Fumo Carl David Ipsen 2016-05-04 For over a century, Italy has had a love affair with the cigarette. Perhaps no consumer item better symbolizes the economic, political, social, and cultural dimensions of contemporary Italian history. Starting around 1900, the new and popular cigarette spread down the social hierarchy and eventually, during the 1960s, across the gender divide. For much of the century, cigarette consumption was an index of economic well-being and of modernism. Only at the end of the century did its meaning change as Italy achieved economic parity with other Western powers and entered into the antismoking era. Drawing on film, literature, and the popular press, Carl Ipsen offers a view of the "cigarette century" in Italy, from the 1870s to the ban on public smoking in 2005. He traces important links between smoking and imperialism, world wars, Fascism, and the protest movements of the 1970s. In considering this grand survey of the cigarette, *Fumo* tells a much larger story about the socio-economic history of a society known for its casual attitude toward risk and a penchant for la dolce vita.

Thrown-Away Child Thomas Adcock 2020-01-28 This "irresistible" police procedural "bares the New Orleans underbelly few tourists get to see" (Publishers Weekly, starred review). NYPD detective Neil Hockaday has traveled to the Big Easy, hometown of his wife, African-American actress Ruby Flagg. Her family was driven from their home long ago by an

evangelical church and fell on hard times, but Ruby fled and found a life for herself in New York. And this won't be a peaceful visit for Hock. In a city famed as much for its corruption as its cuisine, he'll become entangled in a web of not only family secrets but also politics and murder, dealing with a preacher, a scamming alderman, and even some voodoo, with only a little time left over to attend a jazz funeral or take in the other city sights . . . "Intelligent . . . sharp-witted and perceptive." —Susan Isaacs, author of *Compromising Positions*
"Compelling." —Los Angeles Times "Marvelous characters." —The Times-Picayune (New Orleans)

Smoking James D. Torr 2001 Discusses the gravity of smoking among adults and teenagers, the role of the tobacco industry, and the extent of government intervention to reduce smoking from a variety of viewpoints.

Emerging Moral Vocabularies Brian M. Lowe 2006 One of the central observations of the social sciences has been that the modern age is an age of constant change. This change has resulted in the emergence of new moral and ethical claims and understanding, which author Brian Lowe refers to as "moral vocabularies." Lowe skillfully seeks to explain under what conditions certain moral vocabularies are more likely to gain acceptance in the wider host society. By focusing on the animal rights and tobacco control movements, this absorbing work explores the process of moralization and the fragmentary nature of the emergence of new forms of moral and ethical meanings within the wider host society. *Emerging Moral Vocabularies* challenges the broad assertion that Western post-industrial societies are inevitably becoming more individualistic and self-centered, and instead encourages scholars to examine emerging forms for moral and ethical meaning, which form new moral boundaries.

Sensible Thinking for Turbulent Times Martin H. Levinson 2006-06-06 In these times of rapid change and constant upheaval, can we learn to think and communicate more effectively—at home, in school, on the job, and as citizens in the larger world? This book, which is based on the formulations of "general semantics," says yes, yes, and yes! Topics in it include practical ways to improve your thinking ability, emotional self-management, creativity, and analysis of important social issues. "Buyer beware: Reading this book could result in serious improvements in your approach to self, to others, and to the ways you interact with the world." -Andrea Johnson, President, Institute of General Semantics "This book provides a highly practical guide for problem-solving, decision-making, interpersonal relations, and personal fulfillment." -Steve Stockdale, Executive Director, Institute of General Semantics "Sensible Thinking for Turbulent Times brings the great ideas of general semantics into the 21st century in a clear and accessible manner." -Lance Strate, President, Media Ecology Association "Martin Levinson has done an excellent job of applying sensible thinking to current problems. Our culture needs this book." -Gregg Hoffmann, author of *Searching for Unmediated Truth* "This book offers a sound approach to the problems of everyday living. Highly recommended." -Judith Feld, M.D., President, Western Chapter New York Psychiatric Society

The Cigarette Century Allan Brandt 2009-01-06 From agriculture to big business, from medicine to politics, *The Cigarette Century* is the definitive account of how smoking came to

be so deeply implicated in our culture, science, policy, and law. No product has been so heavily promoted or has become so deeply entrenched in American consciousness. The Cigarette Century shows in striking detail how one ephemeral (and largely useless) product came to play such a dominant role in so many aspects of our lives—and deaths.

The Social Norms Approach to Preventing School and College Age Substance Abuse H. Wesley Perkins 2003-02-24 The Social Norms Approach to Preventing School and College Age Substance Abuse offers educators, counselors, and clinicians a handbook for understanding and implementing a new and highly successful alternative to traditional methods for preventing substance abuse among young people. The proven "social norms" approach outlined in this book identifies young people's dramatic misperceptions about their peer norms and promotes accurate public reporting of actual positive norms that exist in all student populations. The contributors to this important book are the originators, pioneers, and active proponents of this new approach. Many of them have successfully applied the social norms approach in secondary and higher education settings and as a result have promoted healthier lifestyles among adolescents and young adults across the United States.

