[The American Stock Car](#) William M. Burt 2001 Find out how the American stock car has progressed from street setups in the early period of the '40s and '50s through the high-tech chassis of the Grand National years to today's Winston Cup series. Each decade is arranged chronologically in five chapters that cover the 1940s to present. This photo history explains and illustrates how rule changes and governing

regulations have molded the evolution of stock cars for more than a half-century from the Grand National to the NASCAR era. From the truly "stock" street set-ups that hit the sands of Daytona in the postwar years; to the high-tech chassis of Grand National racing, the "aero wars" of the late 1960s and early 1970s; and today's shop-built, stock-in-name-only racers. Readers witness a parade of the sports' greatest builders, drivers, tracks and automobiles. Two hundred black-and-white photos depict early legends like Tim Flock, Fireball Roberts and Lee Petty. Period and modern color photography depicts the exploits and cars of Richard Petty, Dale Earnhardt, Jeff Gordon, Dale Jarrett and dozens of others. Hardbound, 10" x 10", 168 pages, 200 b&w and 100 color ill.

Sport, Spectacle, and NASCAR Nation J. Newman 2011-10-10 *Sport, Spectacle, and NASCAR Nation* critically interrogates stockcar racing's ascendance into the upper-echelon of the North American sporting popular. While most contributions to the public discourse gloss over NASCAR's exclusively white racial identity politics, its underlying patriarchal gender politics, its overtly conservative political commitment, its hyper-Christian orthodoxy, and its omnipresent commercialism, this book connects the dots and critically analyzes the problematic nature of this non-natural, strategically-orchestrated sporting spectacle.

The American Midwest Andrew R. L. Cayton 2006-11-08 This first-ever encyclopedia of the Midwest seeks to embrace this large and diverse area, to give it voice, and help define its distinctive character. Organized by topic, it encourages readers to reflect upon the region as a whole. Each section moves from the general to the specific, covering broad themes in longer introductory essays, filling in the details in the shorter entries that follow. There are portraits of each of the region's twelve states, followed by entries on society and culture, community and social life, economy and technology, and public life. The book offers a wealth of information about the region's surprising ethnic diversity -- a vast array of foods, languages, styles, religions, and customs -- plus well-informed essays on the region's history, culture and values, and conflicts. A site of ideas and innovations, reforms and revivals, and social and physical extremes, the Midwest emerges as a place of great complexity, signal importance, and continual fascination.

Vintage American Road Racing Cars 1950-1969 Harold Pace Mark R. Brinker American road racing began just after World War II and quickly blossomed into a movement. The Sports Car Club of America (SCCA) and the United States Auto Club (USAC), clubs that became fierce rivals in the 1950s and 1960s, were the principal race promoters. Race tracks popped up everywhere, at first on city streets, then at airports and U.S. Air Force bases, and finally at purpose-built circuits like Road America and Laguna Seca. Although most of the cars that competed in American road racing were built in Europe, an underground movement sprang up of "special builders" who constructed their racers in home garages and small-town machine shops. Some were so homely and slow that only the builders could love them. Others trounced every Ferrari in sight and are now on the wish lists of wealthy collectors the world over. Vintage American Road Racing Cars 1950-1970 is the first book devoted exclusively to American road racing cars of all types and sizes. Hundreds of race cars built in America have never before been mentioned in print, and this book chronicles those and other cars with vintage and modern photography, specifications, memorabilia, and the stories and characters behind each car. About the Author Harold Pace's writing and photography has appeared in such magazines as *Automobile Quarterly*, *Class & Sportscar*, *Excellence*, *Sports Car International*, *Vintage Racecar Journal*, and others. He lives in Weatherford, Texas. Mark Brinker is a vintage race car enthusiast who has raced at the Monterey Historics. He is a doctor with three published medical textbooks and 70+ published scientific papers. He hails from Houston, Texas.

Motorsports and American Culture Mark D. Howell 2014-04-10 Soon after the first automobiles were introduced in the United States, auto racing became a reality. Since that time, motorsports have expanded to include drag racing, open wheel racing, rallying, demolition derbies, stock car racing, and more.

Motorsports have grown to such an extent that NASCAR is now the second most watched professional sport in America, behind only football. But motorsports are about much more than going fast and finishing first. These events also reflect our culture, our society, our values, and our history. In *Motorsports and American Culture: From Demolition Derbies to NASCAR*, Mark D. Howell and John D. Miller bring together essays that examine the relevancy of motorsports to American culture and history, from the late nineteenth century to the present. Addressing a wide spectrum of motorsports—such as stock car racing, demolition derbies, land speed record pursuits, and even staged train wrecks—the essays highlight the social and cultural implications of contemporary and historical moments in these sports. Topics covered include gender roles in motorsports, hot rods and the creation of fan and participant identities, the appeal of demolition derbies, the globalization of motorsports, the role of moonshine in stock car history, the economic relationship between NASCAR and its corporate sponsors, and more. Offering the most thorough study of motorsports to date from a diverse pool of disciplines and subjects, *Motorsports and American Culture* will appeal to motorsports and automobile enthusiasts, as well as those interested in American history, popular culture, sports history, and gender studies.

American Auto Racing J.A. Martin 2014-07-15 As soon as there were automobiles, there was racing. The first recorded race, an over road event from Paris to Rouen, France, was organized by the French newspaper *Le Petit Journal* in 1894. Seeing an opportunity for a similar event, Hermann H. Kohlsaat--publisher of the *Chicago Times-Herald*--sponsored what was hailed as the "Race of the Century," a 54-mile race from Chicago's Jackson Park to Evanston, Illinois, and back. Frank Duryea won in a time of 10 hours and 23 minutes, of which 7 hours and 53 minutes were actually spent on the road. Race cars and competition have progressed continuously since that time, and today's 200 mph races bear little resemblance to the event Duryea won. This work traces American auto racing through the 20th century, covering its significant milestones, developments and personalities. Subjects included are: Bill Elliott, dirt track racing, board track racing, Henry Ford, Grand Prix races, Dale Earnhardt, the Vanderbilt Cup, Bill France, Gordon Bennett, the Indianapolis Motor Speedway, the Mercer, the Stutz, Duesenberg, Frank Lockhart, drag racing, the Trans Am, Paul Newman, vintage racing, land speed records, Al Unser, Wilbur Shaw, the Corvette, the Cobra, Richard Petty, NASCAR, Can Am, Mickey Thompson, Roger Penske, Mario Andretti, Jeff Gordon, and Formula One. Through interviews with participants and track records, this text shows where, when and how racing changed. It describes the growth of each different form of auto racing as well as the people and technologies that made it ever faster.
