**Reading William Blake** Saree Makdisi 2015-04-09 William Blake (1757–1827) is one of the most original and influential figures of the Romantic Age, known for his work as an artist, poet and printmaker. Grounding his ideas both in close reading and in the latest scholarship, Saree Makdisi offers an exciting and imaginative approach to reading Blake. By exploring some of the most important themes in Blake's work and connecting them to particular plates from *Songs of Innocence* and of *Experience*, Makdisi highlights Blake's creative power and the important interplay between images and words. There is a consistent emphasis on the relationship between the material nature of Blake's illuminated books, including the method he used to produce them, and the interpretive readings of the texts themselves. Makdisi argues that the material and formal openness of Blake's work can be seen as the very basis for learning to read in the spirit of Blake.

**Recycling from Waste in Fashion and Textiles** Pintu Pandit 2020-07-15 The alarming level of greenhouse gases in the environment, fast depleting natural resources and the increasing level of industrial effluents, have made every single manufacturing activity come under the scrutiny of sustainability. When all kinds of waste such as clothes, furniture, carpets, televisions, shoes, paper, food wastes etc. end up in the landfill, only a few of them are naturally decomposed and thus a large majority remains as non-biodegradable. It is for this reason, efforts are concentrated to reduce the burden on earth by this waste, and as far as used textile products are concerned, there are now attempts to recycle or up-cycle. This book addresses the role of sustainability by using textile waste in fashion and textiles with respect to manufacturing, materials, as well as the economic and business challenges and opportunities it poses. This wide-ranging book comprises 19 chapters on the various topics including: Solutions for sustainable fashion and textile industry Agro and bio waste in the fashion industry Innovating fashion brands by using textile waste Waste in handloom textiles Business paradigm shifting: 21st century fashion from recycling and upcycling Utilization of natural waste for sustainable textile coloration Circular economy in fashion and textile from waste Future pathways of waste utilization for fashion Sustainable encapsulation of natural dyes from Plant waste for textiles Agro-waste applications for bio-remediation of textile effluent

*The Indic Quotient* Kaninika Mishra 2020-07-28 Over the past decade, India has seen a significant rise in both passion for enterprise and pride in heritage. The two have converged to form successful ventures and imaginative social initiatives centred around Indic ideas that encompass yoga, Ayurveda, textiles, Sanskrit education and temple conservation, among others. In *The Indic Quotient*, Kaninika Mishra celebrates the efforts of ordinary Indians as they reclaim their native identity with ingenuity - from a team of economists working to put long-forgotten millets on urban Indian plates in Delhi to a

group of art enthusiasts working to bring back stolen artefacts from museums abroad; an ex-investment banker formulating Ayurveda-inspired beauty products in Chandigarh to a yoga teacher from rural Bihar setting up a successful teaching practice in Gurugram; and a former engineer working to revive traditional textiles in Assam to a corporate professional in Bengaluru making India's first Sanskrit animation film. With intimately told stories of dynamism and entrepreneurship, the book tries to examine the relevance of traditional wisdom and culture in modern India, and what they mean for India's economic future and soft power.

Hema Malini Ram Kamal Mukherjee 2017-10-10 One of the most enduring divas of Hindi cinema, a producer and director for films and television, dancer and choreographer par excellence, magazine editor, an active member of Parliament and now a singer, Hema Malini wears many hats with admirable ease. No other industry name comes close to matching the breadth of her achievements. In an industry where the male star has traditionally driven the commercial success of films, Hema was an exception, with her name alone sufficing to ensure a film's box-office glory. She was, arguably, India's first female superstar. Apart from starring in mainstream super-hits like Johny Mera Naam, Jugnu, Andaz, Seeta Aur Geeta, Sholay and, more recently, Baghban, she received critical acclaim for her performances in Lal Patthar, Khushboo, Kinara, Meera, Ek Chadar Maili Si and Razia Sultan. But there is much more to her than just her Bollywood journey. From her efforts at reviving and sustaining classical dance to her graceful handling of her personal life and the controversies that have plagued her in her political avatar, from her relationships to her religious beliefs and her recent tryst with singing, Hema Malini: Beyond the Dream Girl covers it all. With detailed interviews and exclusive anecdotes from her family, friends and co-actors, this is an inside look at the remarkable life of one of our greatest cinema icons, someone who has truly lived life on her own terms.

