

Sa Police Application Form 2015

Thank you for reading sa police application form 2015. As you may know, people have look hundreds times for their favorite books like this sa police application form 2015, but end up in malicious downloads. Rather than enjoying a good book with a cup of coffee in the afternoon, instead they are facing with some malicious virus inside their computer.

sa police application form 2015 is available in our book collection an online access to it is set as public so you can get it instantly.

Our digital library spans in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

Kindly say, the sa police application form 2015 is universally compatible with any devices to read

The Wiley International Handbook of Educational Foundations Alan S. Canestrari 2018-09-17 Promotes a model of critique for teachers, scholars, and policy makers to challenge established educational practice in a global context. The Wiley International Handbook of Educational Foundations features international scholars uniquely qualified to examine issues specific to their regions of the world. The Handbook provides readers with an alternative to the traditional texts in the foundations of education by taking aim at the status quo, and by offering frameworks from which teachers and scholars of education can critically evaluate schools and schooling. Throughout, the essays are grounded in a broad historical context and the authors use an international lens to examine current controversies in order to provoke the kinds of discussion crucial for developing a critical stance. The Handbook is presented in six parts, each beginning with an Introduction to the subject. The sections featured are: Part I. Challenging Foundational Histories and Narratives of Achievement; Part II. Challenging Notions of Normalcy and Dominion; Part III. Challenging the Profession; Part IV. Challenging the Curriculum; Part V. Challenging the Idea of Schooling; and Part VI. Challenging Injustice, Inequity, and Enmity. The Wiley International Handbook of Educational Foundations offers unique insight into subjects such as: Educational reform in India, Pakistan, and China The global implications of equity-driven education Teacher education and inclusionary practices

The Global Educational Reform Movement (G.E.R.M.) Education and the arts Maria Montessori and Loris Malaguzzi Legal education in authoritarian Syria The Wiley International Handbook of Educational Foundations is an important book for current and aspiring educators, scholars, and policy makers.

Language and the Law Monwabisi K. Ralarala 2022-06-14 **Language and the Law: Global Perspectives in Forensic Linguistics from Africa and beyond** is the third volume in a series of books designed to contribute and respond to growing interest in forensic linguistics or language and the law on the African continent. Drawing mostly on contexts where traditional African laws and Western laws are practised side-by-side, and where there are discontinuities between local knowledge systems, belief systems and language practices on the one hand, and official languages of law discourse, conceptualisation and jurisprudence documentation on the other, the chapters in this volume problematise, among other issues, the mediation practices (or lack thereof) of language and legal processes, discourse strategies and complexities in (mis)interpretations in second language court contexts and the miscarriage of justice that these may entail.

The Truth about Crime Jean Comaroff 2016-12-05 This new book by the well-known anthropologists Jean and John L. Comaroff explores the global preoccupation with criminality in the early twenty-first century, a preoccupation strikingly disproportionate, in most places and for most people, to the risks posed by lawlessness to the conduct of everyday life. Ours in an epoch in which law-making, law-breaking, and law-enforcement are ever more critical registers in which societies construct, contest, and confront truths about themselves, an epoch in which criminology, broadly defined, has displaced sociology as the privileged means by which the social world knows itself. They also argue that as the result of a tectonic shift in the triangulation of capital, the state, and governance, the meanings attached to crime and, with it, the nature of policing, have undergone significant change; also, that there has been a palpable muddying of the lines between legality and illegality, between corruption and conventional business; even between crime-and-policing, which exist, nowadays, in ever greater, hyphenated complicity. Thinking through Crime and Policing is, therefore, an excursion into the contemporary Order of Things; or, rather, into the metaphysic of disorder that saturates the late modern world, indeed, has become its leitmotif. It is also a meditation on sovereignty and citizenship, on civility, class, and race, on the law and its transgression, on

the political economy of representation.

The Handbook of International Crisis Communication Research Andreas Schwarz 2016-06-13 The Handbook of International Crisis Communication Research articulates a broader understanding of crisis communication, discussing the theoretical, methodological, and practical implications of domestic and transnational crises, featuring the work of global scholars from a range of sub-disciplines and related fields. Provides the first integrative international perspective on crisis communication Articulates a broader understanding of crisis communication, which includes work from scholars in journalism, public relations, audience research, psychology, political science, sociology, economics, anthropology, and international communication Explores the topic from cross-national and cross-cultural crisis communication approaches Includes research and scholars from countries around the world and representing all regions Discusses a broad range of crisis types, such as war, terrorism, natural disasters, pandemia, and organizational crises

