The Spell of the Sensuous David Abram 2012-10-17 Winner of the International Lannan Literary Award for Nonfiction Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patters) that we have only lately come to think of as "inanimate." How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the breathing earth? In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which--even at its most abstract--echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.

Von Dem Grossen Lutherischen Narren Thomas Murner 2012-06 Dieses Werk ist Teil der Buchreihe TREDITION CLASSICS. Der Verlag tredition aus Hamburg veroffentlicht in der Buchreihe TREDITION CLASSICS Werke aus mehr als zwei Jahrtausenden. Klassiker der Weltliteratur verschiedener Sprachen wieder als gedruckte Bücher zu verlegen - und das weltweit! Die Buchreihe dient zur Bewahrung der Literatur und Förderung der Kultur. Sie trägt so dazu bei, dass viele tausend Werke nicht in Vergessenheit geraten

Read Again Without Glasses Leo Angart 2013-12-19 Leo Angart is a business consultant, author and trainer. Having worn glasses for more than 25 years he writes from personal experience. It has now been more than 19 years since he threw away his glasses. In this follow up to *Improve Your Eyesight Naturally*, Leo concentrates on curing presbyopia, the inability to focus on near objects. He explains what presbyopia is and how you can tone your eye muscles, release tension and build up energy in order to regain your natural eyesight. Vision Training is based on the presupposition that clear vision is a natural state and you can achieve natural clear vision via simple exercises. If your device does not recognise the videos in this title, they are available for separate download.

The Seven Sisters Lucinda Riley 2015-05-05 Gathering at their Lake Geneva estate when their adoptive father passes away, six sisters receive tantalizing clues about their true heritage, prompting Maia to journey to Rio de Janeiro to learn the story of her parents' forbidden love. By the best-selling author of *The Orchid House*.

The Big Bang Theory and Philosophy Dean A. Kowalski 2012-05-08 A lighthearted meditation on the philosophical quandaries of the hit television show *The Big Bang Theory* Ever wonder what Aristotle might say about the life Sheldon Cooper leads? Why Thomas Hobbes would applaud the roommate agreement? Who Immanuel Kant would treat with "haughty derision" for weaving "un-unravelable webs?" And—most importantly—whether Wil Wheaton is truly evil? Of course you have. Bazinga! This book mines the deep thinking of some of history's most potent philosophical minds to explore your most pressing questions about *The Big Bang Theory* and its nerdy genius characters. You might find other philosophy books on science and cosmology, but only this one refers to Darth Vader Force-chokes, cloning Leonard Nimoy, and oompa-loompa-like engineers. Fo-shizzle. Gives you irresistibly geek-worthy insights on your favorite *Big Bang Theory* characters, story lines, and ideas Examines important themes involving ethics and virtue, science, semiotics, religion, and the human condition Brings the thinking of some of the world's greatest philosophers to bear on *The Big Bang Theory*, from Aristotle and Plato to Nietzsche, Wittgenstein, Simone de Beauvoir, and more Essential reading for every *Big Bang Theory* fan, this book explores whether comic-book-wielding geeks can lead the good life, and whether they can know enough science to "tear the mask off nature and stare at the face of God."

Highland Fling Katie Fforde 2003-08-01 After a fight with her boyfriend, a business trip to Scotland is the perfect diversion for Jenny Porter, who works as a virtual assistant for a financial executive. Dispatched to assess a failing textile mill, Jenny instead finds herself determined to save it at any cost after befriendng its charming employees. That cost might just be her sanity as she stretches her resources, patience, and compassion to the outer limits. As she gets to know the colorful Dalmain clan, Jenny just can't say no when asked to help run a mobile food stand, save the family business, put an overbearing matriarch in her place, rekindle an old romance, or throw a dinner party for sixteen on short notice. Then there's the problem of being attracted to the dashing yet abrasive Ross Grant, who has a way of showing up just when things seem almost sane and manageable.. The majestic Scottish highlands, covered in purple heather and dotted with sheep and llamas, provide a dramatic backdrop while Jenny tries to pull everything together in time to save the mill and figure out her increasingly complicated personal life, in this delightful, romantic romp.

