**Perché una Costituzione della Terra?** FERRAJOLI LUIGI 2021-03-25 Perché mai una Costituzione del mondo? Perché ci sono emergenze e catastrofi globali, come la pandemia tuttora in atto, che non fanno parte dell'agenda politica dei governi nazionali, anche se dalla

loro soluzione dipende la sopravvivenza dell'umanità: il riscaldamento climatico e gli inquinamenti globali dei mari e dell'aria, di cui soffrono soprattutto le popolazioni dei paesi poveri benché siano prodotti dallo sviluppo insostenibile dei paesi ricchi; le guerre e i pericoli di catastrofi e conflitti nucleari determinati dalle migliaia di testate atomiche tuttora presenti sul pianeta; la crescita delle disuguaglianze e della povertà e la morte ogni anno di milioni di persone per mancanza di alimentazione di base e di farmaci salva-vita; la produzione e la diffusione di armi che ogni anno provocano guerre e centinaia di migliaia di omicidi; il dramma, infine, di masse crescenti di migranti che fuggono da queste tragedie per poi incontrare, quando non perdono la vita nelle loro terribili odissee, l'oppressione razzista dovuta alle loro personali identità differenti. Soltanto la stipulazione di un nuovo patto globale di pacifica convivenza, di mutuo soccorso e di rispetto e tutela della natura è in grado, realisticamente, di garantire l'abitabilità della Terra e il futuro all'umanità.

**Sociocultural Aspects of Translating and Interpreting** Anthony Pym 2006-01-01  
Translation Studies has recently been searching for connections with Cultural Studies and Sociology. This volume brings together a range of ways in which the disciplines can be related, particularly with respect to research methodologies. The key aspects covered are the agents behind translation, the social histories revealed by translations, the perceived roles and values of translators in social contexts, the hidden power relations structuring publication contexts, and the need to review basic concepts of the way social and cultural systems work. Special importance is placed on Community Interpreting as a field of social complexity, the lessons of which can be applied in many other areas. The volume studies translators and interpreters working in a wide range of contexts, ranging from censorship in East Germany to English translations in Gujarat. Major contributions are made by Agnès Whitfield, Daniel Gagnon, Franz Pöchhacker, Michaela Wolf, Pekka Kujamäki and Rita Kothari, with an extensive introduction on methodology by Anthony Pym.

**The Rejection of Consequentialism** Samuel Scheffler 1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.
