Go Forth and Do Good Wilson D. Miscamble 2003 Although the first proper Notre Dame commencement - conferring degrees on two candidates - took place in 1849, General William Tecumseh Sherman was Notre Dame's first graduation speaker with a truly national reputation. He attended Notre Dame's ceremony in 1865, just months after accepting the surrender of General Joseph E. Johnston's Confederate army. Sherman, whose sons had been students at Notre Dame, came less to give an address than to utter words of thanks for the kindness shown to his family, who had found refuge in the area during the war. When prevailed upon to speak he offered some extemporaneous remarks, calling on Notre Dame graduates and students to be ready at all times to perform bravely the battle of life.

From Puritanism to Platonism in Seventeenth Century England James Deotis Roberts 2012-12-06 The research of Professor J. D. Roberts has interested me for several years. It has interested me because he has been working in a really rich area of intellectual history. Even before Professor Whitehead taught us to speak of the seventeenth century as the "century of genius," many of us looked with wonder on the creativity of the men who produced religious and philosophical literature in that period of controversy and of power. It was, in a most unusual way, a flowering time of the human spirit. The present volume is devoted to one fascinating chapter in the history of ideas. We know now, far better than we knew a generation ago, how incendiary Puritan ideas really were. They had tremendous consequences, many of which continue to this day, in spite of the absurd caricature of Puritanism, which is popularly accepted. The best of Milton's contemporaries were great thinkers as well as great doers.

The Leader in Me Stephen R. Covey 2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

You Are Not Special David McCullough, Jr. 2014-04-22 A profound expansion of David McCullough, Jr.'s popular commencement speech—a call to arms against a prevailing, narrow, conception of success viewed by millions on YouTube—*You Are (Not) Special* is a love letter to students and parents as well as a guide to a

truly fulfilling, happy life “Every once in a long while, a voice seems to come out of nowhere, and you wonder how you ever managed without [it]. David McCullough, Jr. has that startling, insightful, wry, reassuring, helpful voice and *You Are Not Special* may be the wisest ‘parenting’ book I’ve read in decades.”—Madeline Levine, author of *The Price of Privilege* and *Teach Your Children Well* Children today, says David McCullough—high school English teacher, father of four, and son and namesake of the famous historian—are being encouraged to sacrifice passionate engagement with life for specious notions of success. The intense pressure to excel discourages kids from taking chances, failing, and learning empathy and self-confidence from those failures. In *You Are (Not) Special*, McCullough elaborates on his now-famous speech exploring how, for what purpose, and for whose sake, we’re raising our kids. With wry, affectionate humor, McCullough takes on hovering parents, ineffectual schools, professional college prep, electronic distractions, club sports, and generally the manifestations, and the applications and consequences of privilege. By acknowledging that the world is indifferent to them, McCullough takes pressure off of students to be extraordinary achievers and instead exhorts them to roll up their sleeves and do something useful with their advantages.

The Last Lecture Randy Pausch 2008-04-08 "We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Certain Trumpets Garry Wills 2013-05-28 This “beautifully written and reasoned” (Booklist) narrative by Pulitzer Prize-winning author Garry Wills examines what constitutes meaningful leadership, and why it is so essential to society. What makes a leader? How do we identify effective leadership, and how should—and shouldn’t—that power be used? In *Certain Trumpets*, Garry Wills presents portraits of eminent leaders including FDR to Ross Perot, King David, Martha Graham, and many others, offering an illuminating lens for studying society and ourselves. Dividing these portraits into sixteen leadership categories ranging from military to charismatic, intellectual, rhetorical, and elected, Wills highlights what makes each of his subjects unique, crafting along the way a distinct and incisive definition of leadership as a reciprocal engagement

between two contrasting wills that serves to mobilize us toward a common good, and explaining why leadership is so often a contentious and emotionally charged subject. "A stunningly literate and thoughtful examination of what makes a leader...[and] a welcome antidote to some of the more egregious 'management style' drivel," (Kirkus Reviews), *Certain Trumpets* is an inspiring and edifying tour through the history of an indispensable social art.

Tribes Seth Godin 2008-10-16 *The New York Times*, *BusinessWeek*, and *Wall Street Journal* Bestseller that redefined what it means to be a leader. Since it was first published almost a decade ago, Seth Godin's visionary book has helped tens of thousands of leaders turn a scattering of followers into a loyal tribe. If you need to rally fellow employees, customers, investors, believers, hobbyists, or readers around an idea, this book will demystify the process. It's human nature to seek out tribes, be they religious, ethnic, economic, political, or even musical (think of the Deadheads). Now the Internet has eliminated the barriers of geography, cost, and time. Social media gives anyone who wants to make a difference the tools to do so. With his signature wit and storytelling flair, Godin presents the three steps to building a tribe: the desire to change things, the ability to connect a tribe, and the willingness to lead. If you think leadership is for other people, think again—leaders come in surprising packages. Consider Joel Spolsky and his international tribe of scary-smart software engineers. Or Gary Vaynerhuck, a wine expert with a devoted following of enthusiasts. Chris Sharma led a tribe of rock climbers up impossible cliff faces, while Mich Mathews, a VP at Microsoft, ran her internal tribe of marketers from her cube in Seattle. *Tribes* will make you think—really think—about the opportunities to mobilize an audience that are already at your fingertips. It's not easy, but it's easier than you think.

Higher Calling Scott C. Beardsley 2017 A revolution has been taking place in the ranks of higher education. University and college presidents--once almost invariably the products of "traditional" scholarly, tenure-track career paths, up through the provost's office--are rapidly becoming a group with diverse skills and backgrounds. The same is true for many deans and administrative leaders. In *Higher Calling: The Rise of Nontraditional Leaders in Academia*, Scott C. Beardsley, dean of the University of Virginia's prestigious Darden School of Business, offers a new vision of leadership for today's higher education. Grounded in the author's own inspirational story of leaving McKinsey & Company in pursuit of a new source of meaning in his professional life, *Higher Calling* employs research gathered from search firm executives who now play king or queen maker in presidential and dean searches. It also takes into account information from U.S. liberal arts colleges--considered by many to be the bellwethers of change--to explore what set of strengths an institution of higher education needs in a leader in the twenty-first century. Beardsley explores the widely varying definitions and associated numbers of traditional and nontraditional leaders and asks, Why are U.S. colleges and universities hiring nontraditional candidates to lead them into the future? How are the skills required to lead higher education institutions changing? Or has the search process changed, resulting in a more diverse set of candidates? Providing not only an analysis of nontraditional leaders in higher education but also strategies for developing skills and selecting leaders, Beardsley offers a wealth of information for the modern university in the face of change.

Latino High School Graduation Harriett D. Romo 2010-05-28 While high school drop-out rates have steadily declined among white and African American students over the last twenty years, a constant 35 percent of Latino students continue to quit school before graduation. In this pioneering work, Harriett Romo and Toni Falbo reveal how a group of at-risk Latino students defied the odds and earned a high school diploma. Romo and Falbo tracked the progress of 100 students in Austin, Texas, from 1989 to 1993. Drawing on interviews with the students and their parents, school records, and fieldwork in the schools and communities, the authors identify both the obstacles that caused many students to drop out and the successful strategies that other students and their parents pursued to ensure high school graduation. The authors conclude with seven far-reaching recommendations for changes in the public schools. Sure to provoke debate among all school constituencies, this book will be required reading for school administrators, teachers, parents, legislators, and community leaders.
