A Woman's Guide to the Sailing Lifestyle Debra Picchi; Thomas Desrosiers
2015-09-18 A chance sailing trip with a friend from work led me to wonder if I could learn to sail. After all, I'm a woman, and the sailing world seems to favor men. I am not athletic; I didn't grow up in a family where we learned about boating; I would be starting late, since I was in my thirties; and I suffer from seasickness. What I discovered over the next twenty-five years is that I could indeed learn to be a competent sailor. But I didn't expect to be an expert overnight. Instead, as a novice, I layered on new knowledge slowly, over time, through experiential learning. This book describes the process whereby this happened. Using examples from trips along the coast of Maine, New Hampshire, and Massachusetts, it reviews the essential knowledge needed to be a sailor as well as explanations about the parts of a sailboat, major boat systems, and tasks associated with maintaining a sailboat. It also discusses some Zen-like attitudes that lead to successful and fun sailing, such as focusing, the no-blame rule, and stripping down to the essentials. Unlike some other sailing guides, this book points out that sailing can be a lifestyle that includes many dimensions. It's not just about getting a boat to sail. Traveling by boat is a unique experience, and visiting small coastal New England communities is an adventure. Learning about history, art, ecology, star constellations, technology, and birds are only a few of the kinds of activities that can be built into a rich and rewarding sailing experience. This book will be helpful for people who would like to learn to sail but who are intimidated by the process, particularly women, fledgling sailors just starting out, and families with children.

Dictionary of Sports and Games Terminology Adrian Room 2017-02-10 The specialized jargon of some sports can be quite esoteric. Non-Americans, for example, are likely puzzled by baseball terms such as bunt, cut-off man, and safety squeeze, while the non-British may pause over cricket's Chinaman, doosra, golden duck, off-break, popping crease, and yorker. This new dictionary gives the definitions of more than 8,000 terms used in sports and games from around the world, including mainstream sports like basketball and billiards alongside the more obscure netball and snooker. Entries cover sports equipment, strategies, venues, qualifying categories, awards, and administrative bodies, while a comprehensive system of cross-references offers assistance and clarification when needed. An appendix lists standard abbreviations of sports ruling bodies and administrative organizations.

The Universal Self-instructor and Manual of General Reference Albert Ellery Berg 1883 "The Universal self-instructor is nothing less than it pretends to be: an Epitome of Forms, especially adapted for purposes of self-instruction and general reference in the various departments of Education, Commerce, Law, Home, Society, and Amusements. Every young man and young woman ; every business man, farmer, and mechanic ; every housewife and lady of society ;--in fact every intelligent member of the community should have it within reach for consultation on those numerous minor matters that a well-educated person is supposed to know. The Reading Public has been amply supplied for years with reference books of every description, but the present volume may be said to occupy a field peculiarly its own, as the people have never before been furnished with a publication embracing in a single volume such a quantity of practical information, and treating the wants of every-day life in a lucid, instructive and agreeable manner. Such articles as Elocution, Penmanship, Book-keeping, Letter-writing, Mercantile Law, Music, Stenography, Phrenology, Agriculture, Social Etiquette, Out-door Sports, In-door Amusements, Physical Culture, The Domestic Circle, Household Receipts, Parliamentary Law, etc., have been prepared by writers of reputation and large experience in the special subjects given them for treatment"--Preface.
