Working with the Individual Child 1974

The Development of Elementary Mathematical Concepts in Preschool Children A. M. Leushina 1991 This series is a collection of translations of books from the extensive Soviet literature on research in the psychology of mathematics instruction. The Academy of Pedagogical Sciences was founded in 1943, and was the Soviet Union's chief educational research and development center. The aim of this series is to acquaint mathematics educators and teachers with the directions, ideas, and accomplishments in the psychology of mathematical instruction. This volume should assist in opening up avenues of investigation to those interested in broadening the foundations of their profession, for study, discussion, and critical analysis in teacher-training programs, and programs for in-service teachers at various levels.

I'm a Little Seed 1997 Teaches how a seed becomes a plant.

A Bad Case of Stripes David Shannon 2016-08-30 "What we have here is a bad case of stripes. One of the worst I've ever seen!" Camilla Cream loves lima beans, but she never eats them. Why? Because the other kids in her school don't like them. And Camilla Cream is very, very worried about what other people think of her. In fact, she's so worried that she's about to break out in...a bad case of stripes!

Teaching Plant Life Cycles LernerClassroom Editors 2003-01-01 PLANT LIFE CYCLES TEACHING GUIDE

Brown Bear, Brown Bear, What Do You See? Bill;Carle Martin 2017-05 Eric Carle's familiar illustrations of brown bear, red bird, yellow duck and the other endearing animals from his classic creation parade across the pages of this great interactive board book. As each page is turned, a new animal and its colour are introduced, accompanied by Bill Martin's singsong, rhyming questionand- response text to read aloud or listen to. There are sliding doors throughout the book, which children will just love to open, so they can discover what the next animal in this engaging story will be.

The Tiny Seed Eric Carle 2005-02 Text and illustrations relate the growth of a small seed that survives the winter cold to become a beautiful spring flower. On board pages.

Pumpkin Jack Will Hubbell 2000-01-01 The first pumpkin Tim ever carved was fierce and funny, and he named it Jack. When Halloween was over and the pumpkin was beginning to rot, Tim set it out in the garden and throughout the weeks he watched it change. By spring, a plant

began to grow! Will Hubbell's gentle story and beautifully detailed illustrations give an intimate look at the cycle of life.

The Life Cycle of a Chicken Robin Merritt 2023 How does a chick grow in an egg? Find out the answer and more about the life cycle of a chicken in this fascinating book. Captivating photographs support the text and give readers a deeper understanding of a chicken's life cycle. A table of contents, a glossary, sidebars, informative captions, critical-thinking questions, sources for further research, and an index are included to increase comprehension.

Seed to Plant Kristin Baird Rattini 2014 Introduces a plant's life cycle, explaining how seeds grow into flowers and trees.

Jack's Garden Henry Cole 1997-03-28 "Building on a rhyme that will be familiar to many children, author-illustrator Cole creates an enticing guide to creating a garden. 'This is the garden that Jack planted...' The final illustration presents a satisfied-looking boy surrounded by a lush, bird-filled flower garden....A concluding page of gardening suggestions serves as a springboard to books with more specific guidelines."--Horn Book.

81 Fresh & Fun Critical-thinking Activities Laurie Rozakis 1998 Help children of all learning styles and strengths improve their critical thinking skills with these creative, cross-curricular activities. Each engaging activity focuses on skills such as recognizing and recalling, evaluating, and analyzing.

the nonfiction world into focus for young students. Through pictures, captions, and text, this book provides a window into the world of growing things...Erin Mallon complements Gibbons's text with a clear, clipped, and purposeful narration." -AudioFile Magazine

The Empty Pot Demi 2012 When Ping admits that he is the only child in China unable to grow a flower from the seeds distributed by the Emperor, he is rewarded for his honesty.

Planning for the Foundation Stage Penny Tassoni 2002 Suitable for most students on Early Years, Health and Education courses and student teachers in training, this work provides practical guidance on implementing the pre-school curriculum.

Journal of Proceeding and Addresses National Education Association of the United States 1888 Vols. for 1866-70 include Proceedings of the American Normal School Association; 1866-69 include Proceedings of the National Association of School Superintendents; 1870 includes Addresses and journal of proceedings of the Central College Association.

The Apple Pie Tree Zoe Hall 2017-02-28 We have a special tree in our yard -- an apple pie tree! Colorful collage illustrations follow each season as an apple tree grows leaves, fragrant blossoms, and tiny green apples. Soon the fruit is big, red, and ready to be picked. It's time to make an apple pie! Here is a celebration of apples and how things grow -- sure to delight young readers all year long.

Funds of Knowledge Norma Gonzalez 2006-04-21 The concept of "funds of knowledge" is based on a simple premise: people are competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the communities in which they work. In a time when national educational discourses focus on system reform and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents "how to do school" although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical characteristics. *Funds of Knowledge: Theorizing Practices in Households, Communities, and Classrooms* is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education.