Policing the Global South Danielle Watson 2022-11-11 Policing the Global South provides scholarship which further transnationalises and democratises ideas about policing practices and philosophies, highlighting renovations in approaches to policing studies, and injecting innovative perspectives into the study of policing from scholars positioned on the ‘periphery’. Criminological knowledge depolarisation underscores a conscious effort by scholars from the Global South to increase intellectual knowledge focused on developing context-specific responses to issues not aligned to Northern ideological positions and specific to the non-Northern context. Such shifts draw attention to the expanse of spaces beyond Northern centres rife with challenges unlike any specific to those experienced or conceptualised by scholars from the Global North with an applied Northern criminological lens. Applying a postcolonial lens to empirical knowledge from country-specific cases in former colonies in Africa, Asia, the Caribbean, the Pacific, and Latin America, this book examines how policing issues not aligned to Northern ideological positions and specific to non-Northern contexts are addressed. The primary purpose is to share innovations in the field of policing – service provision, threats to security, crime responses, justice and international trends – developed in postcolonial developing-country contexts. Given the aim of the book and the contributors’ own research on issues of policing across the globe, it discusses themes including but not limited to the colonial legacies and their impact on policing; how plural regulatory systems and

partnerships are navigated by the police; the linkages between access to justice, community perceptions, and police legitimacy; innovations and challenges in organisational reform, crime prevention, and community partnerships; and the expanding roles of police organisations in the Global South. While each chapter presents a policing issue in a country within a specific part of the Global South, the book highlights how important it is to frame responses based on contextual realities informed by an awareness of the past and present, with a goal of informing the future. Delivering a much-needed introduction to those specialising in policing in developing countries, this book is invaluable reading for academics and students of criminology, criminal justice, governance, policy, and IR, as well as professionals in policing organizations across the globe.

Police Behavior, Hiring, and Crime Fighting John A. Eterno 2021-09-28 This edited collection by internationally recognized authors provides essays on police behavior in the categories of police administration, police operations, and combating specific crimes. Individual chapters strike at critical issues for police today, such as maintaining the well-being of officers, handling stress, hiring practices, child sexual exploitation, gunrunning, crime prevention strategies, police legitimacy, and much more. Understanding how police are hired and behave is a way of understanding different governments around the world. The book will cover the practices of countries as diverse as China, Germany, India, Japan, Turkey, South Africa, the United States, and others. Readers will be exposed to aspects of police that are rarely, if ever, explored. The book is intended for a wide range of audiences, including law enforcement and community leaders and students of criminal justice.

Contradictions of Democracy Nicholas Rush Smith 2019-01-17 Despite being one of the world's most vibrant democracies, police estimate between five and ten percent of the murders in South Africa result from vigilante violence. This is puzzling given the country's celebrated transition to democracy and massive reform of the state's legal institutions. Where most studies explain vigilantism as a response to state or civic failure, in *Contradictions of Democracy*, Nicholas Rush Smith illustrates that vigilantism is actually a response to the processes of democratic state formation. In the context of densely networked neighborhoods, vigilante citizens often interpret the technical success of legal institutions—for instance, the arrest and subsequent release of suspects on bail—as failure and work to correct such perceived failures

on their own. Smith also shows that vigilantism provides a new lens through which to understand democratic state formation. Among young men of color in some parts of South Africa, fear of extra-judicial police violence is common. Amid such fear, instead of the state seeming protective, it can appear as something akin to a massive vigilante organization. An insightful look into the high rates of vigilantism in South Africa and the general challenges of democratic state building, *Contradictions of Democracy* explores fundamental questions about political order, the rule of law, and democratic citizenship.

Rehumanize Aimee Murphy 2022-07-22 Who deserves human rights? The answer to this question is the crux of all moral and political action in society, and defines our character as individuals and as nations. Aimee Murphy seeks to answer this vital question in this accessible and succinct handbook on the Consistent Life Ethic, a moral philosophy whose central principle is that each and every human being has inherent dignity from conception to natural death, and therefore deserves to live free from violence. *Rehumanize: A Vision to Secure Human Rights for All* includes a digestible yet systematic analysis of the history, ethics, and public policy surrounding modern issues of dehumanization, and casts a rehumanizing vision of a world beyond violence. Beyond the confines of political parties or religious exclusion, the founder of Rehumanize International communicates an aspiration to an inclusive ideal of a consistent movement of every human standing for every human. Activists, scholars, and leaders young and old will find this resource an indispensable cornerstone for their outreach and advocacy for decades to come.

