Mr. Miracle Debbie Macomber 2014-10-07 NEW YORK TIMES BESTSELLER • Includes a new story by Christina Skye Beloved author Debbie Macomber celebrates the most wonderful time of the year in this heartwarming Christmas novel of romance, hope, and the comforts of home—now a Hallmark Channel original movie! Harry Mills is a guardian angel on a mission: help twenty-four-year-old Addie Folsom get her life back on track—and, if the right moment strikes, help her find love. Posing as a teacher at a local college in Tacoma, Washington, Harry is up to the task, but not even he can predict the surprises that lay in store. After trying to make it on her own, Addie has returned home to Tacoma for the holidays, but this time she plans to stay for good, enrolling in the local community college to earn her degree. What she doesn't plan to do is run into Erich Simmons. Addie and her next-door neighbor, Erich, are like night and day. Growing up, he was popular and outgoing while she was rebellious and headstrong, and he never missed an opportunity to tease her. Now she intends to avoid him entirely, yet when they're suddenly forced to spend Christmas together, Addie braces for trouble. Perhaps it's the spirit of the season or the magic of mistletoe, but Addie and Erich soon find they have more in common than they thought—and that two people who seem so wrong for each other may actually be just right. With a little prompting from a certain angelic teacher, the two are in for a holiday miracle they'll never forget. Praise for Mr. Miracle "Macomber's Christmas novels are always something to cherish. Mr. Miracle is a sweet and innocent story that will lift your spirits during the holidays and throughout the year. Celebrating the comforts of home, family traditions, forgiveness and love, this is the perfect, quick Christmas read."—RT Book Reviews "[Macomber] writes about romance, family and friendship with a gentle, humorous

[Mr. Miracle] has enough sweetness, charm, and seasonal sentiment to make Macomber fans happy.”—The Romance Dish

Riverbank Filtration for Water Security in Desert Countries Chittaranjan Ray 2010-12-14 Riverbank filtration is a low cost, yet efficient water treatment technology. It has most potential to provide safe drinking water to large cities located along rivers or lakes. In particular, it is ideal for large population centres in developing countries, where the cost of building extensive treatment facilities is prohibitive. Water filtration can be successfully implemented using naturally occurring sand and gravel along the river/lake banks. The cost of water produced by this means is much lower than that of water treated in conventional treatment plants. Authored by a multi-disciplinary team of experts, this volume addresses the scientific basis of the filtration process, and also numerous topics of importance for the planning, technical realization, and security of such plants. Their application for the removal of relevant chemical pollutants and a variety of pathogens is analysed in detail.
