**Gharbzadegi** Jalal Al-E Ahmad 1982 "Gharbzadegi was written in 1962 when the Pahlavi regime seemed to have control over Iran's destiny. For the author, the result was total national submission to the West and its technology. The Iranian monarchy is portrayed in this work as no more than a native brokerage for Western influence, with no aims and identity of its own. Al-e Ahmad sought to rediscover an Iranian identity based on historical and religious criteria, defined in part by a tradition of conflict with the West"--Book jacket.

*Cultural Schizophrenia* Daryush Shayegan 1997-11-01 "Based on examples ranging from Iran to Morocco, the author portrays a society he defines as peripheral - bound by a slavish adherence to its own glorified history, its "Tradition" - yet facing an external reality that derives from the West. The meeting of these two incompatible worlds leads to a profound distortion not only in how the Muslim world sees the West but, more importantly, in how it sees itself."

*Expository Apologetics* Voddie Baucham Jr. 2015-10-31 Apologetics is for everyone. The Bible is clear that all believers are called to defend their faith. However, if apologetics is the formal process that we have come to expect, this sounds like an impossible task. But what if apologetics could be part of natural, normal conversation—both from the pulpit and in everyday life? Aimed at preparing you to clearly and confidently defend your faith, Expository Apologetics sets forth an approach to apologetics that is rooted in Scripture and eminently accessible. Filled with real-world examples and practical advice, this book will equip you with the tools you need to think biblically and converse persuasively—offering unbelievers “a reason for the hope that is in you.”

*Strange Times, My Dear* Nahid Mozaffari 2012-01-13 When Arcade Publishing originally contracted this extraordinary collection of poetry and literature, the Department of the Treasury was attempting to censor the publication of works from countries on America’s “enemies list.” Arcade, along with the PEN American Center, the Association of American

Publishers Professional and Scholarly Publishing Division, and the Association of American University Presses, filed a lawsuit in federal court against the United States government. Their landmark case forced the Office of Foreign Assets Control to change their regulations regarding editing and publishing literature in translation, and Arcade is proud to reissue this anthology that showcases the developments in Iranian literature over the past quarter-century. Since the Iranian revolution of 1979, the United States has been virtually cut off from that country's culture. Despite severe difficulties imposed by social, political, and economic upheavals, as well as war, repression, and censorship, a veritable cultural renewal has taken place in Iran over the past quarter-century, not only in literature, but in music, art, and cinema. Over forty writers from three generations contributed to this rich and varied collection—or, to use the Persian term, *golchine*, a bouquet—one that provides a much-needed window into a largely undiscovered branch of world literature. In the wake of the Green Revolution and sweeping changes in the region, this particular *golchine* is more relevant than ever, and will bring literary enjoyment as well as a fuller understanding of a complex and ever-shifting culture.

*Marriage on Trial* Ziba Mir-Hosseini 1997-12-31 With the resurgence of Islam as a social and political force, debates over family law reveal the struggle between the forces of traditionalism and modernism. The disparate tendencies within so-called Islamic fundamentalism have in common the desire to re-institute Shari'a law, which they regard as the last bastion of the Islamic ideal of social relations. Yet very little is known of the ways in which the Shari'a actually operates in today's Muslim societies. Mir-Hosseini focuses on the dynamics of marriage and its breakdown, as well as the way in which litigants manipulate the law in order to resolve marital disputes and child custody cases. Taking an interdisciplinary approach which straddles law, anthropology, sociology and women's studies, Mir-Hosseini shows how women may turn even the most patriarchal elements of Islamic law to their advantage and achieve their personal marital aims.

Reconstructed Lives Haleh Esfandiari 1997-07 Iranian women tell in their own words what the revolution attempted and how they responded. The Islamic revolution of 1979 transformed all areas of Iranian life. For women, the consequences were extensive and profound, as the state set out to reverse legal and social rights women had won and to dictate many aspects of women's lives, including what they could study and how they must dress and relate to men. *Reconstructed Lives* presents Iranian women telling in their own words what the revolution attempted and how they responded. Through a series of interviews with professional and working women in Iran—doctors, lawyers, writers, professors, secretaries, businesswomen—Haleh Esfandiari gathers dramatic accounts of what has happened to their lives as women in an Islamic society. She and her informants describe the strategies by which women try to and sometimes succeed in subverting the state's agenda. Esfandiari also provides historical background on the women's movement in Iran. She finds evidence in Iran's experience that even women from "traditional" and working classes do not easily surrender rights or access they have gained to education, career opportunities, and a public role.

Ancient Greek Beliefs Perry L. Westmoreland 2007 Ancient Greek Beliefs explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections, Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

**An Introductory Guide to Post-structuralism and Postmodernism** Madan Sarup 1993 Madan Sarup has now revised his accessible and popular introduction to post-structuralist and postmodern theory. A new introductory section discusses the meaning of such concepts as modernity, postmodernity, modernization, modernism, and postmodernism. A section on feminist criticism of Lacan and Foucault has been added, together with a new chapter on French feminist theory focusing on the work of Hélène Cixous, Luce Irigaray, and Julia Kristeva. The chapter on postmodernism has been significantly expanded to include a discussion of Lyotard's language games and his use of the category "sublime." This chapter ends with a discussion of the relationship between feminism and postmodernism. A further chapter has been added on the work of Jean Baudrillard, a cult figure on the current postmodernist scene, whose ideas have attained a wide currency. The chapter includes a new section on postmodern cultural practices as revealed in architecture, TV, video, and film. Suggestions for further reading are now listed at the end of each chapter and are upgraded and annotated. In tracing the impact of post-structuralist thought not only on literary criticism but on such disciplines as philosophy, politics, psychoanalysis, the social sciences, and art, this book will be essential reading for those who want a clear and incisive introduction to the theories that continue to have widespread influence. -- Back cover.

