97 Ways to Make a Cat Like You Carol Kaufmann 2015-04-07 From the publisher of B. Klivan's Cat, All I Need to Know I Learned from My Cat, and Bad Cat, comes a new book that answers the question all cat lovers ask: How do I make my cat like me? 97 Ways to Make a Cat Like You is the perfect interactive guide to these mysterious, fickle, seemingly aloof-yet really, just particular-pets. Paired with a full-color photograph of friendly, extroverted, happy cats (in case you've forgotten what a cat looks like when he "likes" you), the 97 inspired, occasionally silly but always behaviorally-based tips and tricks prove that when a cat is treated right, he or she will respond in kind. Within reason. There's the "Eye on the Ball"—record a tennis match or a Ping-Pong game on TV to play back for your cat when he needs a bit of exercise. "Cat

Burrito”—wrap your cat in a towel, burrito-style, which is particularly good for anxious pets or trips to the vet. The “Boing, Boing!”—wind pipe cleaners around a pencil in a spiral shape to create springs. Carefully slide off the pencil so the spirals go “boing” when pressed. The classic “Tickle, Tickle”—tickle Kitty under her chin and softly say “gitchy, gitchy, gitchy” in your highest-pitched voice. And for the cat owner willing to go the distance, the “There’s No Business Like Show Business”—practice your best Ethel Merman by belting out favorite show tunes for your cat. Kitty won’t care if you’re off-key and she’ll enjoy the stimulation.

Hacker, Hoaxer, Whistleblower, Spy Gabriella Coleman 2014-11-04 Here is the ultimate book on the worldwide movement of hackers, pranksters, and activists that operates under the non-name Anonymous, by the writer the Huffington Post says “knows all of Anonymous’ deepest, darkest secrets.” Half a dozen years ago, anthropologist Gabriella Coleman set out to study the rise of this global phenomenon just as some of its members were turning to political protest and dangerous disruption (before Anonymous shot to fame as a key player in the battles over WikiLeaks, the Arab Spring, and Occupy Wall Street). She ended up becoming so closely connected to Anonymous that the tricky story of her inside–outside status as Anon confidante, interpreter, and erstwhile mouthpiece forms one of the themes of this witty and entirely engrossing book. The narrative brims with details unearthed from within a notoriously mysterious subculture, whose semi-legendary tricksters—such as Topiary, tflow, Anachaos, and Sabu—emerge as complex, diverse, politically and culturally sophisticated people. Propelled by years of chats and encounters with a multitude of hackers, including imprisoned activist Jeremy Hammond and the double agent who helped put him away, Hector Monsegur, *Hacker, Hoaxer, Whistleblower, Spy* is filled with insights into the meaning of digital activism and little understood facets of culture in the Internet age, including the history of “trolling,” the ethics and metaphysics of hacking, and the origins and manifold meanings of “the lulz.”

Children and Biography Kate Douglas 2022-08-25 The first study of life narratives produced for, about, and written by children, this book examines the recent popularity of children's biographies and how they engage with the biggest issues of our time: environmental change, health crises, education, and children's personal and political development. Beginning with a literary-historical overview, *Children and Biography* proceeds to examine 21st-century examples and trends such as illustrated texts including *Women in Science*, the *Fantastically Great Women Who...* books, *Rebel Dogs*, *Goodnight Stories for Rebel Girls*, *Kids Who Did*, *My Beautiful Birds* and *The Journey*. The book also considers archives of children's writings and drawings, in particular the testimonies of child asylum seekers, children's biographical art, and 'Lockdown diaries' produced during the Covid-19 pandemic. By analyzing these works alongside empirical studies into how such material is received by child readers, and how texts generated by children are perceived both by them and their parents, this book provides new knowledge on how biographies for children are produced and read. Comprehensive and original, *Children and Biography*, presents an ethical methodological framework for scholarly practice when

reading, witnessing and interpreting children's life narratives. The book offers a mandate for future researchers: to place children's voices and writing at the centre of inquiries in ways that facilitate genuine agency for child authors.
