Cumans and Tatars István Vásáry 2005-03-24 The Cumans and the Tatars were nomadic warriors of the Eurasian steppe who exerted an enduring impact on the medieval Balkans. With this work, István Vásáry presents an extensive examination of their history from 1185 to 1365. The basic instrument of Cuman and Tatar political success was their military force, over which none of the Balkan warring factions could claim victory. As a consequence, groups of the Cumans and the Tatars settled and mingled with the local population in various regions of the Balkans. The Cumans were the founders of three successive Bulgarian dynasties (Asenids, Terterids and Shishmanids) and the Wallachian dynasty (Basarabids). They also played an active role in Byzantium, Hungary and Serbia, with Cuman immigrants being integrated into each country's elite. This book also demonstrates how the prevailing political anarchy in the Balkans in the thirteenth and fourteenth centuries made it ripe for the Ottoman conquest.

Seljuqs Christian Lange 2012-10-03 Despite the many important developments and innovations traceable to the Seljuq period (5th-7th/11th-13th centuries), the Seljuqs remain one of the understudied Muslim dynasties. This unique collaborative exploration of the Seljuqs' achievement contributes to the growing interest in this pivotal dynasty. The various chapters in this volume cover a representative geographical spectrum, from Central Asia and Persia to Iraq, Syria and Anatolia, and address novel questions such as the ideological foundations and ritual expressions of Seljuq power, the mutual attitudes of the learned classes and the Seljuq state, the organization of space, and the relationship between nomads and the settled peoples. The book is divided into three parts: the origins of the Seljuqs, their gradual transformation into a powerful dynasty, and their concepts of political legitimization (part one); the social history of the Seljuq period, particularly with regard to the 'ulama' and the urban populations (part two); developments in religious thought, jurisprudence, belles-lettres and

architecture under the Seljuqs (part three). Key Features*Brings together the work of leading international experts in Seljuq studies including C. E. Bosworth, Massimo Campanini, Carole Hillenbrand, Robert Hillenbrand, Jurgen Paul, Andrew C. S. Peacock and Scott Redford*Critically engages with previous scholarly work on the Seljuqs*Addresses novel questions and challenges in the historiography of the Seljuq period*Pays particular attention to the Seljuqs' formative influence on later socio-political orders

Early Printed Narrative Literature in Western Europe Bart Besamusca 2019-11-05 The essays in this volume are concerned with early printed narrative texts in Western Europe. The aim of this book is to consider to what extent the shift from hand-written to printed books left its mark on narrative literature in a number of vernacular languages. Did the advent of printing bring about changes in the corpus of narrative texts when compared with the corpus extant in manuscript copies? Did narrative texts that already existed in manuscript form undergo significant modifications when they began to be printed? How did this crucial media development affect the nature of these narratives? Which strategies did early printers develop to make their texts commercially attractive? Which social classes were the target audiences for their editions? Around half of the articles focus on developments in the history of early printed narrative texts, others discuss publication strategies. This book provides an impetus for cross-linguistic research. It invites scholars from various disciplines to get involved in an international conversation about fifteenth- and sixteenth-century narrative literature.

Pre-Christian Gnosticism Edwin M. Yamauchi 2003-10-14 One of the most important issues facing New Testament scholarship today is the issue of Gnosticism. So wrote the author in 1973 in the first edition. With the publication since then of the entire Nag Hammadi library, this observation has become even more incisive. Was there a pre-Christian Gnosticism? Did Gnosticism directly or indirectly influence nascent Christianity? Many modern scholars argue that Gnosticism preceded the emergence of New Testament Christianity and constituted the raw material from which the apostles formed their message about Jesus. The author here analyzes the evidence used to support this thesis. He notes a series of methodological fallacies in the use of this evidence and concludes that clearly Gnostic materials are late and pre-Christian materials are not clearly Gnostic. A new chapter in this paperback edition brings the discussion up to date.

Papaconstantinou 2010 The wealth of documentary sources preserved by Egypt's papyri makes the country a privileged observation ground for the study of ancient multilingualism. Papyri capture more linguistic registers than other ancient and medieval sources, ranging as they do from very private documents not meant by their author to be read by future generations, to official documents produced by the administration, which are preserved in their original form. This collection of essays aims to make this wealth better known, as well as to give a diachronic view of multilingual practices in Egypt from the arrival of the Greeks as a political force in the country with Alexander the Great, to the beginnings of Abbasid rule when Greek, and slowly also Coptic, receded from the documentary record.

