Flood Song Sherwin Bitsui 2009 "I bite my eyes shut between these songs." So begins *Flood Song*, a concentrated, interweaving, painterly sequence in which Native tradition scrapes against contemporary urban life. In his second book, Sherwin Bitsui intones landscapes real and imagined, populated with the wrens, winds, and reeds of the high desert and constructed from the bricks and gasoline of the city. Reverent to his family's indigenous traditions while simultaneously indebted to European modernism and surrealism, Bitsui is at the forefront of a younger generation of Native writers. His poems are highly imagistic and constantly in motion, drawing as readily upon Dine (Navajo) myths, customs, and medicine songs as they do contemporary language and poetics. "I map a shrinking map," Bitsui writes, a map tribal and individual, elemental and modern - and utterly astonishing.

Rti: Phonological Awareness Interventions for the Regular Classroom Teacher

Sherri Dobbs Santos 2009-05-01 RTI Phonological Awareness Interventions for the Regular Classroom Teacher is an innovative manual designed to assist teachers with the implementation of evidence based interventions for letter recognition, letter sounds, rhyming and word families, word parts and segmenting, and blending. Equipped with step-by-step lesson instructions, lesson mini-assessments, progress monitoring assessments, flashcards, and picture cards, this manual provides the regular classroom teacher or interventionist with the tools necessary to confidently and competently implement RTI interventions for their students. Also included are 22 lessons devoted to sight word recognition.

The Ojibwa Dance Drum Thomas Vennum 2015-01-27 Hiding in a lake under lily pads after fleeing U.S. soldiers, a Dakota woman was given a vision over the course of four days instructing her to build a large drum and teaching her the songs that would bring peace and end the killing of her people. From the Dakota, the "big drum" spread throughout the Algonquian-speaking tribes to the Ojibwe, becoming the centerpiece of their religious ceremonies. This edition of "The Ojibwe Dance Drum," originally created through the collaboration of Ojibwe drum maker and singer William Bineshii Baker Sr. and folklorist Thomas Vennum, has a new introduction by history professor Rick St. Germaine that discusses the research behind this book and updates readers on the recent history of the Ojibwe Drum Dance.

African Fractals Ron Eglash 1999 Fractals are characterized by the repetition of similar patterns at ever-diminishing scales. Fractal geometry has emerged as one of the most exciting frontiers on the border between mathematics and information technology and can be seen in many of the swirling patterns produced by computer graphics. It has become a new tool for modeling in biology, geology, and other natural sciences. Anthropologists have observed that the patterns produced in different cultures can be characterized by specific design themes. In Europe and America, we often see cities laid out in a grid pattern of straight streets and right-angle corners. In contrast, traditional African settlements tend to use fractal structures-circles of circles of circular dwellings, rectangular walls enclosing ever-smaller rectangles, and streets in which broad avenues branch down to tiny footpaths with striking geometric repetition. These indigenous fractals are not limited to architecture; their recursive patterns echo throughout many disparate African designs and knowledge systems. Drawing on interviews with African designers, artists, and scientists, Ron Eglash investigates fractals in African architecture, traditional hairstyling, textiles, sculpture, painting, carving, metalwork, religion, games, practical craft, quantitative techniques, and symbolic systems. He also examines the political and social implications of the existence of African fractal geometry. His book makes a unique contribution to the study of mathematics, African culture, anthropology, and computer simulations.

Red Ted Art Margarita Woodley 2013-03-28 Crafting has never been more popular and Maggy Woodley, the creative force behind Red Ted, is passionate about making things with her children, Max, four, and Pippa, two. Using recycled materials and bits and bobs collected when out and about, here are over 60 utterly irresistible things to make with your kids. From adorable peanut shell finger puppets to walnut babies, loo roll marionettes and egg carton fairy lights, fabric mache bowls, stick men and shell crabs, stone people, and many more, these are projects for all the family to have fun with. And what's more,

the end results are so cute and desirable that they look great around the home, or make wonderfully unique and personal gifts. With a funky, modern design and vibrant full colour photography throughout, this is a must-have addition to every young family's bookshelf.

Weaving Iridescence Bobbie Irwin 2017-09-01 Iridescent fabric shimmers and glows, changing colors depending on how the light hits it. Different colors appear in the folds and pleats, adding surprising layers of color to fabric. To the uninformed it appears magical and difficult, but the truth is that weaving iridescent fabric is accessible to any handweaver who knows the tricks. Bobbie Irwin has been teaching the techniques for weaving iridescence in person and through articles for more than ten years. In this book, she delivers her most comprehensive course yet, covering the details from how to evaluate and choose yarn to achieve your desired effect to the ways weave structure affects iridescence to the best uses for your iridescent fabric. Hands-on project instructions will have you exploring what you've learned right away. If you have been looking to add some shimmer to your weaving, this is the only book you will ever need!

Native American Style Seed Bead Jewelry Artium Studia 2016-12-06 This book contains 48 beautiful bracelet patterns inspired by Native American art.