The Crafts and Capitalism Tirthankar Roy 2020-02-13 This book presents a comprehensive history of handloom weaving industry in India to challenge and revise the view that competition from machine-produced textiles destroyed the country's handicrafts as claimed by historians until recently. It shows that skill-intensive handmade textiles survived the competition on a large scale, and that handmade goods and high-quality manual labour played a positive role in the making of modern India. Rich in archival material, The Crafts and Capitalism explores themes such as the historiography of craft technologies; statistical work on nineteenth-century cotton cloth production trends; narratives of merchants, the social leaders, the factory-owners; tools and techniques; and, shift from handloom to

power loom. The book argues that changes in the handloom industry were central to the consolidation of new forms of capitalism in India. An important intervention in Indian economic history, this book will be useful to scholars and researchers of Indian history, economic history, colonial history, modern history, political history, labour history and political economy. It will also interest nongovernmental organizations, textile historians, and design specialists.

Business and Management Practices in South Asia Arijit Sikdar 2018-09-04 This book presents case studies of South Asian companies that have strategic business implications, highlighting the complex interplay of business and social dynamics in South Asia. This region is a wide agglomeration of very different countries that share somewhat common cultures and issues and yet it is torn apart by religion and politics. There is an abundance of local entrepreneurship but a widespread institutional void. The book investigates how local companies survive and thrive in this environment and discusses those companies that have withstood the competitive pressure of MNCs, depicting their management and business practices. In today's world, where multinationals are so omnipresent that their management and business practices are considered as the de facto recipe for success, there is a need to have an alternative view that challenges the ubiquitousness of multinational management practices. The case studies in this book focus on the business and management practices of local organizations in South Asia and thus provide that alternative viewpoint of how to achieve success in South Asia. Exposing readers to a local perspective on doing business in South Asia, it is a valuable resource for students and practitioners of management.

**The Sari** Mukulika Banerjee 2008-08-15 Drawing on experiences from villagers in Bengal to scientists in Bangalore, this book explores the beauty, adaptability and personality of India's most iconic garment. Banerjee and Miller show why the sari has survived and indeed flourished as everyday dress when most of the world has adopted western clothing. Their book presents both an intimate portrait of the lives of women in India today and an alternative way for us all to think about our relationship to the clothes we wear. A new bride is unable to move from her husband's motorbike as her sari comes undone. A young man wonders how he will cope with the saris complicated folds in a romantic clinch. A villager's soft, worn sari is her main comfort during a fever. Throughout the book, these and other remarkable stories place the sari at the heart of relationships between mothers and infants, mistresses and maids, designers and soap opera stars. Illustrated and rich in personal testimony, The Sari expertly shows how one of the world's most simply constructed garments can reveal the intricate design of life in modern India.

**Middle India and Urban-Rural Development** Barbara Harriss-White 2015-07-28 Middle India and Rural-Urban Development explores the socio-economic conditions of an 'India' that falls between the cracks of macro-economic analysis, sectoral research and micro-level ethnography. Its focus, the 'middle India' of small towns, is relatively unknown in scholarly terms for good reason: it requires sustained and difficult field research. But it is where most Indians either live or constantly visit in order to buy and sell, arrange marriages and plot politics. Anyone who wants to understand India therefore needs to understand non-metropolitan, provincial, small-town India and its economic life. This book meets this need. From 1973 to the present, Barbara Harriss-White has watched India's development through the lens of an ordinary town in northern Tamil Nadu, Arni. This book provides a pluralist, multi-disciplinary and inter-disciplinary perspective on Arni and its rural hinterland. It grounds general economic processes in the social specificities of a given place and region. In the process, continuity is juxtaposed with abrupt change. A strong feature of the book is its analysis of how government policies that fail to take into account the realities of small town life in India have unintended and often perverse consequences. In this unique book, Harriss-White brings together ten essays written by herself and her research team on Arni and its surrounding rural areas. They track the changing nature of local business and the workforce; their urban-rural relations, their regulation through civil society organizations and social practices, their relations to the state and to India's accelerating and dynamic growth. That most people live outside the metropolises holds for many other developing countries and makes this book, and the ideas and methods that frame it, highly relevant to a global development audience.
