Fragments from Iraq Zsolt T. Stockinger, M.D. 2014-01-10 From February 2005 to March 2006, Navy trauma surgeon Zsolt Stockinger served on a forward operating base in Iraq's Sunni Triangle, where he treated more than a thousand casualties and performed hundreds of surgeries. Throughout his deployment, he recorded his thoughts and experiences in a journal that he occasionally sent to his wife as a way to stay connected. Stockinger's diary offers a unique account of daily military life in Iraq from a surgeon's perspective, from the intense action of rocket attacks and emergency procedures to the creative and often lighthearted ways of filling tedious stretches of down time. Illustrated with 47 photographs, this work provides a realistic portrait of life on base and a powerful perspective on the human carnage of war.

Happy Feet Dan Blank 2014-05-04 HAPPY FEET is the ultimate resource for soccer parents. Written by best-selling author, Dan Blank, it will give you a better understanding of the game, its rules and terminology. This remarkable book includes links to seven free videos that help explain soccer's more mysterious concepts such as offside, the advantage rule and systems of play. By the end of Section 1, parents with no soccer background will have a working vocabulary of this strange sport and an understanding of all its moving pieces. More importantly, HAPPY FEET details the most common mistakes parents make in dealing with coaches, referees and their own children. It is a practical guide to situations that every soccer parent will eventually face. HAPPY FEET is not a collection of sideline horror stories. Written by a coach with more than 20 years of experience, HAPPY FEET offers a wealth of advice presented in a conversational and humorous tone. It is the definitive handbook for parents that want the best possible experience for their soccer playing children. HAPPY FEET will help you understand the most effective path for growing your child's love for the game while also helping you steer clear of the behaviors that cause children to fall out of love with team sports. Discover the easiest way to have a positive relationship with your coach, how to effectively deal with playing-time issues, and learn how to talk with your child before and after a game. Plus much, much more. Seventy-five percent of youth soccer players quit by the age of 13. HAPPY FEET was written to combat this staggering defection rate by arming parents with everything they need to know to nurture and grow their children's love for the game so that soccer fields from coast to coast are alive and well with the sounds of very HAPPY FEET.

Parenting Matters National Academies of Sciences, Engineering, and Medicine 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of

the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Travel Industry Economics Harold L. Vogel 2021 "In this book Harold L. Vogel comprehensively and holistically examines the business economics and investment aspects of major components of the travel industry, including airlines, hotels, casinos, amusement and theme parks, cruise lines, and tourism. The book is designed as an economics-grounded text that uniquely integrates reviews of each sector's history with economics, accounting, and financial aspects and analysis. As such, it provides a concise, up-to-date reference guide for financial analysts, economists, industry executives, legislators and regulators, advertisers, and journalists interested in the economics, financing, and marketing of travel and tourism-related goods and services. The fourth edition of this well-established text updates, refreshes, and significantly broadens the coverage of tourism economics. It includes new sections on travel law and applications of big data and artificial intelligence technologies as well as additional material on demographic spending patterns, the online travel agency business, the pandemic's effects and affects on industry finances, expanded coverage of the cruise line industry, and information on the damage to tourist destinations caused by excessive pollution and traffic."--

Yes Mommy Amy Sprenger 2014-05-06 What kind of mother doesn't say no to her kids? One who is clearly angling for the Mother of the Year trophy - or an extended stay in a mental institution. After deciding to eliminate the words no, don't and stop from her parenting vocabulary for one month, Amy Sprenger documents what life is like with her three young children. Spoiler alert: she's still alive, so it didn't actually kill her.

Preventing Bullying Through Science, Policy, and Practice National Academies of Sciences, Engineering, and Medicine 2016-09-14 Bullying has long been tolerated as a rite of passage among children and adolescents. There is an implication that individuals who are bullied must have "asked for" this type of treatment, or deserved it. Sometimes, even the child who is bullied begins to internalize this idea. For many years, there has been a general acceptance and collective shrug when it comes to a child or adolescent with greater social capital or power pushing around a child perceived as subordinate. But bullying is not developmentally appropriate; it should not be considered a normal part of the typical social grouping that occurs throughout a child's life. Although bullying behavior endures through generations, the milieu is changing. Historically, bullying has occurred at school, the physical setting in which most of childhood is centered and the primary source for peer group formation. In recent years, however, the physical setting is not the only place bullying is occurring. Technology allows for an entirely new type of digital electronic aggression, cyberbullying, which takes place through chat rooms, instant

messaging, social media, and other forms of digital electronic communication. Composition of peer groups, shifting demographics, changing societal norms, and modern technology are contextual factors that must be considered to understand and effectively react to bullying in the United States. Youth are embedded in multiple contexts and each of these contexts interacts with individual characteristics of youth in ways that either exacerbate or attenuate the association between these individual characteristics and bullying perpetration or victimization. Recognizing that bullying behavior is a major public health problem that demands the concerted and coordinated time and attention of parents, educators and school administrators, health care providers, policy makers, families, and others concerned with the care of children, this report evaluates the state of the science on biological and psychosocial consequences of peer victimization and the risk and protective factors that either increase or decrease peer victimization behavior and consequences.