The Aramaic and Egyptian Legal Traditions at Elephantine Alejandro F. Botta 2009-06-25 This is a study of the interrelationships between the formulary traditions of the legal documents of the Jewish colony of Elephantine and the legal formulary traditions of their Egyptian counterparts. The legal documents of Elephantine have been approached in three different ways thus far: first, comparing them to the later Aramaic legal tradition; second, as part of a self-contained system, and more recently from the point of view of the Assyriological legal tradition. However, there is still a fourth possible approach, which has long been neglected by scholars in this field, and that is to study the Elephantine legal documents from an Egyptological perspective. In seeking the Egyptian parallels and antecedents to the Aramaic formulary, Botta hopes to balance the current scholarly perspective, based mostly upon Aramaic and Assyriological comparative studies.

Europe and China Luís Saraiva 2013 Missionaries, and in particular the Portuguese Assistancy of the Society of Jesus, played a fundamental role in the dissemination of Western

scientific knowledge in East Asia. They also brought to Europe a deeper knowledge of Asian countries. This volume brings together a series of essays analyzing important new data on this significant scientific and cultural exchange, including several in-depth discussions of new sources relevant to Jesuit scientific activities at the Chinese Emperor's Court. It includes major contributions examining various case studies that range from the work of some individual missionaries (Karel Slavíček, Guillaume Bonjour) in Beijing during the reigns of Kangxi and Yongzheng to the cultural exchange between a Korean envoy and the Beijing Jesuits during the early 18th century. Focusing in particular on the relationship between science and the arts, this volume also features articles pertaining to the historical contributions made by Tomás Pereira and Jean-Joseph-Marie Amiot, to the exchange of musical knowledge between China and Europe.

Actualité de la pensée médiévale. Recueil d'articles. Joseph Verheyden 1999 This volume contains the papers presented at the 47th Colloquium Biblicum Lovaniense (Leuven, 1998). The general theme of the meeting was the unity of the Gospel of Luke and the Acts of the Apostles. Main papers on this topic were read by R.L. Brawley, J. Delobel, A. Denaux, J.A. Fitzmeyer, F.W. Horn, J. Kremer, A. Lindemann, O. Mainville, D. Marguerat, F. Neiryck, W. Radl, M. Rese, J. Taylor, C.M. Tuckett, and J. Verheyden. While a large majority of scholars agree that Luke intended his work to cover both the past and the continuing history of Jesus (Gospel and Acts), the essays also illustrate the complexities of this view on the unity of Luke-Acts when it comes to interpret the various aspects of Lukan theology, christology, pneumatology, and ecclesiology, the expansion of the Church in light of its Jewish origins, the genre of Luke-Acts, and the literary and stylistic means Luke used to make his work a unity. In total the volume includes some 40 papers, of which 24 are offered papers: L. Alexander, H. Baarlink, M. Bachmann, D. Bechard, T.L. Brodie, G.P. Carras, A. del Agua, C. Focant, G. Geiger, B.J. Koet, V. Koperski, D.P. Moessner, G. Oegema, J. Pichler, E. Plumacher, A. Puig i Tarrech, U. Schmid, B. Schwank, N. Taylor, P.J. Tomson, S. Van den Eynde, S. Walton, G. Wasserberg, F. Wilk. This collection is an invaluable contribution to current discussions in Lukan study and to a nuanced understanding of the relationship between Luke's two volumes.

This volume contains: - Souverainete territoriale et globalisation des marches: le domaine d'application des lois contre les restrictions de la concurrence, par J. BASEDOW, professeur a l'Universite libre de Berlin. The number of national laws that protect competition against private restrictions are constantly increasing. Their application to trans-boundary situations poses difficult problems for both private international law and public international law. The course deals with both, either with respect to application of the "lex fori" or with respect to application of foreign laws. - Enforcement in the International Context by K.D. KERAMEUS, Professor at the University of Athens. In recent years, enforcement proceedings have gone through a comprehensive reform in many countries. Furthermore, modern enforcement increasingly relies on foreign judgements. The course focuses on three subjects: the comparative element in recent codifications and case-law developments in the area of enforcement: salient and converging trends in the enforcement of foreign judgments on the basis of domestic law or international conventions: and the delimitation of "lex fori" and foreign law during the enforcement proceedings.
