Tropical Africa Henry Drummond 1888

Dances with Devils Jacques Pauw 2011-02-28 For more than a decade, Jacques Pauw has traversed his native continent in pursuit of warlords and drug traffickers, child soldiers and charlatans, adventure and anarchy. What he found was a rich array of personalities and a panoply of stories, ranging from the profoundly tragic to the intensely personal. Pauw's stories range from South Africa to Rwanda, from Sierra Leone and the Sudan to Mozambique. Readers are taken behind the scenes of sensational news reports with compassion, humour and occasional cynicism and emerge in the knowledge that, even if it's true that there is nothing new out of Africa, the writer has found fresh ways to present time-honoured tales of love, life, misery and mortality.

A Modern History of Tanganyika John Iliffe 1979-05-10 The first comprehensive and fully documented history of modern Tanganyika (mainland Tanzania).

Rwanda Phillip Briggs 2018-09-05 Now into its seventh edition and written by Philip Briggs, the world's leading writer of guidebooks to Africa, Bradt's Rwanda has been the go-to guide for visitors to this historical and resurgent 'Land of a Thousand Hills' for nearly two decades, and it continues to be in a class of its own when it comes to in-depth information on this emerald slice of East Africa. With freshly researched and updated details on developments across the country, Bradt's Rwanda includes up-to-date maps of rapidly modernising Kigali, information on hiking to the summit of Mount Bisoke and a newly

expanded chapter on excursions into the neighbouring DRC. In this new edition are extensive and recently updated maps and natural history information, details of kayak and canoe excursions on Lake Kivu and the Mukungwa River, all you need to know about tracking not only mountain gorillas in Rwanda's Volcanoes National Park but also lowland gorillas in the Congo, and information about overnight stays on tea plantations at Sorwathe or Gisovu. Also covered are Nyungwe Forest National Park, where a wealth of endemic birds and primates inhabit the largest surviving montane forest in East Africa; Nyanza, where the hilltop Rukari Palace Museum marks the site of the old mwami's (king's) palace; and the National/Ethnographic Museum of Rwanda, the top cultural site in Rwanda's second city, Huye (Butare). Coverage of nearby cities and national parks in the neighbouring DRC has been expanded since last edition, providing all the necessary information to take an excursion into Rwanda's enormous and poorly understood neighbour. Rwanda continues to change and develop at an unprecedented pace, and there's hardly a more accessible part of Africa to be found anywhere on the continent. It's no less intriguing for the convenience, however, and Rwanda's superlative natural attractions seem to improve by the day, with growing animal populations and an on-going rhino reintroduction program in Akagera National Park. Having now gone through nearly 18 years of editions, Bradt's Rwanda is not only the most in-depth guide available, but also the guide with the longest history in the country itself.

Cycling Home from Siberia Rob Lilwall 2011-04-05 " It is late October, and the temperature is already -40 degrees . . . My thoughts are filled with frozen rivers that may or may not hold my weight; empty, forgotten valleys haunted by emaciated ghosts; and packs of ravenous, merciless wolves." Having left his job as a high-school geography teacher, Rob Lilwall arrived in Siberia equipped only with a bike and a healthy dose of fear. Cycling Home from Siberia recounts his epic three-and-a-half-year, 30,000-mile journey back to England via the foreboding jungles of Papua New Guinea, an Australian cyclone, and Afghanistan's war-torn Hindu Kush. A gripping story of endurance and adventure, this is also a spiritual journey, providing poignant insight into life on the road in some of the world's toughest corners.

Geological Atlas of Africa Thomas Schlüter 2008-04-19 This atlas is intended primarily for anybody who is in some background for the arrangement of how the interested in basic geology of Africa. Its originality lies in the fact that the regional geology of each African country or territory is reviewed country-wise by maps for a fuller appreciation of why this work in Africa is and text, a view normally not presented in textbooks worth doing. Chapter 3 provides an executive summary of regional geology. It is my belief, that there has long been a need in universities and geological surveys, both in Africa and in the developed world, for summarizing geological maps and an accompanying basic alphabetical order each African country or territory text utilising the enormous fund of knowledge that is presented by a digitized geological overview map has been accumulated since the beginning of geological and an accompanying text on its respective stratigraphical research in Africa in the mid-19th century. I hope that, in part, the present atlas may satisfy this need. A short list of relevant references is also added.

Zoogeography of Arachnida Petar Beron 2018-07-27 This volume merges all geographical and paleogeographical data on all groups of the arachnofauna. The book features topics such as the ecological factors, climate and other barriers that influence the distribution of arachnida. It also elaborates on the characteristics of the distribution such as arachnida at high altitude (e.g. Himalaya), in caves, in polar regions and highlights differences between the arachnofauna of e.g. Mediterranean regions vs Central Europe, West African vs Indomalayan and more. Furthermore, amongst other topics the volume also includes chapters on the systems of arachnida, fossil orders, dispersal and dispersion, endemics and relicts, regional arachnogeography, cave and high altitude arachnida.

From War to Genocide André Guichaoua 2015-12 In April 1994 Rwanda exploded in violence, with political, social, and economic divisions most visible along ethnic lines of the Hutu and Tutsi factions. The ensuing killings resulted in the deaths of as much as 20 percent of Rwanda's population. André Guichaoua, who was present as the genocide began, unfolds a complex story with multiple actors, including three major political parties that each encompassed a spectrum of positions, all reacting to and influencing a rapidly evolving situation. Economic polarities, famine-fueled privation, clientelism, corruption, north-south rivalries, and events in the neighboring nations of Burundi and Uganda all deepened ethnic tensions, allowing extremists to prevail over moderates. Guichaoua draws on years of meticulous research to describe and analyze this history. He emphasizes that the same virulent controversies that fueled the conflict have often influenced judicial, political, and diplomatic responses to it, reproducing the partisan cleavages between the former belligerents and implicating state actors, international institutions, academics, and the media. Guichaoua insists upon the imperative of absolute intellectual independence in pursuing the truth about some of the gravest human rights violations of the twentieth century.

