The Incredible Here and Now Felicity Castanga 2013-09-01 Michael's older brother dies at the beginning of the summer he turns 15, but as its title suggests **The Incredible Here and Now** is a tale of wonder, not of tragedy. Presented as a series of vignettes, in the tradition of Sandra Cisneros' Young Adult classic **The House on Mango Street**, it tells of Michael's coming of age in a year which brings him grief and romance; and of the place he lives in Western Sydney where 'those who don't know any better drive through the neighbourhood and lock their car doors', and those who do, flourish in its mix of cultures. Through his perceptions, the reader becomes familiar with Michael's community and its surroundings, the unsettled life of his family, the girl he meets at the local pool, the friends that gather in the McDonalds parking lot at night, the white Pontiac Trans Am that lights up his life like a magical talisman.

Political Memory in and After the Persian Empire Jason M. Silverman 2015-10-15 Various disciplines that deal with Achaemenid rule offer starkly different assessments of Persian kingship. While Assyriologists treat Cyrus's heirs as legitimate successors of the Babylonian kings, biblical scholars often speak of a "kingless era" in which the priesthood took over the function of the Davidic monarch. Egyptologists see their land as uniquely independently minded despite conquests, while Hellenistic scholarship tends to

evaluate the interface between Hellenism and native traditions without reference to the previous two centuries of Persian rule. This volume brings together in dialogue a broad array of scholars with the goal of seeking a broader context for assessing Persian kingship through the anthropological concept of political memory.

Investing in Cultural Diversity and Intercultural Dialogue Unesco 2009-01-01 This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

The Change Laboratory Jaakko Virkkunen 2013-12-31 A new challenge of learning in work organizations--both in business and public administration--is to master entire life cycles of product, production and business concepts. Meeting this challenge calls--at all levels of the organization--for learning that expand

the learners' horizon and practical mastery from individual tasks up to the level of the whole system of the collective activity and its transformation. The Change Laboratory is a method for formative intervention in work communities that supports this kind of organizational learning. It is a path breaker in the area of work place learning due to its strong theoretical and research basis and the way that it integrates the change of organizational practices and individuals' learning. It provides a way to develop practitioners' transformative agency and capacity for creating and implementing new conceptual and practical tools for mastering their joint activity. This first comprehensive presentation of the already widely used method is written for researchers, consultants, agricultural extension and HRD professionals, as well as practitioners involved in developing activities in their professional field. It explains this novel method as well as its theoretical basis on the Cultural Historical Activity Theory providing also practical examples and tools for carrying out a Change Laboratory intervention. A review is also provided of studies concerning various aspects of expansive learning processes in Change Laboratory interventions.

Representing Landscape Architecture Marc Treib 2008-02-19 Representing Landscape Architecture offers a broad investigation of how the designed landscape is and has been represented: for design study, for criticism and even for its realization. It has been said that we can only realize what we can imagine. But in order to realize we must convey ideas to others as well as to ourselves. Representation is by no means neutral and the process of communication, the process by which the imagination takes its first form, itself necessarily limits the range of our design possibilities. Computers further remove from cognitive processes

and raise new questions about methods and limits. Written by a team of renowned practitioners and academics, this book is the best available reference to date on the many dimensions of landscape representation.

The Taming Teresa Toten 2012-01-24 Katie likes to believe she's invisible. It seems so much safer than being exposed as who she is: shy, poor, and vulnerable. So getting up in front of audience as the lead in her school's production of *The Taming of the Shrew* should be complete torture. But as Katie tells it, something totally unexpected happened when she stepped on stage: "My head exploded. I loved it. Acting hit me like a sucker punch and I loved, loved, loved it! Invisible Katie became visible Katherina." Evan is, as they say, another story. He knows just what it takes to get noticed, and he uses every one of the skills he's perfected from years of being the new kid at yet another new school. Rich, smart, and ridiculously charming, he's like nothing and no one Katie has ever encountered. How then could someone like him possibly be interested in someone like her? But before she knows it they are inseparable. Over the dizzying course of their relationship, Katie must confront the fact that the power of love can conceal darker truths.

Space, Time and Language in Plutarch Aristoula Georgiadou 2017-10-10 'Space and time' have been key concepts of investigation in the humanities in recent years. In the field of Classics in particular, they have led to the fresh appraisal of genres such as epic, historiography, the novel and biography, by enabling a close focus on how ancient texts invest their representations of space and time with a variety of symbolic and cultural meanings. This collection of essays by a team of international scholars seeks to make a contribution to this rich interdisciplinary field, by exploring how space and time are perceived, linguistically codified and portrayed in the biographical and philosophical work of Plutarch of Chaeronea (1st-2nd centuries CE). The volume's aim is to show how philological approaches, in conjunction with socio-cultural readings, can shed light on Plutarch's spatial terminology and clarify his conceptions of time, especially in terms of the ways in which he situates himself in his era's fascination with the past. The volume's intended readership includes Classicists, intellectual and cultural historians and scholars whose field of expertise embraces theoretical study of space and time, along with the linguistic strategies used to portray them in literary or historical texts.

