Peter Pan (Annotated) James Matthew Barrie 2021-04-13 All children, except one, grow up. They soon know that they will grow up, and the way Wendy knew was this. One day when she was two years old she was playing in a garden, and she plucked another flower and ran with it to her mother. I suppose she must have looked rather delightful, for Mrs. Darling put her hand to her heart and cried, "Oh, why can't you remain like this for ever!" This was all that passed between them on the subject, but henceforth Wendy knew that she must grow up. You always know after you are two. Two is the beginning of the end.

Observations from a Broad J. Broad 2004-11-23 In the winter of 1991, with the baggage of several spectacular relationship failures, a keen eye for observing the absurdities in others, a cavalier disregard for the accepted conventions of professional journalism, and a light lunch consisting of a sandwich, some chips and a plastic cup of chocolate pudding, author J. Broad set out to find those little moments that make life the world's greatest reality show. After several years of observing, and muttering and nodding to himself, someone finally suggested that he write some of them down. A collection of these commentaries became Observations From A Broad. In a series of anecdotal columns written over the past 13 years, the author points out the bizarre, celebrates the ironic and occasionally does it in rhyming couplets (and often in parentheses). Follow J. as he leads you through his imagination while searching for the missing letters in his name. Buckle up as he breaks up with his car. Sit in the bleachers as he registers a truly abysmal record with the fairer sex. Peer through the peephole as he demonstrates the decision-making process necessary before holding a door. You'll be glad you did.

The Rhetoric of Appalachian Identity Todd Snyder 2014-06-04 In this work the various ways that social, economic, and cultural factors influence the identities and educational aspirations of rural working-class Appalachian learners are explored. The objectives are to highlight the cultural obstacles that impact the intellectual development of such students and to address how these cultural roadblocks make transitioning into college difficult. Throughout the book, the author draws upon his personal experiences as a first-generation college student from a small coalmining town in rural West Virginia. Both scholarly and personal, the book blends critical theory, ethnographic research, and personal narrative to demonstrate how family work

histories and community expectations both shape and limit the academic goals of potential Appalachian college students.
