The COUNCIL OF THE SEVEN LIGHTS George W. van Tassel 2021-11-16 In his book of 1958: The Council of Seven Lights, George van Tassel produced a compilation of communications describing a reality that many of us are not familiar with. Much of the information is complex and was not easily understood. The subject matters include the cycling of twelve densities, the progressed evolution of planets, and the connection between gravity and electricity. He takes the reader far beyond our atmosphere to give technical data on the lines of energy, the conditions of space. He describes polarity, its positive and negative aspects, and applies theory to fact so the reader can understand every point he makes. The beginning of all creation has the same meaning as the ending of all creation, for all things have always existed and always will exist. Everything anyone has ever been or will ever be, he is now. This is a truth often overlooked in man's search for understanding. He forgets God was all there was, and therefore all there is now or will ever be. Van Tassel writes that religion and science are the same thing, the only difference being that they are two opposite viewpoints. Just as a wall is a wall regardless of which side one stands on, so are science and religion, life itself. According to Van Tassel, the Bible is an accurate history of events repeating themselves in cycles. He says there are predictions referring to spaceships throughout the Bible, among them the prophecy that there will be a day when the ships will come to take the people who are ready, leaving those who are not prepared to face the cataclysmic destruction inevitably approaching. This book explains the vortices of the human body that are responsible for the reasons that certain individuals affect one so strongly on meeting, a violent, a strong attraction without apparent cause, and also explain a person's effect on each others. In The Council of Seven Lights, the reader will find many absorbing facets of knowledge - new data on atmospheric conditions, further information about space ships, and for the searcher who desires more understanding of the greater pattern of life, a philosophy well worth studying. He hosted The Giant Rock Spacecraft Convention annually beside the Rock, from 1953 to 1978, that attracted at its peak in 1959 as many as 10,000 attendees. Guests trekked to the desert by car or landed airplanes on Van Tassel's small airstrip, grandly called Giant Rock Airport.

[Kant's Little Prussian Head and Other Reasons Why I Write: An Autobiography in Essays](#) Claire Messud 2020-10-13 A glimpse into a beloved novelist's inner world, shaped by family, art, and literature. In her fiction, Claire Messud "has specialized in creating unusual female characters with ferocious, imaginative inner lives" (Ruth Franklin, New York Times Magazine). Kant's Little Prussian Head and Other Reasons Why I Write opens a window on Messud's own life: a peripatetic upbringing; a warm, complicated family; and, throughout it all, her devotion to art and literature. In twenty-six intimate, brilliant, and funny essays, Messud reflects on a childhood move from her Connecticut home to Australia; the complex relationship between her modern Canadian mother and a fiercely single French Catholic aunt; and a trip to Beirut, where her pied-noir father had once lived, while he was dying. She meditates on contemporary classics from Kazuo Ishiguro, Teju Cole, Rachel Cusk, and Valeria Luiselli; examines three facets of Albert Camus and *The Stranger*; and tours her favorite paintings at Boston's Museum of Fine Arts. In the luminous title essay, she explores her drive to write, born of the magic of sharing language and the transformative powers of "a single successful sentence." Together, these essays show the inner workings of a dazzling literary mind. Crafting a vivid portrait

of a life in celebration of the power of literature, Messud proves once again "an absolute master storyteller" (Rebecca Carroll, Los Angeles Times).

Ashtar's The Space Brothers Speak Sean Casteel 2019-08-06 WELCOME ON BOARD THE MOTHERSHIP THE ASHTAR COMMAND WANTS YOU! SHOULD THERE BE A GLOBAL DISASTER - SUCH AS A NUCLEAR WAR OR POLE SHIFT - THE "CHOSEN" WILL BE TAKEN TO A SAFE HARBOR IN SPACE At this very moment, thousands of friendly space beings, sometimes referred to as the Cosmic Brotherhood, or the Federation of Planets, are patrolling our atmosphere on a mission of salvation as they seek to expand the consciousness of humanity and to lessen global tensions. Led by the gallant Ashtar, it is believed by his followers that that these highly advanced beings could at a moment's notice remove from the planet a sizable portion of humanity identified as the "Chosen Ones" - those attuned with the cosmos and its universal laws - who would be taken to a safe port in a distant solar system. Although he is an Etherian, a nonphysical being, Ashtar and his comrades take on the appearance of royal-looking humans. So say those who have had face-to-face contact, including New York City contactee Marc Brinkerhoff, who describes Ashtar's appearance thusly: "His presence is trustful, commanding, confident and calming when I have met him during out-of-body visits to the teaching spaceships around the Earth, and on August 10, 2015 when I physically met him in person. Ashtar also has a sense of humor when I have seen him speaking at some of the Galactic meetings. "Ashtar projects himself as an Adamic High Etherian Universal space being and he resembles a form he had on Venus many thousands of Earth years ago. He is known in space in the same way that his Oversoul appears, or looks, on the Higher Dimensions. He has kind, intense, beautiful blue eyes with flecks of turquoise in them. Ashtar usually has golden blonde hair to dark golden blonde smooth to wavy hair that falls from 4 to 8 inches past his shoulders." Though Ashtar is Aryan-looking, his massive star fleet membership consists of a multitude of forms, shapes, sizes and colors, presenting themselves as a united, rainbow coalition of benign entities, many of whom take on physical form upon contacting their "Space Channelers" in every earthly land. The history of channeling is presented from the days of ancient Greece and the seer known as the Oracle of Delphi, to the works of "Oahspe" and a "Dweller On Two Planets," (which was responsible for bringing the actress

Shirley MacLaine into the New Age fold). More recently, the first appearance of Ashtar upon the scene was in the late 1940s, when contact was established with an associate of billionaire Howard Hughes. The manager of an isolated airport in the Mojave Desert, George Van Tassel, witnessed the landing of a spaceship and shortly thereafter began going into a light trance, allowing Ashtar to take control of his vocal chords, after which Tassel began coming forth with messages that were to be presented to a wide audience. It was an audience who believed in the Space Brothers' cause and were willing to heed the warnings and spiritual advice disseminated through their representatives, which were soon to grow in number. This volume is more than unique. It presents a grand overview of Ashtar and his Commanders as well as messages from his special spokespersons, including Tuella, his primary representative. This work also includes transmissions from many of the individual planets in this solar system, the inhabitants of which operate on a "higher vibrational level," making them normally invisible to the human eye, except the most closely connected. There is also fabulous artwork by Carol Ann Rodriguez of a number of these enlightened souls, as well as overviews by Hercules Invictus, Tim Beckley and Sean Casteel.
