Unicorns and Germs Asia Citro 2018-10-09 In the sixth book, an earthquake shakes Zoey's house. Or maybe it's a unicorn-quake? An enormous new friend arrives in a lot of pain, and it's getting worse every day. Zoey must work with her mom and Sassafras to find a cure -- and quickly! Each story in the Zoey and Sassafras series features a new magical animal with a problem that must be solved using science. There isn't a set formula for each book; Zoey sometimes needs to run experiments, while other times she needs to investigate a mystery, and yet other times she needs to do research. Zoey models how to keep a science journal through her handwritten entries in each story. Each story is complete with a glossary of the kid-friendly definitions for scientific terms used. The series highlights child-led inquiry science and the topics covered align with both Common Core and Next Generation Science Standards.

The Coding Manual for Qualitative Researchers Johnny Saldaña 2012-10-04 The Second Edition of Johnny Saldaña's international bestseller provides an in-depth guide to the multiple approaches available for coding qualitative data. Fully up to date, it includes new chapters, more coding techniques and an additional glossary. Clear, practical and authoritative, the book: -describes how coding initiates qualitative data analysis -demonstrates the writing of analytic memos -discusses available analytic software -suggests how best to use The Coding Manual for Qualitative Researchers for particular studies. In total, 32 coding methods are profiled that can be applied to a range of research genres from grounded theory to phenomenology to narrative inquiry. For each approach, Saldaña discusses the method's origins, a description of the method, practical applications, and a clearly illustrated example with analytic follow-up. A unique and invaluable reference for students, teachers, and practitioners of qualitative inquiry, this book is essential reading across the social sciences.

Macrame Pattern Book Marchen Art Studio 2013-06-11 "Learn how to make over seventy macramê knots and small repeat patterns, then use them to create a wide range of projects. Each knot is shown in a close-up photograph with clear step-by-step diagrams showing how they are tied. Starting with the basics, the knots progress on to more complicated and complex designs, but as all are clearly diagramed it is very easy to follow along. This invaluable guidebook opens with a discussion of the different types of threads or cords available, shows a range of clasps and other findings, plus covers the types of beads to use. It also includes lots of tips and useful information like how to set up your work board, and other helpful lessons like how to keep track of the cord ends for less confusion. The thirty-three projects range from simple jewelry pieces like the classic friendship bracelet and watch straps to more complex ones like a variety of bags and baskets. Translated from the Japanese, Macramê pattern book is an outstanding resource for both new and more experienced "knotters."--

tus ideas son locas, no estás pensando en grande. Bestseller de The New York Times. Por Linda Rottenberg, cofundadora y CEO de Endeavor Loco por emprender combina historias inspiradoras, investigación original y consejos prácticos para crear un plan de acción de negocios y crecer ia lo grande! Hoy en día, tomar riesgos no es sólo para los que han dejado la escuela en busca de algo más grande. Ya sea que trabajes en una multinacional, en una ONG o que seas padre o madre de tiempo completo, todo el mundo necesita pensar y actuar como un emprendedor. Es necesario ser ágiles, adaptables, atrevidos -incluso un poco locos- si no queremos rezagarnos. Pero, ¿cómo tomar riesgos inteligentes sin arriesgarlo todo? Con más de dos décadas de experiencia, Linda Rottenberg te revela las múltiples estrategias que ha desarrollado como CEO y cofundadora de Endeavor -una organización líder en el mundo y sin fines de lucro que apoya a emprendedores que han tenido un rápido crecimiento-, incluyendo el tan codiciado Endeavor 8 (el conjunto de las mejores prácticas, las lecciones clave y aquellos momentos de alto impacto que cambiarán el rumbo de tu empresa). Loco por emprender profundiza en el trabajo de emprendedores icónicos como Walt Disney y Estée Lauder, y revela cómo las compañías MTV, General Electric y Burberry lograron el éxito al romper con las normas establecidas e implementar una mentalidad de emprendedor. Linda Rottenberg afirma: "Todos los días conozco personas con un sueño. Tal vez eres mesero y fantaseas con abrir tu propia cafetería; tal vez decidiste no ir a la universidad y anhelas empezar tu propia línea de diseño; quizá estás sentado en tu cubículo haciendo una lluvia de ideas sobre cómo mejorar tu empresa. Tienes un sueño pero no sabes cómo hacerlo realidad. O quizá ya has puesto en marcha tu sueño pero no sabes cómo llevarlo al siguiente nivel. Este libro te enseñará el camino."

