1,000+ Practice Problems. Starting in October 2017, there will no longer be Logical Reasoning or Scrambled Paragraph questions. These sections will be replaced with SAT-like revising/editing questions. In addition, the test will also include grid-in (open-ended) math questions. The test is also longer than it was before, both in question count and time limit. With New York City SHSAT: 1,000+ Practice Problems, there's no shortage of high-quality, well-edited practice questions. This book contains more questions than even 10 full-length exams! This book contains: - 200+ revising/editing practice questions - 100+ grid-in math practice questions - 1,000+ high-quality practice questions in print - no need to go online or watch videos! - 80+ pages of detailed answer explanations that actually make sense - 2 full-length practice tests - Separate, dedicated sections for each section of the test, to help build confidence through understanding. - Questions that progress in difficulty help you quickly master the basics and score extra points on even the toughest questions. - A practice test ties everything together and simulates a real test-taking experience. Great for independent study or for use with a tutor!

New practice exams will be available in the Third Edition. SHSAT Overview The SHSAT is a 2 hour and 30 minute timed multiple choice test with two sections, verbal and math. Students can start on any section they prefer, however, the test must be completed in 2 hours and 30 minutes. The verbal section is broken down into three parts. The recommended time spent on this entire verbal section is 75 minutes. Scrambled Paragraphs - 5 Questions This section requires students to structure a 6 sentence paragraph that has been placed out of order. The first sentence is given, and students must arrange the 5 sentences so it is in chronological order. It is important to note that these questions are worth twice as much as any other question on the test. For every scrambled paragraph that is correct, the student is awarded 2 points on their raw score. There is no partial credit, so, all 5 sentences must be arranged in the right manner to receive credit. This is the section most students find difficulty with. Logical Reasoning - 10 Questions This section requires students to draw valid conclusions from the information provided in the questions. There are specific types of questions in the logical reasoning section such as but not limited to: contrapositive of a conditional

statement, deciphering codes and determining positions of objects. Reading Comprehension - 30

Questions This section requires students to read and answer questions. There are 5 passages in this question, each asking 6 questions. Math - 50 Questions The math section tests on algebra, arithmetic, statistics, geometry, probability and word problems. The math section contains 50 questions and the recommended time spent on this section is 75 minutes.
