Religion, History, and Politics in Nigeria Chima Jacob Korieh 2005 Religion, History, and Politics in Nigeria is concerned with the problematic nature of religion and politics in Nigerian history. The book provides a lively and straightforward treatment of the relationship among religion, politics, and history in Nigeria, and how it affects public life today. By adopting various cultural, historical, political, and sociological perspectives, the text's contributors provide an excellent introduction to the volatile mix of religion and politics in Nigerian history, as well as a range of strategic choices open to religious adherents. The complexity of the relationship among religion, history, and politics is organized around four themes: indigenous values and the influence of Islam and Christianity, colonialism and religious transformation, the religious landscape of the post-colonial period, and the rise of evangelism and fundamentalism. The volume provides an insightful guide to contemporary history, contemporary religion, and contemporary politics, enabling the reader to reach informed and balanced judgments about the role in religion in Nigerian history and politics. This opens the door for serious examination and debate, and will be excellent for use by the general reader and in political science, history, and religion courses.

Exploring Organizational Performance Tesilimi Aderemi Lawanson 2007 This research demonstrates how the performances of Christian organizations are influenced by their organizational models, accountability and evaluation. Organizational performances influence the flow of participants and resources to and from organizations as well as facilitate the achievement of organizational mission. This study provides a platform for synthesizing relevant organizational theories on leadership, culture, climate, ecology, and accountability as well as applying them in organizational analysis. Integrating insights from organizational studies, management theory, missiology, theology, metaphorical sociology and culture theory, this study used a qualitative research methodology to examine the organizational factors that influence the performances of church and other Christian mission organizations in cross-cultural mission. Employing the case-study approach gave access to multiple data collection sources. The organizations selected for this case study were the Redeemed Christian Church of God (RCCG), the Foursquare Gospel Church Nigeria (FGCN), the Calvary Ministries (CAPRO) and the Great Commission Movement (GCM). In-depth interviews, focus groups, and documents were the main data collection sources used, with event observation and survey questionnaires as supplementary sources. Data analysis was carried out primarily through grounded theory with content analysis used for the initial analysis of data from documents and survey questionnaires. Through grounded theory, data analysis was processed using open, axial and selective coding. Ten themes emerged from the analysis, which led to the development of three theoretical constructs from which a theoretical narrative was generated for this research exploring some organizational factors influencing performance of Christian organizations. Acknowledging the contributions of other factors to organizational performance, this study found that performance hinged on the organizational life. The organizational life was shaped by the organizational model, which defined the organizational accountability; while accountability influenced organizational evaluation, which facilitated the building of the organizational capacity for performance. The research findings also helped in proposing a missional framework for analyzing and enhancing performances of Christian organizations in cross-cultural mission. It is hoped that this is one of the contributions of this research to organizational studies.

The Juvenilization of American Christianity Thomas Bergler 2012-04-20 Pop worship music. Falling in love with Jesus. Mission trips. Wearing jeans and T-shirts to church. Spiritual searching and church hopping. Faith-based political activism. Seeker-sensitive outreach. These now-commonplace elements of American church life all began as innovative ways to reach young people, yet they have gradually become accepted as important parts of a spiritual ideal for all ages. What on earth has happened? In The Juvenilization of American Christianity Thomas Bergler traces the way in which, over seventy-five years, youth ministries have breathed new vitality into four major American church traditions -- African American, Evangelical, Mainline Protestant, and Roman Catholic. Bergler shows too how this "juvenilization" of churches has led to widespread spiritual immaturity, consumerism, and self-centeredness, popularizing a feel-good faith with neither intergenerational community nor

theological literacy. Bergler's critique further offers constructive suggestions for taming juvenilization. Watch the trailer:

Discipleship in a Digital Age Emmanuel Elendu 2017-07-03 Discipleship in a Digital Age is an inspired spiritual and Christian lifestyle guidebook that exhorts present-day believers to rekindle a spirit of mentorship and discipleship such that the church can become strengthened in a day where direction and leadership is often lacking (WestBow Editorial Review). Discipleship in a Digital Age aims at teaching or instructing Christians to personal and practical ways of living for the Lord daily in a digital age. It is a discovery of a talent hunt that laces traditional discipleship blueprints with the reality of today's demanding moments of technology and Internet. It uses the basic tenets of discipleship to model the Christian man's approach to life in the face of our changing culture. It emphasizes the need for mentoring, training and sustainable weaning and learning in the wake of Christian engagement without due process to ministry assignment.

