### The Political Traditions of Mohammed 2006

*A Two-Hour Koran* Bill Warner 2010-12 The Koran In about the time it takes to watch a professional sports event, you can comprehend the Koran. Since the Koran is famously known to be unreadable, how can this be? The Koran found in the bookstore is not the historical Koran of Mohammed. The original Koran was a story that unfolded as Mohammed's life situations changed. The bookstore Koran is arranged by length of chapter, not time. The bookstore Koran has no time, no Mohammed and no story. Therefore, it makes no sense. Using statistical methods to select the verses, the Two-Hour Koran has woven Mohammed's life back into the Koran itself. Now the verses have context and meaning. Everything is in the right order and the original story has been restored. Once you have read *A Two-Hour Koran*, you can pick up a bookstore Koran and understand what you are reading.

**Principles of Upbringing Children** Ayatullah Ibrahim Amini 2014-10-20 Advice for parents, supported by the Hadith and Quran, on the upbringing and training of Children.

*A God Who Hates* Wafa Sultan 2011-04-26 From the front page of The New York Times to YouTube, Dr. Wafa Sultan has become a force radical Islam has to reckon with. For the first time, she tells her story and what she learned, first-hand, about radical Islam in *A God Who Hates*, a passionate memoir by an outspoken Arabic woman that is also a cautionary tale for the West. She grew up in Syria in a culture ruled by a god who hates women. "How can such a culture be anything but barbarous?", Sultan asks. "It can't", she concludes "because any culture that hates its women can't love anything else." She believes that the god who hates is waging a battle between modernity and barbarism, not a battle between religions. She also knows that it's a battle radical Islam will lose. Condemned by some and praised by others for speaking out, Sultan wants

everyone to understand the danger posed by A God Who Hates.

*Measuring Mohammed* Bill Warner 2019-12-20 Measuring Mohammed is collection of interviews and articles written over a four year period, all dealing with political Islam.

*A Self-Study Course on Political Islam, Level 2* Bill Warner 2011-06 FACT-BASED You can find opinions about Islamic doctrine in the main stream media, but no facts. That is because they do not study the only foundation of knowledge about the true nature of Islam- Mohammed and Allah. This self-study course is based on three of the Islamic source texts: the Koran, the Sira (biography of Mohammed) and the Hadith (his traditions). If your knowledge comes from these original texts, it can be verified and your understanding is on firm ground. SECRETS REVEALED The Koran and all Islamic texts are difficult to read by design. But, when the artificial language is stripped away and replaced by simple English, the results are astounding. We learn that the Islamic ethical system is based on dualism-one set of rules for Muslims and another set of rules for non-Muslims (Kafirs). We find out that Mohammed was a slave trader, an abuser of women and a warlord. Islam as a religion was a failure. Only when Mohammed turned to jihad and politics, did he have any success. A THREE LEVEL SELF-STUDY COURSE The self-study course covers fourteen different topics about Islam from three different views. Each level can be read on its own, but there is a progression of information. This course will end your confusion about Islam. You will understand what underlies the events in the Islamic world and what this means for our civilization. This is Level 2

**Islam and the Trajectory of Globalization** Louay M. Safi 2021-10-19 The book examines the growing tension between social movements that embrace egalitarian and inclusivist views of national and global politics, most notably classical liberalism, and those that advance social hierarchy and national exclusivism, such as neoliberalism, neoconservatism, and national populism. In exploring issues relating to tensions and conflicts around globalization, the book identifies historical patterns of convergence and divergence rooted in the monotheistic traditions, beginning with the ancient Israelites that dominated the Near East during the Axial age, through Islamic civilization, and finally by considering the idealism-realism tensions in modern times. One thing remained constant throughout the various historical stages that preceded our current moment of global convergence: a recurring tension between transcendental idealism and various forms of realism. Transcendental idealism, which prioritize egalitarian and universal values, pushed periodically against the forces of realism that privilege established law and power structure. Equipped with the idealism-realism framework, the book examines the consequences of European realism that justified the imperialistic venture into Africa, the Middle East, and Latin America in the name of liberation and liberalization. The ill-conceived strategy has, ironically, engendered the very dysfunctional societies that produce the waves of immigrants in constant motion from the South to the North, simultaneously as it fostered the social hierarchy that transfer external tensions into identity politics within the countries of