Leading the inclusive city Hambleton, Robin 2014-11-24 Cities are often seen as helpless victims in a global flow of events and many view growing inequality in cities as inevitable. This engaging book rejects this gloomy prognosis and argues that imaginative place-based leadership can enable citizens to shape the urban future in accordance with progressive values – advancing social justice, promoting care for the environment and bolstering community empowerment. This international and comparative book, written by an experienced author, shows how inspirational civic leaders are making a major difference in cities across the world. The analysis provides practical lessons for local leaders and a significant contribution to thinking on public service innovation for anyone who wants to change urban society for the better.

Chopin and His World Jonathan D. Bellman 2017-08-15 A new look at the life, times, and music of Polish composer and piano virtuoso Fryderyk Chopin Fryderyk Chopin (1810–49), although the most beloved of piano composers, remains a contradictory figure, an artist of virtually universal appeal who preferred the company of only a few sympathetic friends and listeners. *Chopin and His World* reexamines Chopin and his music in light of the cultural narratives formed during his lifetime. These include the romanticism of the ailing spirit, tragically singing its death-song as life ebbs; the Polish expatriate, helpless witness to the martyrdom of his beloved homeland, exiled among friendly but uncomprehending strangers; the sorcerer-bard of dream, memory, and Gothic terror; and the pianist's pianist, shunning the appreciative crowds yet composing and improvising idealized operas, scenes, dances, and narratives in the shadow of virtuoso-idol Franz Liszt. The international Chopin scholars gathered here demonstrate the ways in which Chopin responded to and was understood to exemplify these narratives, as an artist of his own time and one who transcended it. This collection also offers recently rediscovered artistic representations of his hands (with

analysis), and—for the first time in English—an extended tribute to Chopin published in Poland upon his death and contemporary Polish writings contextualizing Chopin's compositional strategies. The contributors are Jonathan D. Bellman, Leon Botstein, Jean-Jacques Eigeldinger, Halina Goldberg, Jeffrey Kallberg, David Kasunic, Anatole Leikin, Eric McKee, James Parakilas, John Rink, and Sandra P. Rosenblum. Contemporary documents by Karol Kurpiński, Adam Mickiewicz, and Józef Sikorski are included.

Lists and Catalogues in Ancient Literature and Beyond Rebecca Laemmle 2021-02-22 Lists and catalogues have been en vogue in philosophy, cultural, media and literary studies for more than a decade. These explorations of enumerative modes, however, have not yet had the impact on classical scholarship that they deserve. While they routinely take (a limited set of) ancient models as their starting point, there is no comparably comprehensive study that focuses on antiquity; conversely, studies on lists and catalogues in Classics remain largely limited to individual texts, and – with some notable exceptions –

offer little in terms of explicit theorising. The present volume is an attempt to close this gap and foster the dialogue between the recent theoretical re-appraisal of enumerative modes and scholarship on ancient cultures. The 16 contributions to the volume juxtapose literary forms of enumeration with an abundance of ancient non-, sub- or para-literary practices of listing and cataloguing. In their different approaches to this vast and heterogenous corpus, they offer a sense of the hermeneutic, epistemic and methodological challenges with which the study of enumeration is faced, and elucidate how pragmatics, materiality, performativity and aesthetics are mediated in lists and catalogues.

International Students in French Universities and Grandes Écoles: A Comparative Study Cui Bian 2016-08-22 The book mainly investigates the challenges that confront France's unique dual system of higher education in facing internationalization and the recruitment of international students. This book focuses on the development of the institutional strategies in two groups of higher education institutions: University and Grande École in responding to the opportunities and stresses of both Europe's Bologna process and globalization. The research data presents in this book was collected from four local institutions, two Grandes Écoles and two universities, one of each focusing on the social sciences and the other on natural sciences and technology. Interviews with major stakeholders in the institutions, including personnel from international offices, faculty/researchers and international students were adopted as

principal methods for data collection. The thematic organization of the findings in each chapter covers views from three levels of stakeholders' and interprets the results within theoretical frames, such as institutional theories, world-system theory, international academic relationship theory and branding theory. Readers will find this book both practical and innovative in four key ways. Firstly, in knowledge diffusion, revealing the mysterious veil of the unique French dual higher education system. Secondly, in new knowledge production, exploring a new subject of research and filling the blanks from previous studies of the two groups of institutions. Thirdly, in presenting new interesting sights into current reforms in France's higher education and how far principles of path dependency will ensure strong continuities with the past as against a tendency to homogenization in response to pressures from Europeanization and global ranking systems. Finally, in exploring the dimension of interculturality and the interplay between researcher's identity and research process.

