**No More Teaching a Letter a Week** Rebecca McKay 2015 "Letter-a-week" may be a ubiquitous approach to teaching alphabet knowledge, but that doesn't mean it's an effective one. In *No More Teaching a Letter a Week*, early literacy researcher Dr. William Teale helps us understand that alphabet knowledge is more than letter recognition, and identifies research-based principles of effective alphabet instruction, which constitutes the foundation for phonics teaching and learning. Literacy coach Rebecca McKay shows us how to bring those principles to life through purposeful practices that invite children to create an identity through print. Children can and should do more than glue beans into the shape of a "B"; they need to learn how letters create words that carry meaning, so that they can, and do, use print to expand their understanding of the world and themselves.

**The Building Blocks of Preschool Success** Katherine A. Beauchat 2010-05-11  
Written expressly for preschool teachers, this engaging book explains the "whats," "whys," and "how-tos" of implementing best practices for instruction in the preschool classroom. The authors show how to target key areas of language and literacy development across the entire school day, including whole-group and small-group activities, center time, transitions, and outdoor play. Detailed examples in every chapter illustrate what effective instruction and assessment look like in three distinct settings: a school-based pre-kindergarten, a Head Start center with many English language learners, and a private suburban preschool. Helpful book lists, charts, and planning tools are featured, including reproducible materials.

**Gratitude in Education** Kerry Howells 2012-07-30 Teachers at all levels of education will find this book practical and inspiring as they read how other educators have engaged with challenges that reveal different dimensions of gratitude, and how some have discovered its relevance in gaining greater

resilience, improved relationships and increased student engagement. In the first comprehensive text ever written that is solely dedicated to the specific relevance of gratitude to the teaching and learning process, Dr Howells pioneers an approach that accounts for both dilemmas and possibilities of gratitude in the midst of teachers' busy and stressful lives. She takes a contemporary and philosophical view of the notion of gratitude and goes beyond its conceptualisation simply from a religious or positive psychology framework. Exploring real situations with teachers, school leaders, students, parents, academics and pre-service teachers - *Gratitude In Education: A Radical View* examines many of the complexities encountered when gratitude is applied in a variety of secular educational environments.

**Beginning with Braille** Anna M. Swenson 1999 Beginning with braille provides a wealth of effective activities for promoting literacy at the early stages of braille instruction. The text includes creative and practical strategies for designing and delivering quality braille instruction and teacher-friendly suggestions for many areas such as reading aloud to young children, selecting and making early tactile books, and teaching tactile and hand movement skills. This book also includes tips on designing worksheets, introducing braille contractions, teaching the use of the braillewriter, and facilitating the writing process in braille. Chapters also address guidelines for individualizing instruction, the literacy needs of students with additional disabilities, and assessment of student progress in developing literacy skills.

**Early Childhood Experiences in Language Arts: Early Literacy** Jeanne M. Machado 2015-01-01 EARLY CHILDHOOD EXPERIENCES IN LANGUAGE ARTS: EARLY LITERACY, Eleventh Edition responds to national legislation, professional standards, and public concern about the development of young children's language and foundational literacy skills by providing current research-based instructional strategies in early language development. Activities throughout emphasize the relationship between listening, speaking, reading, writing (print), and viewing in language arts areas. This text addresses the cultural and ethnic diversity of children and provides techniques and tips for adapting curricula. Theory is followed by how-to suggestions and plentiful examples of classic books and stories, poems, finger plays, flannel board and alphabet experiences, puppetry, language games, drama, and phonemic and phonetic awareness activities. Students will also learn how, as teachers, they can best interact with children to promote appropriate language development, and how they can create a print-rich environment in the classroom. **Mindfulness for Preschool and Kindergarten** Monica Moore Jackman 2022-08-01 A powerful SEL mindfulness program to help kids self-regulate, foster social and academic engagement, and bring peace back into the classroom. As a teacher, you