the North. The book focuses particularly on the role played historically by Islamic rationalism in translating the monotheistic egalitarian outlook into the institutions of religious pluralism, legislative and legal autonomy, and scientific enterprise at the foundation of modern society. It concludes by shedding light on the significance of the Muslim presence in Western cultures as humanity draws slowly but consistently towards what we may come to recognize as the Global Age. **Sharia Law for the Non-Muslim** Bill Warner 2010 "Sharia, an Arabic word meaning "the right path," refers to traditional Islamic law. The Sharia comes from the Koran, the sacred book of Islam, which Muslims consider the actual word of God. The Sharia also stems from the Prophet Muhammad's teachings and interpretations of those teachings by certain Muslim legal scholars. Muslims believe that Allah (God) revealed his true will to Muhammad, who then passed on Allah's commands to humans in the Koran. Since the Sharia originated with Allah, Muslims consider it sacred. Between the seventh century when Muhammad died and the 10th century, many Islamic legal scholars attempted to interpret the Sharia and to adapt it to the expanding Muslim Empire. The classic Sharia of the 10th century represented an important part of Islam's golden age. From that time, the Sharia has continued to be reinterpreted and adapted to changing circumstances and new issues. In the modern era, the influences of Western colonialism generated efforts to codify it."--Definition from Constitutional rights foundation.

**Nationalism and Non-Muslim Minorities in Turkey, 1915 - 1950** Ayhan Aktar 2021-04-22 Ayhan Aktar has been working on anti-minority policies in modern Turkey since 1991. In the Ottoman Empire's final decade (in 1906), non-Muslims constituted 20% of the population; by 1927, they were reduced to 2.5% and, nowadays, they make up less than 0.02% of the population of Modern Turkey. Armenians were subjected to deportations (1915), Greeks were 'exchanged' (1922-1924) and Jews were forced to migrate abroad (after 1945). Like many other nation-states in the Near East, Turkey has been able to homogenize its population on religious grounds. This book is a collection of Aktar's articles about this transformation. Aktar criticises nationalist historiographies and argues "For instance, a scholar conducting research on the Jewish community during the republican period could easily come to the conclusion that only Jews were discriminated against by the Turkish state. However, this is only partially true! All non-Muslim minorities were discriminated against and their stories cannot be understood unless the Turkish state and its policies are placed at centre stage. Utilizing diplomatic correspondence in the British and US National Archives has enabled me to understand anti-minority policies as a whole and to treat the subject within a totality." This book will interest scholars and students of nationalism, minority studies and Turkish history and politics. CONTENTS Foreword Chapter 1. **The Ritual and Spiritual Purity** Sayyid Muhammad Rizvi 2014-09-11 This book is one of the many Islamic publications distributed by Ahlulbayt Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Ahlulbayt Organization is a registered Organisation that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi'a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims.

Cruel and Usual Punishment Nonie Darwish 2009-01-04 Nonie Darwish lived for thirty years in a majority Muslim nation. Everything about her life?family, sexuality, hygiene, business, banking, contracts, economics, politics, social issues, everything?was dictated by the Islamic law code known as Sharia. But Sharia isn't staying in majority Muslim nations. Darwish now lives in the West and brings a warning; the goal of radical Islam is to bring Sharia law to your country. If that happens, the fabric of Western law and liberty will be ripped in two. Under Sharia law: A woman can be beaten for talking to men who are not her relatives and flogged for not wearing a headdress Daughters, sisters, and wives can be legally killed by the men in their family Non-Muslims can be beheaded, and their Muslim killers will not receive the death penalty Certain kinds of child molestation are allowed The husband of a "rebellious" wife can deny her medical care or place her under house arrest Think it can't happen? In 2008, England?once the seat of Western liberty and now the home of many Muslim immigrants?declared that Sharia courts in Britain have the force of law. When Muslim populations reach as little as 1 or 2 percent, says Darwish, they begin making demands of the larger community, such as foot-level faucets for washing before praying in public schools, businesses, and airports. "Airports in Kansas City, Phoenix, and Indianapolis are among those who have already installed foot baths for Muslim cab drivers," writes Darwish. These demands test how far Westerners will go in accommodating the Muslim minority. How far will they push? The Organization of the Islamic Conference works to Islamize international human rights laws and apply Sharia "standards" for blasphemy to all nations. The penalty for blasphemy? Death. Weaving personal experience together with extensive documentation and research, Darwish exposes the facts and reveals the global threat posed by Sharia law. Anyone concerned about Western rights and liberties ignores her warning and analysis at their peril.