Family Law Reimagined Jill Elaine Hasday 2014-06-16 This is the first book to explore the canonical narratives, stories, examples, and ideas that legal decisionmakers invoke to explain family law and its governing principles. Jill Elaine Hasday shows how this canon misdescribes the reality of family law, misdirects attention away from actual problems family law confronts, and misshapes policies.

What Happens After Mugabe? Geoff Hill 2005 After 25 years in power, Robert Mugabe is under increasing pressure to step down and allow democratic reform in Zimbabwe. Amnesty International rates the country among the worst for torture and abuse of human rights, the Commonwealth has suspended Zimbabwe's membership, and even in Africa there is growing outrage at what some see as a rogue state. In the past five years, millions of words have been written about the tragedy -- including more than a dozen books -- but few have focused on what might happen when freedom comes. As things stand, schools and hospitals have collapsed, a third of the population lives in exile and 3 000 people die of AIDS every week. Once Africa's second-biggest exporter of food, 70 per cent of the country lives under conditions of famine in the wake of violent land reform. What will it take to rebuild Zimbabwe? This gripping, incisive book discusses many relevant issues and asks serious questions, including: - Will 4 million exiles go home to a country with 80 per cent unemployment? - Should there be war-crimes trials? - Can the economy be revived? -Where will the billions of dollars come from that are needed to put things right? *What Happens After Mugabe* is meticulously researched, with material drawn from hundreds of interviews inside Zimbabwe and among exile communities in Britain, the US and South Africa.

King of the Wa-Kikuyu C.W.L. Bulpett 2012-11-12 This is an account of the "adventures" of a Yorkshireman, his early life as a sailor, participation in the Matabele War, and his largely successful attempts to unite the Kikuyu tribe. It was first published in 1911.

Ruanda - Reiseführer von Iwanowski Heiko Hooge 2020-01-07 Sanfte Hügel zu Füßen majestätischer Vulkane prägen die Landschaft Ruandas. Die Schönheit der Natur zeigt sich von den Ufern des Kivu-Sees über den grünen Nyungwe-Regenwald mit seinen zahlreichen Wasserfällen bis zum atemberaubenden Panorama der Virunga-Vulkane im Volcanoes National Park mit seinen berühmten Bewohnern: Seit dem Wirken der amerikanischen Zoologin und Verhaltensforscherin Dian Fossey gilt Ruanda als das Land der Berggorillas und gehört heute zu den Top-Destinationen für Gorilla-Tracking. Im Kontrast dazu stehen die Savannen des Akagera-Nationalparks an der Grenze zu Tansania - Lebensraum großer Wildtierherden. Reisende, die das "Land der tausend Hügel", wie Ruanda gerne genannt wird, besuchen, erleben eine Region noch abseits des Massentourismus. Trotz positiver Entwicklung entspricht die touristische Infrastruktur noch nicht überall denen anderer afrikanischer Urlaubsziele, was die Freundlichkeit und die Hilfsbereitschaft der Bewohner wieder ausgleichen. Der einzige deutschsprachige Reiseführer zu Ruanda beschreibt die zahlreichen Primaten-Trackingangebote mit allen wichtigen Infos wie Anreise, Buchung, Kosten und Ausrüstung. Die empfohlenen Touren führen durch das ganze Land und können auch mit öffentlichen

Verkehrsmitteln bewältigt werden. - Extra-Kapitel zum Nachbarland Burundi - Tipps zum Gorilla- & Schimpansen-Tracking - Mit Karten-Download

Red Tape and White Knuckles Lois Pryce 2013-02-18 To most thirty-something women, walking across the street to get a skinny latte and the latest copy of heat in excruciating high heels is an all-terrain task in itself. But Lois Pryce isn't just any woman - nine to five and post-work white wine spritzers have never been her thing. Unafraid of a challenge - having already ridden her motorbike from Alaska to the southernmost tip of South America - she decided she could never be one to settle for a last minute package holiday in Viva Espana. So, she began the kind of adventure most of us could only ever dream of.

Geology of East Africa Thomas Schluter 1997 This new volume on the Geology of East Africa provides a concise account of the multi-faceted regional geology and stratigraphy of East Africa, that is Kenya, Tanzania and Uganda. Much of the data presented, however, is highly relevant to the surrounding countries and regions as well. Professionals and students, intending to delve into the details of the geological history of that region will appreciate the present volume as a stepping-stone, paving the way to additional studies of the numerous references given in this work.

The Sacred Matrix Dieter Duhm 2008-04-01 About the book: Is there a possibility left to put a stop to the global violence and to start a globalisation of peace? The answer offered in this book is: Yes, the dream of peace may become true. And that's serious: Acting on the assumption of the most recent scientific realisations the author develops the concept of a global peace force that initially comes from a few points on earth, Healing Biotopes, and that is able to change the existing system in a future orientated way. "In the field building of evolution it is not the right of the fittest that counts, but the success of the most comprehensive," is one of his assumptions. The transition from the matrix of violence to the Sacred Matrix of peace does not act on the logic of a power struggle, but on a change of program that is possible to

conduct in every moment. Healing Biotopes are self-sufficient future communities, "greenhouses of trust," "acupuncture points of peace." They are centres in which post-capitalist technology is connected with ecology and social know-how. The author has been working with his team on the construction of the first prototype for more than 25 years.