know that preschool and kindergarten are difficult periods of transition in kids' lives. This is true now more than ever, as young children in our world face increasing life challenges—including adverse childhood experiences, trauma, social disconnection, systematic discrimination, and a global pandemic. Students are struggling to balance their emotions and adapt to a classroom environment, the tools outlined in this mindfulness guide can help. Mindfulness for Preschool and Kindergarten offers an effective, adaptable, multisensory, and skills-based social emotional learning (SEL) program to help preschool and kindergarten-aged children learn to self-regulate, ensuring a peaceful and prosocial learning environment in the classroom. The hands-on OpenMind program in this book will help kids cope with stress and trauma, process and understand difficult emotions, and interact positively with others. Kids will also learn how to bounce back from challenges, build resilience, and experience greater social and academic engagement. The OpenMind program's five foundations go well beyond sequenced lesson plans and strategies to help promote a positive classroom experience. These include: Wellness and mindfulness training for teachers Practices to help kids build self-regulation, executive function, and engagement Planned practices and lessons in response to arising individual and learning environment needs that are anchored to social and academic content Scaffolding and modification of practices and lessons to promote learning and active mindful engagement A process for transforming challenging behaviors into opportunities for learning, growth, autonomy, and agency You are on the frontlines of helping kids face some of life's most difficult challenges, and ensuring that they feel valued, protected, and supported. The weight of this responsibility can create stress and feelings of overwhelm for you. Let this guide support both you and your young students in cultivating a loving, safe, and rewarding classroom environment—together.

**Productivity and Publishing** Margaret-Mary Sulentic Dowell 2022-02-13

Productivity and Publishing: Writing Processes for New Scholars & Researchers by Margaret-Mary Sulentic Dowell, Leah Katherine Saal, Cynthia F. DiCarlo, and Tynisha D. Willingham takes the challenges and confusion out of academic

writing and journal publishing by empowering readers to find the writing process that works for them. Activities and writing exercises help readers determine their research agendas, set realistic writing goals, , and follow time-tested and editor-approved processes for writing and revising journal articles. Topics cover the writing and publishing process from start to finish, addressing common issues for new academics like avoiding the blank page, selecting an appropriate journal, dealing with reviews, and leveraging your research into multiple articles and a comprehensive research agenda. Experts weigh in on crucial topics such as scholarly metrics and exposure and offer a journal editor's perspective on the writing and publishing process. Build your academic career on a solid foundation with Productivity and Publishing.

*How Children Learn to Write Words* Rebecca Treiman 2014-04-09 Writing allows people to convey information to others who are remote in time and space, vastly increasing the range over which people can cooperate and the amount they can learn. Mastering the writing system of one's language is crucial for success in a modern society. This book examines how children learn to write words. It provides a theoretical framework that integrates findings from a wide range of age groups--from children who are producing their first scribbles to experienced spellers who are writing complex words. To set the stage for these discussions, early chapters of the book consider the nature of writing systems and the nature of learning itself. The following chapters review various aspects of orthographic development, including the learning of symbol shapes and punctuation. Each chapter reviews research with learners of a variety of languages and writing systems, revealing underlying similarities. Discussions of how orthography is and should be taught are incorporated into each chapter, making the book of interest to educators as well as to psychologists, cognitive scientists, and linguists. This book is unique in the range of topics and languages that it covers and the degree to which it integrates linguistic insights about the nature of writing systems with discussions of how people learn to use these systems. It is written in a scholarly yet accessible manner, making it suited for a wide audience.

**More Than Letters, Standards Edition** Sally Moomaw 2020-08-25 For decades early childhood educators in high-quality programs have understood that the transition into reading and writing occurs naturally when young children are surrounded by opportunities to interact with print in ways that are meaningful to them. The original edition of *More Than Letters*, first published in 2001, showed teachers how to intentionally help children develop literacy skills through hands-on, play-based activities. Like the original edition, the *Standards Edition* is based on theory and research. It contains new chapters that specifically focus on developing the skills needed to decode literature and informational text. Expanded chapters include activities that target specific concepts included in national literacy standards.
