrah and heal it from the ills of bias (hawa), ulterior motives (aghrâḍ), blind imitation (taqleed), habit ('âdah), and conjecture (gharṣ). This can only be done through spiritual labor and immersion in the Revelation as understood and practiced by the first community. -We must not subject the Divine instruction to prevalent intellectual or social conventions or transplant xenografts and foreign discourses into our hermeneutical system. We must affirm our belief in the epistemic superiority and self-sufficiency of the Revelation as the ultimate source of truth about the unseen. This will never require us to impugn the office of reason or undercut its value in understanding the Revelation and defending its doctrines. -Our belief in Allah must be rooted in His exoneration from all deficiencies and His absolute incomparability (tanzeeh), and the amodal affirmation (ithbât) of His attributes by which He has described Himself and His Messenger described Him. In our affirmation of the Divine attributes, we should never accept the so-called "necessary concomitants." Inferring from the world of shahâdah (seen) about the world of ghayb (unseen) is both irrational and perilous.-We must be respectful of the imams of this deen, regardless of our agreement or disagreement with them. When we have to disagree, we must continue to love those who spent their lives serving Allah and His cause, and show them the requisite respect. -The public should be spared the confusion of intra-Islamic polemics on creed and taught the basics of 'aqeedah that will provide them with enough guardrails. People should then be uplifted spiritually to want to seek Allah and earn His pleasure. When it comes to the Divine attributes, teachers must prime their understanding with tanzeeh and let the rhetorical strength and richness of the Revelation flow to their hearts, unimpeded by intellectual objections.

The Meaning of Islam Abu Iyaad 2017-03-29 This book is intended for new Muslims who have just accepted Islām and non-Muslims interested in Islām or almost about to accept Islām. It is also useful for Muslims wishing to revise or learn the basics of Islām in a concise manner and parents wishing to give their children a good foundation in the basics. This book serves all of these purposes at once and has been written specifically with all of this in mind. Utterance of the two testifications (shahādātān) regarding monotheism (tawḥīd) and messengership (risālah) enter a person into Islām. This declaration has a meaning (ma'nā), requirements (muqtaḍā), conditions (shurūṭ) and nullifiers (nawāqīd) which must be understood well. After a person enters Islām, he or she establishes the remaining pillars of Islām whilst seeking knowledge to increase inward Īmān, which is faith. Thereafter, he or she strives for Iḥsān which is excellence, and for the perfection of character.

Islam in Society Eileen Lucas 2018-12-15 Provide your readers with this essential guidebook about Islam and its role in society. As of 2015, approximately 1.8 billion people identified as Muslim, 24 percent of the global population. Islam's adherents are found throughout the world, but some question whether its values and practices are at odds with those of Western nations, with particular concerns about Muslim extremism and its connection to terrorism. This has prompted attempts to control or even prevent Muslims from entering Western countries. As the global Muslim population continues to rise and immigration increases, questions about the role of Islam and its adherents in society have become increasingly urgent.

An Analysis of the Legitimacy and Effectiveness of Salafee Scholarship as an Antidote to Extremism Craig Green 2020-08-14 The label Salafee-Jihaadee has been used to categorize Islamic groups that espouse violence against the West and Muslim regimes. The typology of Salafee-Jihaadee is met with vehement disapproval and criticism from adherents to Salafism. For this reason, the portrayal of Salafees as violent extremists requires scrutiny. This study aims to make a unique contribution to knowledge of Salafism by surveying an extensive literature review, supplemented by interviews of known Salafee clerics based upon the premise that Salafism is an antidote to Islamic extremism rather than a cause of violent jihaad and terror. Furthermore, this research aims to offer new insight into existing literature and theory regarding Salafism. By re-examining current theory this research attempts to show that Salafism is an antidote to violent extremism. Therefore, there is a clear need to explore the relationship between Salafism, violent extremism, and takfeerism. In chapter one Salafism is defined and its key features as a movement are characterized and evaluated. Chapter two analyzes Salafees' view and role in denouncing violence and extremism. Chapter three introduces alternative assessments of Salafism as a movement and evaluates the arguments put forth by its critics. Chapter four investigates Salafist perceptions of pluralism particularly in Western non-Muslim societies. Chapter five details the role of Salafees and their counter arguments to extremism. The final chapter details the conclusions of the research, which indicate that Salafism is not a precursor to violence, but rather the efforts of Salafee scholars offer effective counter-narratives to the jihaadee-takfeeree paradigm.

