Crediting Poetry Seamus Heaney 2014-01-13 Seamus Heaney's Nobel Lecture, captured here in *Crediting Poetry*, is a powerful defense of poetry as "the ship and the anchor" of our spirit within an ocean of violent, divisive politics and "world-sorrow." Beginning with the "creaturely existence" of his childhood in a thatched farmstead in rural County Derry, Heaney traces his path in "the wideness of language." It is a way forged by listening: to the "burbles and squeaks" of BBC and Radio Eireann from a wireless speaker, to the triple-rhyme in a line of Yeats', but also to the sound of gunfire in Ulster and the keening desolation of all the "wounded spots on the face of the earth." Out of all these sounds Heaney discovers the necessity of poetic order--"an order where we can at last grow up to that which we stored up as we grew." It is poetry's ability to convey the forces of the marvelous and the murderous together, Heaney writes, that gives it "at once a buoyancy and a holding," and persuades us of its "truth to life." Heaney's lecture not only finds a way of crediting poetry "without anxiety or apology," but it persuades us, eloquently and gracefully, of the "rightness" and "thereness" of our veritable human being.

Finders Keepers Seamus Heaney 2014-02-04 Whether autobiographical, topical, or specifically literary, these writings circle the central preoccupying questions of Seamus Heaney's career: "How should a poet properly live and write? What is his relationship to be to his own voice, his own place, his literary heritage and the contemporary world?" Along with a selection from the poet's three previous collections of prose (Preoccupations, The Government of the Tongue, and The Redress of Poetry), the present volume includes Heaney's finest lectures and a rich variety of pieces not previously collected in volume form, ranging from short newspaper articles to radio commentaries. In its soundings of a wide range of poets -- Irish and British, American and Eastern European, predecessors and contemporaries -- Finders Keepers is, as its title indicates, "an announcement of both excitement and possession."

Stepping Stones Dennis O'Driscoll 2010-03-30 Widely regarded as the finest poet of his generation, Seamus Heaney is the subject of numerous critical studies, but no book-length portrait has appeared before now. Through his own lively and eloquent reminiscences, Stepping Stones retraces Heaney's steps from his first exploratory testing of the ground as an infant to what he called his "moon-walk" to the podium to receive the 1995 Nobel Prize in Literature. It also fascinatingly charts his post-Nobel life and is supplemented with a number of photographs, many from the Heaney family album and published here for the first time. In response to firm but subtle questioning from Dennis O'Driscoll, Heaney sheds a personal light on his work (poems, essays, translations, plays) and on the artistic and ethical challenges he faced during the dark years of the Ulster Troubles. Combining the spontaneity of animated conversation with the considered qualities of the best autobiographical writing, Stepping Stones provides an original, diverting, and absorbing store of reflections and recollections. Scholars and general readers alike are brought closer to the work, life, and creative development of a charismatic and lavishly gifted poet whose latest collection, District and Circle, was awarded the T. S. Eliot Prize for Poetry in 2006.

Electric Light Seamus Heaney 2014-01-13 A powerful new collection by the bestselling translator of Beowulf. In the finland of perch, the fenland of alder, on air That is water, on carpets of Bann stream, on hold In the everything flows and steady go of the world. --from "Perch" Seamus Heaney's new collection travels widely in time and space, visiting the sites of the classical world and revisiting the poet's childhood: rural electrification and the light of ancient evenings are reconciled within the orbit of a single lifetime. This is a book about origins (not least, the origins of words) and oracles: the places where things start from, the ground of understanding -- whether in Arcadia or Anahorish, the sanctuary at Epidaurus or the Bann valley in County Derry. Electric Light ranges from short takes to conversation poems. The pre-Socratic wisdom that everything flows is held in tension with the elegizing of friends and fellow poets. These gifts of recollection renew the poet's calling to assign things their proper names; once again Heaney can be heard extending his word hoard and roll call in this, his eleventh collection.

The Virgilian Tradition Jan M. Ziolkowski 2008-01-01 This indispensable anthology gathers texts and translations that cover major aspects of the Virgilian tradition from the Roman poet's own lifetime to the year 1500. Unprecedented in scope, the book presents a vast compendium of materials that illuminate how poets, teachers, students, and common folk responded to Virgil and his poetry. The volume offers a brief commentary on each text, many of which are translated into English for the first time. The book begins with a chronological survey of Virgil's influence upon writers from Augustan Rome to Renaissance Italy. There follow detailed reviews of biographies of Virgil, of how his writings were received and used, and of how the poet was envisaged and explained through the centuries. The final section focuses on the tradition of legends associated with Virgil.

