The Astrological Physician William Andrews 2017-12-15 Fusing medicine and astrology together, the astrological physician is one of the strangest works of the 17th century. A precursor to later, more lasting attempts at mixing the spiritual and the scientific, a rudimentary observation of stars and planets is all that is needed, according to this work, to diagnose and treat illness. Using the theory of the humors, it also proclaims the ability to determine whether a malady is caused by demons or witches.

First Book of Sanskrit Ramkrishna Gopal Bhandarkar 2017-11-20 Excerpt from First Book of Sanskrit: Being an Elementary Treatise on Grammar, With Exercises Tur. Study of Sanskrit has but recently risen in the estimation of the educated natives of this Presidenceny and of our Educational authorities. The old Sanskrit College of Poona owed its existence and continuance rather to the spirit of conciliation and tolerance in our rulers, than to their conviction of the utility of Sanskrit as a branch of general education. The modern critical and progressive spirit was not brought to bear upon it. The old Sanskritists were allowed to carry all things in their own way. After about thirty years since its establishment, the authorities began to exercise active interference, until at length the College was abolished, and a new system inaugurated, which to be complete and effective, requires, in my humble opinion, a partial restoration of the old institution. Begin with "I" Rohit Sethi "This inspiring story introduces Ron, an average guy, who is increasingly disturbed by social media updates from his peers and feels he is not doing as well in his own life. He feels stuck in his day-to-day routine and is struggling to accept if that is all life had to offer, after all the hard work that he put in over the years to establish himself. Although his life is comfortable, he feels something is missing within the entire scheme of things. One day, through a 'magical meeting', he is introduced to the step-by-step approach to finding one's answers. Ron embarks on this journey, becomes his best self and in the process, discovers his life purpose, a sense of passion and ever-lasting contentment. The book offers those key concepts from the science of achievement and personal development that can have maximum impact on your life. In addition, simple exercises have been provided, each of which can be integrated into your busy day-to-day lives. If you are new to

self-help and personal development, this book will provide you with most of what you need to become your best self and continue pushing further. If you are already a self-help enthusiast, this book will serve as a quick reminder of the core principles and high-impact exercises."

Phaldeepika Gopesh Kumar Ojha 2014-01-01 Mantreswar was the greatest astrologer of the 12th century from the South of India. He compiled in Sanskrit the principles of Predictive Astrology propagated by Maharshi Parashar, Jaimini and various other great astrologers in his famous work Phaldeepika. This is one of the best books on Predictive Astrology. It includes the essence of Parashar, Jaimini and many more masters. Four hundred and fifty Yogas of Bhavartha Ratnakar of Shri Ramanuja have been added to benefit the title Phaldeepika; Bhavartha Bodhini. The 28 chapters in the book cover various topics: the characteristics, house divisions, strength of planets, career, various yogas, raja yogas, marriage, children, longevity, periodic influence of planets, the effect of transits and ashtakvargas. The 11th chapter exclusively deals with the nativity of women; the 22nd chapter gives the interpretations and calculation of the Kalachakra dashas. This English edition also includes many horoscopes, tables and a glossary of Sanskrit and Hindi words. The language is easy to understand and even beginners after studying this book for a few months will be able to arrive at the right interpretations and timing of events.

Comprehensive Grammar and Composition by Pearson Chakraverty Comprehensive Grammar & Composition is a definitive textbook on the English language, designed to familiarise young learners with the nuances of English grammar through situations and contexts that are easy to relate to, while preparing

them to cope with the language paper in their examinations. This book is divided into sections for the student's convenience and provides ample practice material for the grammar topics with internal cross-references to the relevant rules for each grammar exercise. The explanations are clear and concise and are backed up by sufficient examples, while rules and exceptions are presented neatly in tabular format or in boxes. Usage notes and interesting pieces of information are given at the relevant points while the chapters conclude with a section on errors that are commonly made. The sections on comprehension and composition provide students with additional writing practice while exposing them to the use of English in various real-life situations. The vocabulary pages take into consideration the importance of a lexical approach to the language. The functional approach of the series will ensure that students are equipped to apply their acquired knowledge of grammar in practical scenarios