Taking Care of the Future Oliver Pattenden 2018-03-06 *Taking Care of the Future* examines the moral dimensions and transformative capacities of education and humanitarianism through an intimate portrayal of learners, volunteers, donors, and educators at a special needs school in South Africa and a partnering UK-based charity. Drawing on his professional experience of “inclusive education” in London, Oliver Pattenden investigates how systems of schooling regularly exclude and mishandle marginalized populations, particularly exploring how “street kids” and poverty-afflicted young South Africans experience these dynamics as they attempt to fashion their futures. By unpacking the ethical terrains of fundraising, voluntourism, Christian benevolence, human rights, colonial legacies, and the post-apartheid transition, Pattenden analyzes how political, economic and social aspects of intervention materialize to transform the lives of all those involved.

Global Perspectives on Women's Sexual and Reproductive Health Across the Lifecourse Shonali

Choudhury 2017-09-19 This expansive survey spotlights pervasive issues affecting girls' and women's sexual and reproductive health across the lifecourse. Research from diverse countries around the world analyzes the complex relationships among biological, psychological, sociocultural, and economic issues—particularly in terms of inequities—as they shape women's lives. Major challenges and possibilities for intervention are examined in their national context and with their global implications, including child marriage/motherhood, reproductive care and access, fertility, childbearing, contraception, abortion, HIV/STIs, gender-based violence, sexual pleasure, and menopause. In these forceful dispatches, a consistent human rights perspective emphasizes women's control, autonomy, and agency in all stages of their lives. A sampling of topics covered: Girl child marriage: a persistent global women's health and human rights violation Investigating challenges and resilience among women living with obstetric fistula in Kenya A qualitative exploration of mainstream and social media reflections on abortion A continuum of severity of sexual intimate partner violence among black women in the United States Economic empowerment to improve sexual and reproductive health among women and girls Summarizing an interdisciplinary field on research and practical levels, *Global Perspectives on Women's Sexual and Reproductive Health Across the Lifecourse* will be an invaluable text for undergraduate and graduate courses in a wide range of fields, including public health, global health, women's studies, sociology, anthropology, gender studies, and human rights.

A Socio-Criminological Analysis of the HIV Epidemic Bruno Meini 2020-10-06 In the world of the 21st century, epidemics are common biological and social occurrences, with HIV perhaps emphasizing this better than any other disease. Medical scientific research has undoubtedly made significant steps forward; meanwhile, the social research field is still in its initial stages, with many awaiting an equally auspicious response. *A Socio-Criminological Analysis of the HIV Epidemic* offers a comprehensive analysis of the multifaceted socio-criminological dimensions of the HIV epidemic and positively contributes to the ongoing sociological debate on infectious diseases. The author intends to create an independent epistemology of HIV to explicate the social forces that impact and determine the course and experience of the epidemic, while also seeking to reframe the popular discourse on HIV to reflect sociological conceptualisations. This latter step leads to the identification of the concept of social interaction as an appropriate tool for

highlighting the complex social nature of this virus. The unprecedented challenge posed by the epidemic for the international community calls for global cooperation aimed at evaluating the diverse aspects of the issues that many actors in this tragic drama must deal with. Given its wide-reaching international appeal, this book is also recommended for those involved or interested in global health issues and infectious diseases. It will be of particular interest to medical researchers, health workers, social scientists, social workers, policymakers, humanitarian workers, HIV and human rights activists, and graduate students.

Tell Our Story Julie Reid 2020-05-01 Focusing on three South African communities the authors dismiss the idea that some groups are voiceless, arguing that they are being deliberately ignored by dominant news media The dominant news media are often accused of reflecting an ‘elite bias’, privileging and foregrounding the interests of a small segment of society while ignoring the narratives of the majority. The authors of Tell Our Story investigate this problem and offer a hands-on demonstration of listening

journalism and research in practice. In the process they dismiss the idea that some groups are voiceless, arguing that what is often described in such terms is mostly a matter of those groups being deliberately ignored. Focusing their attention on three very different South African communities they delve into the life and struggle narratives of each, exposing the divide between the stories told by the people who actually live in the communities and the way in which those stories have been understood and shaped by the media. The three communities are those living in the Glebelands hostel complex in Durban where over 100 residents have been killed in politically motivated violence in the past few years; the Xolobeni community on the Wild Coast, which has been resisting the building of a new toll road and a dune mining venture; and Thembelihle, a settlement south-west of Johannesburg that has been resisting removal for many years. The book concludes with a set of practical guidelines for journalists on the practice of listening journalism.

