Hardly had the plans to recreate the bombed-out old city between the cathedral and the city hall of the Römer been drafted when the criticism began. And yet, today native Frankfurters cannot curb their enthusiasm. Around the Hühnermarkt, by now one of the most attractive squares in the city, a new world has grown, which with its pubs, stores, and even a barber shop has not only become a magnet for tourism. It is as if, next to a new heart, Frankfurt's centre city has also received a new soul. This lushly illustrated volume recounts the exciting history of the Römerberg, gives a summary of the various debates surrounding its reconstruction, and takes the reader along on a tour of one of the most beautiful and important buildings in the new district.

This bibliography attempts to inventory the contrastive studies concerning the two languages including questions of interference, theory and practice of translation and didactics. The bibliography concerns not only researchers, teachers and students at university, but also practicing teachers in schools and adult education, who are interested in an overview of this linguistic discipline (language teachers, teacher trainers etc.).

Black Earth Jens Mühling 2019-10-19 "Will someone pay for the spilled blood? No. Nobody." When Mikhail Bulgakov composed this dark and prophetic phrase in Kiev amid the turmoil of the Russian civil war, the political troubles of his native Ukraine were well underway, but far from over. In *Black Earth: A Journey through the Ukraine*, journalist and celebrated travel writer Jens Mühling takes readers across the country during its most recent political crises: the ousting of former president Viktor Yanukovich and the Russian annexation of Crimea. In the midst of this turmoil, Mühling delves deep into daily life in Ukraine, narrating his encounters with Ukrainian nationalists and old communists, Crimean Tatars and Cossacks, smugglers and soldiers, all of whose views could hardly be more different. *Black Earth* connects all these stories to convey an unconventional and unfiltered view of Ukraine, a country at the crossroads of Europe and Asia and the center of countless conflicts of opinion—and of arms.

Friedrich Rosen Amir Theilhaber 2020-09-07 The German lacuna in Edward Said's 'Orientalism' has produced varied studies of German cultural and academic Orientalisms. So far the domains of German politics and scholarship have not

been conflated to probe the central power/knowledge nexus of Said's argument. Seeking to fill this gap, the diplomatic career and scholarly-literary productions of the centrally placed Friedrich Rosen serve as a focal point to investigate how politics influenced knowledge generated about the "Orient" and charts the roles knowledge played in political decision-making regarding extra-European regions. This is pursued through analyses of Germans in British imperialist contexts, cultures of lowly diplomatic encounters in Middle Eastern cities, Persian poetry in translation, prestigious Orientalist congresses in northern climes, leveraging knowledge in high-stakes diplomatic encounters, and the making of Germany's Islam policy up to the Great War. Politics drew on bodies of knowledge and could promote or hinder scholarship. Yet, scholars never systemically followed empire in its tracks but sought their own paths to cognition. On their own terms or influenced by "Oriental" savants they aligned with politics or challenged claims to conquest and rule.

Language and Change in the Arab Middle East Ami Ayalon 1987 Middle Eastern society experienced sudden and profound change in the 19th century under the impact of European expansion and influence. But as Western ideas about politics, technology, and culture began to infiltrate Arab society, the old language proved to be an inadequate vehicle for transmitting these alien concepts from abroad. In this study of the rise of modern Arabic, Ayalon examines 19th-century linguistic change in the Eastern Arab world as a mirror of changing Arab perceptions and responses to the West as well as a guide to the emergence of modern Arabic concepts, institutions, and practices. Focusing on the realm of political discourse, Ayalon looks at a wide array of evidence-- local chronicles, travel accounts, translations of European writings, Arab political treatises, newspapers and periodicals, and dictionaries--to show how shifts in the color, tone, and meaning of the Arab vocabulary reflected a new socio-political and cultural reality.

Language in Time Peter Auer 1999-08-26 The authors here promote the reintroduction of temporality into the description and analysis of spoken interaction. They argue that spoken words are, in fact, temporal objects and that unless linguists consider how they are delivered within the context of time, they will not capture the full meaning of situated language use. Their approach is rigorously empirical, with analyses of English, German, and Italian rhythm, all grounded in sequences of actual talk-in-interaction.

The Passion of Max Von Oppenheim Lionel Gossman 2013-01 Born into a prominent German Jewish banking family, Baron Max von Oppenheim (1860-1946) was a keen amateur archaeologist and ethnologist. His discovery and excavation of Tell Halaf in Syria marked an important contribution to knowledge of the ancient Middle East, while his massive study of the Bedouins is still consulted by scholars today. He was also an ardent German patriot, eager to support his country's pursuit of its "place in the sun." Excluded by his part-Jewish ancestry from the regular diplomatic service, Oppenheim earned a reputation as "the Kaiser's spy" because of his intriguing against the British in Cairo, as well as his plan, at the start of the First World War, to incite Muslims under British, French and Russian rule to a jihad against the colonial powers. After 1933, despite being half-Jewish according to the Nuremberg Laws, Oppenheim was not persecuted by the Nazis. In fact, he placed his knowledge of the Middle East and his connections with Muslim leaders at the service of the regime. Ranging widely over many fields - from war studies to archaeology and banking history - 'The Passion of Max von Oppenheim' tells the gripping and at times unsettling story of one part-Jewish man's passion for his country in the face of persistent and, in his later years, genocidal anti-Semitism.

111 Places in Berlin That You Shouldn't Miss Lucia Jay von Seldeneck 2014-06 In Berlin, the city divided after World War II, everybody knows about the Brandenburg Gate, Hitler's bunker, Kennedy's speech, red and green beer, splendidly broad boulevards, and numerous lakes. But this metropolis, once again the capital of Germany, encompasses many clandestine niches characteristic of a heterogeneous city without a beginning and without an end between its famous backyards, nature parks, and bridges. It is often these miniscule witnesses that tell authentic history. Besides the larger attractions, this unusual guide presents Berlin's other side - such as a tower so ugly that no-one wants to open a restaurant in it; a library offering its books in the trunks of living trees; the monument for the inventor of the currywurst; a residential settlement in a former East German prison; the place where the Nazis concealed the so-called "degenerate art" which they had confiscated; the house where David Bowie lived; an automat out of which maggots can be pulled; a museum for things used for purposes for which they were not created; the reception camp for refugees from East Germany - and, in a

completely unexpected spot, the most romantic place in Berlin.