**Greater Sins** Ayatullah Sayyid 'Abd al-Husayn Dastghayb Shirazi 2014-10-06 This book is one of the many Islamic publications distributed by Ahlulbayt Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Mustafa Organization is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought!

*The Doctrine of Slavery* Bill Warner 2010-09 The modern historical theory of slavery is that white men brought Africans to the Western hemisphere, where they were sold for profit and put to work as slaves. The modern theory is true as far as it goes, but it does not go nearly far enough. Slavery goes far beyond the 300-year period when whites bought slaves from the Muslim wholesalers on the West coast of Africa. For 1400 years Islam waged jihad in Africa, India and Europe to enslave non-Muslims. Islam ran the slave markets, not only on the West coast of Africa, but in North Africa and East Africa. The foundation for this business was the Islamic doctrine that makes slavery a moral virtue. Mohammed's example established the way to be the perfect slave trader and slave owner. He sold slaves he captured to finance jihad. Islam has a highly detailed doctrine of slavery. This book is a fascinating study of the ideology that supported the world's largest slave culture and still sells slaves today.

**A Taste of Honey** Habeeb Akande 2015-08-12 A Taste of Honey provides a scholarly exposition on the prominent place that sexuality and erotology enjoyed in traditional Islam. The book is divided into two parts; part one presents a

critical examination of sexual ethics and part two consists of a concise treatise on the art of seduction and lovemaking. The central aim of this book argues that Islam is a sexually enlightened religion which teaches that sensuality should not be devoid of spirituality. The book also argues that the loss of sacred sensuality afflicting modern society can be reclaimed by a revival of the classical erotological tradition. Drawing upon the Qur'ān, ḥadīth and traditional erotological literature, the book follows the style and composition of classical Eastern and Afro-Arab love texts such as the Kama Sutra and Jalāl ad-Dīn aṣ-Ṣuyūṭī's erotic treatises. *A Taste of Honey* is a thought-provoking work on a highly sensitive, yet extremely important subject.

**Taste of Modernity** Itzchak Weismann 2001 Annotation. "Modernization in the Muslim world was determined by the two interrelated processes of indigenous state formation and European economic penetration. These drove governments to enlist the orthodox and the masses in support of the consolidation of their central authority, and religious reformers to seek, partly through Western devices, checks on their autocracy. Concentrating on late-Ottoman Damascus, a focal point in the modernization of Islam in the Arab world, this study analyses the conceptual and social evolution among the three consecutive reform trends of the period: the Khalidi branch of the Naqshbandiyya order, the Akbari interpretation of Ibn 'Arabi's theosophy, and the Salafi adaptation of Ibn Taymiyya's teaching." "Through these reform trends, the study traces the emergence of modern Islam from its pre-modern Sufi reformist tradition. It also examines the relationship of Islamic modernization to the rise of Arab nationalism."--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved.

**Muslims in Our Community and Around the World** Susan Douglass 1995-01-01 Corollary to an understanding that Muslims need communities is the concept that Muslims bear the responsibility to develop their community. The lessons show how Muslims work together to make sure that it provides those services which are a part of compliance with Islamic law (Shari'ah). Finally, the lessons in this unit are intended to foster a sense of identity for children living in non-Muslim communities. It is intended to show that the "differentness" of the Muslim from his surroundings goes beyond custom and taste. The central fact of the Muslim community's identity is its adherence to Islam.