Women in Yoruba Religions Oyèrónké Oládémọ 2022-07-19 Uncovers the influence of Yoruba culture on women's religious lives and leadership in religions practiced by Yoruba people. *Women in Yoruba Religions* examines the profound influence of Yoruba culture in Yoruba religion, Christianity, Islam, and Afro-Diasporic religions such as Santeria and Candomblé, placing gender relations in historical and social contexts. While the coming of Christianity and Islam to Yorubaland has posed significant challenges to Yoruba gender relations by propagating patriarchal gender roles, the resources within Yoruba culture have enabled women to contest the full acceptance of those new norms. Oyeronke Olademo asserts that Yoruba women attain and wield agency in family and society through their economic and religious roles, and Yoruba operate within a system of gender balance, so that neither of the sexes can be subsumed in the other. Olademo utilizes historical and phenomenological methods, incorporating impressive data from interviews and participant-observation, showing how religion is at the core of Yoruba lived experiences and is intricately bound up in all sectors of daily life in Yorubaland and abroad in the diaspora.

Church Growth in Britain David Goodhew 2017-05-15 There has been substantial church growth in Britain between 1980 and 2010. This is the controversial conclusion from the international team of scholars, who have drawn on interdisciplinary studies and the latest research from across the UK. Such church growth is seen to be on a large scale, is multi-ethnic and can be found across a wide range of social and geographical contexts. It is happening inside mainline denominations but especially in specific regions such as London, in newer churches and amongst ethnic minorities. Church Growth in Britain provides a forceful critique of the notion of secularisation which dominates much of academia and the media - and which conditions the thinking of many churches and church leaders. This book demonstrates that, whilst decline is happening in some parts of the church, this needs to be balanced by recognition of the vitality of large swathes of the Christian church in Britain. Rebalancing the debate in this way requires wholesale change in our understanding of contemporary British Christianity.

Nigerian Pentecostalism and Development Richard Burgess 2020-04-06 This book examines the contributions, both intentional and unintentional, of Nigerian Pentecostal churches and NGOs to development, studying their development practices broadly in relation to the intersecting spheres of politics, economics, health, education, human rights, and peacebuilding. In sub-Saharan Africa, Pentecostalism is fast becoming the dominant expression of Christianity, but while the growth and civic engagement of these churches has been well documented, their role in development has received less attention. The Nigerian Pentecostal landscape is one of the most vibrant in Africa. Churches are increasingly assuming more prominent roles as they seek to address the social and moral ills of contemporary society, often in fierce competition with Islam for dominance in Nigerian public space. Some scholars suggest that the combination of an enchanted worldview, an emphasis on miracles and prosperity teaching, and a preoccupation with evangelism discourages effective political engagement and militates against development. However, Nigerian Pentecostalism and Development argues that there is an emerging movement within contemporary Nigerian Pentecostalism which is becoming increasingly active in development practices. This book goes on to explore the increasingly transnational approach that churches take, often seeking to build multicultural congregations around the globe, for instance in Britain and the United States. Nigerian Pentecostalism and Development: Spirit, Power, and Transformation will be of considerable interest to scholars and students concerned with the intersection between religion and development, and to development practitioners and policy-makers working in the region.

African Culture and Global Politics Toyin Falola 2014-01-10 This volume attempts to insert itself within the larger discussion of Africa in the twenty-first century, especially within the realm of world politics. Despite the underwhelming amount of attention given to Africa's role in international politics in popular news sources, it is evident that Africa has a consistent

record of participating in world politics- one that pre-dates colonization and continues today. In continuance of this legacy of active participation in global political exchanges, Africans today can be heard in dialogues that span the world and their roles are impossible to replace by other entities. It is evident that a vastly different Africa exists than ones that bolster images of starvation, corruption, and compliance. The essays in this volume center on Africa and Africans participating in international political discourses, but with an emphasis on various forms of expression and philosophies, as these factors heavily influence Africa's role as a participant in global politics. The reader will find a variety of essays that permeate surface discussions of politics and political activism by inserting African culture, rhetoric, philosophies into the larger discussion of international politics and Africa's role in worldwide political, social, and economic debates.

