**High-Stakes Reform** Kathryn A. McDermott 2011-07-13 Performance accountability has been the dominant trend in education policy reform since the 1970s. State and federal policies set standards for what students should learn; require students to take “high-stakes” tests to measure what they have learned; and then hold students, schools, and school districts accountable for their performance. The goal of these policies is to push public school districts to ensure that all students reach a common threshold of knowledge and skills. High-Stakes Reform analyzes the political processes and historical context that led to the enactment of state-level education accountability policies across the country. It also situates the education accountability movement in the broader context of public administration research, emphasizing the relationships among equity, accountability, and intergovernmental relations. The book then focuses on three in-depth case studies of policy development in Massachusetts, New Jersey, and Connecticut. Kathryn McDermott zeroes in on the most controversial and politically charged forms of state performance accountability sanctions, including graduation tests, direct state intervention in or closing of schools, and state takeovers of school districts. Public debate casts performance accountability as either a cure for the problems of US public education or a destructive mistake. Kathryn McDermott expertly navigates both sides of the debate detailing why particular policies became popular, how the assumptions behind the policies influenced the forms they took, and what practitioners and scholars can learn from the successes and failures of education accountability policies.

**Model Rules of Professional Conduct** American Bar Association. House of Delegates 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

*Stepping Forth into the World* Edward J. M. Rhoads 2011-02-01 The Chinese Educational Mission was one of the earliest efforts at educational modernization in China. As part of the Self-Strengthening Movement, the Qing government sent 120 students to New England to live and study for a decade, before they were abruptly summoned home to China in 1881. This book, based upon extensive research in local archives and newspapers, focuses on the experiences of the students during their nine-year stay in the United States. Historians of modern China will find this book highly relevant because of its detailed account of one of the major projects of the Self-Strengthening Movement. To date, there are at most two credible studies in English and Chinese on the Chinese Educational Mission; both are deficient in source citation and tend to dwell on the students' experiences after their return to China rather than during their stay in America. This volume will also appeal to specialists in Asian-American studies, for its comparing and contrasting the experiences of the Chinese students with those of other Chinese in the United States during a period of rising anti-Chinese sentiment, which culminated in the enactment of Chinese Exclusion in 1882. This book offers a slightly different perspective than most other works on the nature of the anti-Chinese movement, which may have been more class-based rather than race-based. The compare and contrast of students from China with those from Japan, which also sent large numbers of students to New

England at roughly the same period of time, will be of interest to East Asian comparative historians as well. Edward J. M. Rhoads is a professor emeritus in history at the University of Texas at Austin. He is the author of *China's Republican Revolution: The Case of Kwangtung, 1895-1913* and *Manchus and Han: Ethnic Relations and Political Power in Late Qing and Early Republican China, 1861-1928*. "Rhoads has meticulously constructed the individual and collective histories of the 120 young men and boys sent by a beleaguered late Qing government to live and acquire English and Western knowledge in white New England families, schools and universities. As the vanguard of legions of Chinese students who have studied in the U.S. since, and as contemporaries of the far more numerous Chinese coolies whose paths they never crossed, this compelling study adds a surprising new chapter to early Asian American history." - Evelyn Hu-DeHart, Professor of History and Ethnic Studies; Director, Center for the Study of Race and Ethnicity in America, Brown University