Police Trauma, Loss, and Resilience Konstantinos Papazoglou 2022-07-05

SADC Gender Protocol 2015 Barometer Morna, Colleen Lowe 2016-02-22 In August 2008, Heads of State of the Southern African Development Community adopted the ground-breaking SADC Protocol on Gender and Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. The SADC Gender Protocol is the only sub-regional instrument that brings together existing global and continental commitments to gender equality and enhances these through time bound targets. Aligned to Millennium Development Goal Three, the original 28 targets of the Protocol targets expire in 2015. Now that 2015 is here, we need to step back, assess and reposition. In June 2014, SADC Gender Ministers agreed to review the targets of the Gender Protocol in line with the Sustainable Development Goals (SDGs). In May this year, ministers added that they want the Protocol to be accompanied by a Monitoring, Evaluation and Results Framework. The 2015 Barometer shows that implementation is now the biggest missing gap in the quest for gender equality. Now is the time to strengthen resolve, reconsider, reposition, and re-strategise for 2030. SADC GENDER PROTOCOL BAROMETER • 2015 2015 is here! Anatomy of State Capture Nina Callaghan 2021-11-26 Following the release of the Public Protector's State of Capture Report in November 2016, South Africans have been witness to an explosion of almost daily revelations of corruption, mismanagement and abuses by those entrusted to lead the nation. The extent of this betrayal is overwhelming and it is often difficult to distil what actually happened during the Zuma administration. This book draws on the insights and expertise of 19 contributors from various sectors and disciplines to provide an account of what transpired at strategic sites of the state capture project. The ongoing threat of state capture demands a response that probes beyond what happened to understanding how it was allowed to happen. The stubborn culture of corruption and misgovernance continue to manifest unabated and the predatory practices which enable state capture have not yet been disrupted. It is our hope that the various case studies and analyses presented in this book will contribute to confronting these shortcomings in current discourse, and open avenues for progressive deliberation on how to collectively reclaim the prospects of a just and prosperous South Africa for all.

Juvenile Lifers Simone Deegan 2021-02-15 This book is the first Australian study, based on extensive fieldwork, of the personal backgrounds and processes by which juveniles get drawn into risky and violent situations that culminate in murder. Drawing on interviews with every juvenile under sanction of life imprisonment in the State of South Australia (2015–2019), it investigates links in the chain of events that led to the lethal violence that probably would have been broken had there been appropriate intervention. Specifically, the book asks whether the existing criminal justice frame is the appropriate way to deal with

children who commit grave acts. The extent to which prison facilitates and/or inhibits the mental, emotional, and social development of juvenile ‘lifers’ is a critical issue. Most – if not all – will be released at some point, with key issues of risk (public protection) and rehabilitation (probability of desistance) coming sharply to the fore. In addition, this book is also the first to capture how significant others including mothers, fathers, grandparents, and siblings are affected when children kill and the level of commitment these relatives have towards supporting the prisoner in his or her quest to build a positive future. Written in a clear and direct style, this book will appeal to students and scholars of criminology, sociology, and penology; practitioners working in social policy; and all those interested in the lives and backgrounds of juvenile offenders.

The Routledge Handbook of Criminal Justice Ethics Jonathan Jacobs 2016-07-01 The enormous financial cost of criminal justice has motivated increased scrutiny and recognition of the need for constructive change, but what of the ethical costs of current practices and policies? Moreover, if we seriously value the principles of liberal democracy then there is no question that the ethics of criminal justice are everybody’s business, concerns for the entire society. The Routledge Handbook of Criminal Justice Ethics brings together international scholars to explore the most significant ethical issues throughout their many areas of expertise, anchoring their discussions in the empirical realities of the issues faced rather than applying moral theory at a distance. Contributions from philosophers, legal scholars, criminologists and psychologists bring a fresh and interdisciplinary approach to the field. The Handbook is divided into three parts: Part I addresses the core issues concerning criminal sanction, the moral and political aspects of the justification of punishment, and the relationship between law and morality. Part II examines criminalization and criminal liability, and the assumptions and attitudes shaping those aspects of contemporary criminal justice. Part III evaluates current policies and practices of criminal procedure, exploring the roles of police, prosecutors, judges, and juries and suggesting directions for revising how criminal justice is achieved. Throughout, scholars seek pathways for change and suggest new solutions to address the central concerns of criminal justice ethics. This book is an ideal resource for upper-undergraduate and postgraduate students taking courses in criminal justice ethics, criminology, and criminal justice theory, and also for students of philosophy interested in punishment, law and society, and law and ethics.

Securing Development Bernard Harborne 2017-03-01 **Securing Development: Public Finance and the Security Sector** highlights the role of public finance in the delivery of security and criminal justice services. This book offers a framework for analyzing public financial management, financial transparency, and oversight, as well as expenditure policy issues that determine how to most appropriately manage security and justice services. The interplay among security, justice, and public finance is still a relatively unexplored area of development. Such a perspective can help security actors provide more professional, effective, and efficient security and justice services for citizens, while also strengthening systems for accountability. The book is the result of a project undertaken jointly by staff from the World Bank and the United Nations, integrating the disciplines where each institution holds a comparative advantage and a core mandate. The primary audience includes government officials bearing both security and financial responsibilities, staff of international organizations working on public expenditure management and security sector issues, academics, and development practitioners working in an advisory capacity.

