Tish Rabe 2019-06-18 The Cat in the Hat introduces beginning readers to maps—the different kinds (city, state, world, topographic, temperature, terrain, etc.); their formats (flat, globe, atlas, puzzle); the tools we use to read them (symbols, scales, grids, compasses); and funny facts about the places they show us ("Michigan looks like a scarf and a mitten! A Walking Life Antonia Malchik 2019-05-07 For readers of *On Trails*, this is an incisive, utterly engaging exploration of walking: how it is fundamental to our being human, how we've designed it out of our lives, and how it is essential that we reembrace it. "I'm going for a walk." How often has this phrase been uttered by someone with a heart full of anger or sorrow? Or as an invitation, a precursor to a declaration of love? Our species and its predecessors have been bipedal walkers for at least six million years; by now, we take this seemingly arbitrary motion for granted. Yet how many of us still really walk in our everyday lives? Driven by a combination of a car-centric culture and an insatiable thirst for productivity and efficiency, we're spending more time sedentary and alone than we ever have before. If bipedal walking is truly what makes our species human, as paleoanthropologists claim, what does it mean that we are designing walking right out of our lives? Antonia Malchik asks essential questions at the center of humanity's evolution and social structures: Who gets

to walk, and where? How did we lose the right to walk, and what implications does that have for the strength of our communities, the future of democracy, and the pervasive loneliness of individual lives? The loss of walking as an individual and a community act has the potential to destroy our deepest spiritual connections, our democratic society, our neighborhoods, and our freedom. But we can change the course of our mobility. And we need to. Delving into a wealth of science, history, and anecdote -- from our deepest origins as hominins to our first steps as babies, to universal design and social infrastructure, *A Walking Life* shows exactly how walking is essential, how deeply reliant our brains and bodies are on this simple pedestrian act -- and how we can reclaim it.

Lakota boy—though you wouldn't guess it by his name: his father is part white and part Lakota, and his mother is Lakota. When he embarks on a journey with his grandfather, Nyles High Eagle, he learns more and more about his Lakota heritage—in particular, the story of Crazy Horse, one of the most important figures in Lakota and American history. Drawing references and inspiration from the oral stories of the Lakota tradition, celebrated author Joseph Marshall III juxtaposes the contemporary story of Jimmy with an insider's perspective on the life of Tasunke Witko, better known as Crazy Horse (c. 1840–1877). The book follows the heroic deeds of the Lakota leader who took up arms against the US federal government to fight against encroachments on the territories and way of life of the Lakota people, including leading a war party to victory at the Battle of the Little Bighorn. Along with Sitting Bull, Crazy Horse was the last of the Lakota to surrender his people to the US army. Through his grandfather's tales about the famous warrior, Jimmy learns more about his Lakota heritage and, ultimately, himself. American Indian Youth Literature Award

The Young Atatürk George W. Gawrych 2013-04-16 Winner of a 2014 Distinguished Book Award from The Society of Military History and Shortlisted for the 2014 Longman-History Today Book Prize Mustafa Kemal - latterly and better known as Ataturk - is without doubt the most famous figure in modern Turkish history. But what was his path to power? And how did his early career as a soldier in the Ottoman army affect his later decisions as President? The Young Ataturk tracks the lesser covered period of Kemal's life - from the War of Independence to the founding of the Republic. George W. Gawrych shows that it is only by understanding Kemal's military career that one can fully comprehend how he evolved as one of the twentieth century's most extraordinary statesmen. Gawrych also contributes to the understanding of Kemal by presenting a systematic and critical analysis of his military writings, orders, actions, and letters as well as his political decisions, speeches, proclamations, and private correspondences. Soldiering helped shape Kemal's critical reasoning, personal values and emotional intelligence. His experiences as an officer and commander forced him to adjust theories to practices in order to solve problems and make decisions. But Kemal was a natural political leader and his broad intellectual interests and personal studies helped prepare him for political leadership. Gawrych demonstrates that in the last year of the War of Independence Kemal excelled as both Commander-in-Chief of the Armed Forces and President of the Grand National Assembly of Turkey. Gawrych incorporates previously-unstudied Ottoman archival documents and is the first Western scholar to conduct extensive research on Kemal in the military archives of the Turkish General Staff. This book is essential reading for those seeking to understand the establishment of the Republic of Turkey and the part that Kemal played in that process.

The Canterville Ghost By Oscar Wilde Oscar Wilde 2021-01-01 This is Oscar Wilde's tale of the American family moved into a British mansion, Canterville Chase, much to the annoyance of its tired ghost. The family -- which refuses to believe in him -- is in Wilde's way a commentary on the British nobility of the day -- and on the Americans, too. The tale, like many of Wilde's, is rich with allusion, but ends as sentimental romance...
