*The Chemistry and Bioactive Components of Turmeric* Sreeraj Gopi 2020-10-15 Turmeric belongs to the family Zingiberaceae and is a yellow spice of high economic importance due to its medicinal value. Cultivated in tropical and sub-tropical regions around the world, it is used extensively as a colouring, flavouring and preserving agent. In recent years, several drugs derived from natural products have been developed and current drug research is actively investigating the possible therapeutic roles of many Ayurvedic medicines, most notable among those being examined is turmeric. The wide range of pharmacological activities attributed to turmeric come mainly from curcuminoids and two related compounds, demethoxycurcumin and bisdemethoxycurcumin. This comprehensive book brings together the research carried out on constituents obtained from turmeric and highlights their chemical and biological activities. Comprising 17 chapters, each written by experts in their respective field and curated by authorities, it will be invaluable to all those who are involved in the production, processing, marketing, and the use of turmeric. Appealing to researchers and professionals in natural products, nutraceuticals and food chemists, this book is exposing some of the myths and showing areas for possible future use.

### Turmeric (*Curcuma longa* L.) and Ginger (*Zingiber officinale* Rosc.) - World's Invaluable Medicinal Spices

Kodoth Prabhakaran Nair 2019-10-25 This book discusses the various aspects, from production to marketing of turmeric and ginger, the world's two most important and invaluable medicinal spice crops. The book begins with their origin and history, global spread, and goes on to describe the botany, production agronomy, fertilizer practices, pest management, post-harvest technology, pharmacology and nutraceutical uses. The book presents the economy, import-export and world markets involved with reference to turmeric and ginger. It would be a

benchmark and an important reference source for scientists, students, both undergraduate and post graduate, studying agriculture and food sciences and policy makers. It would be of great interest to professionals and industry involved in spice trade.

*The Agronomy and Economy of Turmeric and Ginger* K.P. Prabhakaran Nair 2013-02-20 Turmeric has been used as a medicine, a condiment, and a dye since at least 600 B.C., while ginger has been used extensively throughout history for its medicinal purposes. The Agronomy and Economy of Turmeric and Ginger brings these two important plants together in one reference book, explaining their history, production techniques, and nutritional and medicinal properties in detail. This book is intuitively organized by plant and use, allowing quick access to information. It puts the uniquely Indian use and history of turmeric and ginger plants into a global context of production and economic aspects. It explores the plants from a botanical perspective, and goes into details of their chemical composition as well. Rounding out the book are chapters on disease and pest control issues. The book is a valuable resource for those involved in the production and marketing of these plants, as well as those looking for more information on the medicinal and nutritional properties of turmeric and ginger. The first book to bring together extensive information about turmeric and ginger Incorporates medicinal, nutritional and agricultural aspects of the two plants Offers a global perspective

**The Aṣṭādhyāyī of Pāṇini** Pāṇini 1980 Panini's Aṣṭadhyayi represents the first attempt in the history of the world to describe and analyse the components of a language on scientific lines. It has not only been universally acclaimed as the first and foremost specimen of Descriptive Grammar but has also been the chief source of inspiration for the linguist engaged in describing languages of different regions. To understand Sanskrit language, and especially that part of it which embodies the highest aspirations of ancient Aryan people, viz., the Brahmanas, Samhitas, Upanisads, it is absolutely necessary to have a complete knowledge of the grammar elaborated by Panini. Being a masterpiece of reasoning and artistic arrangement its study is bound to cultivate

intellectual powers. Western scholars have described it as a wonderful specimen or a notable manifestation of Indian intelligence. This book is an English translation of Ashtadhyayi in two volumes and has won a unique position in the world of scholarship.

First Book of Sanskrit Ramkrishna Gopal Bhandarkar 2017-11-20 Excerpt from First Book of Sanskrit: Being an Elementary Treatise on Grammar, With Exercises Tur. Study of Sanskrit has but recently risen in the estimation of the educated natives of this Presidency and of our Educational authorities. The old Sanskrit College of Poona owed its existence and continuance rather to the spirit of conciliation and toleration in our rulers, than to their conviction of the utility of Sanskrit as a branch of general education. The modern critical and progressive spirit was not brought to bear upon it. The old Sanskritists were allowed to carry all things in their own way. After about thirty years since its establishment, the authorities began to exercise active interference, until at length the College was abolished, and a new system inaugurated, which to be complete and effective, requires, in my humble opinion, a partial restoration of the old institution. **The Harshacarita of Bāṇabhaṭṭa** P. V. Kane 1986 The Harshacarita of Banabhatta is a historical prose romance in Sanskrit, describing the events of king Harsa's (7th century A.D.) accession to the throne, his conquests and his relations with the contemporary monarchs. The work is valuable both from the literary and historical point of view. The present book comprises the complete Sanskrit text and elaborate notes in English. The notes explain the text literally and exegetically and thus, in fact, are better substitutes for translation. The introduction, prefixed to the text, deals, among other topics, with the personal history of Bana, his date and his works, the biography of Harsa, the political conditions and the religious beliefs prevailing in that age. The appendices contain the abstract of the Harshacarita and the index.

**Evidence-Based Validation of Herbal Medicine** Pulok K. Mukherjee 2022-07-12 Globalization in the context of drug development has increased the use of natural products worldwide. The trends in use of herbal medicine in therapeutics is becoming more popular and is still open to fascinating realms of research. 'Evidence-Based Validation of Herbal Medicines' brings together current thinking and practice in the areas of characterization and validation of natural products. This book describes different approaches and techniques for evaluating the quality, safety and efficacy of herbal medicine, particularly methods to assess their activity and understand the compounds responsible and their probable underlying mechanisms of action, which improve the level of understanding of various aspects on evaluation of natural products. This book is an effort to bring together the views, expertise and experiences of scientific experts in the field of medicinal plant research. This will be useful for the researcher to know more about the natural lead with their validation and also useful to exploit traditional medicines, leading to discovery and development of newer drugs through translational research with cutting edge technologies on natural remedies. This book will be an essential reading for the researchers whose professional life impinges on the use of natural resources. Includes state-of-the-art methods for detecting, isolating, and performing structure elucidation by degradation and spectroscopic techniques Highlights the trends in validation and value addition of herbal medicine with different scientific approaches used in therapeutics Contains several all-new chapters on topics such as traditional-medicine-inspired drug development to treat emerging viral diseases, medicinal plants in antimicrobial resistance, TLC bio profiling, botanicals as medicinal foods, bioprospecting and bioassay-guided isolation of medicinal plants, immunomodulators from medicinal plants, and more

**Practice of centring awareness** 2002 The *Vijñāna Bhairava* is one of the most important Tantras of Kashmir Shaivism as far as the practical aspect of yoga of this school is concerned. It teaches 112 dhāranās or ways of centring awareness and entering divine consciousness, which include ordinary and extraordinary experiences, as well as tantric methods of spiritual practice such as kuṣṭhālinī, mantra and mudrā. This ancient text is of great relevance for a spirituality of our times which has to integrate all aspects of life. The present edition, translation and commentary is unique since it contains the oral teaching of the last great master of the Kashmir Shaiva tradition, Swami Lakshman Joo. In his explanation of the dhāranās he gives the deep significance and practical application of various methods of yoga which give direct access to states of higher consciousness.