The 10 Dangerous Possessions Taiwo Olusegun Ayeni 2007-06-06 This book unfolds the burden of reassessing how the work should be done in the Lord's vineyard. We thank God that they that sit in darkness have gotten the opportunity to see a great light. This great light has revealed to us the avalanche of recycled errors that the Church has continued to peddle with relish within the last two decades. As a result of the continuous exposure to them, they have become the norm rather than the exception. These errors have become so entrenched that challenging them is like confronting a fast moving train headlong. Going through the book will provide us with hard facts why change is necessary at this time and why we need to watch out and not fall prey to the 10 dangerous possessions.

Help for Troubled Destinies Taiwo Olusegun Ayeni 2009-12-28 *Help for troubled Destinies* begins with examination of what God did for us in the beginning, the

foundation of empowerment laid for us to excel, where we missed it and Gods follow-up rescue plan. This background approach clearly shows us that we were empowered to succeed from the beginning as revealed in mans encounter with God in Genesis Chapter 1:28. There God blessed man and He gave him five faith commands to pursue: be fruitful and multiply, replenish the earth, subdue it and have dominion. From this perspective the book goes on to express the fact that because man had been positioned to excel he ought not to experience troubled destinies. Several of these were examined for the readers attention and solutions to them also proffered. It concludes with testimonies that God is beautiful for every situation.

Strategic Warfare in Bed Taiwo Olusegun Ayeni 2015-08-14 Why is your bed strategic? Because the place where you sleep is a site of divine renewal or Satanic regression. You could be either made or marred on your bed. Lying on your bed in the solemnity of day or serenity of night, you can initiate, maintain, and sustain fruitful thinking that will change your life. Great thoughts of glorious happenings could be inspired on your bed as you thoughtfully guard your hearts in deep search for divine mysteries, *Strategic Warfare in Bed* encourages you to watch how you go to bed. Do not allow the enemy to take control of your mind. A bad night will produce a grumpy and agitated morning, and the cycle continues. Operate in wisdom and win the fight for the possession of your mind on your bed.

Memory and Recovery in Times of Crisis Fiona Larkan 2017-11-09 This book presents a social scientific reading of the challenges of memory and recovery in times of crisis. Drawing on different interpretations of what constitutes 'crisis', this collection uses lenses of economics, identity and commemoration, to question how memory and recovery is being constituted through larger discourses of political claims of moving forward, healing and identity. *Memory and Recovery in Times of Crisis* examines how memory is dis- or re-interred through social processes and further, how recovered memories are challenged or legitimized. It also presents a set of questions that will stimulate further reflections on what kind of role understandings of memory of crisis can play in recovery. Given the world we find ourselves living in in 2017 – a world subject to multiple, intersecting crises – how we understand the dynamics of memory and recovery is a pressing issue indeed. This book will appeal to both scholars and students of anthropology and sociology.

The Gospel According to John D. A. Carson 1991 This commentary seeks above all to explain the text of John's Gospel to those whose privilege and responsibility it is to minister the Word of God to others, to preach and to lead Bible studies. I have tried to include the kind of information they need to know, but to do so in such a way that the informed layperson could also use the work in personal study of the Bible, exclusively for purposes of personal growth in edification and understanding. In particular, I have attempted: (1) To make clear the flow of the text. (2) To engage a small but representative

part of the massive secondary literature on John. (3) To draw a few lines towards establishing how the Fourth Gospel contributes to biblical and systematic theology. (4) To offer a consistent exposition of John's Gospel as an evangelistic Gospel. - Preface.