*Islamic Doctrine Versus the U. S. Constitution* Stephen Kirby 2019-11-19 Increasing numbers of Muslim candidates for office are entering the U.S. political system at every level from local to state and federal; and, while we applaud civic engagement by all citizens in our democratic system, we also are

mindful that Islam is a faith like none other in the obligation levied on its followers to place Islamic Law (shariah) above any other law, including the U.S. Constitution. Obviously, this sets up a conundrum for those candidates for political office who are devout and practicing Muslims. Indeed, Andre Carson (IN-D), who currently represents Indiana's 7th District in the U.S. House of Representatives, has openly urged fellow Muslims in explicit terms to represent Islam as an elected official in the U.S. government: "Each and every one of us has a directive to represent Islam, in all of our imperfections, but to represent Islam ... Such declarations set up a direct challenge to Article VI Clause 2 of the U.S. Constitution, to which each and every Member of Congress, House and Senate, is pledged under oath to uphold." With his newest book, "Islamic Doctrine versus The U.S. Constitution: The Dilemma for Muslim Public Officials," author and scholar of Islam Stephen M. Kirby, Ph.D. has drawn upon a series of essays first published by the Jihad Watch platform of the David Horowitz Freedom Center. Dr. Kirby has elucidated the very direct conflicts between Islamic Law and the 1st, 2nd, 4th, 8th, 13th, and 14th Amendments to the Constitution. But one might ask, aren't all Members of Congress obligated to swear or affirm an oath to support that Constitution? So, how could a Muslim official take such an oath and yet remain true to both his faith and the Constitution he has pledged to uphold? As this book goes to print, the U.S. is heading into another presidential election year (2020). The sobering reality of what devout, faithful, observant Muslims actually believe and are bound to obey must be a factor in the responsibility of every citizen to be both informed and engaged in the political process. Dr. Kirby's scholarship in this regard could not possibly be more timely and is made of even more practical use by the 10th and final chapter in the book, where he proposes a number of considerations and possible questions for the American citizen who may want to attend a campaign event where a Muslim candidate will be available for Questions and Answers. The entire text of "Islamic Doctrine versus The U.S. Constitution: The Dilemma for Muslim Public Officials" may be thought of as a handbook for the citizen voter.

*Islam* Adeel Zeerak 2012-09-01 One of the largest and fastest-growing religions, Islam is currently practiced by approximately one-fifth of the world's population. Unlike most religions that only consist of acts of worship, rituals, and a set of beliefs, it also offers a just socio-politico-economic system, which is especially important today as we continue to make significant material and scientific progress. However, although it presents real solutions to problems faced by the whole of mankind, factors such as worldwide media propaganda and the current condition of the Muslim community have seriously distorted the public image of Islam. Adeel Zeerak hopes that his book *Islam: A Superior System of Life* will help change all that. He says that after careful study, even those with non-Muslim unprejudiced minds will appreciate the beauty of his religion's teachings. To prove the superiority of Islamic system over other systems, he provides concrete data obtained from authentic sources and refrains from using boastful or exaggerative language. Chapters in *Islam: A Superior System of Life* include: • This is Islam • Characteristics of the Islamic System • Spiritual System • Social System • Economic System • Political System • The Prophet, peace be upon him, the Message, and the Ummah "Despite commendable

progress in the field of science and technology, this world is full of evil, exploitation, and injustice," says Zeerak, who believes any effort to find a solution to our problems continually fails because we choose to ignore the light of Divine Guidance. We all know what happened to prophet Noah's people when they rejected this guidance, but we, thankfully, still exist in this world to follow our Lord and accept Islam. Written for the Muslim and non-Muslim, *Islam: A Superior System of Life* is for readers interested in Islam, the prophet Muhammad (PBUH), the Islamic view of women, the concept of Khilafat, Islamic finance, Islamic spirituality, and Islamic history. The author promises that our obedience to Allah, subhanahu wa-ta'ala, will result in endless favors and blessings both in this world and the hereafter.

**Jihad and the West** Mark Silinsky 2016-10-24 U.S. Department of Defense analyst Mark Silinsky reveals the origins of the Islamic State's sinister obsession with the Western world. Once considered a minor irritant in the international system, the Caliphate is now a dynamic and significant actor on the world's stage, boasting more than 30,000 foreign fighters from 86 countries. Recruits consist not only of Middle-Eastern-born citizens, but also a staggering number of "Blue-Eyed Jihadists," Westerners who leave their country to join the radical sect. Silinsky provides a detailed and chilling explanation of the appeal of the Islamic State and how those abroad become radicalized, while also analyzing the historical origins, inner workings, and horrific toll of the Caliphate. By documenting the true stories of men, women, and children whose lives have been destroyed by the radical group, *Jihad and the West* presents the human face of the thousands who have been kidnapped, raped, tortured, and murdered by the Islamic State, including Kayla Mueller, who was kidnapped, given to the Caliphate's leader as a sex slave, and ultimately killed.