Jung's Studies in Astrology Liz Greene 2019-09-04 Winner of the IAJS award for best authored book of 2018! C. G. Jung had a profound interest in and involvement with astrology, which he made clear in virtually every volume of the Collected Works, as well as in many of his letters. This ancient symbolic system was of primary importance in his understanding of the nature of time, the archetypes, synchronicity, and human fate. Jung's Studies in Astrology is an historical survey of his astrological work from the time he began to study the subject. It is based not only on his published writings, but also on the correspondence and documents found in his private archives, many of which have never previously seen the light of day. Liz Greene addresses with thoroughness and detailed scholarship the nature of Jung's involvement with astrology: the ancient, medieval, and modern sources he drew on, the individuals from whom he learned, his ideas about how and why it worked, its religious and philosophical implications, and its applications in the treatment of his patients as well as in his own self-understanding. Greene clearly demonstrates that any serious effort to understand the development of Jung's psychological theories, as well as the nature of his world-view, needs to involve a thorough exploration of his astrological work. This thorough investigation of a central theme in Jung's work will appeal to analytical psychologists and Jungian psychotherapists, students and academics of Jungian and post-Jungian theory, the history of psychology, archetypal thought, mythology and folklore, the history of New Age movements, esotericism, and psychological astrology.

The Tarot Handbook Angeles Arrien 1997-10-13 In this updated edition of The Tarot Handbook, now with a new introduction by the author, Angeles Arrien takes tarot beyond the limits of the fortune-telling realm and shows us how this time-honored application is both a visual and symbolic map of consciousness, and a source of ancient wisdom. An exciting handbook for either a beginning or an ardent student of the tarot, it contains a multitude of charts, spreads, illustrations of the Thoth Deck, and other methodology tools for anyone looking for insights into personal and spiritual development. An anthropologist who specializes in cross-cultural myths, Arrien demonstrates how the seventy-eight figures of the tarot are portraiture and archetypes that are prevalent in the collective human experience. The author teaches us to use this realization to look beyond our cultural viewpoint or bias when we approach the tarot, and to rely instead on these more important universal principles, thereby deepening the quality and accuracy of our interpretations and expanding our awareness of the human psyche. A significant and classic piece of tarot literature, The Tarot Handbook is both a required manual for teachers and students of the subject, and an accessible and fascinating exploration of cultural anthropology.

The Jews in Australia Suzanne D. Rutland 2006-01-23 Jews form only a tiny proportion of the Australian population, yet they have made outstanding contributions and have influenced Australian society immeasurably. Stories such as that of Sir John Monash, Australian commander-in-chief during World War I, whose legacy continues through Monash University, show how Jews have reached the highest echelons of Australian society. The Jews in Australia explores what makes the Australian Jewish community different from other Jewish communities around the world. It traces the community's history from its convict origins in 1788 through to today's vibrant Jewish culture in Australia, and highlights the social and cultural impact the Jews have had on Australia. As well as looking at the emergence of a specific faith tradition in Australia, the book also explores how Jews, as Australia's first ethnic group, have integrated into multicultural Australia.

Men and Style David Coggins 2016-10-11 New York Times Bestseller Men and Style reaches beyond standard "what to wear" advice: It is equal parts style guide and intriguing conversation about the masculine identity within the world of fashion. David Coggins explores the history of men's style and learns from some of the most notable tastemakers in the industry and beyond. Its essays and interviews discuss the lessons men learned from their fathers, the mistakes they made as young men, and how they emerged to become better men. Some of the most dapper men in the world discuss bad mustaches, misguided cologne choices, and unfortunate prom tuxedos. All the men here have arrived at a place in the world and have a keen understanding about how they fit in it. Men and Style celebrates singular men who've lived well and can tell us about how they earned their worldview. They're smart enough to absorb the wisdom that's hidden in the world, and even smarter to wear that wisdom lightly.