The Changing Soul of Europe Helena Vilaça 2016-03-23 This book paves the way for a more enlarged discussion on religion and migration phenomena in countries of Northern and Southern Europe. From a comparative perspective, these are regions with very different religious traditions and different historical State/Church relations. Although official religion persisted longer in Nordic Protestant countries than in South Mediterranean countries, levels of secularization are higher. In the last decades, both Northern and Southern Europe have received strong flows of newcomers. From this perspective, the book presents through various theoretical lenses and empirical researches the impact mobility and consequent religious transnationalism have on multiple aspects of culture and social life in societies where the religious landscapes are increasingly diverse. The chapters demonstrate that we are dealing with complex scenarios: different contexts of reception, different countries of origin, various ethnicities and religious traditions (Catholics, Orthodox and Evangelical Christians, Muslims, Buddhists). Having become plural spaces, our societies tend to be far more concerned with the issue of social integration rather than with that of social identities reconstruction in society as a whole, often ignoring that today religion manifests itself as a plurality of religions. In short, what are the implications of newcomers for the religious life of Europe and for the redesign of its soul?

Secret of Prevailing in Prayer TAIWO OLUSEGUN AYENI 2005-02-14 The Secrets of Prevailing in Prayer Warfare is one in several series of Prayer Manuals that God had laid in my heart to write. is a possibility if one can be persistent. One of the key factors in prevailing prayer is hearing God speak. Hearing him helps us to wait till our change comes. Hence, the reason the chapter on having a relationship with the Holy Spirit is included. There is a need for the saints to have a vibrant relationship with the Holy Spirit, have him guide us as we persistently engage the kingdom of darkness in prevailing warfare prayers.

Cumberland Island Mary R. Bullard 2005-01-01 Cumberland Island is a national treasure. The largest of the Sea Islands along the Georgia coast, it is a history-filled place of astounding natural beauty. With a thoroughness unmatched by any previous account, *Cumberland Island: A History* chronicles five centuries of change to the landscape and its people from the days of the first Native Americans through the late-twentieth-century struggles between developers and conservationists. Author Mary Bullard, widely regarded as the person most knowledgeable about Cumberland Island, is a descendant of the Carnegie family, Cumberland's last owners before it was acquired by the federal government in 1972 and designated a National Seashore. Bullard's discussion of the Carnegie era on Cumberland is notable for its intimate glimpse into how the family's feelings toward the island bore upon Cumberland's destiny. Bullard draws on more than twenty years of research and travels about the island to describe how water, wind, and the cycles of nature continue to shape it and also how humans have imprinted themselves on the face of Cumberland across time--from the Timuca, Guale, and Mocamo Indians to the subsequent appearances of Spanish, French, African, British, and American inhabitants. The result is an engaging narrative in which discussions about tidal marshes, sea turtles, and wild horses are mixed with accounts of how the island functioned as a center for indigo, rice, cotton, fishing, and timber. Even frequent visitors and former residents will learn something new from Bullard's account of Cumberland Island.

Handbook of Research on Development and Religion Matthew Clarke 2013-01-01 With eighty percent of the world's population professing religious faith, religious belief is a common human characteristic. This fascinating and highly unique Handbook brings together state-of-the-art research on incorporating religion into development studies literature and research. The expert contributors illustrate that as religious identity is integral to a community's culture, exclusion of religious consideration will limit successful development interventions; it is therefore necessary to conflate religion and development to enhance efforts to improve the lives of the poor. Issues addressed include: key tenets, beliefs and histories of religions; religious response to development concerns (gender, environment, education, microfinance, humanitarian assistance); and the role of faith based organisations and missionaries in the wider development context. Practical case studies of countries across Africa, Eastern Europe and the Pacific (including Australia)

underpin the research, providing evidence that the intersection between religion and development is neither new nor static. This path-breaking Handbook will prove a thought-provoking and stimulating reference tool for academics, researchers and students in international development, international relations, comparative religion and theology.