Whether they are at Disneyland for a day or a week, there is a plan for any group or family. They can enjoy the entertainment instead of spending their time in lines. Comprehensive information is presented in a way that permits easy comparisons and facilitates decision-making. Detailed plans and profiles of hotels, restaurants, and attractions are presented in "at-a-glance" formats, providing for effortless communication of the most salient information. Profiles are supplemented by indexes. In short, we've got a plan for every reader. The Unofficial Guide to Disneyland's research team is a multi-disciplinary group consisting, among others, of data collectors, computer scientists, statisticians, and psychologists. Their singular goal is to provide a guide that lets you get it right the first time, and every time. With their help, advice, and touring plans, readers have a one-up on anyone else not using The Unofficial Guide to Disneyland. The book is the key to planning a perfect vacation in a great destination location.

Pain Management and the Opioid Epidemic National Academies of Sciences, Engineering, and Medicine 2017-10-28 Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and

loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

Reinforcement Learning, second edition Richard S. Sutton 2018-11-13 The significantly expanded and updated new edition of a widely used text on reinforcement learning, one of the most active research areas in artificial intelligence. Reinforcement learning, one of the most active research areas in artificial intelligence, is a computational approach to learning whereby an agent tries to maximize the total amount of reward it receives while interacting with a complex, uncertain environment. In Reinforcement Learning, Richard Sutton and Andrew Barto provide a clear and simple account of the field's key ideas and algorithms. This second edition has been significantly expanded and updated, presenting new topics and updating coverage of other topics. Like the first edition, this second edition focuses on core online learning algorithms, with the more mathematical material set off in shaded boxes. Part I covers as much of reinforcement learning as possible without going beyond the tabular case for which exact solutions can be found. Many algorithms presented in this part are new to the second edition, including UCB, Expected Sarsa, and Double Learning. Part II extends these ideas to function approximation, with new sections on such topics as artificial neural networks and the Fourier basis, and offers expanded treatment of off-policy learning and policy-gradient methods. Part III has new chapters on reinforcement learning's relationships to psychology and neuroscience, as well as an updated case-studies chapter including AlphaGo and AlphaGo Zero, Atari game playing, and IBM Watson's wagering strategy. The final chapter discusses the future societal impacts of reinforcement learning.

Mediated Football Jacco van Sterkenburg 2018-02-02 Football has become one of the most mediated cultural practices in modern Western societies, providing players, officials and spectators with implicit and often hidden discourses about race/ethnicity, national identity and gender. This book provides new and critical insights into how mediated football as a contested cultural practice influences, and is influenced by, discourses and stereotypes about race/ethnicity, nation and gender that operate at the local, national and global level. It analyzes both contemporary media representations and the ways these representations are negotiated, interpreted and used by football media audiences. These issues are explored across all media genres (print media, television, online, social media, film, and so forth) in a multidisciplinary and cross-cultural manner, with contributions from diverse disciplines and countries. This book was originally published as a special issue of Soccer and Society.

It's a Mad, Mad, Mad, Mad Trip Kevin James Shay 2014-07-19 It's a Mad, Mad, Mad, Mad Trip: On the Road of the Longest Two-Week Family Road Trip in History chronicles the adventures of a single Dad taking his two kids on a 6,950-mile odyssey across the USA and back during his two-week vacation in 2013. They set a record for the longest family road trip in a roughly two-week span, certified by RecordSetter, the Wikipedia generation's version of Guinness World Records. And they did it in their trusty 2001 Honda CRV that began with more than 165,000 miles. They tried to locate some Hollywood celebrities, rode roller coasters and water slides, swam in the Pacific Ocean, met some aliens at a UFO center in Sedona, sat on a ledge on top of the country's tallest building in Chicago, spray painted Cadillac Ranch, dodged mule poop at the Grand Canyon, and bought a pressed coin near Old Faithful. Their book also lends tips, websites and other info on attractions, fun facts, and more resources, to help you with your own Great American Adventure.

Race, Riots, and Roller Coasters Victoria W. Wolcott 2012-08-16 Throughout the twentieth century, African Americans challenged segregation at amusement parks, swimming pools, and skating rinks not only in pursuit of pleasure but as part of a wider struggle for racial equality. Well before the Montgomery bus boycott, mothers led their children into segregated amusement parks, teenagers congregated at forbidden swimming pools, and church groups picnicked at white-only parks. But too often white mobs attacked those who dared to transgress racial norms. In *Race, Riots, and Roller Coasters*, Victoria W. Wolcott tells the story of this battle for access to leisure space in cities all over the United States. Contradicting the nostalgic image of urban leisure venues as democratic spaces, Wolcott reveals that racial segregation was crucial to their appeal. Parks, pools, and playgrounds offered city dwellers room to exercise, relax, and escape urban cares. These gathering spots also gave young people the opportunity to mingle, flirt, and dance. As cities grew more diverse, these social forms of fun prompted white insistence on racially exclusive recreation. Wolcott shows how black activists and ordinary people fought such infringements on their right to access public leisure. In the face of violence and intimidation, they swam at white-only beaches, boycotted discriminatory roller rinks, and picketed Jim Crow amusement parks. When African Americans demanded inclusive public recreational facilities, white consumers abandoned those places. Many parks closed or privatized within a decade of desegregation. Wolcott's book tracks the decline of the urban amusement park and the simultaneous rise of the suburban theme

park, reframing these shifts within the civil rights context. Filled with detailed accounts and powerful insights, *Race, Riots, and Roller Coasters* brings to light overlooked aspects of conflicts over public accommodations. This eloquent history demonstrates the significance of leisure in American race relations.

The Mueller Report Robert S. Mueller 2019-04-26 This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.
