The Phonology and Morphology of Arabic Janet C. E. Watson 2007-11-01 This book is the first comprehensive account of the phonology and morphology of Arabic. It is a pioneering work of scholarship, based on the author's research in the region. Arabic is a Semitic language spoken by some 250 million people in an area stretching from Morocco in the West to parts of Iran in the East. Apart from its great intrinsic interest, the importance of the language for phonological and morphological theory lies, as the author shows, in its rich root-and-pattern morphology and its large set of guttural consonants. Dr Watson focuses on two eastern dialects, Cairene and San'ani. Cairene is typical of an advanced urban Mediterranean dialect and has a cultural importance throughout the Arab world; it is also the variety learned by most foreign speakers of Arabic. San'ani, spoken in Yemen, is representative of a conservative peninsula dialect. In addition the book makes extensive reference to other dialects as well as to classical and Modern Standard Arabic. The volume opens with an overview of the history and varieties of Arabic, and of the study of phonology within the Arab linguistic tradition. Successive chapters then cover dialectal differences and similarities, and the position of Arabic within Semitic; the phoneme system and the representation of phonological features; the syllable and syllabification; word stress; derivational morphology; inflectional morphology; lexical phonology; and post-lexical phonology. *The Phonology and Morphology of Arabic* will be of great interest to Arabists and comparative Semiticists, as well as to phonologists, morphologists, and linguists more generally.

Doing Business 2010 World Bank 2009-09-11 The seventh in a series of annual reports investigating the regulations that enhance business activity and those that constrain it, 'Doing Business' presents quantitative indicators on business regulations and the protection of property rights that can be compared across 183 economies--from Afghanistan to Zimbabwe--and over time. Regulations affecting 10 stages of a business's life are measured: starting a business, dealing with construction permits, employing workers, registering property, getting credit, protecting investors, paying taxes, trading across borders, enforcing contracts and closing a business. Data in 'Doing Business 2010' are current as of June 1, 2009. The indicators are used to analyze economic outcomes and identify what reforms have worked, where and why.

Oman Under Qaboos Calvin H. Allen 2014-01-14 This is an examination of the political, economic and social development of Oman from the accession Sultan Qaboos in a palace coup in 1970 to the promulation of the basic law of 1996. The book argues that the sultanate does not follow the "rentier" model but the patriarchal tradition.

Sintering Applications Burcu Ertug 2013-02-06 Sintering is one of the final stages of ceramics fabrication and is used to increase the strength of the compacted material. In the Sintering of Ceramics section, the fabrication of electronic ceramics and glass-ceramics were presented. Especially dielectric properties were focused on. In other chapters, sintering behaviour of ceramic tiles and nano-alumina were investigated. Apart from oxides, the sintering of non-oxide ceramics was examined. Sintering the metals in a controlled atmosphere furnace aims to bond the particles together metallurgically. In the Sintering of Metals section, two sections dealt with copper containing structures. The sintering of titanium alloys is another topic focused in this section. The chapter on lead and zinc covers the sintering in the field of extractive metallurgy. Finally two more chapter focus on the basics of sintering, i.e viscous flow and spark plasma sintering.

Middle East Contemporary Survey Colin Legum 1997

Doing Business 2013 World Bank 2012-10-22 Tenth in a series of annual reports comparing business regulations in 185 economies, Doing Business 2013 measures regulations affecting 11 areas of everyday business activity around the world.

Doing Business 2015 World Bank 2014-10-24 Twelfth in a series of annual reports comparing business regulation in 189 economies, Doing Business 2015 measures regulations affecting 10 areas of everyday business activity: Starting a business Dealing with construction permits Getting electricity Registering property Getting credit Protecting minority investors Paying taxes Trading across borders Enforcing contracts Resolving insolvency Labor market regulations This year's report will present data for a second city for the 11 economies with more than 100 million inhabitants. These are Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation, and the United States. Three of the 10 topics covered have been expanded, with further plans to expand on five additional indicators in next year's report. Additionally, the Doing Business rankings are now based on the distance to the frontier measure where each economy is evaluated based on how close their business regulations are to the best global practices. This provides a more precise view of each economy's performance and its improvement over time. The report updates all indicators as of June 1, 2014, ranks economies on their overall 'ease of doing business,' and analyzes reforms to business regulation identifying which economies are strengthening their business environment the most. Doing Business illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank and IFC that garners worldwide attention on regulatory barriers to entrepreneurship. More than 60 economies have used the Doing Business indicators to shape reform agendas and monitor improvements on the ground. In addition, the Doing Business data has generated over 2,000 articles in peer-reviewed academic journals since its inception.

Doing Business 2014 World Bank 2013-10-01 Eleventh in a series of annual reports comparing business regulations in 189 economies, Doing Business 2014

measures regulations affecting 11 areas of everyday business activity around the world.

Freedom in the World 2006 Freedom House 2006 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

The AFC Asian Cup 2015 Simon Barclay 2015-03-21 Australia's extra-time victory over South Korea in the final of the 2015 Asian Cup was the thrilling climax to a competition lasting over two years and 92 matches. This book covers the whole of the qualification process and then the glorious Finals tournament in detail. 170 pages of statistics include full match records and post-match reactions from key individuals and the coaches.