Homo Deus Yuval Noah Harari 2017-02-21 Official U.S. edition with full color illustrations throughout. NEW

YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future.

Eurythmy Therapy Rudolf Steiner 2013-04-16 Created in 1911, eurythmy was developed for years as an artistic and educational discipline. Although Rudolf Steiner pointed out its healing aspects from the very beginning, it was only in 1921 that he gave a course of lectures that gave the art of eurythmy a vital new application. To the assembled eurythmists and doctors, he presented what one participant described as '...a complete and detailed method of eurythmy therapy, in which we could directly experience that even today the creative and therapeutic power of the word ... is still at work'. Steiner's comprehensive lectures, republished here in a thoroughly revised translation, describe the principles of therapeutic eurythmy, giving many specific exercises. Primarily intended for practising eurythmists, these lectures also contain much material of particular interest. Steiner reveals the intricacies of rhythmic interplay between human physiology and the life-forces in the world around us. He describes the qualities of language and the dynamism contained in the individual vowels and consonants, elucidating their relationship with eurythmical movements and human experience. Through such movements, individuals are able to access the healing etheric forces. The exercises, referred to by Steiner as 'inner gymnastics', contain enormous potential for psychological and physiological well-being. Gaining ever-wider recognition today, they complement conventional medicine, offering a therapeutic process concerned with mind, soul and body. This new edition of these important lectures - previously published under the title *Curative Eurythmy* - includes an appendix with reminiscences by early eurythmists, as well as additional commentary from Dr Walter Kugler.

Dukes & Poets in Ferrara

A History of Horoscopic Astrology James H. Holden 2006 This thoroughly researched book is a history of the development of Western horoscopic astrology from its origin among the Babylonians and its subsequent creation in its present form by the Alexandrians down to modern times. Special attention is given to background history and to the working conditions and techniques used by astrologers during the last two thousand years. Numerous footnotes provide additional information and bibliographic references. A separate bibliography lists reference sources of particular importance. Two comprehensive indices containing more than 2,800 individual entries enable the reader to locate persons, publishers, topics, and book and periodical titles that are mentioned in the history. The book also contains discussions of several questions and topics relating to astrology. James Herschel Holden is Research Director of the American Federation of Astrologers and has been especially interested in the history of astrology.

Radio Revolten Knut Aufermann 2019-05 This book documents Radio Revolten, the international radio-art festival in Halle, Germany, which took place in October 2016 and featured an independent station, installations, live performances, conferences, workshops and public interventions.

Inkspell Cornelia Funke 2011-11-03 Although a year has passed, not a day goes by without Meggie thinking of the extraordinary events of Inkheart, and the story whose characters strode out of the pages, and changed her life forever. But for Dustfinger, the fire-eater, torn from his world of words, the need to return has become desperate. When he finds a crooked storyteller with the magical ability to read him back, he sets in motion a dangerous reversal that sees the characters of Inkheart transported to a charmed Inkworld, about to be fought over by rival rebels and princes. But can Meggie, Farid and Fenoglio 'write' the wrongs of a charmed world about to be fought over by rival princes and rebels?

Signs of the future Marie-Therese Feist 2021

The Self-Aware Universe Amit Goswami 1995-03-21 In this stimulating and timely book, Amit Goswami, PhD, shatters the widely popular belief held by Western science that matter is the primary "stuff" of creation and proposes instead that consciousness is the true foundation of all we know and perceive. His explanation of quantum physics for lay readers, called "a model of clarity" by Kirkus Reviews, sets the stage for a voyage of discovery through the common ground of science and religion, the entwined nature of mind and body, and our interconnectedness with all of creation.