Shari'a and Muslim Minorities Uriya Shavit 2015-11-12 Based on a comparative analysis of several hundred religio-juristic treatises and fatwas (religious decisions), *Shari'a and Muslim Minorities: The Wasati and Salafi Approaches to Fiqh al-Aqalliyyat al-Muslima* offers the most systematic and comprehensive study to date of fiqh al-aqalliyyat al-Muslima - the field in Islamic jurisprudence that treats issues that are unique to Muslims living in majority non-Muslim societies. The book argues that two main contesting approaches to fiqh al-aqalliyyat al-Muslima, the wasati and the salafi, have developed, in part dialectically. While both envision a future Islamizing of the West as a main justification for Muslim residence in the West, the wasati approach is pragmatic, facilitating, and integration-minded, whereas the salafi calls for strict application of religious norms and for introversion. The volume examines diverse and highly-debated juristic issues, including the permissibility of naturalizing in non-Muslim states, participating in their electoral systems and serving in their militaries and police forces; the permissibility of taking mortgages and student loans; the permissibility of congratulating Christians on Christmas or receiving Christmas bonuses; and the permissibility of working in professions that involve breaching of religio-legal prohibitions (e.g. serving pork). Discussions highlight the diversity within contemporary Islamic jurisprudence and introduce new nuances to highly-charged concepts such as proselytizing, integration, and multiculturalism.

The Killing of Emiliano Sala HARRY. HARRIS 2020-01-21 When the single-engined Piper Malibu plane carrying Cardiff City's record £15m signing, Emiliano Sala, crashed into the English Channel on 21st January 2019 killing both the footballer and the pilot, David Ibbotson, it shone a light on the murky world of football transfers. Using his unrivalled contacts in the game, award-winning journalist Harry Harris helped the resulting investigation in the Daily Telegraph to uncover the way in which agents and clubs work. Emiliano Sala was a relative unknown for most of his career, the Argentinian had been at half a dozen clubs in French football without making much of an impact, but when he hit a goalscoring hot-streak in the autumn of 2018 his timing was perfect as the January transfer window approached. When Mr Fix It', agent Willie McKay, approached his club Nantes for an agreement to handle the sale of their striker promising a deal in the region of 20m Euros, their chairman Waldemar Kita leapt at the chance; the French club had bought Sala a few years earlier for just 1m Euros. Meanwhile, newly-promoted Cardiff City had struggled to adjust to life in the richest league in the world. Manager Neil Warnock desperately needed a striker and pinned his hopes on the gangly, good-natured Argentinian as the man who could keep the Bluebirds among the elite. The player, finding himself in demand for the first time in his career, may have been initially reluctant to move to the Welsh capital but a new weekly wage offer of £50,000 and the agent's promise that it might lead to a move to one of the top six clubs was far too tempting to turn down. It was a life-changing amount of money for him and his family. Controversial agent Willie McKay manoeuvred himself into position to exploit the situation, helping his son to negotiate a ten percent cut of the eventual transfer fee and lucrative bonus payments. Many deals are conducted in this way during every transfer window. Unfortunately for those involved here, this was the one that ended in tragedy and sparked investigations by more than one UK police force, the Air Accidents Investigation Bureau, FIFA, the Premier League, the FA, and the FA of Wales. It has already led to the imprisonment of two people with the potential for many more to find themselves in the dock. As the research of investigative journalist Harry Harris shows here, *The Killing of Emiliano Sala* was no accident.

The Foundations of the Sunnah Aḥmad ibn Muḥammad Ibn Ḥanbal 2003

A Sincere Advice to Those Who Fell Away from Islam 'abd Al-Raḥmān Bin Nā Al-Sa'di 2018-07-20 This book is a dialogue between a scholar and a person who left Islam because of the attraction of Western culture. Its author wrote it in response to a former colleague who wrote books ridiculing Islam while praising modernity. This short book outlines the importance of not judging Western culture by its outer appearances alone without considering the emptiness of its inner reality. It also discusses the importance of having good friends and the harmfulness of immoral associates. Most of the advice offered in this book explains why Islam alone is the key to true happiness in this world and the next. This book is a heartfelt plea to all those who have been misled by this world and Shayṭān to return to guidance and is a kind invitation back to Islam. Do not despair of Allah