all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

Sticks and Stones Melissa Lennig 2019-05-07 Sticks and Stones presents a treasure trove of building and engineering ideas for children to employ in the

great outdoors using the materials made readily available to them, from cabins and tipis to bridges and dams. Many smaller scale projects are included, too—such as how to make ochre paint with shale, make a fishing pole, and carve a marshmallow roasting stick. Opportunities and materials for constructive play exist everywhere in nature. Author Melissa Lennig (of the blog Fireflies and Mud Pies) introduces today's screen-overloaded kids to this world of fun waiting just outside the door. Whether camping or hanging out in the back yard, children will marvel at the wonderful, useful tools and playthings they can create with natural objects. Sticks and Stones details various designs for the ever-popular fort (cabins, tipis, survival shelters, etc.) and also covers structures such as bridges, fences, and dams, while explaining the STEAM principles behind each. In addition to structures, there are other ideas and projects for camping and the backyard, like a fire ring (explaining the types of fires, airflow, and safety), the always useful tripod, a travois, a rock garden, and toy boats. Along the way, there are multi-leveled reading opportunities in the form of quick features on considerations like mindfulness, campfire safety, mini STEAM design challenges, and more. Sticks and Stones is an essential resource for every junior outdoor adventurer.

Easy Stuff to Make with Fluff Gillian Harris 2017-04-13 Ever wondered what can be made with fluffy wooltops, wools and yarns? This new book from Gillian Harris, owner of the Fluffatorium, has all the answers! Wooltops are essentially 'unspun' wool that have been processed into long fluffy lengths.

It's the stuff you use when you spin yarn, and it's also the stuff that is used for felting, plus you can use it to weave with, or for extreme knitting and giant crochet too. It is light and woolly and very very fluffy! A selection of other fibres and yarns are used in some of the projects. These start life as fluffy wooltops, but have been processed a little bit more and may have been spun and plied into different sorts of yarns. Choose favourite colours of 'fluff' and learn how to make pompoms, brooches, pictures, lampshades, cushions and more. Use the fluff as it is or learn how to transform it by wetfelting, needlefelting, weaving, knitting or crocheting. Spin your own art yarn too, using a simple drop spindle. Readers will get hooked into Gillian's vibrant fluffy world and begin crafting lots of lovely, simple, easy-to-make projects. Word count: 15,000

The Memory Keeper's Daughter Kim Edwards 2006-05-30 A #1 New York Times bestseller by Kim Edwards, *The Memory Keeper's Daughter* is a brilliantly crafted novel of parallel lives, familial secrets, and the redemptive power of love. Kim Edwards's stunning novel begins on a winter night in 1964 in Lexington, Kentucky, when a blizzard forces Dr. David Henry to deliver his own twins. His son, born first, is perfectly healthy, but the doctor immediately recognizes that his daughter has Down syndrome. Rationalizing it as a need to protect Norah, his wife, he makes a split second decision that will alter all of their lives forever. He asks his nurse, Caroline, to take the baby away to an institution and never to reveal the secret. Instead, she disappears into another city to raise the child herself. So begins this beautifully told story that unfolds over a quarter of a century—in which these two families, ignorant of each other, are yet bound by the fateful decision made that winter night long ago. A family drama, *The Memory Keeper's Daughter* explores every mother's silent fear: What would happen if you lost your child and she grew up without you? It is also an astonishing tale of love and how the mysterious ties that hold a family together help us survive the heartache that occurs when long-buried secrets are finally uncovered.

Plight of the Patentee: The Case for Restoring Inventors' Rights David Wanetick 2020-03-14 The fate of inventors and patentees today is far worse than it was for Robert Kearns—the inventor of the intermittent windshield wiper whose story was portrayed in the movie, *A Flash of Genius*. Mr. Kearns battled automotive infringers for years on end. His wife divorced him. He became estranged from his children. He was placed in a mental hospital. Eventually he prevailed. But Mr. Kearns “only” had to battle infringers. Today, an inventor's battles to uphold and enforce his patent would include resistance from infringers. The

Patent Trial and Appeal Board. District courts. The Federal Circuit. The Supreme Court. State attorneys general. Congress. The executive branch. Even if a resilient patentee recovers damages, the media will cast this “patent troll” as a scourge on society. In *Plight of the Patentee*, you will read stories about inventors waiting more than a decade for their patent applications to grant. You will meet dozens of inventors who have suffered from flagrant infringement.
