Bailey Moore is finally getting to live on her own terms. After a fierce battle with cancer, she's ready to do all the things she never dared to before, like sail the Greek Islands and explore Europe's castles. Her first new adventure brings her to Cedar Ridge Resort, a ski lodge in the Colorado Rockies. Bailey quickly discovers that following her No Regrets List won't be easy. It doesn't offer instructions for how to deal with a suffocating mother or an ex-fiancé who doesn't want to let her go. And when her past comes calling, she'll have to summon more courage than ever before to live the life she truly wants.

Powder Days Heather Hansman 2021-11-09 *An Outside Magazine Book Club Pick* "A sparkling account."—Wall Street Journal An electrifying adventure into the rich history of skiing and the modern heart of ski-bum culture, from one of America's most preeminent ski journalists The story of skiing is, in many ways, the story of America itself. Blossoming from the Tenth Mountain Division in World War II, the sport took hold across the country, driven by adventurers seeking the rush of freedom that only cold mountain air could provide. As skiing gained in popularity, mom-and-pop backcountry hills gave way to groomed trails and eventually the megaresorts of today. Along the way, the pioneers and diehards—the ski bums—remained the beating heart of the scene. Veteran ski journalist and former ski bum Heather Hansman takes readers on an exhilarating journey into the hidden history of American skiing, offering a glimpse into an underexplored subculture from the perspective of a true insider. Hopping from Vermont to Colorado, Montana to West Virginia, Hansman profiles the people who have built their lives around a cold-weather obsession. Along the way she reckons with skiing's problematic elements and investigates how the sport is evolving in the face of the existential threat of climate change.

Go Find Susan Purvis 2019-06-02 Somewhere between hunting for gold in Latin America as a geologist and getting married to a new husband, thirty-three-year-old Susan Purvis loses her way. Susan comes to believe that a puppy and working on ski patrol at the last great ski town in Colorado will improve her life. When she learns about avalanches that bury people without warning, she challenges herself: "What if I teach a dog to save lives?" This quest propels her

to train the best possible search dog, vowing to never leave anyone behind. With no clue how to care for a houseplant, let alone a dog, she chooses a five-week-old Labrador retriever, Tasha. With the face of a baby bear and the temperament of an NFL linebacker, Tasha constantly tests Susan's determination to transform her into a rescue dog. Susan and Tasha jockey for alpha position as they pursue certification in avalanche, water, and wilderness recovery. Susan eventually learns to truly communicate with Tasha by seeing the world through her dog's nose. As the first female team in a male-dominated search-and-rescue community, they face resistance at every turn. They won't get paid even a bag of kibble for their efforts, yet they launch dozens of missions to rescue the missing or recover the remains of victims of nature and crime. Training with Tasha in the field to find, recover, and rescue the lost became Susan's passion. But it was also her circumstance-she was in many ways as lost as anyone she ever pulled out of an avalanche or found huddled in the woods. "Lostness" doesn't only apply to losing the trail. People can get lost in a relationship, a business, or a life. Susan was convinced that only happened to other people, until Tasha and a life in the mountains taught her otherwise.

Buried Ken Wylie 2014-10-07 On January 20, 2003, at 10:45 a.m., a massive avalanche in the Selkirk Range of British Columbia struck three members of two guided backcountry skiing groups and buried them. After a frantic hour of digging by those still standing, an unthinkable outcome became reality: seven people were dead. The tragedy made international news, splashing photos of the seven dead Canadian and US skiers on television screens and newspaper pages. The official analysis was that guide error was not a contributing factor in the accident. This interpretation was insufficient for some of the victims' families, the public and some members of the guiding community. *Buried* is the assistant guide's story. It renders an answerable truth about what happened by delving deep into the human factors that played into putting people in harm's way as well as the peace that comes from accountability and the personal growth that results from understanding.

'93 Til Pete Thompson 2020-09 To be a skateboarder today is a much different experience than it was for much of the 1990s. The photographs, quotes, and anecdotal text in '93 til captures a time in skateboarding when making a livable income as a professional skater was a luxury and public understanding of skateboarding was at an all-time low. It was a time when skateboarding was searching for an identity, a time before Instagram and big corporate influences. Street skating was coming of age, testing its limitations and aligning itself with a new and innovate style of hip-hop culture that was emerging. Looking back, many skaters today feel as though the '90s were the golden years of skateboarding. '93 til is a captivating portal into a decade and a culture that is remembered with warmth and nostalgia. Much of the photography that Pete has unearthed for '93 til was buried in boxes for close to two decades and hasn't never been seen or published before. The 250-page book also contains several timeless images from his years shooting for SLAP and Transworld Skateboarding Magazine that will be familiar to the initiated. In addition to his stunning action shots are plenty of portraits and unguarded, candid moments that span from the late '80s up through 2004. The book reveals a raw, unapologetic perspective of a world that no longer exists. Also included in the book alongside Pete's imagery are quotes and anecdotes from legends like Tony Hawk, Arto Saari, Jamie Thomas, Guy Mariano, Nyjah Huston, Geoff Rowley, Stevie Williams and others. Pete moved on from his career in skate photography in 2004 and is currently living in Brooklyn.

Two Planks and a Passion Roland Huntford 2013-01-31 Roland Huntford's brilliant history begins 20,000 years ago in the last ice age on the icy tundra of an unformed earth. Man is a travelling animal, and on these icy slopes skiing began as a means of survival. That it has developed into the leisure and sporting pursuit of choice by so much of the globe bears testament to its elemental appeal. In polar exploration, it has changed the course of history. Elsewhere, in war and peace, it has done so too. The origins of skiing are bound up in with the emergence of modern man and the world we live in today.

Wolves Julie Argyle 2022-04-12 An up-close look at the beautiful, yet fierce wolves of the greater Yellowstone area and their fight for survival. In *Wolves: Western Warriors*, the life of the powerful and majestic North American wolf, often considered to be vermin and dangerous, is presented, showing the struggle they have to simply survive in the wild and in a world where many people don't appreciate wolves and often set out to exterminate them. Argyle explores their behavior, their family dynamics, and what it means to be a wolf in the wilderness of the greater Yellowstone area through her stunning photography. She includes information about the reintroduction of wolves to Yellowstone and the ongoing struggle with keeping wolves listed as endangered species, while also offering her personal observations about the Wapiti Lake pack, among others, and several notable individual wolves. The strikingly beautiful images and the information and stories woven throughout the pages of the book showcase this frequently misunderstood, yet completely incredible species. "If you talk to the animals they will talk with you and you will know each other. If you do not talk to them you will not know then and what you do not know, you will not fear. What one fears, one destroys." — Chief Dan George, Tsleil-Waututh Nation, British Columbia, Canada.
