**Florence Nightingale: The Crimean War** Lynn McDonald 2011-02-01 Florence Nightingale is famous as the “lady with the lamp” in the Crimean War, 1854–56. There is a massive amount of literature on this work, but, as editor Lynn McDonald shows, it is often erroneous, and films and press reporting on it have been even less accurate. The Crimean War reports on Nightingale’s correspondence from the war hospitals and on the staggering amount of work she did post-war to ensure that the appalling death rate from disease (higher than that from bullets) did not recur. This volume contains much on Nightingale’s efforts to achieve real reforms. Her well-known, and relatively “sanitized”, evidence to the royal commission on the war is compared with her confidential, much franker, and very thorough Notes on the Health of the British Army, where the full horrors of disease and neglect are laid out, with the names of those responsible.

**Youth and Spouse Selection** Ali Akbar Mazaheri 2015-11-12 This book suggests to the youth, solutions to only one of the burning problems of the day, marriage, from an Islamic perspective and viewpoint. The learned author, Mr. Ali Akbar Mazaheri, has put in a great deal of hard and sincere endeavour to illustrate Islamic solutions to this aspect of human life, particularly, the innocent youth of today, who are being misguided, confused and perverted by the immoral techno-propaganda of the imperialists, who have their own axe to grind to achieve their selfish and nasty objectives all around the globe. We hope that this useful book will be a guide for the perturbed youth and an answer to a part of their quest. This book is one of the many Islamic publications distributed by Ahlulbait Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. *How We Became Posthuman* N. Katherine Hayles 1999-02-15 In this age of DNA computers and artificial intelligence, information is becoming disembodied even as the "bodies" that once carried it vanish into virtuality. While some marvel at these changes, envisioning consciousness downloaded into a computer or humans "beamed" Star Trek-style, others view them with horror, seeing monsters brooding in the machines. In *How We Became Posthuman*, N. Katherine Hayles separates hype from fact, investigating the fate of embodiment in an information age. Hayles relates three interwoven stories: how information lost its body, that is, how it came to be conceptualized as an entity separate from the material forms that carry it; the cultural and technological construction of the cyborg; and the dismantling of the liberal humanist "subject" in cybernetic discourse, along with the emergence of the "posthuman." Ranging widely across the history of technology, cultural studies, and literary criticism, Hayles shows what had to be erased, forgotten, and elided to conceive of information as a disembodied entity. Thus she moves from the post-World War II Macy Conferences on cybernetics to the 1952 novel *Limbo* by cybernetics aficionado Bernard Wolfe; from the concept of self-making to Philip K. Dick's literary explorations of hallucination and reality; and from artificial life to postmodern novels exploring the implications of seeing humans as cybernetic systems. Although becoming posthuman can be nightmarish, Hayles shows how it can also be liberating. From the birth of cybernetics to artificial life, *How We Became Posthuman* provides an indispensable account of how we arrived in our virtual age, and of where we might go from here.

This new India needs to be seen with new eyes, free from the baggage of yesterdays characterizations. This is exactly what Santosh Desai, one of Indias best-known social commentators, does in this warm, affectionate and deliciously witty look at the changing urban Indian middle class. **Indigenous Data Sovereignty** Tahu Kukutai 2016-11-14 As the global 'data revolution' accelerates, how can the data rights and interests of indigenous peoples be secured? Premised on the United Nations Declaration on the Rights of Indigenous Peoples, this book argues that indigenous peoples have inherent and inalienable rights relating to the collection, ownership and application of data about them, and about their lifeways and territories. As the first book to focus on indigenous data sovereignty, it asks: what does data sovereignty mean for indigenous peoples, and how is it being used in their pursuit of self-determination? The varied group of mostly indigenous contributors theorise and conceptualise this fast-emerging field and present case studies that illustrate the challenges and opportunities involved. These range from indigenous communities grappling with issues of identity, governance and development, to national governments and NGOs seeking to formulate a response to indigenous demands for data ownership. While the book is focused on the CANZUS states of Canada, Australia, Aotearoa/New Zealand and the United States, much of the content and discussion will be of interest and practical value to a broader global audience. 'A debate-shaping book ... it speaks to a fast-emerging field; it has a lot of important things to say; and the timing is right.' – Stephen Cornell, Professor of Sociology and Faculty Chair of the Native Nations Institute, University of Arizona 'The effort ... in this book to theorise and conceptualise data sovereignty and its links to the realisation of the rights of indigenous peoples is pioneering and laudable.' – Victoria Tauli-Corpuz, UN Special Rapporteur on the Rights of Indigenous Peoples, Baguio City, Philippines

In 1972, Tibo moved to the Marcos-controlled Daily Express and assumed the presidency of the National Press Club of the Philippines and chairperson of the Media Advisory Council, effectively becoming--in his own words--"the sole conduit between the military government and the practicing media." In 1975, Tibo defected. He knew too much and so informed a Congressional Committee in the United States, in June 1975. Despite Marcos's efforts to stop its publication, *The Conjugal Dictatorship* was published in 1976. A year after the publication of the book, Tibo was never heard from again and was declared legally dead years later. Tibo's youngest son, Luis Manuel, was abducted, tortured, and later found murdered and mutilated in 1977, as a result of the publication of *The Conjugal Dictatorship*. He was 16 years old.

The Mongols and the Islamic World Peter Jackson 2017-04-04 An epic historical consideration of the Mongol conquest of Western Asia and the spread of Islam during the years of non-Muslim rule. The Mongol conquest of the Islamic world began in the early thirteenth century when Genghis Khan and his warriors overran Central Asia and devastated much of Iran. Distinguished historian Peter Jackson offers a fresh and fascinating consideration of the years of infidel Mongol rule in Western Asia, drawing from an impressive array of primary sources as well as modern studies to demonstrate how Islam not only survived the savagery of the conquest, but spread throughout the empire. This unmatched study goes beyond the well-documented Mongol campaigns of massacre and devastation to explore different aspects of an immense imperial event that encompassed what is now Iran, Iraq, Turkey, and Afghanistan, as well as Central Asia and parts of eastern Europe. It examines in depth the cultural consequences for the incorporated Islamic lands, the Muslim experience of Mongol sovereignty, and the conquerors' eventual conversion to Islam.