Mending Broken Fences Policing: An Alternative Model for Policy Management Anil Anand, BPHE, LL.M., MBA, GEMBA 2016-02-03 Police services across the globe are increasingly perceived as heavy handed, racist, and unnecessarily violent. As a result, large, sometimes even national demonstrations have been waged against police policy and strategy. **Mending Broken Fences Policing** provides a discussion on contemporary policing, the role of policing in modern society, and its relationship to the diverse communities represented in a postmodern world. **Mending Broken Fences Policing** provides a model, based on social cohesion and police intervention, intelligence-led and community policing (IP-CP); which, supplemented by a quality/quantity/crime (QQC) framework provide a four-step process for viewing policing services from a vantage point beyond Broken Windows and StatCom. Join the author in seeking solutions as he provides alternatives to outdated methods with **Mending Broken Fences Policing**.

Regional Integration in Africa 2020-04-06 In **Regional Integration in Africa: What Role for South Africa**, Henri Bah, Siphamandla Zondi and André Mbata Mangu reflect on African integration. Despite some progress made, Africa is lagging behind and South Africa has not played a major role.

Global Responses to Domestic Violence Eve S. Buzawa 2017-06-19 This volume addresses the varied

response to domestic violence in a comparative, international context. The chapters are laid out in a consistent format, to cover: the nature of the domestic violence problem, theoretical explanations, the criminal justice response, as well as health care and social service interventions in each country. The intent of the book is to provide an introduction to the attitudes and responses to domestic violence in various regions, to provide meaningful comparisons and share information on best practices for different populations and regions. There are considerable variations to domestic violence approaches across cultures and regions. In some places, it is considered a “private” or “family” matter, which can help it perpetuate. At the same time, the United States’ approach to domestic violence has been criticized by some as being too focused on the criminal justice system, rather than other types of interventions which aim to keep families intact. This comprehensive work aims to highlight innovative approaches from several regions, important cultural sensitivities and concerns, and provide analysis to identify the strengths and weakness of various approaches. This work will be of interest to researchers in criminology and criminal justice, as well as related fields who deal with domestic violence and violence against women, including sociology and social work, and international justice. Practitioners and policymakers will also find it informative.

Understanding Violence Against Women in Africa Francis Onditi 2021 This textbook provides students across Social Sciences, Humanities, Politics, and International Studies with an in-depth understanding of the issues, policies, and strategies for addressing the symptoms and root causes of violence against women (VAW) in sub-Saharan Africa. This text uses the United Nations Security Councils Resolution 1325 (UNSCR 1325) on Women, Peace and Security in Eastern and Southern Africa as a framework to present the causes and impacts of VAW and to trace the journey of sub-Saharan African countries toward gender equality. It also provides an overview of the policy and legislative frameworks that underpin the progress, challenges, and achievements of addressing VAW based on four key pillars: prevention, protection, participation, and relief and recovery. Chapters provide a wealth of knowledge, as the book draws on academic literature; national, regional, and international legislations; and data collected from field research, and makes use of end-of-chapter discussion questions and quick study guides. Students will come away equipped with the tools, resources, and knowledge necessary to address and fix VAW in sub-Saharan Africa and beyond. Francis Onditi heads the School of International Relations and Diplomacy in

Riara University, Kenya and was recently enlisted as a Distinguished Author and Professor of Research at the Institute of Intelligent Systems, University of Johannesburg, South Africa. He is the 2019 recipient of the AISA Fellowship awarded by the Human Sciences Research Council (HSRC), South Africa. He is a widely published pan-African peace researcher with numerous research papers in peer reviewed journals. He has authored/coedited 3 books including *Conflictology: Systems, Institutions and Mechanisms in Africa*. Josephine Odera is the immediate former Director of Africa Centre for Transformative & Inclusive Leadership (ACTIL). She formerly served as Regional Director, West and Central Africa, UN Women; Regional Advisor, Leadership & Governance at the United Nations Women Regional Office for East and Southern Africa; and taught at the University of Nairobi's Institute of Diplomacy & International Studies (IDIS). She currently serves as a conflict & mediation expert in various African countries.

