*Haunting Experiences* Diane Goldstein 2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts

**Start-up Nation** Dan Senor 2011-09-07 START-UP NATION addresses the trillion dollar question: How is it that Israel-- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

*American Like Me* America Ferrera 2019-09-03 INSTANT NEW YORK TIMES BESTSELLER From award-winning actress and political activist America Ferrera comes a vibrant and varied collection of first-person accounts from prominent figures about the experience of growing up between cultures. America Ferrera has always felt wholly American, and yet, her identity is inextricably linked to her parents' homeland and Honduran culture. Speaking Spanish at home, having Saturday-morning-salsa-dance-parties in the kitchen, and eating tamales alongside apple pie at Christmas never seemed at odds with her American identity. Still, she yearned to see that identity reflected in the larger American narrative. Now, in *American Like Me*, America invites thirty-one of her friends, peers, and heroes to share their stories about life between cultures. We know them as actors, comedians, athletes, politicians, artists, and writers. However, they are also immigrants, children or grandchildren of immigrants, indigenous people, or people who otherwise grew up with deep and personal connections to more than one culture. Each of them struggled to establish a sense of self, find belonging, and feel seen. And they call themselves American enthusiastically, reluctantly, or not at all. Ranging from the heartfelt to the hilarious, their stories shine a light on a quintessentially American experience and will appeal to anyone with a complicated relationship to family, culture, and growing up.

*Bunch of Amateurs* Jack Hitt 2012-05-15 WHAT IS IT THAT DRIVES THE SUCCESS OF AMERICA AND THE IDENTITY OF ITS PEOPLE? ACCLAIMED WRITER AND CONTRIBUTING EDITOR TO THIS AMERICAN LIFE JACK HITT THINKS IT'S BECAUSE WE'RE ALL A BUNCH OF AMATEURS. America's self-invented tinkerers are back at it in their metaphorical garages—fiddling with everything from solar-powered cars to space elevators. In *Bunch of Amateurs*, Jack Hitt visits a number of different garages and has written a fascinating book that looks at America's current batch of amateurs and their pursuits. From a tattooed young woman in the Bay Area trying to splice a fish's glow-in-the-dark gene into common yogurt (all done in her kitchen using salad spinners) to a space fanatic on the brink of developing the next generation of telescopes from his mobile home, Hitt not only tells the stories of people in the grip of a passion but argues that America's history is bound up in a cycle of amateur surges. Beginning with Ben Franklin's kite and leading all the way to the current TV hit *American Idol*,

Hitt argues that the nation's love of self-invented obsessives has always driven the country to rediscover the true heart of the American dream. Amateur pursuits are typically lamented as a world that just passed until a Sergey Brin or Mark Zuckerberg steps out of his garage (or dorm room) with the rare but crucial success story. In *Bunch of Amateurs*, Hitt argues that America is now poised to pioneer at another frontier that will lead, one more time, to the newest version of the American dream.

America's self-invented tinkerers are back at it in their metaphorical garages—fiddling with everything from solar-powered cars to space elevators. In *Bunch of Amateurs*, Jack Hitt draws a fascinating look at amateurs and their pursuits—from a tattooed young woman in the Bay Area trying to splice a jellyfish's glow-in-the-dark gene into common yogurt to a space fanatic on the brink of developing the next generation of telescopes from his mobile home. Beginning with Ben Franklin's kite, Hitt argues that history is bound up in a cycle of amateur surges, each one driving us to rediscover the true heart of the American dream. Amateur pursuits are too often criticized as outdated practices until a Mark Zuckerberg steps out of his dorm room with the rare but crucial success story. According to Hitt, we are poised at another frontier that will lead, once more, to the newest incarnation of the American dream.

*Out of the Shadows* Fiona Robinson 2022-02-08 An innovative picture book biography about an unsung

hero of early animation Lotte Reiniger (1899–1981) was a German film director and animator best known for *The Adventures of Prince Achmed*, which was released in 1926 and is the oldest surviving animated movie. (It came out a full 11 years before Disney's *Snow White*!) As a little kid, Reiniger loved reading fairytales and fell in love with puppetry. At school, she learned about paperschnitte, or papercuts, which helped her create her signature style of silhouettes. She grew up to make more than 40 films throughout her long career, most of which were fairytales that used her stop-film animation technique of hand-cut silhouettes. Reiniger is now seen as the foremost pioneer of silhouette animation and the inventor of an early form of the multiplane camera. With art inspired by Reiniger's cut-paper style and a text that uses a fairytale motif that mimics her movies, *Out of the Shadows* is a sweeping tribute to one of most important figures of animation, whose influence still resonates today.

Garage Olivia Erlanger 2019-06-07 A secret history of the garage as a space of creativity, from its invention by Frank Lloyd Wright to its use by start-ups and garage bands. Frank Lloyd Wright invented the garage when he moved the automobile out of the stable into a room of its own. Steve Jobs and Steve Wozniak (allegedly) started Apple Computer in a garage. Suburban men turned garages into man caves to escape from family life. Nirvana and No Doubt played their first chords as garage bands. What began as an architectural construct became a cultural construct. In this provocative history and deconstruction of an American icon, Olivia Erlanger and Luis Ortega Goveia use the garage as a lens through which to view the advent of suburbia, the myth of the perfect family, and the degradation of the American dream. The stories of what happened in these garages became self-fulfilling prophecies the more they were repeated. Hewlett-Packard was founded in a garage that now bears a plaque: The Birthplace of Silicon Valley. Google followed suit, dreamed up in a Menlo Park garage a few decades later. Also conceived in a garage: the toy company Mattel, creator of Barbie, the postwar, posthuman representation of American women. Garages became guest rooms, game rooms, home gyms, wine cellars, and secret bondage lairs, a no-commute destination for makers and DIYers—surfboard designers, ski makers, pet keepers, flannel-wearing musicians, weed-growing nuns. The garage was an aboveground underground, offering both a safe space for withdrawal and a stage for

participation—opportunities for isolation or empowerment.
