A Secondhand Lie Pamela Crane 2018-04-01 Sometimes you know things you're not supposed to know. Things that you can never un-know. Things that will change the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the "Triangle Terror" ... and then forgot about her. But I never forgot—my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a cold February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington—deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon's preteen sister, Alexis, is murdered in their home, plunging Landon's life into further despair. Two decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister's murder? And so begins Landon's journey to piece together the puzzle of secrets, lies, and truths that can free his father, avenge his sister, and perhaps save himself. A short story mystery perfect for fans of Robert Dugoni's *Third Watch* and Dean Koontz's *The Neighbor*. Read as a standalone or as the companion book to *A Secondhand Life*.

Tourism Management Clare Inkson 2022-09-14 This introductory text provides readers with a robust understanding of tourism and its industries, including how destinations are developed, marketed and managed, and how tourism impacts communities, environments and economies. The authors discuss the critical issues affecting 21st century tourism, such as sustainability, the climate crisis, globalisation, community, technology, the environment and the sharing economy. The text has been fully updated in light of the Covid-19 pandemic and its notable, and in some cases lasting, impacts on the tourism industry. The text features new mini-case studies (snapshots) and international case studies from countries around the globe including USA, Saudi Arabia, India, China, New Zealand, Australia, Namibia and the UK. It discusses the latest trends in transport, hospitality, attractions and the travel trade and includes examples from major tourism companies including Trip.com, TUI and Airbnb. The book is suitable for students who are starting their tourism studies as part of their college or university education. Clare Inkson is a Senior Lecturer in Tourism and Course Leader of BA Tourism with Business at the University of Westminster, London. Lynn Minnaert is the Academic Director and Clinical Associate Professor at New York University's Jonathan M. Tisch Center for Hospitality and Tourism.

Terrace VI Sarah L Johnson 2021-07-07 Welcome to the Sixth Terrace of Dante's tower of Purgatory, serving up sins of gluttony in an eternal banquet. On this carefully curated menu you'll find children stuffing themselves to death, a forgotten saviour gorging on cheeseburgers between bareknuckle rounds on the roadhouse circuit, wealthy socialites revel in an orgiastic alien feast, and the end of days as seen through an apocalyptic carnival of indulgence. Excessive consumption also manifests in darker hungers, for cruelty, for distraction, or possession. A pair of grifters bent on having it all chase a Scottish leprechaun across the English countryside, a newly deceased addict vies for the attention of Heavenly Higher Ups, degenerate poker players gamble with unforeseen currency, and when an old lady swallows a fly, it's just the beginning... Featuring nine stories of grotesque appetite and glorious excess from a gory gaggle of creators, they say too much of anything is poison, yet these condemned swallow each piece of forbidden fruit while reaching for the next, never to be sated. They can't help themselves. Can you? Stories and art by: Mike Thorn (Darkest Hours, Shelter for the Damned) Robin van Eck (Rough) Eddie Generous (Camp Summit, What Lurks Beneath, Behemoth Rising) Julie Hiner (Final Track) Konn Lavery (Mental Damnation Series, Rutherford Manor Series) Cam Hayden (Futility, Red Flag) Sarah L. Johnson (Suicide Stitch, Infractus) Robert Bose (Fishing with the Devil)

Heidegger and Modernity Luc Ferry 1990 "Heidegger and Modernity is an intervention in the Heidegger debate in France which many may see as decisive. Its central claim is that the responses of left Heideggerians to continuing disclosures regarding Heidegger's Nazi affiliations fail to come to terms with central ambiguities in his philosophical responses, both early and late, to modernity and technology. . . . Incisive and hard hitting, Luc Ferry and Alain Renault have condensed in a short and tightly organized book both a judicious and well-informed account of the Heidegger question and an implicit defence of humanism which has a strong political resonance."—Liam O'Sullivan, Political Studies

Neural Networks for Beginners Russel R Russo 2019-11-06 Do you want to understand Neural Networks and learn everything about them but it looks like it is an exclusive club? Are you fascinated by Artificial Intelligence but you think that it would be too difficult for you to learn? If you think that Neural Networks and Artificial Intelligence are the present and, even more, the future of technology, and you want to be part of it... well you are in the right place, and you are looking at the right book. If you are reading these lines you have probably already noticed this: Artificial Intelligence is all around you. Your smartphone that suggests you the next word you want to type, your Netflix account that recommends you the series you may like or Spotify's personalised playlists. This is how machines are learning from you in everyday life. And these examples are only the surface of this technological revolution. Either if you want to start your own AI enterprise, to empower your business or to work in the greatest and most innovative companies, Artificial Intelligence is the future, and Neural Networks programming is the skill you want to have. The good news is that there is no exclusive club, you can easily (if you commit, of course) learn how to program and use neural networks, and to do that Neural Networks for Beginners is the perfect way. In this book you will learn: The types and components of neural networks The smartest way to approach neural network programming Why Algorithms are your friends The "three Vs" of Big Data (plus two new Vs) How machine learning will help you making predictions The three most common problems with Neural Networks and how to overcome them Even if you don't know anything about programming, Neural Networks is the perfect place to start now. Still, if you already know about programming but not about how to do it in Artificial Intelligence, neural networks are the next thing you want to learn. And Neural Networks for Beginners is the best way to do it. Download Neural Network for Beginners now to get the best start for your journey to Artificial Intelligence. Globality Hal Sirkin 2008-06-11 Globalization is about Americans outsourcing product development and services to other countries. Globality is the next step, where rapidly developing economies from around the world are now competing with us head to head. The authors present a strong case that the economic climate in which we have lived is going to change in unprecedented ways. "...their insights into the competitive battle in emerging markets are so keen." -William J. Holstein of The New York Times "Many American chief executives, it turns out, are aiming at emerging markets...And they will find many insights into prevailing in those battles in this book." -William J. Holstein of The New York Times "...for any corporate strategist pondering the challenges and opportunities of globalization, this book is an indispensable guide." -John Cummings of Business Finance "While the global economy has been a hot topic for at least two decades, it is in constant need of updating ...GLOBALITY...does the job nicely." - BNET "[This] vividly detailed tome describes the latest shift in globalization from a one-way street of Western domination to an increasingly competitive global playing field, where businesses from once-discounted nations are solidifying their standing." - CIO Insight "Whatever the next New World Order turns out to be, the advice in GLOBALITY will come in useful, for multinationals and individual