Love, Sex and Teenage Sexual Cultures in South Africa Deevia Bhana 2017-10-25 *Love, Sex and Teenage Sexual Cultures in South Africa* interrupts the relative silence around teenage constructions of love in South Africa. Against the backdrop of gender inequalities, HIV and violence, the book situates teenage constructions of love and romance within the wider social and cultural context underwritten by the histories of apartheid, chronic unemployment, poverty, and the endless struggle to survive. By drawing on focus group discussions with African teenage men and women, the book addresses teenage Africans as active agents, providing a more nuanced picture of their desires and their dilemmas through which sexuality and love are experienced. The chapters in the book conceptualise desiring love, material love, pure love, forced love and fearing love. It argues that love is intrinsically linked to cultural practices and material realities which mold particular formations of teenage masculinities and femininities. This book will be of interest to academics, undergraduates, postgraduates and researchers in sociology, HIV, health and gender studies, development and postcolonial studies and African studies.

SOUTH AFRICA AA.VV. 2016-11-14 Has the new South Africa – once an inspiring “rainbow nation” – failed the expectations it had generated? Is the country now in a crisis? Two decades after the end of the apartheid regime, Africa’s southernmost state faces multiple political, economic and social challenges. A lackluster growth performance is compounded by mounting corruption and political turbulence, as well as by the frustration of many ordinary citizens who expected much more rapid social and economic

improvement. Labour strikes, student protests and anti-immigrant riots have all been on the rise. As a clear sign of increasing dissatisfaction, uncertainty and decline, the ruling African National Congress recently ran into its worst electoral result ever – if still only at local levels. Meanwhile, Jacob Zuma’s embattled presidency, marred by allegations of corruption and political cronyism, sent South Africa’s international image plummeting alongside the Rand, the national currency. This volume sheds light on the current difficulties and discusses future prospects. The “new” South Africa is a country in dire need for change.

Disrupting Shameful Legacies Claudia Mitchell 2018-07-19 *Disrupting Shameful Legacies: Girls and Young Women Speaking Back through the Arts to Address Sexual Violence* is based on methodologies that seek to disrupt colonial legacies, by privileging speaking up and speaking back through the arts and visual practice to challenge the situation of sexual violence.

Public Security in Federal Polities Christian Leuprecht 2019-02-07 *Public Security in Federal Polities* is the first systematic and methodical study to bring together the fields of security studies and comparative federalism. The volume explores the symbiotic relationship between public security concerns and institutional design, public administration, and public policy across nine federal country case studies: Brazil, Canada, Germany, India, Mexico, South Africa, Spain, Switzerland, and the United States. In addressing specific national security concerns and aspects of globalization that are challenging conventional approaches to global, international, regional, and domestic security, this volume examines how the constitutional and institutional framework of a society affects the effectiveness and efficiency of public security arrangements. *Public Security in Federal Polities* identifies differences and similarities, highlights best practices, and draws out lessons for both particular federations, and for federal systems in general. This book is essential reading for scholars, students, practitioners as well as policy- and decision-makers of security and federalism.

Dividing Africa with Policy Lara Hierro 2020-06-08 This book addresses timely concerns of rising African nationalism and the 2nd decolonisation in Africa. The wholesale rejection of all things considered ‘Western’ is seen to be a result of ‘integrationalism’, defined as the specific kind of methodology by which

EU foreign policy engagement may be interpreted. Using complexity theory and panarchy, a specific arrangement of interacting complex adaptive systems together with a 'resilience assessment', the EU's foreign policy is shown to be undermining the aims of the premier African institution, the AU, created to provide unity and security on the continent: the EU pursues these objectives in its own image rather than honouring African values. This book raises awareness of these issues, as well as to widen the application of the theoretical framework in international relations and politics, which is becoming increasingly important in a complex world. The aim of this book is to show that the negative isolationism pursued in order to counteract western influence is not the answer and can be avoided through this awareness.

South African Law Reports 2015

A Citizen's Guide to Crime Trends in South Africa Anine Kreigler 2016-06-05 South Africans care a lot about crime. We think and worry about it, plan and insure against it, develop and share theories about it, read about it, and talk about it... a lot. But how much do we really know? Crime statistics do not belong to the government, academics, specialists, or the press. They are ours: we experience and report crimes and have a right to access and understand their official record. It should not take any particular expertise to get a grasp on what we should make of the figures and graphs that the South African Police Service produces every year. *A Citizen's Guide to Crime Trends in South Africa* provides a basis on which to understand the statistics in a manner that is accessible to everyone. Each chapter challenges a set of oft-repeated assumptions about how bad crime is, where it occurs, and who its victims are. It also demonstrates how and why crime statistics need to be matched with other forms of research, including criminal justice data, in order to produce a fuller account of what we are faced with.