History of Yoruba Land Gbade Aladeojebi 2016-10-17 The name Nigeria was coined in Lokoja by Flora Shaw, the future wife of Baron Lugard, a British colonial administrator, while gazing out at the river Niger. So, British colonialism created Nigeria as a country, joining diverse peoples and regions in an artificial political entity along the Niger River. The territory known today as Nigeria is a very large country of multi-ethnic groups of about four hundred. The land mass is large enough to accommodate France, Belgium and Italy. The name Nigeria is derived from the River Niger which traverses the country from the North to the South. Nigeria is located on the coast of Western Africa. It has an area of 356,669 square miles (923,768 square km). At its greatest expanse, it measures about 1,200 kilometres (about 750 mi) from East to West and about 1,050 kilometres (about 650 mi) from North to South. It is bordered to the north by Niger, the east by Chad and Cameroon, the south by the Gulf of Guinea, and to the west by Benin. Niger River and the Benue, are its largest tributary, are the principal rivers in the country. The area that is now Nigeria was home to ethnically based kingdoms and tribal communities before it became a European colony. In spite of European contact that began in the 16th century, these kingdoms and communities maintains their autonomy until the 19th century. Federal Republic of Nigeria is a constitutional Federal Republic comprising 36 states and the Federal Capital Territory in Abuja. The principal groups in the Northern part are Hausa, Fulani, Kanuri, and Nupe. Other minority tribes also inhabits the Middle belt area, these include the Jukun, the Chamba and the Bata. In the region north of the upper Benue valley various ethnic groups such as Fali, Gabun, Gude, Gudu, Higi, Hona Mbula, Mumuye and Tika also inhabits the area. In the Southwest we have the Yoruba, another principal ethnic group and in the Southeast we have the Igbo people which form the third principal ethnic group. In the South-south we have the group of minorities such as Annang, Efik, Ibibio, Ijaw, Itsekiri, Isoko Uhrobo and Ukwiani. The entire ethnic group in Nigeria is over 500, parts of these are listed in appropriate section of this book.

Global Religious Movements Across Borders Stephen M. Cherry 2016-04-22 From global missionizing among proselytic faiths to mass migration through religious diasporas, religion has traveled from one side of the world and back again. It continues to play a prominent role in shaping world politics and has been a vital force in the continued emergence, spread, and creation of a transnational civil society. Exploring how religious roots are shaping organizations that seek to aid people across political and geographic boundaries - 'service movements' - this book focuses on how religious movements establish structures to assist people with basic human needs such as food, clothing, shelter,

Fighting Your Way to Victory Taiwo Olusegun Ayeni 2006-03-26 This is the first book in the series of work (Prayer School Manuals) originally titled The gates of Hell shall not prevail Parts I & II. It is titled Fighting Your Way To Victory principles of victory over stubborn problems and it deals with the revival of prayer life, and the need to rise up and engage in spiritual warfare in order to overcome unnecessary sufferings. Nigeria at Fifty Ebenezer Obadare 2013-09-13 Nigeria, Africa's most populous and biggest democracy, celebrates her fiftieth year as an independent nation in October 2010. As the cliché states, 'As Nigeria goes, so goes Africa'. This book frames the socio-historical and political trajectory of Nigeria while examining the many dimensions of the critical choices that she has made as an independent nation. How does the social composition of interest and power illuminate the actualities and narratives of the Nigerian crisis? How have the choices made by Nigerian leaders structured, and/or have been structured by, the character of the Nigerian state and state-society relations? In what ways is Nigeria's mono-product, debt-ridden, dependent economy fed by 'the politics of plunder'? And what are the implications of these questions for the structural relationships of production, reproduction and consumption? This book confronts these questions by making state-centric approaches to understanding African countries speak to relevant social theories that pluralize and complicate our understanding of the specific challenges of a prototypical postcolonial state. This book was published as a special issue of the Journal of Contemporary African Studies.

Workers in Training Manual Enoch Adeboye 2016-08-04 Commitment to the Almighty God is the highest priority for the Christian and it cannot be taken lightly because of its eternal implications. There should be assurance of salvation that is Bible based, which lasts forever. There is a need for an extra spiritual effort on the souls saved to get them established, localised in a church fellowship and mobilised until they too become soul winners. It is not enough for the believer in Christ to go forth and bear fruits in obedience to the Lord's command but must also ensure that the fruits abide. This is why the Workers-in-Training programme is packaged to equip believers for service unto God and the edification of the body of Christ. Our prayer is that at the end of

these teachings, you would have become a true Christian, on fire for God and ready to take up mountains. God bless you as you get empowered for the work of ministry, in Jesus name. Amen