Producing Islamic Knowledge Martin van Bruinessen 2013-06-17 How do Muslims in Europe acquire discursive and practical knowledge of Islam? How are conceptions of Islamic beliefs, values and practices transmitted and how do they change? Who are the authorities on these issues that Muslims listen to? How do new Muslim discourses emerge in response to the European context? This book addresses the broader question of how Islamic knowledge (defined as what Muslims hold to be correct Islamic beliefs and practices) is being produced and reproduced in West European contexts by looking at specific settings, institutions and religious authorities. Chapters examine in depth four key areas relating to the production and reproduction of Islamic knowledge: authoritative answers in response to explicit questions in the form of fatwas. the mosque and mosque association as the setting of much formal and informal transmission of Islamic knowledge. the role of Muslim intellectuals in articulating alternative Muslim discourses. higher Islamic education in Europe and the training of imams and other religious functionaries. Featuring contributions from leading sociologists and anthropologists, the book presents the findings of empirical research in these issues from a range of European countries such as France, Italy, the Netherlands and Great Britain. As such it has a broad appeal, and will be of great interest to students and scholars of Islamic studies, anthropology, sociology and religion.

The Creed of the Four Imaams Muhammad Ibn Abdur-Rahmaan Khumayyis 2006

Raising Children in Islam Shaykh Abdur Razzaaq Bin Abdul Al Badr 2015-09-08 Allāh (Glorified be He) says: "Your wealth and your children are only a trial." [Sūrah at-Taghābun 64:15] Allāh honored you and bestowed upon you sons and daughters as a trial for you—a test, a tribulation—so that it can be observed whether or not you will take care of them, discipline them, teach them and straighten their behavior; or, will you neglect this trust or put this obligation to waste. Surely, from the attributes of the believers whose faith and salvation has been confirmed is their keeping of the Amānah (what they have been entrusted with) as Allāh (The Blessed and Sublime) has said at the beginning of Sūrah al-Mu'minūn while mentioning the attributes of those whose

faith has materialized: "Successful indeed are the believers." [Sūrah al-Mu'minūn 23:1] Then He mentioned their attributes, from which are: "Those who are faithfully true to their Amānāt (plural of Amānah: all the duties which Allāh has ordained, honesty, moral responsibility and trusts) and to their covenants; (8) and those who strictly guard their (five compulsory congregational) Salawāt (prayers) (at their fixed stated hours). (9) These are indeed the inheritors. (10) Who shall inherit the Firdaus (Paradise). They shall dwell therein forever." [Sūrah al-Mu'minūn 23:8-11] Being faithfully true to the Amānah: "O you who believe! Betray not Allāh and His Messenger, nor betray knowingly your Amānāt (things entrusted to you, and all the duties which Allāh has ordained for you." [Sūrah al-Anfāl 8:27] So neglecting the Amānah is a seriously dangerous matter, and keeping the Amānah is an attribute of the wholesome believers whose faith has been actualized along with their happiness in the life of this world and the Hereafter.

Islam and the Arab Awakening Tariq Ramadan 2012-10-12 One of the most important developments in the modern history of the Middle East, the so-called Arab Spring began in Tunisia in December 2010, bringing down dictators, sparking a civil war in Libya, and igniting a bloody uprising in Syria. Its long-term repercussions in Egypt and elsewhere remain unclear. Now one of the world's leading Islamic thinkers examines and explains it, in this searching, provocative, and necessary book. Time Magazine named Tariq Ramadan one of the most important innovators of the twenty-first century. A Muslim intellectual and prolific author, he has won global renown for his reflections on Islam and the contemporary challenges in both the Muslim majority societies and the West. In *Islam and the Arab Awakening*, he explores the uprisings, offering rare insight into their origin, significance, and possible futures. As early as 2003, he writes, there had been talk of democratization in the Middle East and North Africa. The U.S. government and private organizations set up networks and provided training for young leaders, especially in the use of the Internet and social media, and the West abandoned its unconditional support of authoritarian governments. But the West did not create the uprisings. Indeed, one lesson Ramadan presents is that these mass movements and their consequences cannot be totally controlled. Something irreversible has taken place: dictators have been overthrown without weapons. But, he writes, democratic processes are only beginning to emerge, and unanswered questions remain. What role will religion play? How should Islamic principles and goals be rethought? Can a sterile, polarizing debate between Islamism and secularism be avoided? Avoiding both naive confidence and conspiratorial paranoia, Ramadan voices a tentative optimism. If a true civil society can be established, he argues, this moment's fragile hope will live.