*Islam and Terrorism* Mark A. Gabriel 2002 For many, making sense of Islam from the media coverage has been nothing less than confusing. Mark Gabriel, a former Muslim and former professor of Islamic history at Al-Azhar University in Cairo, Egypt, explains why terrorists do what they do. His message is graphic and depicts the ruthless realities behind the teachings of Islam. (Creation House)

**When I Die, Bury Me as a Muslim** Jamella A. Jihad 2018-08-15 The proper burial of a Muslim is a very spiritual and sacred part of our worship. One should seek to understand these rites, which makes for a simple and beautiful occasion. I was inspired to write this booklet after the transition of my beloved friend Sister Leah Henton. What should have been a beautiful and dignified occasion became a heartbreaking experience because of a decision that Leah's

husband made, which would leave her family, especially her parents, with heartbreaking memories of how their daughter, a Muslim, was laid to rest and buried. The purpose of this booklet is to assist and enlighten Muslims and non-Muslim family members in the preparing and arranging of the Janazah (funeral) of our deceased Muslim loved ones. May Allah be pleased with my humble effort. Jamella Jihad

The Islamic Doctrine of Women Bill Warner 2010-11 The Islamic Doctrine of Women The role of women in Islam is very different than in our civilization. According to the will of Allah, women are to be subjugated to men in all things. They must lead their lives according to a doctrine that is based on the dictates of the Koran and how Mohammed treated his wives and the other women around him. In The Doctrine of Women learn: about the small details of Mohammed in his home and bedroom where jealousy raged in his harem; how wife beating became a part of Islam after his move to Medina; how the Koran changed the laws of adoption so Mohammed could enjoy his daughter-in-law as a new member of his harem and how child brides have been a part of Islam every since Mohammed married six-year-old Aisha. The ideology found in this book rules hundreds of millions of women's lives. Find out what their world is like under the Islamic doctrine of women.

**Traditional Islamic Ethics: The Concept of Virtue and its Implications for Contemporary Human Rights** Irfaan Jaffer 2021-09-07 "Traditional Islamic Ethics: The Concept of Virtue and its Implications for Human Rights" concentrates on the subject of Islam and modernity and Islam and human rights, a topic that has become popular and relevant with the rise of globalization and the interest in Islamic extremism and human rights. This book distinguishes itself by operating within the framework of the traditional school of thought or 'Islamic

Traditionalism'. In doing so, it draws on Islam's 1400-year-old spiritual and intellectual tradition and its understanding of ethics and virtue, along with truth, justice, freedom, and equality. This book argues that Islam's pre-modern approach is indispensable in creating an organic and integral human rights model for Muslims. The first section argues that the current understanding and implementation of international human rights needs to be more flexible and inclusive if it truly aims to be universal in scope; this is because 'The Universal Declaration' and its offshoots are still underpinned by secular-liberal principles, and therefore, are at odds with other cultural traditions. To this end, this section critically explores popular human rights histories and contemporary ethical theories that attempt to justify human rights. The second section of this book provides a general overview on the subject of 'Islam and Human Rights'. After explaining some of the main problems, this section examines various solutions offered by Muslim academics and scholars, focusing on four different types of Muslim responses to modernity and human rights: liberal, progressive, traditional, and fundamentalist. It concludes that there are 'spaces of convergence' between modern-liberal ethics and traditional Islamic virtue ethics while maintaining that there are also fundamental differences and that these differences should be welcomed by human rights theorists and advocates. The book's intended audience is primarily post-graduate students and professional academics in the fields of Human Rights, Ethical Philosophy, and Islamic Studies (modern Islamic thought, Sufism, Islamic theology, Islamic Philosophy, and Traditionalism). It will also appeal to anyone interested in the subject of Islam and modernity in general and Islam and human rights in particular.