Weird Radio Charles River Editors 2019-05-16 \*Includes pictures \*Includes online resources and a bibliography for further reading For more than a century, radio has been a part of people's lives. No one alive today remembers a time when it hadn't always been there as a familiar, reliable source of information and entertainment. Today, it seems a bit mundane, overtaken by the Internet and satellite television. Even in the 1980s, the development of cable television (50 channels instead of five) and the start of MTV made radio seem quaint, and as many once claimed, "Radio is dead." It wasn't, of course. Radio is still popular today, with as many stations as ever, and it remains a part of the world that is taken for granted. While not dead, its familiarity has made it seem a bit mundane, but people shouldn't think of it that way. In fact, the airwaves have always been a place of mystery, a battleground of competing ideologies, and a source of anonymous voices. Radio has been used to support war efforts, topple governments, communicate secretly, and even attempt to communicate with the dead. *Weird Radio: A Collection of Spy Transmissions, Unidentified Stations, and other Mysteries of the Airwaves* includes strange stories that will make this familiar medium seem a bit less familiar and far more interesting. Along with pictures of important people, places, and events, you will learn about some of the world's strangest radio stories like never before.

*Next Extinct Mammal* Rubén Quesada 2011 Poetry. Latino/Latina Studies. LGBT Studies. "Like Whitman, Quesada is a poet of motion—journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills; ford rivers; cross prairies; and seek out 'the alpenglow of tomorrow and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal losses, Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it means to belong here"—D. A. Powell.

**Khalil Maleki** Homa Katouzian 2018-04-05 Khalil Maleki (1901–1969) was a selfless campaigner for democracy and social welfare in twentieth-century Iran. His was a unique approach to politics, prioritising the criticism of policies detrimental to his country's development over the pursuit of power itself. An influential figure, he was at the centre of such formative events as the split of the communist Tudeh party, and the 1953 coup and its aftermath. In an age of intolerance and uncompromising confrontation, Maleki remained an indefatigable advocate for open discussion and peaceful reform – a stance that saw him jailed several times. This work makes a compelling case for him to be regarded among the foremost

thinkers of his generation.

**Who Is Knowledgeable Is Strong** Cyrus Schayegh 2009-03-31 In this book, Cyrus Schayegh tells two intertwined stories: how in early 20th-century Iran, an emerging middle class used modern scientific knowledge as its cultural & economic capital, & how along with the state, it employed biomedical sciences to tackle modern problems like the increasing stress of everyday life.

*The Iranian Diaspora* Mohsen Mostafavi Mobasher 2018-10-03 The Iranian revolution of 1978–1979 uprooted and globally dispersed an enormous number of Iranians from all walks of life. Bitter political relations between Iran and the West have since caused those immigrants to be stigmatized, marginalized, and politicized, which, in turn, has discredited and distorted Iranian migrants' social identity; subjected them to various subtle and overt forms of prejudice, discrimination, and social injustice; and pushed them to the edges of their host societies. The Iranian Diaspora presents the first global overview of Iranian migrants' experiences since the revolution, highlighting the similarities and differences in their experiences of adjustment and integration in North America, Europe, Australia, and the Middle East. Written by leading scholars of the Iranian diaspora, the original essays in this volume seek to understand and describe how Iranians in diaspora (re)define and maintain their ethno-national identity and (re)construct and preserve Iranian culture. They also explore the integration challenges the Iranian immigrants experience in a very negative context of reception. Combining theory and case studies, as well as a variety of methodological strategies and disciplinary perspectives, the essays offer needed insights into some of the most urgent and consequential issues and problem areas of immigration studies, including national, ethnic, and racial identity construction; dual citizenship and dual nationality maintenance; familial and religious transformation; politics of citizenship; integration; ethnic and cultural maintenance in diaspora; and the link between politics and the integration of immigrants, particularly Muslim immigrants.

*Electric Power Systems* Ned Mohan 2012-01-18 Author Ned Mohan has been a leader in EES education and research for decades. His three-book series on Power Electronics focuses on three essential topics in the power sequence based on applications relevant to this age of sustainable energy such as wind turbines and hybrid electric vehicles. The three topics include power electronics, power systems and electric machines. Key features in the first Edition build on Mohan's successful MNPERE texts; his systems approach which puts dry technical detail in the context of applications; and substantial pedagogical support including PPT's, video clips, animations, clicker questions and a lab manual. It follows a top-down systems-level approach to power electronics to highlight interrelationships between these sub-fields. It's intended to cover fundamental and practical design. This book also follows a building-block approach to power electronics that allows an in-depth discussion of several important topics that are usually left. Topics are carefully sequenced to maintain continuity and interest.
