Education for Life and Work National Research Council 2013-01-18 Americans have long recognized that investments in public education contribute to the common good, enhancing national prosperity and supporting stable families, neighborhoods, and communities. Education is even more critical today, in the face of economic, environmental, and social challenges. Today's children can meet future challenges if their schooling and informal learning activities prepare them for adult roles as citizens, employees, managers, parents, volunteers, and entrepreneurs. To achieve their full potential as adults, young people need to develop a range of skills and knowledge that facilitate mastery and application of English, mathematics, and other school subjects. At the same time, business and political leaders are increasingly asking schools to develop skills such as problem solving, critical thinking, communication, collaboration, and self-management - often referred to as "21st century skills." Education for Life and Work: Developing Transferable Knowledge and Skills in the 21st Century describes this important set of key skills that increase deeper learning, college and career readiness, student-centered learning, and higher order thinking. These labels include both cognitive and non-cognitive skills- such as critical thinking, problem solving, collaboration, effective communication, motivation, persistence, and learning to learn. 21st century skills also include creativity, innovation, and ethics that are important to later success and may be developed in formal or informal learning environments. This report also describes how these skills relate to each other and to more traditional academic skills and content in the key disciplines of reading, mathematics, and science. Education for Life and Work: Developing Transferable Knowledge and Skills in

the 21st Century summarizes the findings of the research that investigates the importance of such skills to success in education, work, and other areas of adult responsibility and that demonstrates the importance of developing these skills in K-16 education. In this report, features related to learning these skills are identified, which include teacher professional development, curriculum, assessment, after-school and out-of-school programs, and informal learning centers such as exhibits and museums.

Ulrich's International Periodicals Directory Carolyn Farquhar Ulrich 1998

Bourdieu and Literature John R. W. Speller 2011 Bourdieu and Literature is a wide-ranging, rigorous and accessible introduction to the relationship between Pierre Bourdieu's work and literary studies. It provides a comprehensive overview and critical assessment of his contributions to literary theory and his thinking about authors and literary works. One of the foremost French intellectuals of the post-war era, Bourdieu has become a standard point of reference in the fields of anthropology, linguistics, art history, cultural studies, politics, and sociology, but his longstanding interest in literature has often been overlooked. This study explores the impact of literature on Bourdieu's intellectual itinerary, and how his literary understanding intersected with his sociological theory and thinking about cultural policy. This is the first full-length study of Bourdieu's work on literature in English, and it provides an invaluable resource for students and scholars of literary studies, cultural theory and sociology.

Post-secondary Distance Education in Canada Robert Arthur Sweet 1989 Following a foreword (Ross Paul) and an introduction (Robert Sweet), three sections on instituting postsecondary distance learning systems across Canada are presented: access and student support, educational technology, and institutional response. The first section contains the following: "Women in Distance Education: Towards a

Feminist Perspective" (Rebecca Coulter); "Building Bridges: Northern Native Teacher Training" (Robert Paulet); "Le Tuteur et le Support a l'Etudiant en Enseignement a Distance" (Celine Lebel, Bernard Michaud); and "Provision of Student Support Services in Distance Education: Do We Know What They Need?" (Gordon Thompson). Papers in the second section are as follows: "La Formation a Distance: Des Choix Technologiques et des Valeurs" (France Henri, Therese Lamy); "Third Generation Course Design in Distance Education" (David Kaufman); "Contradictory Directions for Distance: Cultural Miscegenation, or Cultural Symbiosis?" (Gary Boyd); "A Philosophy of Distance Education: Perceptivism" (Charles Brauner); "La Technologie Educative dans l'Enseignement a Distance, Son Role et Sa Place" (Louise Sauve et al.); and "Distance Learning using Communications Technologies in Canada" (Barbara Helm). The third section contains the following: "Diversity or Chaos in Canadian Distance Education? A View from Overseas" (Anthony Bates); "Canada's Open Universities: Issues and Prospectives" (Ross Paul); "Involvement with Distance Education: Issues for the University" (Margaret Haughey); "Distance Education and Accessibility to Canada's Community Colleges" (John Dennison); "Being Responsible to the Adult Distance Learner: A Secondary School Example" (Norman McKinnon); "Canadian Private Sector Distance Education: A Preliminary Analysis of Organizational Structure and Governance Issues" (Kenneth Slade, Robert Sweet); "Collaboration in Distance Education" (Abram Conrad, James Small); "Collaboration in Distance Education: British Columbia's Open Learning Agency" (Ian Mugridge); and "Collaboration in Distance Education: Ontario's Contact North/Contac Nord" (Terry Anderson, Connie Nelson).