**The Lawful and the Prohibited in Islam** Yusuf al-Qaradawi 2013-10-11 Since its first publication in 1960, this famous work by Yusuf al-Qaradawi has enjoyed a huge readership in the Muslim world, and has been translated into many languages. It dispels the ambiguities surrounding the Shari'ah to fulfil the essential needs of the Muslims in this age. It clarifies the ḥalāl (lawful) and why it is ḥalāl, and the ḥarām (prohibited) and why it is ḥarām, referring to the Qur'an and the Sunnah of the Prophet. It answers questions which may face the Muslims today, and refutes the ambiguities and lies about Islam. Dr al-Qaradawi delves into the authentic references in Islamic jurisprudence, extracting judgements of interest to contemporary Muslims in the areas of worship, business dealings, family life, food and drink, dress and ornaments, patterns of behaviour, individual and group relations, family and social ethics, habits and social customs.

**Mobilities, Tourism and Travel Behavior** Leszek Butowski 2018-01-17 The notion of "mobilities," when looked at from a practical point of view, turns out to cover different kinds of human activity. It is not surprising, then, that when approached from an academic perspective, it reveals enormous potential for interdisciplinary research, which has proven extremely attractive to many scholars from different continents, disciplines, and schools of academic inquiry. The scholars in this volume focus on the specific aspects of mobilities, namely, tourism and travel behavior, but approach them from a

plethora of positions. Such a myriad of perspectives is bound to be challenging in methodological terms, but it seems there is a growing agreement as to the worthiness of this interdisciplinary research. By means of combining various approaches, researchers obtain access to a fascinating and increasingly ubiquitous phenomenon of contemporary human mobility.

The Myth of Islamic Tolerance Robert Spencer 2005 A collection of essays on Islamic culture seeks to explode the vision of tolerant Muslim societies by revealing a history of injustice and oppression against non-Muslim populations and examines the impact this cultural bias has in the modern world.

Slavery, Terrorism and Islam Peter Hammond 2010 This is a fascinating, well illustrated and thoroughly documented response to the relentless anti-Christian propaganda that has been generated by Muslim and Marxist groups and by Hollywood film makers. As Karl Marx declared: "The first battlefield is the re-writing of History " "Peter knows first hand the nature of the enemy the West is facing and exposes it brilliantly in this book on Islam. He begins by documenting the close relationship between Islam and slavery and then chapter by chapter reveals the terrible cost of thirteen centuries of Islamic invasion, conquest and brutalisation. This is a book that every Christian should read and pass along to friends; and one that every home-schooling family should require as part of their children's curriculum." Dr. Brian M. Abshire "Dr. Peter Hammond cuts through layers of misinformation and uncovers astonishing historical facts and details long buried by Islamic revisionists. You'll find out their real agenda for tomorrow by discovering what they actually did yesterday - plus a field-tested plan of how to win Muslims to Christ." Rev. Bill Bathman "For the sake of this generation, and coming ones, someone had to do what Dr. Peter Hammond has just done; setting the record straight on the different role players in the slave trade." Rev. Fano Sibisi "Slavery, Terrorism & Islam, is must reading to all those who want to find out the roots of the Terrorism that is threatening global security." Rev. Jeffreys Kayanga

**The Hadith** Bill Warner 2010-12-01 Mohammed's actions and words are called the Sunna. They are found in the Traditions of Mohammed called the Hadith. The Koran commands all Muslims to follow the perfect example of Mohammed's life. The Hadith has all that is needed to practice Islam and is an easy place to begin cultivating an understanding of Islamic doctrine.

**Being Young and Muslim** Asef Bayat 2010 This volume explores the ways in which the young, both in Muslim majority societies and Muslim communities in the

West, negotiate their Muslim identity in relation to their youthful desires - their individuality, the search for autonomy and security for the future.

**Why I Am Not a Muslim** Ibn Warraq 2010-09-30 Those who practice the Muslim faith have resisted examinations of their religion. They are extremely guarded about their religion, and what they consider blasphemous acts by skeptical Muslims and non-Muslims alike has only served to pique the world's curiosity. This critical examination reveals an unflattering picture of the faith and its practitioners. Nevertheless, it is the truth, something that has either been deliberately concealed by modern scholars or buried in obscure journals accessible only to a select few.