The Drug Problem Martin H. Levinson 2002 This comprehensive volume offers a dynamic new approach to understanding and solving the drug problem. This text applies the techniques and formulations of general semantics to investigate and make recommendations about various aspects of drug abuse. General semantics, a process problem-solving approach based on the primacy of the scientific method and importance of language as a shaper of thoughts and perceptions, has a proven record of success in problem-solving across a wide variety of disciplines and fields.

The Eyes of Texas Trey R. Barker 2019-10-21 Texas has it all, from bustling big cities to sleepy small towns, and law enforcement alone can't solve every crime. That's where private eyes come in. They take the cases law enforcement can't—or won't. Private eyes may walk the mean streets of Dallas and Houston, but they also stroll through small West Texas towns where the secrets are sometimes more dangerous. Whether driving a Mustang or riding a Mustang, a private eye in Texas is unlike any other in the world. The Eyes of Texas features seventeen original tales of Lone Star State private eyes from Trey R. Barker, Chuck Brownman, Michael Chandos, John M. Floyd, Debra H. Goldstein, James A. Hearn, Richard Helms, Robert S. Levinson, Scott Montgomery, Sandra Murphy, Josh Pachter, Michael Pool, Graham Powell, William Dylan Powell, Stephen D. Rogers, Mark Troy, and Bev Vincent.

Beyond Resistance! Youth Activism and Community Change Pedro Noguera 2006-03-21

The failure of current policy to address important quality of life issues for urban youth remains a substantial barrier to civic participation, educational equity, and healthy adulthood. This volume brings together the work of leading urban youth scholars to highlight the detrimental impact of zero tolerance policies on young people's educational experience and well being. Inspired by the conviction that urban youth have the right to more equitable educational and social resources and political representation, *Beyond Resistance!* offers new insights into how to increase the effectiveness of youth development and education programs, and how to create responsive youth policies at the local, state, and federal level.

Rediscovering Mrs. Murphy Craig S. Austin 2007-10 Johnny Bates is incarcerated in the minimum-security correctional facility fighting boredom. One day he learns about an injustice that is being visited upon certain convicts in the maximum-security prison by one of the prison guards. Johnny decides he must be the one to right the wrong. To do that, he must return to maximum-security, to the Walls. Once again in maximum-security, Johnny happily reunites with his old friends from his earlier stay, both convict and guard. He works his way into the place and position he wants and needs in order to complete his mission, while here he learns again the habits of the officers and other convicts and plans the method by which he will put an end to the injustice. Inside the Walls, a lot has changed and Johnny finds himself violently thrust into the most recent problem confronting inmates as well as the prison administration, the problem of juveniles who've been sentenced as adults. The new trouble does serve to keep the attention of the security staff focused away from Johnny, so although it's a distraction, it's not as bad as it seems at first. As he told the warden, "I'm glad I ain't your biggest problem no more." Johnny manages to right the wrong, to wreak the kind of justice (punishment) that will be understood and accepted in prison culture, a culture which seems to be slightly out of step with that of free society, but upon closer inspection is frighteningly similar. The book illustrates that prison is not entirely a war between good (security staff) and bad (convicts), but a way of life with love and hate, fear and humor, and pleasure as well as hard knocks. In prison as well as on the outside, life is what you make of it with the cards you are dealt.

The Penis Name Book David Rosenthal 2010-11-18 Boy, oh, boy, it's a difficult decision when it comes to naming a guy's manhood. Does one go respectable with Peter O'Toole? Or hip with the Big Lebowski? Or choose one with a little more flavor, like Charleston Chew? With so many possibilities, it could really drive a person nuts! Lucky for those looking to nail down the perfect name for their (partner's) favorite body part, there's this book. It's a long, hard process coming up with an original name for a man's member, so this book doesn't beat around the bush. It pulls together 500 options, sizes them up, and helps you get down to business and choose the perfect fit. At the end of the naming process, you will think your choice is a stroke of genius--and be relieved you're not just calling it Harry or Dick.

Cracked Barbra Leslie 2015-11-24 After her stormy marriage ends, Danny Cleary jumps down the rabbit hole into a world of crack cocaine - delivered to her door by a polite but slightly deranged dealer. But when Danny's twin sister Ginger is murdered, Danny and her rock musician brother fly to California to find their nephews - and the people who killed their sister. Fighting her addiction, nosy cops and crazy drug dealers, she kicks ass and takes names, embracing her inner vigilante in a quest to avenge her sister and save her family. Cracked is a darkly comic roller-coaster ride to redemption as Danny struggles with bad guys and her own demons to find out who killed her twin.