Irish Classics Declan Kiberd 2001 A celebration of the tenacious life of the enduring Irish classics, this book by one of Irish writing's most eloquent readers offers a brilliant and accessible survey of the greatest works since 1600 in Gaelic and English, which together have shaped one of the world's most original literary cultures. In the course of his discussion of the great seventeenth- and eighteenth-century Gaelic poems of dispossession, and of later work in that language that refuses to die, Declan Kiberd provides vivid and idiomatic translations that bring the Irish texts alive for the English-speaking reader. Extending from the Irish poets who confronted modernity as a cataclysm, and who responded by using traditional forms in novel and radical ways, to the great modern practitioners of such paradoxically conservative and revolutionary writing, Kiberd's work embraces three sorts of Irish classics: those of awesome beauty and internal rigor, such as works by the Gaelic bards, Yeats, Synge, Beckett, and Joyce; those that generate a myth so powerful as to obscure the individual writer and unleash an almost superhuman force, such as the Cuchulain story, the lament for Art O'Laoghaire, and even Dracula; and those whose power exerts a palpable influence on the course of human action, such as Swift's *Drapier's Letters*, the speeches of Edmund Burke, or the autobiography of Wolfe Tone. The book closes with a moving and daring coda on the Anglo-Irish agreement, claiming that the seeds of such a settlement were sown in the works of Irish literature. A delight to read throughout, *Irish Classics* is a fitting tribute to the works it reads so well and inspires us to read, and read again.

Homer in the Twentieth Century Barbara Graziosi 2010-07-29 This collection of essays explores the crucial place of Homer in the shifting cultural landscape of the twentieth century. It argues that Homer was viewed both as the founding father of the Western literary canon and as sharing important features with poems, performances, and traditions which were often deemed neither literary nor Western: the epics of Yugoslavia and sub-Saharan Africa, the keening performances of Irish women, the spontaneous inventiveness of the Blues. The book contributes to current debates about the nature of the Western literary canon, the evolving notion of world literature, the relationship between orality and the written word, and the dialogue between texts across time and space. *Homer in the Twentieth Century* contends that the Homeric poems play an important role in shaping those debates and, conversely, that the experiences of the twentieth century open new avenues for the interpretation of Homer's much-travelled texts.

The World of Geoffrey Keating Bernadette Cunningham 2004 Geoffrey Keating's *Foras Feasa ar Eirinn* was among the most popular and influential histories ever written. It offered a sense of Ireland, of Irishness, and of Catholicism that had wide appeal. The work has long been valued for its mastery of the Irish language and its attractive literary style, yet its significance as history has been ignored. This innovative book, now available in paperback, evaluates Keating's role as both historian and theologian, providing an imaginative interdisciplinary analysis of the entire range of Keating's writing and of the social circumstances and intellectual influences that moulded his world. The world of scribes, translators, publishers and readers of Keating's works are part of this historiographical assessment of how ideas were transmitted to later generations. Geoffrey Keating's intellectual legacy in influencing perceptions of Irishness has been profound, not least as the popularizer of the idea of a 'special relationship' between Catholicism and Irishness. This is an

important, original study of the cultural, social and intellectual world of Ireland's most influential seventeenth-century writer.

Seamus Heaney Henry Hart 1993-10-01 Seamus Heaney, widely considered the most gifted living poet in Ireland and Britain, is the first Irish poet since Yeats to gain an international reputation. In this remarkable study, Henry Hart discusses Heaney's poems, his creative and personal situations, and his assimilation of contemporary literary theory. From Heaney's Ulster background to poetic influences as diverse as Dante and Wordsworth, Yeats and Bly, Hart offers sophisticated, lucid insights. Hart argues that the best way into Heaney's poetic world is in seeking to understand him—as with Blake and Yeats—in terms of oppositions and conflicts, progressions and syntheses. At the root of all his work is a multifaceted argument with himself, with others, with sectarian Northern Ireland, with his Anglo-Irish heritage, with his Roman Catholicism, and with his Nationalist upbringing on a farm in County Derry. For each volume of poems, from *Door into the Dark* to *The Haw Lantern*, Hart identifies and works with a specific problem in the text, while developing its intellectual and creative implications. He covers aspects as diverse as Heaney's incorporation of antipastoral attitudes in his poems, his fascination with how etymology recapitulates ancient and modern history, and apocalypticism in North. Placing his trust in art's ability to confront conflicts between freedom and responsibility, between private craft and public involvement, Heaney is shown nonetheless to chastise himself for failing to have a greater impact on the situation he left behind in Northern Ireland. In pursuing the literary, religious, and political themes in his books of poetry, Hart shows that Heaney is no provincial bard, as some critics have suggested, but is as intellectually informed and astute as any postmodernist writer. Any reader of Seamus Heaney's poetry, and any poet, poetry scholar, critic of contemporary poetry, or student of Irish literature will gain much from reading this book.
