**If Sharks Disappeared** Lily Williams 2017-05-23 A healthy ocean is home to many different kinds of animals. They can be big, like a whale, tiny, like a shrimp, and even scary, like a shark. Even though sharks can be scary, we need them to keep the oceans healthy. Unfortunately, due to overfishing, many shark species are in danger of extinction, and that can cause big problems in the oceans and even on land. What would happen if this continued and sharks disappeared completely? Artist Lily Williams explores how the disappearance would affect other animals across the whole planet in this clever book about the importance of keeping sharks, and our oceans, healthy.

Shawn Loves Sharks Curtis Manley 2017-04-25 Shawn loves sharks. He loves their dark, blank eyes. He loves their big mouths full of sharp teeth. And he loves pretending to be a shark and chasing Stacy around the playground. Shawn loves sharks more than anything else in the world. But Predator Day at school is on Monday and Great White Shark isn't assigned to Shawn. It's assigned to...Stacy.

Shark vs. Train Chris Barton 2011-02-11 Shark VS. Train! WHO WILL WIN?! If you think Superman vs. Batman would be an exciting matchup, wait until you see Shark vs. Train. In this hilarious and wacky picture book, Shark and Train egg each other on for one competition after another, including burping, bowling, Ping Pong, piano playing, pie eating, and many more! Who do YOU think will win, Shark or Train? [star] "This is a genius concept." -- Publishers Weekly, starred review [star] "Lichtenheld's snarling shark and grimacing train are definitely ready for a fight, and his scenarios gleefully play up the absurdity. The combatants' expressions are priceless when they lose. A glum train in smoky dejection, or a bewildered, crestfallen shark? It's hard to choose; both are winners." -- Kirkus, starred review

**Matter** Andi Diehn 2018-03-01 Matter: Physical Science for Kids from the Picture Book Science series gets kids excited about science! What's the matter? Everything is matter! Everything you can touch and hold is made up of matter—including you, your dog, and this book! Matter is stuff that you can weigh and

that takes up space, which means pretty much everything in the world is made of matter. In *Matter: Physical Science for Kids*, kids ages 5 to 8 explore the definition of matter and the different states of matter, plus the stuff in our world that isn't matter, such as sound and light! In this nonfiction picture book, children are introduced to physical science through detailed illustrations paired with a compelling narrative that uses fun language to convey familiar examples of real-world science connections. By recognizing the basic physics concept of matter and identifying the different ways matter appears in real life, kids develop a fundamental understanding of physical science and are impressed with the idea that science is a constant part of our lives and not limited to classrooms and laboratories. Simple vocabulary, detailed illustrations, easy science experiments, and a glossary all support exciting learning for kids ages 5 to 8. Perfect for beginner readers or as a read aloud nonfiction picture book! Part of a set of four books in a series called *Picture Book Science* that tackles different kinds of physical science (waves, forces, energy, and matter), *Matter* offers beautiful pictures and simple observations and explanations. Quick STEM activities such as weighing two balloons to test if air is matter help readers cross the bridge from conceptual to experiential learning and provide a foundation of knowledge that will prove invaluable as kids progress in their science education. Perfect for children who love to ask, "Why?" about the world around them, *Matter* satisfies curiosity while encouraging continual student-led learning.