Smoked Mike A. Males 1999 If we just keep kids from starting to smoke, we'll have this tobacco problem licked, right? Wrong. In *Smoked*, journalist Mike Males takes you on a tour of the co-optation of a political movement. From the 1960s to the late 1980s, anti-smoking campaigns were designed and run by health activists -- creating major declines in smoking by all age groups. But in the 1990s, political interests took up anti-smoking as a vote-winning crusade, replacing sound health, tax, and regulation strategies with a politically-driven agenda stressing popular sloganeering and calculatedly ineffective programming against teenage smoking. The failures of this approach (which neatly meshes with industry efforts to promote smoking as adult, thereby enticing teens to smoke) have prompted recent calls for a return to effective tax-and-regulate measures. Without them, argues Males, the vote-winning crusade is nothing more than smoke and mirrors.

Tobacco Industry and Smoking Fred C. Pampel 2009-01-01 Praise for the previous edition:

Join the Club Tina Rosenberg 2011-04-08 In the style of *Nudge* or *The Spirit Level* - a groundbreaking book that will change the way you look at the world. Tina Rosenberg has spent her career tackling some of the world's hardest problems. *The Haunted Land*, her searing book on how Eastern Europe faced the crimes of Communism, was awarded both the National Book Award and the Pulitzer Prize in the US. In *Join the Club*, she identifies a brewing social revolution that is changing the way people live, based on harnessing the positive force of peer pressure. Her stories of peer power in action show how it has reduced teen smoking in the United States, made villages in India healthier and more prosperous, helped minority students get top grades in college calculus, and even led to the fall of Slobodan Milosevic. She tells how creative social entrepreneurs are starting to use peer pressure to accomplish goals as personal as losing weight and as global as fighting terrorism. Inspiring and engrossing, *Join the Club* explains how we can better our world through humanity's most powerful and abundant resource: our connections with one another.

Tobacco Use and Ethnicity Peter L Myers 2018-10-24 Learn how ethnic factors affect tobacco use The addiction to smoking is remarkably resistant to intervention, bringing with it a multitude of health issues among users that can at times co-occur with psychiatric disorders. Ethnicity is increasingly recognized as often playing an important role in the prevalence of tobacco use. *Tobacco Use and Ethnicity* explores the various factors that impact tobacco use among ethnic groups and provides practical, culturally competent approaches to treatment. Chapters consider multiple variables that lead to use among certain groups, such as Asian American and Pacific Island youth, American Indian and Alaskan Native youth, and low-income African Americans. *Tobacco Use and Ethnicity* is a unique source that comprehensively reveals the intersection between nicotine and culture, constructing culturally informed and culturally competent approaches to tobacco prevention

and cessation treatment. This volume is based on first-hand participant observation and addresses risk and protective factors in a wide variety of populations served by public health workers and educators. The book is extensively referenced and includes figures and tables to clearly present research. Topics discussed in *Tobacco Use and Ethnicity* include: target marketing of a tobacco product to African-American youth how ethnicity and youth culture impact potential smokers the role of parental relationships the impact of peer and parental smoking status, employment, gender, and income in British Columbia the risk factor of acculturative stress on Asian American and Pacific Island youth protective factors of American Indian and Alaskan Native youth common factors associated between poverty and African American tobacco use and more! *Tobacco Use and Ethnicity* is an invaluable resource for public health professionals, addictions counselors, public health educators, and students.

Smoking Auriana Ojeda 2002 Presents a series of articles on smoking that examine the issue through diverse social, medical, and political viewpoints.

Unfiltered Associate Director Eric Feldman 2004-08-15 Tobacco, among the most popular consumer products of the twentieth century, is under attack. Once a behavior that knew no social bounds, cigarette smoking has been transformed into an activity that reflects sharp differences in social status. *Unfiltered* tells the story of how anti-smoking advocates, public health professionals, bureaucrats, and tobacco corporations have clashed over smoking regulation. The nations discussed in this book--Australia, Canada, Denmark, France, Germany, Japan, the United Kingdom, and the United States--restrict tobacco advertising, tax tobacco products, and limit where smoking is permitted. Each is also struggling to shape a tobacco policy that ensures corporate accountability, protects individual liberty, and asserts the state's public health power. *Unfiltered* offers a comparative perspective on legal, political, and social conflicts over tobacco control. The book makes a unique contribution to our understanding of how scientific evidence, global health advocacy, individual risk assessments, and governmental interests intersect in the crafting of tobacco policy. It features national case studies and cross-cultural essays by experts in health policy, law, political science, history, and sociology. The lessons in *Unfiltered* are crucial to all who seek to understand and influence tobacco policy and reduce tobacco-related mortality worldwide.

Politics, Health, and Health Care Theodore R. Marmor 2012-07-24 Two towering figures in the field of health care policy analysis, Theodore R. Marmor and Rudolf Klein, reflect on a lifetime of thought in this wide-ranging collection of essays published in the wake of President Obama's health care reform. Presented as a kind of dialogue between the two, the book offers their recent writings on the future of Medicare; universal health insurance; conflicts of interest among physicians, regulators, and patients; and many other topics.