workers alike." -Business Pundit "A smart discourse on how local companies in developing economies, such as China, India and Brazil, are bucking tradition and going for broke on their own terms..." -BNET "This book is a must-read for leaders of companies in the developed world who want to get into the globality act and stay in it." - Cecil Johnson, McClatchy-Tribune News "Get ready for a new wave of challengers, 'bursting their way onto the big stage.' So say the three authors of this smart analysis about the latest developments in global competition" - Andrea Sachs of TIME

A Summer Life Gary Soto 1991-08-01 Gary Soto writes that when he was five "what I knew best was at ground level." In this lively collection of short essays, Soto takes his reader to a ground-level perspective, resreating in vivid detail the sights, sounds, smells, and textures he knew growing up in his Fresno, California, neighborhood. The "things" of his boyhood tie it all together: his Buddha "splotted with gold," the taps of his shoes and the "engines of sparks that lived beneath my soles," his worn tennies smelling of "summer grass, asphalt, the moist sock breathing the defeat of basesall." The child's world is made up of small things--small, very important things.

Internal Combustion Engines Institution of Mechanical Engineers 2014-10-10 This book presents the papers from the Internal Combustion Engines: Performance, fuel economy and emissions held in London, UK. This popular international conference from the Institution of Mechanical Engineers provides a forum for IC engine experts looking closely at developments for personal transport applications, though many of the drivers of change apply to light and heavy duty, on and off highway, transport and other sectors. These are exciting times to be working in the IC engine field. With the move towards downsizing, advances in FIE and alternative fuels, new engine architectures and the introduction of Euro 6 in 2014, there are plenty of challenges. The aim remains to reduce both CO2 emissions and the dependence on oil-derivate fossil fuels whilst meeting the future, more stringent constraints on gaseous and particulate material emissions as set by EU, North American and Japanese regulations. How will technology developments enhance performance and shape the next generation of designs? The book introduces compression and internal combustion engines' applications, followed by chapters on the challenges faced by alternative fuels and fuel delivery. The remaining chapters explore current improvements in combustion, pollution prevention strategies and data comparisons. presents the latest requirements and challenges for personal transport applications gives an insight into the technical advances and research going on in the IC Engines field provides the latest developments in compression and spark ignition engines for light and heavy-duty applications, automotive and other markets

Read & Riot Nadya Tolokonnikova 2018-10-09 "Stylish, striking, and elegantly packaged...as indispensable to confronting, say, your domineering mother-in-law or your local city council as it is to helping foment an ongoing and ever-escalating insurrection against, say, a sexist, racist, nepotistic power-mad oligarchy threatening to destroy democracy as we know it...My advice: Buy one"--VOGUE From artist, activist, and Pussy Riot founder Nadya Tolokonnikova, a guerilla guide to radical protest and joyful political resistance The face of modern protest is wearing a brightly colored ski mask. Nadya Tolokonnikova, founding member of the Russian activist group Pussy Riot, is a creative activist, professional protestor, brazen feminist, shocking visual artist, and force to be reckoned with. Her spontaneous, explosive approach to political action has involved jumping over barbed wire, kissing police officers, giving guerilla performances in crowded subway cars, and going on a hunger strike to protest the abuse of prisoners. She's been horse-whipped by police in Sochi, temporarily blinded when officers threw green paint in her eyes, and monitored by the Russian government. But what made Nadya an activist icon overnight happened on February 21, 2012, when she was arrested for performing an anti-Putin protest song in a Moscow church. She was sent to a Russian prison for 18 months and emerged as an international symbol of radical resistance, as calls to "Free Pussy Riot" resounded around the world. With her emblematic ski mask, black lipstick, and unwavering bravery, Nadya has become an emissary of hope and optimism despite overwhelming and ugly political corruption. *Read & Riot* is structured around Nadya's ten rules for revolution (Be a pirate! Make your government shit its pants! Take back the joy!) and illustrated throughout with stunning examples from her extraordinary life and the philosophies of other revolutionary rebels throughout history. Rooted in action and going beyond the typical "call your senator" guidelines, *Read & Riot* gives us a refreshing model for civil disobedience, and encourages our right to question every status quo and make political action exciting—even joyful.

Fallocaust Quil Carter 2014-07-09 Over two hundred and thirty years ago the Fallocaust happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaust. He is a product of the savage world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.