The Firm as an Entity Yuri Biondi 2007-04-12 The book enhances current economic understanding of the firm as an institution and an organization, looking beyond the narrow boundaries of neoclassical economics to an interdisciplinary approach based on accounting and law as well as economics itself. It represents the first synthesis of the authors' research work on the subject and provides the groundwork for the development of a comprehensive framework centred on the firm as an entity. The volume starts with a synthesis and a critique of the current state of the different economic theories of the firm and further develops them through new insights and neglected lessons from different traditions of thought. The economic theory and analysis of the firm is given new life here by looking at the firm as a whole: as an institution and an organization, which has special functions and a distinct role in the economy and society.

Research Methods for the DBA Nathalie Mitev 2019-09-20 The thesis completed as part of the Doctorate

in Business Administration, called the DBA, requires the candidate to choose from a wide range of research methods and tools so this project can become reality. Determining, choosing, implementing and contextualizing research methods and tools are all crucial steps for the success of the research work undertaken as part of the DBA thesis. The 30 chapters of this book have been prepared to the attention of DBA candidates, to orient and guide them in choosing research methods and tools. The first part raises the question of the choice of research methods; the second one deals with data collection methods; the third part focuses on data analysis methods; and the fourth surveys the contextualization of methods. Written so as to ensure contents are accessible and to foster learning, the chapters provide the foundations and resources to guide methodological choices. This book is the English augmented edition of the French edition published as part of the Business Science Institute collection. The aim is to produce reference books to guide the academic work of doctoral candidates in the scientific training curriculum of the DBA. The first collective book published in 2015, *The Creation of Knowledge by Managers* (available in French), aimed to establish the main guidelines for this new role assumed by managers in management practice: that of new knowledge producers. Also part of the collection, the book *How to Successfully Complete Your DBA?*, aims to guide the research elaboration and execution of the DBA thesis.

Here, they cross their analyses of the present state of chemical ecology and its perspectives for the future. Those presented here include complex, multispecies communities and cover a wide range both of organisms and of the types of molecules that mediate the interactions between them. Up to now, no book has presented a solid scientific treatment of a wide range of examples. This book illustrates a diverse panel of the most advanced aspects of this rapidly expanding field.

Sakura's Cherry Blossoms Robert Paul Weston 2018-02-20 A warm, gorgeous exploration of a little girl's experience immigrating to a new country and missing her home and her grandmother, who still lives far away. Sakura's dad gets a new job in America, so she and her parents make the move from their home in Japan. When she arrives in the States, most of all she misses her grandmother and the cherry blossom trees, under which she and her grandmother used to play and picnic. She wonders how she'll ever feel at home in this new place, with its unfamiliar language and landscape. One day, she meets her neighbor, a boy named Luke, and begins to feel a little more settled. When her grandmother becomes ill, though, her family takes a trip back to Japan. Sakura is sad when she returns to the States and once again reflects on all she misses. Luke does his best to cheer her up -- and tells her about a surprise he knows she'll love, but she'll have to wait till spring. In the meantime, Sakura and Luke's friendship blooms and finally, when spring comes, Luke takes her to see the cherry blossom trees flowering right there in her new neighborhood. *Sakura's Cherry Blossoms* captures the beauty of the healing power of friendship through Weston's Japanese poetry-inspired text and Saburi's breathtaking illustrations.

Beyond the Blue Border Dorit Linke 2021-09-07 Hanna and Andreas will do anything to leave oppressive East Germany behind. There's one escape route open to them, but can they survive it? Hanna and Andreas have always been friends. When they're expelled from school for activism directly challenging the socialist state in East Germany, they end up doing factory work. But what kind of life do they have to look forward to without education or opportunity? Especially when they aren't allowed a voice? The choice to

risk imprisonment or death by escaping to the democratic West seems like a risk worth taking. They set out to swim twenty-five hours across the choppy waters of the Baltic Sea. Linke's storytelling achieves a delicate balance between heightened moments of danger--searchlights, jellyfish, a Russian helicopter, a violent summer storm--and the monotony, ineffable fatigue, physical pain, cramping, fear, and hope that fill the rest of the journey. A memorable tale of two people risking all for a chance at freedom.

Greek Medical Papyri Nicola Reggiani 2019-09-23 The volume collects papers presented at the International Conference "Greek Medical Papyri - Text, Context, Hypertext" held at the University of Parma on November 2-4, 2016, as the final event of the ERC project DIGMEDTEXT, aimed primarily at creating an online textual database of the Greek papyri dealing with medicine. The contributions, authored by outstanding papyrologists and historians of the ancient medicine, deal with a variety of topics focused on the papyrological evidence of ancient medical texts and contexts. The first part, devoted to "medical texts", contains some new reflections on important sources such as the Anonymus Londinensis and the Hippocratic corpus, as well as on specific themes like the pharmacological vocabulary, the official medical reports, the medical care in the Roman army. The second part collects papers about the "doctors' context", providing highlights from broader viewpoints like the analysis of the writing supports, the study of the ostraka from the Eastern Desert, the evidence of inscriptions and philosophical texts. The third part is entirely focused on the DIGMEDTEXT project itself: the team members present some relevant key issues raised by the digitisation of the medical papyri.
