**Me and My Place in Space** Joan Sweeney 2018-09-18 Where am I in the solar system? A beloved bestseller, now refreshed with new art from Christine Gore, that will help children discover their place in the Milky Way. Where is the earth? Where is the sun? Where are the stars? Now with new art by Christine Gore, here is an out-of-this world introduction to the universe for children. With Earth as a starting point, a young astronaut leads readers on a tour past each planet and on to the stars, answering simple questions about our solar system. In clear language, drawings, and diagrams, space unfolds before a child's eyes. Colorful illustrations, filled with fun detail, give children a lot to look for on every page, and a glossary helps reinforce new words and concepts. A terrific teaching tool, Me and My Place in Space is an easy and enjoyable way to introduce the concept of space to budding astronomers.

*Space Sticker Book* Fiona Watt 2015-05-01 A light-hearted look at space travel, with scenes showing the vastness of space, the inside of a space station, and the surface of the moon, plus hundreds of stickers with which to fill the pages -- with planets, stars, asteroids, astronauts, rovers and lots more. Part of a collectible series, illustrated by Paul Nicholls. Other titles include Cavemen, Ancient Egyptians, Ancient Greeks, Romans, Vikings and Knights and Castles.

**The Fascinating Space Book for Kids** Lisa Reichley 2021-10-12 From asteroids to zodiac constellations--500 amazing space facts for kids ages 8 to 12 Do you know a kid who wants to know all about space? This intergalactic entry into space books for kids is bursting with 500 out-of-this-world facts for hours of space exploration from the comfort of Earth. Alongside full-color pictures on every page, kids can adventure through stars, planets, and space technology with this book of astronomy for kids. Go beyond other space books for kids with trivia such as: Mars is often referred to as the red planet because its surface is red due to iron oxide, or rust. The average lifespan of a star is 10 billion years. All the other planets in our solar system could fit between Earth and its moon. Kids will light up as they discover ice giants and famous astronomers with this standout among space books for kids.

*Little Children's Space Activity Book* Rebecca Gilpin 2015-12-01 A write-in activity book for young children, full of mazes, dot-to-dot, drawing, colouring, stickering, spot-the-difference, counting, spotting and matching activities - all themed around space. An interactive way for children to find out about what's out in space, with exciting space facts and lots of space-related vocabulary. Illustrations: Full colour throughout WARNING! Not suitable for children under 36 months because of small parts. Choking Hazard.

**My First Book of Planets** Bruce Betts 2021-08-31 Blast off on an exploration of our solar system--a fun space book for kids 3 to 5 Get even the smallest astronomer excited for the big universe of space, from the bright and burning sun to our own blue Earth to ice-capped Pluto and every planet in between. With

this book, kids will explore the entire solar system through incredible photos and fascinating facts on what makes each planet so special--like their size, distance from the sun, what the surface is like, how many moons they have, and more! This planets for kids book includes: Big, beautiful images--Vibrant photos will take kids deep into space and onto each planet--no telescope required. Astronomy for kids--Learn all about the eight planets in our solar system, plus dwarf planets Ceres, Pluto, Eris, Haumea, and Makemake. Fun space facts--Did you know the bubbles in soda are the same gas that's on Venus? Out of this world facts will keep kids glued to the page and excited to explore the sky. Show kids the amazing universe that surrounds them with this fun and engaging astronomy book.

**Space Puzzles** Vivky Barker 2020-12-29

**The Space Needle** Tamra Orr 2016-09-15 The story of how the Space Needle was built, and the people who made it happen. Learn how they did it and see what materials they used in this real life building journey that kids who love to build in Lego and Minecraft will be thrilled to read.

**Astronomy Activity Book for Kids** Aurora Lipper 2021-09-14 Explore planets, stars, and constellations with this "out of this world" educational activity book for kids ages 5-7 Space is awesome, and we can explore a lot of it from right here on Earth using our eyes, binoculars, and telescopes. In this interactive activity book, kids ages 5-7 get to be astronomers! Former NASA scientist Aurora Lipper leads an exciting journey through space, beginning with a tour of the planets and moons in our solar system. Next, kids visit the constellations and then zoom through the far reaches of the Milky Way galaxy. Along the way, they'll find amazing facts about the starry skies and get to color and draw, connect dots, find hidden objects, and have fun with word puzzles while improving math and reading skills. Astronomy Activity Book for Kids features:

- 90+ educational activities: On-page games and cool facts about space allow for fun, independent learning
- Simple stargazing projects: Learn how to find the Big Dipper, view meteor showers, and more with just the eyes, binoculars, or a small telescope
- Easy and exciting to read: Beautiful space illustrations and simple explanations written for early readers

**Planetarium** Raman Prinja 2019-04-09 Showcases dozens of full-color space images in a gallery format, complemented by scientific information and brief descriptions.