Interior, Environment, and Related Agencies Appropriations for 2016, Part 8, 2015, 114-1 2015

Human Rights Law Merris Amos 2021-07-15 This textbook comprehensively examines and analyses the interpretation and application of the United Kingdom's Human Rights Act 1998. The third edition has been fully updated to include the last seven years of case law. Part I covers key procedural issues including: the background to the Act; the relationship between UK courts and the European Court of Human Rights;

the definition of victim and public authority; determining incompatibility including deference and proportionality; the impact of the Act on primary legislation; and damages and other remedies for the violation of Convention rights. In Part II of the book, the Convention rights, as interpreted and applied by United Kingdom courts, are examined in detail. All of the key Convention rights are discussed including: the right to life; freedom from torture and inhuman or degrading treatment or punishment; the right to liberty; fair trial; the rights to private life, family life and home; freedom of religion and belief; freedom of expression; the right to peaceful enjoyment of possessions; and the right to freedom from discrimination in the enjoyment of Convention rights. The third edition of Human Rights Law will be invaluable for those teaching, studying and practising in the areas of United Kingdom human rights law, constitutional law and administrative law.

Yellow Perils Franck Billé 2018-07-31 China's meteoric rise and ever expanding economic and cultural footprint have been accompanied by widespread global disquiet. Whether admiring or alarmist, media discourse and representations of China often tap into the myths and prejudices that emerged through specific historical encounters. These deeply embedded anxieties have shown great resilience, as in recent media treatments of SARS and the H5N1 virus, which echoed past beliefs connecting China and disease. Popular perceptions of Asia, too, continue to be framed by entrenched racial stereotypes: its people are unfathomable, exploitative, cunning, or excessively hardworking. This interdisciplinary collection of original essays offers a broad view of the mechanics that underlie Yellow Peril discourse by looking at its cultural deployment and repercussions worldwide. Building on the richly detailed historical studies already published in the context of the United States and Europe, contributors to *Yellow Perils* confront the phenomenon in Italy, Australia, South Africa, Nigeria, Mongolia, Hong Kong, and China itself. With chapters based on archival material and interviews, the collection supplements and often challenges superficial journalistic accounts and top-down studies by economists and political scientists. *Yellow Peril* narratives, contributors find, constitute cultural vectors of multiple kinds of anxieties, spanning the cultural, racial, political, and economic. Indeed, the emergence of the term "Yellow Peril" in such disparate contexts cannot be assumed to be singular, to refer to the same fears, or to revolve around the same stereotypes. The discourse, even when used in reference to a single country like China, is therefore inherently fractured and multiple. The term "Yellow Peril" may feel unpalatable and dated today, but the

ethnographic, geographic, and historical breadth of this collection—experiences of Chinese migration and diaspora, historical reflections on the discourse of the Yellow Peril in China, and contemporary analyses of the global reverberations of China’s economic rise—offers a unique overview of the ways in which anti-Chinese narratives continue to play out in today’s world. This timely and provocative book will appeal to Chinese and Asian Studies scholars, but will also be highly relevant to historians and anthropologists working on diasporic communities and on ethnic formations both within and beyond Asia. Foreign Policy in Post-Apartheid South Africa Adekeye Adebajo 2017-12-18 South Africa is the most industrialized power in Africa. It was rated the continent's largest economy in 2016 and is the only African member of the G20. It is also the only strategic partner of the EU in Africa. Yet despite being so strategically and economically significant, there is little scholarship that focuses on South Africa as a regional hegemon. This book provides the first comprehensive assessment of South Africa's post-Apartheid foreign policy. Over its 23 chapters - -and with contributions from established Africa, Western, Asian and American scholars, as well as diplomats and analysts - the book examines the current pattern of the country's foreign relations in impressive detail. The geographic and thematic coverage is extensive, including chapters on: the domestic imperatives of South Africa's foreign policy; peace-making; defence and security; bilateral relations in Southern, Central, West, Eastern and North Africa; bilateral relations with the US, China, Britain, France and Japan; the country's key external multilateral relations with the UN; the BRICS economic grouping; the African, Caribbean and Pacific Group (ACP); as well as the EU and the World Trade Organization (WTO). An essential resource for researchers, the book will be relevant to the fields of area studies, foreign policy, history, international relations, international law, security studies, political economy and development studies.

The Future of Drone Use Bart Custers 2016-10-15 Given the popularity of drones and the fact that they are easy and cheap to buy, it is generally expected that the ubiquity of drones will significantly increase within the next few years. This raises questions as to what is technologically feasible (now and in the future), what is acceptable from an ethical point of view and what is allowed from a legal point of view.

