Stop Asking Jesus Into Your Heart J. D. Greear 2013-02-01 "If there were a Guinness Book of World Records entry for 'amount of times having prayed the sinner's prayer,' I'm pretty sure I'd be a top contender," says pastor and author J. D. Greear. He struggled for many years to gain an assurance of salvation and eventually learned he was not alone. "Lack of assurance" is epidemic among evangelical Christians. In *Stop Asking Jesus Into Your Heart*, J. D. shows that faulty ways of presenting the gospel are a leading source of the confusion. Our presentations may not be heretical, but they are sometimes misleading. The idea of "asking Jesus into your heart" or "giving your life to Jesus" often gives false assurance to those who are not saved—and keeps those who genuinely are saved from fully embracing that reality. Greear unpacks the doctrine of assurance, showing that salvation is a posture we take to the promise of God in Christ, a posture that begins at a certain point and is maintained for the rest of our lives. He also answers the tough questions about assurance: What exactly is faith? What is repentance? Why are there so many warnings that seem to imply we can lose our salvation? Such issues are handled with respect to the theological rigors they require, but Greear never loses his pastoral sensitivity or a communication technique that makes this message teachable to a wide audience from teens to adults.

Love Wins Rob Bell 2011-03-15 Millions of Christians have struggled with how to reconcile God's love and God's judgment: Has God created billions of people over thousands of years only to select a few to go to heaven and everyone else to suffer forever in hell? Is this acceptable to God? How is this "good news"? Troubling questions—so troubling that many have lost their faith because of them. Others only whisper the questions to themselves, fearing or being taught that they might lose their faith and their church if they ask them out loud. But what if these questions trouble us for good reason? What if the story of heaven and hell we have been taught is not, in fact, what the Bible teaches? What if what Jesus meant by heaven, hell, and salvation are very different from how we have come to understand them? What if it is God who wants us to face these questions? Author, pastor, and innovative teacher Rob Bell presents a deeply biblical vision for rediscovering a richer, grander, truer, and more spiritually satisfying way of understanding heaven, hell, God, Jesus, salvation, and repentance. The result is the discovery that the "good news" is much, much better than we ever imagined. Love wins.

Saving the Original Sinner Karl W. Giberson 2016-05-10 A scientist and former evangelical argues that holding onto a belief in a literal, historical Adam has forced many Christians to reject science and become intellectually isolated from the modern world. The Bible's first man stands at the center of a crisis that is shaking much of Christianity. In the evangelical world, scholars have been ostracized and banished from their academic communities for endorsing a modern scientific understanding of the world, even as they remained strong Christians. Self-appointed gatekeepers of traditional theology demand intellectual allegiance to an implausible interpretation of the Genesis creation story, insisting that all humanity must be descended from a single, perfect human pair, Adam and Eve. Such a view is utterly at odds with contemporary science. It wasn't always this way. Karl Giberson spotlights the venerable tradition of Christian engagement with new knowledge and discoveries. When global exploration, anthropology, geology, paleontology, biblical studies, and even linguistics cast doubt on the historicity of Adam and his

literal fall into sin, Christians responded by creatively reimagining the creation story, letting Adam “evolve” to accommodate his changing context. Even conservative evangelical institutions until recently encouraged serious engagement with evolutionary science, unhindered by the straitjacket of young-earth creationism, intelligent design, or other views demanding that Adam be a historical figure. Giberson calls for a renewed conversation between science and Christianity, and for more open engagement with new scientific discoveries, even when they threaten central doctrines. Christians should not be made to choose between their faith and their understanding of the universe. Instead, as Giberson argues, they should follow in the once robust tradition of exploring science openly within the broad contours of Christian belief.

Torn Justin Lee 2012-11-13 Justin Lee, a gay man and devout Christian, bridges the gaps between his faith and sexuality in this insightful and touching memoir. As a teenager and young man, Justin Lee felt deeply torn. Nicknamed "God Boy" by his peers, he knew that he was called to a life in the evangelical Christian ministry. But Lee harbored a secret: He also knew that he was gay. In this groundbreaking book, Lee recalls the events--his coming out to his parents, his experiences with the "ex-gay" movement, and his in-depth study of the Bible--that led him, eventually, to self-acceptance. But more than just a memoir, *TORN* provides insightful, practical guidance for all committed Christians who wonder how to relate to gay friends or family members--or who struggle with their own sexuality. Convinced that "in a culture that sees gays and Christians as enemies, gay Christians are in a unique position to bring peace," Lee demonstrates that people of faith on both sides of the debate can respect, learn from, and love one another.

The Jerusalem Sinner Saved; or, Good News for the Vilest of Men John Bunyan 2022-07-20 This book is the work of famed author, John Bunyan, renown for the well-loved classic 'Pilgrim's Progress'. It is one of his many published sermons and is based on the biblical passage Luke 24: 47. Bunyan argues that the sinners in Jerusalem, having killed the Lord Jesus Christ committed the worst crime possible and were thus the worst sinners. Nevertheless Christ's command was to preach the gospel "starting in Jerusalem". He therefore opines that this is a clear indication that the Christian message welcomes even the vilest of men.

When God Converts a Sinner Douglas Vickers 2008-08-01 In an age of theological innovation and doctrinal discount, the heritage of evangelical Reformed theology is in increasing danger of betrayal. Old established understandings of the faith once delivered to the saints are under attack, disturbing the peace of the church, tarnishing its witness, and challenging its purity. Against the pressures of newer fashions in thought, Douglas Vickers here returns to the seventeenth-century confessions of faith and illustrates from successive chapters common to three of those confessions the ways in which, and the reasons why, traditional beliefs and doctrinal constructions are to be preserved. Among questions examined with biblically informed insight are the relation between eternity and time and its significance for the gospel of redemption, the meaning and function of saving faith, the accomplishment of redemption by the incarnate Christ, the significance of his heavenly high priestly office, the high doctrine of the Christian believer's union with Christ, and the implications these doctrinal realities hold for the Christian life. In a discussion of contemporary theologies, *When God Converts a Sinner* examines such innovations as the New Perspective on Paul, Federal Vision theology, Shepherdism, and other attempts to effect a paradigm shift in historically received theology.

Desiring God John Piper 1996 Insightful and heart-warming, this classic book is written for those who seek to know God better. It unfolds life-impacting, biblical truths and has been called a "soul-stirring celebration of the pleasures of knowing God."

Abraham's Dice Karl Giberson 2016 Do things happen for a reason? Is God watching over the course of events? Does the scientific discovery of widespread randomness in nature rule out any role for God? In *Abraham's Dice*, major scholars explore these questions from multiple perspectives.