Math Lessons for a Living Education Level 1 Angela O'Dell 2016-04-06 Have you ever noticed that we tend to compartmentalize when teaching our children? In real life, there aren't artificial barriers between "subjects." For example, when you are cooking or baking, you have to use the skills of reading, logical thinking, and measuring, just to name a few. In driving a car, you see and read road signs, read maps, and count miles. It has become quite clear that there is an abundance of math curriculums available that are nothing but monotonous drill sheets dressed up in pretty colors. Pretty colors do not make a living book. Content, story, and the ability to show math in real life make a living math book. Math Level 1: Teach math lessons through the creative means of a life story Provides a link for the downloadable answer key Has a scope and sequence that contains learning numbers 0 to 100, circles and patterns, counting and addition, days of the week, and telling time. This book was written to be used by you and your young student together. It is the story of a twin brother and sister, Charlie and Charlotte, who are visiting their grandparents' farm. They soon learn that the farm is full of learning opportunities! As you read their story, your students will be drawn into the adventure along with the twins. They will learn about numbers, shapes, place value, adding, and subtracting. They will also learn about gardening, baby animals on the farm, nature, and the love of family. They will hear exciting stories from Grandpa and Grandma, and they will be invited to join the twins on their living math adventures. We hope you have a grand time on this adventure!

Ivy + Bean Annie Barrows 2011-08-01 The moment they saw each other, Bean and Ivy knew they wouldn't be friends. But when Bean plays a joke on her sister, Nancy, and has to hide—quick—Ivy comes to the rescue, proving that sometimes the best of friends are people never meant to like each other. Vibrant characters and lots of humor make this a charming—and addictive—series.

Early Learning and Development Marilyn Fler 2010-03-22 Early Learning and Development offers new models of 'conceptual play' practice and theory.

Officer Buckle and Gloria Peggy Rathmann 1995-09-28 "Besides the beguiling story, the affable illustrations of the smiling Gloria, the accidental mayhem in the background, and the myriad safety tips -- such as 'always pull the toothpick out of your sandwich' and 'never lick a stop sign in the winter' -- add to the enjoyment. A glorious picture book." -- The Horn Book "Rathmann is a quick rising star in the world of children's books. In this book, she again shows her flair for creating real characters, dramatic situations and for knowing what will make young audiences giggle and think." -- Children's Book Review Magazine "Rathman brings a lighter-than-air comic touch to this outstanding, solid-as-a-brick picture book." -- Publisher's Weekly "A five-star performance." -- School Library Journal

The Itsy Bitsy Spider Iza Trapani 2013-01-01 The spirited itsy bitsy spider has captured the hearts of generations of children in the much-loved nursery rhyme. Now she's back—on a new magical journey! Over 2.5 million copies in print! This all-new adventure for the itsy bitsy spider has exciting encounters with a fan, a mouse, a rocking chair, a cat, and a big maple tree. Finally, the itsy bitsy spider finds a lovely spot to spin a new silky web. Iza Trapani's vibrant watercolor illustrations paired with a playful rhythm makes this new take on an old favorite feel like an instant classic. A perfect read-aloud; children will enjoy time and again the delightful antics of the energetic itsy bitsy spider.

One Bean Anne Rockwell 1999-09-01 Describes what happens to a bean as it is soaked, planted, watered, repotted, and eventually produces pods with more beans inside.

Sequencing & Memory 2015-03-02 Brighter Child(R) Sequencing & Memory helps young children master thinking skills and concepts. Practice is included for numbers, patterns, classification, critical thinking, and more. School success starts here! Workbooks in the popular Brighter Child(R) series are packed with plenty of fun activities that teach a variety of essential school skills. Students will find help for math, English and grammar, handwriting, and other important subject areas. Each book contains full-color practice pages, easy-to-follow instructions, and an answer key.

Responding to Individual Needs in Head Start Judge Baker Guidance Center 1974

Math and Science for Young Children Rosalind Charlesworth 2015-01-19 MATH AND SCIENCE FOR YOUNG CHILDREN, Eighth Edition, introduces readers to engaging math and science experiences for early childhood and early elementary education programs, and provides an organized, sequential approach to creating a developmentally appropriate math and science curriculum. The content aligns with key guidelines and standards: The National Association for the Education of Young Children's (NAEYC) Professional Preparation Standards (2010); Developmentally Appropriate Practice (DAP) guidelines; Common Core Mathematics Standards; and Next Generation Science Standards (NGSS). The book also addresses STEM/STEAM and the essential domains of child growth and development during the crucial birth-through-eight age range. A valuable resource for the student/future teacher, working professional, or involved parent, MATH AND SCIENCE FOR YOUNG CHILDREN emphasizes the interrelatedness of math and science and how they can be integrated into all other curriculum areas. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Big Pumpkin Erica Silverman 2011-08-09 A little bat uses brains over brawn in this not-so-scary Halloween picture book. The witch has grown the biggest pumpkin ever, and now she wants to make herself a pumpkin pie for Halloween. But the pumpkin is so big she can't get it off the vine. It's so big the ghost can't move it, either. Neither can the vampire, nor the mummy. It looks as if there'll be no pumpkin pie for Halloween, until along comes the bat with an idea to save the day. How can the tiny bat succeed where bigger and strong spooky creatures have failed? You'll be surprised!

Phonemic Awareness in Young Children Marilyn Jager Adams 1998 This invaluable supplementary curriculum meets Reading First criteria and contains numerous classroom-ready activities designed to increase the phonemic awareness and preliteracy skills of preschool, kindergarten, and first-grade students.
