Life Behind the Lobby Pawan Dhingra 2012-04-25 Indian Americans own about half of all the motels in the United States. Even more remarkable, most of these motel owners come from the same region in India and—although they are not all related—seventy percent of them share the surname of Patel. Most of these motel owners arrived in the United States with few resources and, broadly speaking, they are self-employed, self-sufficient immigrants who have become successful—they live the American dream. However, framing this group as embodying the American dream has profound implications. It perpetuates the idea of American exceptionalism—that this nation creates opportunities for newcomers unattainable elsewhere—and also downplays the inequalities of race, gender, culture, and globalization immigrants continue to face. Despite their dominance in the motel industry, Indian American moteliors are concentrated in lower- and mid-budget markets. *Life Behind the Lobby* explains Indian Americans' simultaneous accomplishments and marginalization and takes a close look at their own role in sustaining that duality.

**Focus on the Future** Tim Clinton 2021-10 FOREWORD BY JAMES DOBSON The future is bright, victories are destined, and great things await the faithful who prepare. This book will equip you to protect your family, your society, and your convictions in a world that increasingly challenges your Christian faith. Tim Clinton an eminent American counselor and associate of the revered James Dobson, believes this moment in American history is a reprieve. It is a moment to take stock. It is a moment to prepare. It is a moment to focus on the

future. We must know the season we are in and prepare to maximize our opportunities as we engage in the cultural battles that are sure to befall us. In his stirring new book, *Focus on the Future*, Clinton provides a learned overview of our embattled liberties, the intents of our Founding Fathers, and the heroic efforts of individuals such as Dobson to preserve those intentions. Clinton arms readers for the days ahead by tackling topics such as the following: The new war on the American family and how we can change America one family at a time The power of righteous masculinity and the forces determined to destroy it The battle against abortion How neuroscience is changing our approach to healing the traumatized, our veterans, and our society as a whole Clinton is not just a wise counselor. He is also a warrior summoning other warriors to their great cause. He challenges readers by chronicling the global persecution of the Christian faith and by telling believers how they can make a difference. *Focus on the Future* is both a culmination of decades of learning and activism as well as a cutting-edge response to today's events. We can indeed have vital families in a thriving nation and see righteousness pervade our land.

**Colleges that Change Lives** Loren Pope 1996 The distinctive group of forty colleges profiled here is a well-kept secret in a status industry. They outdo the Ivies and research universities in producing winners. And they work their magic on the B and C students as well as on the A students. Loren Pope, director of the College Placement Bureau, provides essential information on schools that he has chosen for their proven ability to develop potential, values, initiative, and risk-taking in a wide range of students. Inside you'll find evaluations of each school's program and personality to help you decide if it's a community that's right for you; interviews with students that offer an insider's perspective on each college; professors' and deans' viewpoints on their school, their students, and their mission; and information on what happens to the graduates and what they think of their college experience. Loren Pope encourages you to be a hard-nosed consumer when visiting a college, advises how to evaluate a school in terms of your own needs and strengths, and shows how the college experience can enrich the rest of your life.

*Law for Non-Law Students* Keith Owens 2001-10-30 *Law for Non-Law Students* is written in a clear and readable style and aims to make the law understandable for readers at undergraduate or comparable level. It explains the practical influences under which the law has been formed, so that the student will be better able to understand why the law has developed in the way that it has. It gives lots of straightforward examples as to how the law works in practice and aims to equip students with the ability to appraise the effectiveness of the law in a particular circumstance rather than simply providing a list of rules for the student to regurgitate at exam time. The facts of the more important cases are given in some detail to enable the student to appreciate the range of factors which the court may have taken into account in reaching its decision.

The new edition has been updated to take account of all recent developments, both in relation to statute and to case law. Certain chapters, particularly in the area of sale of goods, have been substantially rewritten and expanded in an attempt to give more detail, while at the same time remaining student-friendly. New chapters on Agency and Negligence have been added. This new edition should be suitable for most courses which have a law element.

**New York, New York, New York** Thomas Dyja 2021-03-16 A New York Times Notable Book A lively, immersive history by an award-winning urbanist of New York City's transformation, and the lessons it offers for the city's future. Dangerous, filthy, and falling apart, garbage piled on its streets and entire neighborhoods reduced to rubble; New York's terrifying, if liberating, state of nature in 1978 also made it the capital of American culture. Over the next thirty-plus years, though, it became a different place-kinder and meaner, richer and poorer, more like America and less like what it had always been. New

York, New York, New York, Thomas Dyja's sweeping account of this metamorphosis, shows it wasn't the work of a single policy, mastermind, or economic theory, nor was it a morality tale of gentrification or crime. Instead, three New Yorks evolved in turn. After brutal retrenchment came the dazzling Koch Renaissance and the Dinkins years that left the city's liberal traditions battered but laid the foundation for the safe streets and dotcom excess of Giuliani's Reformation in the '90s. Then the planes hit on 9/11. The shaky city handed itself over to Bloomberg who merged City Hall into his personal empire, launching its Reimagination. From Hip Hop crews to Wall Street bankers, D.V. to Jay-Z, Dyja weaves New Yorkers famous, infamous, and unknown—Yuppies, hipsters, tech nerds, and artists; community organizers and the immigrants who made this a truly global place—into a narrative of a city creating ways of life that would ultimately change cities everywhere. With great success, though, came grave mistakes. The urbanism that reclaimed public space became a means of control, the police who made streets safe became an occupying army, technology went from a means to the end. Now, as anxiety fills New Yorker's hearts and empties its public spaces, it's clear that what brought the city back—proximity, density, and human exchange—are what sent Covid-19 burning through its streets, and the price of order has come due. A fourth evolution is happening and we must understand that the greatest challenge ahead is the one New York failed in the first three: The cures must not be worse than the disease. Exhaustively researched, passionately told, New York, New York, New York is a colorful, inspiring guide to not just rebuilding but reimagining a great city.
