The Anticipatory Corpse Jeffrey P. Bishop 2011-09-19 In this original and compelling book, Jeffrey P. Bishop, a philosopher, ethicist, and physician, argues that something has gone sadly amiss in the care of the dying by contemporary medicine and in our social and political views of death, as shaped by our scientific successes and ongoing debates about euthanasia and the "right to die"—or to live. *The Anticipatory Corpse: Medicine, Power, and the Care of*

the Dying, informed by Foucault's genealogy of medicine and power as well as by a thorough grasp of current medical practices and medical ethics, argues that a view of people as machines in motion—people as, in effect, temporarily animated corpses with interchangeable parts—has become epistemologically normative for medicine. The dead body is subtly anticipated in our practices of exercising control over the suffering person, whether through technological mastery in the intensive care unit or through the impersonal, quasi-scientific assessments of psychological and spiritual "medicine." The result is a kind of nihilistic attitude toward the dying, and troubling contradictions and absurdities in our practices. Wide-ranging in its examples, from organ donation rules in the United States, to ICU medicine, to "spiritual surveys," to presidential bioethics commissions attempting to define death, and to high-profile cases such as Terri Schiavo's, *The Anticipatory Corpse* explores the historical, political, and philosophical underpinnings of our care of the dying and, finally, the possibilities of change. This book is a ground-breaking work in bioethics. It will provoke thought and argument for all those engaged in medicine, philosophy, theology, and health policy.

Maternity and Paternity at Work Laura Addati 2014-05-13 This report provides a picture of where we stand and what we have learned so far about maternity and paternity rights across the world. It offers a rich international comparative analysis of law and practice relating to maternity protection at work in 185 countries and territories, comprising leave, cash benefits, employment protection and non-discrimination, health protection, breastfeeding arrangements at work and childcare. Expanding on previous editions, it is based on an extensive set of new legal and statistical indicators, including coverage in law and in practice of paid maternity leave as well as statutory provision of paternity and parental leave and their evolution over the last 20 years. The report also takes account of the recent economic crisis and austerity measures. It shows how well national laws and practice conform to the ILO Maternity Protection Convention, 2000 (No. 183), its accompanying Recommendation (No. 191) and the Workers with Family Responsibilities Convention, 1981 (No. 156), and offers guidance on policy design and implementation. This report shows that a majority of countries have established legislation to protect and support maternity and paternity at work, even if those provisions do not always meet the ILO standards. One of the persistent challenges is the effective implementation of legislation, to ensure that all workers are able to benefit from these essential labour rights.

Between Justice and Politics William Irvine 2006-12-08 Between Justice and Politics is a history of the first fifty years of the Ligue des droits de l'Homme—the League of the Rights of Man. This is the first book-length study of the Ligue in any language, and it is informed by the recently available archives of the organization. Founded during the Dreyfus Affair, the Ligue took as its mandate the defense of human rights in all their forms. The central argument of this book—and the point on which it differs from all other writings on the subject—is that the Ligue often failed to live up to its mandate because of its simultaneous commitment to left-wing politics. By the late 1930s the Ligue was in disarray, and by the 1940s a number of its members opted to defend the Vichy regime of Marshal Petain.

The Psychic Life of Power Judith Butler 1997 Judith Butler's new book considers the way in which psychic life is generated by the social operation of power, and how that social operation of power is concealed and fortified by the psyche that it produces. It combines social theory, philosophy, and psychoanalysis in novel ways, and offers a more sustained analysis of the theory of subject formation implicit in her previous books.