Drone technology is to some extent already available and to some extent still in development. The aim and scope of this book is to map the opportunities and threats associated with the use of drones and to discuss the ethical and legal issues of the use of drones. This book provides an overview of current drone technologies and applications and of what to expect in the next few years. The question of how to regulate the use of drones in the future is addressed, by considering conditions and contents of future drone legislation and by analyzing issues surrounding privacy and safeguards that can be taken. As such, this book is valuable to scholars in several disciplines, such as law, ethics, sociology, politics and public administration, as well as to practitioners and others who may be confronted with the use of drones in their work, such as professionals working in the military, law enforcement, disaster management and infrastructure management. Individuals and businesses with a specific interest in drone use may also find in the nineteen contributions contained in this volume unexpected perspectives on this new field of research and innovation. Bart Custers is Associate Professor and Head of Research at eLaw, the Center for Law and Digital Technologies at Leiden University, The Netherlands. He has presented his work at international conferences in the United States, China, Japan, the Middle East and throughout Europe and has published over 80 scientific, professional and popularizing publications, including three books.

Trauma and Resilience in Contemporary Australian Policing Andrew Paterson 2021-08-18 This book examines how fifty police officers in South Australia keep well and “bounce back” from duty-related traumatic experience in the absence of practical, accessible and timely organisational support. It investigates mechanisms police officers presently use to “normalise” their duty-related traumatic experiences to preserve the delicate professional balance between “coping” and “psychic numbing” and avoid the much publicised perils of a PTSD diagnosis, while being appropriately responsive to colleagues, victims and survivors in their daily work environment. By revealing how police officers manage trauma—outside of the expectations of mental health professionals, union representatives and police leadership—innovative approaches and recommendations are offered to support first responders in moving from assumptions of post-traumatic stress and through post-traumatic growth. The book considers recent advances in post-traumatic growth and resilience theory and reinterprets exposure in a positive context, as well as preventative experiences in Australia and internationally.

Violence, Inequality and Transformation: Apartheid Survivors on South Africa's Ongoing Transition

Jasmina Brankovic 2020-01-29 Despite its lauded political transition in 1994, South Africa continues to have among the highest levels of violence and inequality in the world. Organised survivors of apartheid violations have long maintained that we cannot adequately address violence in the country, let alone achieve full democracy, without addressing inequality. This book is built around extensive quotes from members of Khulumani Support Group, the apartheid survivors' social movement, and young people growing up in Khulumani families. It shows how these survivors, who bridge the past and the present through their activism, understand and respond to socioeconomic drivers of violence. Pointing to the continuities between apartheid oppression and post-apartheid marginalisation in everyday life, the narratives detail ways in which the democratic dispensation has strengthened barriers to social transformation and helped enable violence. They also present strategies for effecting change through collaboration, dialogue and mutual training and through partnerships with diverse stakeholders that build on local-level knowledge and community-based initiatives. The lens of violence offers new and manageable ways to think about reducing inequality, while the lens of inequality shows that violence is a complex web of causes, pathways and effects that requires a big-picture approach to unravel. The survivors' narratives suggest innovative strategies for promoting a just transition through people-driven transformation that go well beyond the constraints of South Africa's transitional justice practice to date. A result of participatory research conducted in collaboration with and by Khulumani members, this book will be of interest to activists, students, researchers and policy makers working on issues of transitional justice, inequality and violence.

Teaching for Change L. Juliana Claassens 2019-03-13 Contributors from various theological higher education institutions in South Africa and beyond come together to reflect on the best pedagogical practices to teach on often complex issues of gender, sexual orientation, race, and class, and on how they impact on health in our classrooms, in our churches, and in the communities where we live and work.

Enhancing Police Service Delivery James F. Albrecht 2021-02-16 Contemporary police service delivery and performance are complex phenomena. Law enforcement, particularly at the local level, must therefore face the additional challenges of globalization, cybercrime, counter-terrorism and calls for reform, at a time when extreme budgetary constraints are being implemented. Policing operations encompass multiple critical tasks and responsibilities not routinely measured and evaluated, such as response to incidents involving medical assistance, homelessness, mental illness, community engagement, and neighborhood problem-solving endeavors. This volume aims to provide government, criminal justice and policing administrators, policy makers and criminal justice scholars and researchers with comprehensive analyses of the critical issues impacting the challenges inherent in providing effectual public safety, security and service, all from a global perspective. It takes into account popular criticism, extreme budgetary constraints, and the relatively novel and overwhelming challenges of terrorism and cybercrime. The book merges study and practice to identify avenues to best serve community interests, ensure organizational success, and enhance public confidence in policing and in rule of law.