Infections in Surgery Massimo Sartelli 2021-01-29 Although most clinicians are aware of the problem of antimicrobial resistance, most also underestimate its significance in their own hospital. The incorrect and inappropriate use of antibiotics and other antimicrobials, as well as poor prevention and poor control of infections, are contributing to the development of such resistance. Appropriate use of antibiotics and compliance with infection prevention and control measures should be integral aspects of good clinical practice and standards of care. However, these activities are often inadequate among clinicians, and there is a considerable gap between the best evidence and actual clinical practice. In hospitals, cultural determinants influence clinical practice, and improving behaviour in terms of infection prevention and antibiotics-prescribing practice remains a challenge. Despite evidence supporting the effectiveness of best practices, many clinicians fail to implement them, and evidence-based processes and practices that are known to optimize both the prevention and the treatment of infections tend to be underused. Addressing precisely this problem, this volume offers an essential toolkit for all surgeons and intensivists interested in improving their clinical practices.

Doing Business 2011 World Bank 2010-11-03 Eighth in a series of annual reports comparing business regulations in 183 economies, Doing Business 2011 measures regulations affecting 10 areas of everyday business activity: starting a business, dealing with construction permits, employing workers, registering property, getting credit, protecting investors, paying taxes, trading across

borders, enforcing contracts, and closing a business. The report updates all 10 sets of indicators, ranks countries on their overall ease of doing business and analyzes reforms to business regulation- identifying which countries are improving strengthening their business environment the most and which ones slipped. Doing Business 2011 includes results on the ongoing research in the area of "getting electricity" and illustrates how reforms in business regulations can translate into better outcomes for domestic entrepreneurs and the wider economy. It also focuses on how women in particular are affected by complex business regulations.

Political Handbook of the World 2005-2006 William C Banks 2005-12-19 For almost eighty years, researchers seeking governmental and political information on countries around the globe have turned to Political Handbook of the World for the most authoritative and complete presentation of facts and analysis. CQ Press welcomes this renowned publication to its list of acclaimed reference sources, bringing its many current devotees - and future users - a new edition for 2005 - 2006, with a commitment to continuing the editorial integrity that has become the hallmark of this resource since its initial publication in 1928. Political Handbook of the World provides thorough and accurate information on the major aspects of each country's governmental and political composition. As a convenient, one-volume source for global political information, each edition features country profiles that include the following: Key facts: Political status, area, population, major urban centers, official language, monetary unit, heads of government, heads of state, ambassadors, and US and UN representation, Government and political history: Historical trends, regime changes, constitutional history, and regional and global policy issues of concern, Current issues: Headline-making events, trends, controversies, and challenges, Political parties and organizations: Leading and minor parties, quasi-partisan and extra-systemic organizations, alliances, party histories, ideology, and leadership, Legislatures and cabinets: Recent national election results, legislative leaders, cabinet ministers, Communications: Names, circulation, and political affiliation of major national media; news agencies; television coverage and Internet usage. In addition, Political Handbook of the World profiles 120 intergovernmental organizations, such as OPEC, NATO, the WTO, world and regional development banks, and the agencies and specialized bodies of the United Nations. Book jacket.

Doing Business 2012 World Bank 2011-10-18 Ninth in a series of annual reports comparing business regulations in 183 economies, Doing Business 2012 measures regulations affecting 11 areas of everyday business activity: starting a business dealing with construction permits employing workers registering property getting credit protecting investors paying taxes trading across borders enforcing contracts closing a business getting electricity The report updates all indicators as of June 1, 2011, ranks countries on their overall "ease of doing business", and analyzes reforms to business regulation identifying which countries are strengthening their business environment the most. Doing Business 2012 includes a new set of indicators on the time, steps, and cost for a private business to get an electricity connection. The data on connection services can inform utilities, regulators and governments seeking to strengthen the performance of the electricity sector. Drawing on a now longer time series, this year's report introduces a measure to illustrate how the regulatory environment for business has changed in each economy since Doing Business 2006 was published in 2005. A new "distance to frontier" measure complements the aggregate ranking on the ease of doing business, which benchmarks each economy's current performance on the indicators against that of all other economies in the sample for a given year. A fundamental premise of Doing Business is that economic activity requires good rules that are transparent and accessible to all. Such regulations should be efficient, striking a balance between safeguarding some important aspects of the business environment and avoiding distortions that impose unreasonable costs on businesses. Where business regulation is burdensome and competition limited, success depends more on whom you know than on what you can do. But where regulations are relatively easy to comply with and accessible to all who need to use them, anyone with talent and a good idea should be able to start and grow a business in the formal sector. The Doing Business report, which was started in 2003, has become one of the key ways in which the bank and other observers gauge business climate within developing countries... -- The Financial Times [Doing Business started] as a way to encourage countries to reduce obstacles to entrepreneurship. Developing countries compete to land a spot on the top 10 list of most-improving countries because it is seen as a way to get attention and investment. -- The Wall Street Journal [Doing Business] has succeeded in putting the issue of business red tape on the international political agenda. -- The Economist

The State of Open Data Davies, Tim 2019-05-22 It's been ten years since open data first broke onto the global stage. Over the past decade, thousands of programmes and projects around the world have worked to open data and use it to address a myriad of social and economic challenges. Meanwhile, issues related to data rights and privacy have moved to the centre of public and political discourse. As the open data movement enters a new phase in its evolution, shifting to target real-world problems and embed open data thinking into other existing or emerging communities of practice, big questions still remain. How will open data initiatives respond to new concerns about privacy, inclusion, and artificial intelligence? And what can we learn from the last decade in order to deliver impact where it is most needed? The State of Open Data brings together over 60 authors from around the world to address these questions and to take stock of the real progress made to date across sectors and around the world, uncovering the issues that will shape the future of open data in the years to come.
